TRIPLETS BORN LAST WEEK AT ENGLEHART.

During the past few years there has been growth in population in practically every town of the North Land. The towns have grown, too, without jealousy—just a sort of plea-

sant rivalry. But last week Englehart seemed to take undue advantage of its fellow towns. Englehart started something so rare in the North as to be most unusual, as the so-called Provincial Auditor's Report would phrase it. So far as known, anxious as Timmins is to increase its population, nothing like this happened here.

Last week Englehart announced the birth of triplets. The children are two boys and a girl, and as the so-called Provincial Auditor's Report would put it, they are all of the same age. The triplets were born on Tuesday, Oct. 26th, 1926, to Mr. and Mrs. C. D. McGill, Third avenue, Englehart. Dr. F. H. Wilson was the attending physician, and Mrs. Marsh the nurse. Mother and babes were taken later to the Red Cross Hospital where they are doing well.

The Mayor of Englehart was so pleased over the distinction conferred on Englehart that his smile has been broader than normal, if that is possible for Mayor Weeks, who is famed for his genial smile. He presented each of the three children with a silver christening cup.

Officer S. Craik is off duty this week with an attack of tonsillitis. All wish him early and complete recovery.

SIX WEEKS FROM NOW THE PICTURES WILL BE BETTER

On Saturday last The Toronto Star published pictures of five of the contestants entered in the famous "Whiskerino Contest" at Timmins in connection with the Charity Turkey Stag. The five whose pictures were published by The Star were:—Messrs Wm. Lacroix, P. H. O'Gorman, Peter Godin, Wm. Laurence and W. D. McIntyre. The pictures were taken a few days after the contestants had entered the competition. The Star representative took snapshots of the men at their homes. Four of them have signs of the whiskers to come, while the fifth, Mr. O'Gorman had a beard under way although it was only three or four days before that he was smooth of chin straight from the barber's hands. Mr. O'Gorman is an expert at the game of whisker-growing. In the far West one time he won a prize for a prize whisker, so he may be considered as almost a professional. However, the other good sports in the contest need not fear being professionalized, as special arrangements have been made with the Dominion Whisker Club that on account of the contest being for the advantage of Charity, all contestants will be allowed to retain full amateur standing. Speaking about amateurs, it may be said that for an amateur, Mr. J. M. Belanger has them all going. He has a beard already that would do justice to any Russian prince. The now-famous Belanger beard is black—black as the ace of spades. Mr. David Maxwell is proving that black is not the only colour of beard that will grow at rapid rate. His is growing rapidly, and he says that it is the last ten inches that counts in the matter of prize beards. It is understood that one contestant left for the bush on a prospecting trip the day after he entered. He will be back a couple of days before the Charity Turkey Stag and if he hasn't the longest beard since biblical times he offers to eat his own whiskers at the Stag Party.

All contracts for work on town sewers and waterworks extensions for this season have been completed.

RED LAKE THIS WINTER DIFFERENT TO LAST YEAR

Practically All the Prospectors Are Moving Out. Believed There May be Extensive Work Again in the Spring

Prospectors and others coming down from the Red Lake Camp are chiefly impressed with the big difference between the rush in last winter and the rush out this season. A correspondent of The North Bay Nugget writing last week from Hudson says:—

"The trail to Red Lake promises little excitement this winter in comparison with the hectic rush of snow stakers that was in progress this time last year. According to the estimates of recent arrivals from the Red Lake camp not more than 20 or 25 men will spend the winter on their properties at Red Lake. Owing principally to the recent interest that has been shown in the more important Narrow Lake properties, with the possibility of some staking being done as well as some deals consummated, the Mining Recorder's office at Pine Ridge will remain open all winter. A few of the business firms, including the Imperial Bank, have withdrawn from Pine Ridge and Hudson for the period of the winter, with the intention of returning should conditions improved next spring. Besides the Hudson's Bay Company, at least two other stores will remain over the winter at Pine Ridge and one will remain open at Red Lake. There is a strong and persistent belief among all classes that large scale operations will be resumed, if not this winter, some time next spring on the Howey property and in the event of this happening the whole camp would boom.

"In the meantime however, owing to the fact that most of the big mining companies which were working in the immediate vicinity of the Howey met with disappointing results there is no sign of renewed activity for the present. Both the Howey and McIntyre properties are under the care of W. H. Brown, who in addition to his duties as caretaker of these properties, holds the positions of postmaster, store keeper and justice of the peace. Somewhat peculiarly the properties on which the best results have been discovered to date have been somewhat removed from the immediate vicinity of the Howey, with the exception of the Stadelman group on which a couple of very good looking veins were uncovered by work done last summer, the Centre

Red Lake Gold Syndicate property where an extensive campaign is being planned at the present time and the McManus property to the east, where St. Paul and associates have uncovered a number of narrow stringers carrying spectacular showings of free gold.

"At this stage, however, outside of the Howey the outstanding prospect in the Red Lake section appears to be the McKenzie-Smith-Muskelo-Wilson group between East Bay and Red Lake. The original discovery made in June by Bill Smith was on a three year old staking and consisted of a 46 ft. vein, assaying from \$4 to \$7 in gold and from 4 to 70 ounces in silver. A later discovery, which brought greater attention to the property, was made in August by George Wilson on claim KRL 1022 and this showing is among the most promising of the camp. Stripping operations have been carried on over a length of 200 feet and at places the mineralized belt is 84 feet wide and spotty with gold. The belt consists of carbonates with interlacing quartz stringers, both quartz and the carbonates carrying heavily. Examinations of the property have been made within the last month or six weeks by representatives of the Consolidated Smelters and offers were refused from Guggenheimers and also from the Huronian Belt. About the only other property in the immediate vicinity of this camp is the claims staked by Boyle and Rutherford for South Porcupine interests. Several parallel carbonate veins have been uncovered on this but sufficient work has not been done to provide a proper estimate of values.

"It is probable that among the few properties on which an appreciable expenditure will be made this winter will be the Dunlop Gold Mines on which, according to Major Dunlop, a programme of diamond drilling will be started. At the present time Major Dunlop and a staff of four men are engaged in continuing exploration work on this property.

"The last few months have seen transportation arrangements between Hudson and the Red Lake areas simplified considerably. In comparison to the high rates which existed during the early days of the rush prospectors and others are now travelling over the same route for \$15 each way."

MR. G. W. ECCLESTONE AGAIN CANDIDATE FOR MUSKOKA

At the Liberal-Conservative convention held at Bracebridge on Friday last, Mr. G. W. Ecclestone was chosen as the candidate for the coming Provincial election campaign in Muskoka. Three names were placed in nomination, but all retired in favour of Mr. Ecclestone who for several terms has worthily represented the riding in the Provincial House. The convention had a large attendance from all parts of the riding of Muskoka, and there was great enthusiasm for the candidate. Further evidence of the strong hold Mr. Ecclestone has upon the respect and regard of the constituency is given by the fact that there is a general report from the riding to the effect that it is likely that there will not be any Liberal candidate to run against Mr. Ecclestone. He carried the riding last election by a large majority, and is looked upon as about impossible to beat. Mr. Ecclestone is a member of the Marshall-Ecclestone Co., of Timmins, and is well known and highly regarded in this part of the North Land.

The annual meeting of the N.O.H.A. is to be held on Saturday, Nov. 13th.
