NIGHT HAWK PENINSULAR MINE MAY BE RE-OPENED

Philadelphia Capital Now Said to be Interested in Development of Promising Property

There are reports current to the effect that the Night Hawk Peninsular Mine at Connaught may be re-opened before long. It is said that negotiations for the financing are now well under way. A great many in the Porcupine district will feel that this is as it should be, having the greatest faith in the Night Hawk property. There are others, of course, who are ready to accept affairs as they apparently turn out, without considering facts like the importance of finance to successful mining. Just because Night Hawk closed down it must be a failure according to a certain class of people. The old-timers and many others, however, feel that so far Night Hawk has not had a real chance. A break in the financing of nearly any property will put it on the hummer. It is becoming more important every day that it takes a lot of money to finance a mine to success, and often a little ill-luck will stop progress for a time. Eventually, however, the property that is of real value will come into its own. Now, the ones who have faith in the Night Hawk trust that its chance is coming.

The name of Col. Stevenson, of Philadelphia is mentioned as a prominent financier now interested in the Night Hawk and its re-financing. The Mail & Empire says that the name of Col Stevenson is mentioned unofficially, but in such a manner as to indicate that considerable progress has been made toward arrangements for another effort on Night Hawk.

In further reference to the matter The Mail & Empire says:—"It is known that the development of Night Hawk presents highly-interesting possibilities and that with sufficient amount of capital, the enterprise might be carried through to important success. Heretofore, the ore bodies were found to be more or less erratic. This is believed by some observers to have been due to the absence of porphyry formation close to the deposits so far worked. However, it is noted that porphyry is in evidence to the immediate west, in the direction of Gold Island. Night Hawk controls the land beneath the bed of Night Hawk Lake in that section lying between the present workings and Gold Island. Therefore, a resumption of work is believed likely to involve a campaign of work toward the west.

The property is equipped with a first-class mining plant, as well as a mill of upwards of 100 tons daily capacity. A big acreage is held, and with the initial development already done, it is believed that the property presents an important opportunity."

"Be reasonably sure before you become unreasonably positive."

IDEAL SILVER CREAM

Speedy Brighter Lasting

Apply the cream, rinse with hot water and dry—that's all. Especially good for chased silverware. Contains no acids or harmful ingredients.

LOTS OF WRITS FOLLOW SQUABBLE IN BEAVER

J. B. Tyrrell, whose name has figured prominently in the Beaver-Kirkland Lake squabble, has issued a writ against Messrs Culver, Alderson, Graham, and McCausland claiming libel by the defendants in connection with literature issued by the so-called Beaver Shareholders Protective Committee urging the historic fight for control of Beaver.

MR. NAP CARON A WINNER AT ROYAL WINTER FAIR

Mr. Nap Caron has always believed that he has particularly fine specimens of poultry in his Chantiers, and last year he received special support in this belief from the expert judge at the Porcupine Poultry and Pet Stock Show who took the trouble to comment very favourably on the Chantiers shown here. This year Mr. Caron has still more important backing for his pride in his prize birds, for he won first and third prize money and ribbons at the Royal Winter Fair at Guelph last month. There was lots of competition in the Chantiers class, there being fourteen good entries from various parts of the country. The birds from the North, however, proved themselves classy enough for the best company and won much favourable notice.

RADIO SUCCESSFULLY USED 1600 FEET UNDERGROUND

Accordingly to a despatch from Nevada, a successful experiment has been made in radio reception underground. A radio receiving set was taken to the 1,600-foot level recently at the Goldfields Deep Mine and music was clearly heard without static or interference, in spite of the operation of the mine pumps or the fact that two heavy electric cables carrying 2,200 volts are stationed in the shaft. Broadcasting from Denver, Los Angeles, San Francisco and Seattle were heard clearly. A previous experiment at the Hecla mine in the Coeur d'Alene district when the receiving set was taken down to a depth of 4,000 feet underground was not so successful.

These experiments have been followed with much interest by mining men who are now figuring on the practical possibilities of radio underground. Some of the mining men believe that the radio may prove of service in the case of mine accidents. They are thinking over the details of plans in this connection, and any work along this line will be followed with the keenest attention. To establish that sort of communication with all parts of a mine, and with the upper world, and all without the use of wires or pipes would be generally considered as most desirable. Any further experiments will be watched with the keenest interest.

CONCERT BY SCHUMACHER CHORAL SOCIETY, DEC. 14

The Schumacher Choral Society will give a musical event in the Maple Leaf theatre, Schumacher, on Tuesday evening, Dec. 14th, and none who enjoy good music should miss this evening. The successes of the Choral Society in the past is full assurance that the event on Dec. 14th in the Maple Leaf theatre will be a specially attractive one. The programme will include solos, duets, quartettes, choruses, instrumental music, Irish, Scottish and Dutch dances and other specialties.

MEMBER AND CANDIDATE IN ACCIDENT LAST WEEK

The New Liskeard Speaker last week says:—"Temiskaming's member in the House of Commons, Mr. Mac Lang, together with Mr. R. McGowan, the Labour candidate and their chauffeur, Mr. L. Bertrand, had a narrow escape from a fatal accident on Thursday night of last week, when their auto collided with the paper train at the New Liskeard station about one o'clock. It appears that Messrs Lang and McGowan were out in the West section attending a political meeting, and when approaching the New Liskeard station the driver was confronted by the paper train which was standing on the tracks. From the information given The Speaker, we understand that two high box cars were separated by a low coal car, and the driver of the auto thought the train had been cut with a box car on each side of the road, with the result that he crashed into the coal car. The auto, which was a splendid standard 1926 Dodge Sedan, was badly crushed, the whole front being driven back for a considerable distance, with the steering wheel and wind shield smashed to pieces. Fortunately none of the occupants of the car were seriously injured."

Father and Son Fight Side by Side

Roy is a handsome lad of fifteen, who is very proud of a new set of headphones some friend sent to him. Now he can hear as far as Boston on his radio. The wires come right in by his cot, where he rests most of the time. You see, Roy is in the Muskoka Hospital for Consumptives and is by no means as well as he looks, although he says he is getting along fine. He can visit his Dad, too, which is another source of comfort to him. Dad is in the same institution, also making the never ceasing struggle against the fell disease. So often "B" grips more than one in a family. Both are really making good progress, however—the complete rest, the discipline and the care of kindly nurses and doctors are having their usual good effect in this efficient institution. The Muskoka Hospital is urgently in need of funds. What can you spare to help? Contributions may be sent to Hon. W. A. Charlton, President, 225 College Street, Toronto 2, Ontario.

TO SURVEY SOUTH AND EAST OF SHAW INTO FARM LOTS

Township to be opened for Settlement. Has Some Good Roads Now

Mr. Arch. Gillies, O.L.S., has received instructions from the Ontario Government, it is understood, to survey the southern and eastern parts of Shaw township into farm lots. After the survey is completed the areas will be opened for settlement. There is good farming land in the district referred to and for some time past there has been an agitation to have these parts of Shaw township opened for settlement. The Government has been urged on several occasions to give the necessary authority so that settlement of these parts of Shaw may be taken up. The Government is accordingly making the survey so that the settlement may be possible in the best way.

It is interesting to note that Shaw township is fairly well served with roads at the present time. There is a good road right through from South Porcupine to Triplex Mine. The Power Company also has roads in the township and these will be of material assistance in allowing settlers access to and from their farms. Of course, as settlement develops, more roads will be required, but for the start Shaw township is in better position than most townships in this North when first opened up for settlement.

SHOOTS WOLF AS IT WAS SWIMMING AFTER A DEER

What will be to many a new sidelight on the capabilities of the wolf is indicated in a paragraph in The Sudbury Star last week. The Star says:—

"That a wolf will take to the water in the pursuit of its quarry is vouched for in the unique capture of a timber wolf by Lorne Hale, of Thor Lake, who shot and killed one in Burwash Lake while swimming after a deer. The successful hunter, who is a lumberman at Thor Lake, was paddling in Burwash Lake when he caught sight of the wolf in hot pursuit of a deer in the water. Taking aim he fired and wounded it. Not having another cartridge, Hale followed the wounded animal in his canoe and manoeuvred it in the direction of the camp further up the lake. When nearing the camp, he shouted to his companions who brought out some cartridges and enabled him to kill it. The pelt is an exceptionally large one."

"Have you Shakespeare's works?" the customer asked. "No, sir," replied the bright junior clerk, "but we have Shakespeare's plays."—The Cobalt Democrat.

PERTINENT PERSONALITIES PER POPULAR PARODY

The Cobalt democrat last week published the following election parody as being the work of a member of The Northern News staff, though not by the Great Democrat itself. The second chorus is particularly clever.

How do you do, Mister Kennedy, How do you do
How do you do, Brother Kennedy, How do you do
You're the man that we've selected, Bob McGowan we've rejected,
How do you do Liskeard Kennedy, How do you do
How do you do, How are You, How do you doodle, doodle, doodle, doodle do
Mr. Raney we've ejected,
And the North we have protected,
And we guess we're not dejected—
How do you do
How do you do Mister Ferguson, How do you do
How do you do Friend Howard, How are you
You can have the Old Dome Mine Now we've got our beer and wine
How do you do Dear Fergy, how do you do
How do you do, How are You? How do you doodle, doodle, doodle, doodle do?
To the druggist we'll not toady By the grace of Canon Cody
We can have our Scotch and soddy
How do you do
How do you do, Mister Raney, How do you do
How do you do, Whiskers Raney, How do you do
Though you were the Dry's "White Hope"
We refused to take your dope
How do you do Gloomy Raney, how do you do
How do you do? How are you? How do you doodle, doodle, doodle, doodle do
Grits and Progs proved a poor bet
Their water wagon we've upset
And tonight they are all wet
How do you do

WHAT DO THE BAGPIPES SAY? WIN \$1500.00 IN CASH PRIZES

Read the Message of the Bagpipes—WIN A BIG CASH PRIZE

Down the street, in gay array, march the Campbell Highlanders, led by the famous Campbell Band, whose pipes are playing one of the best known Scotch airs. Can you read the words of their message? Start at the top left, and this is what you see: "HET BELLCAMPS RAE COGMIN OT REFFO YUO SLAVUE". The letters in each word are a little mixed, but the words in the sentence are correctly placed. Rearrange the letters in each word, put each one into its right place, and you will see that the bagpipes' message is a message from the famous Campbell Hosiery Mills. For instance, the second word, BELLCAMPS, when the letters are correctly placed, will read CAMPBELLS. Can you solve the puzzle of the other words? Take your pencil and try it NOW. This advertisement may never appear again. Act now! \$1,500 in cash money prizes will be awarded to the winners of this fascinating puzzle contest.

How the Prizes Will Be Awarded

The highest possible total any competitor can secure is 500 points. For each of the 37 letters you place correctly you will receive 10 points—a total of 370 points. 50 points will be given for general neatness and appearance. 80 points will be awarded for fulfilling the terms of the contest.

The persons securing the total of 500 points, or nearest thereto, will receive the first prize—\$1,000 cash. The other cash prizes will be awarded—in order—to those obtaining the next highest totals.

Don't Delay—Send Your Answer Today

Why These Splendid Cash Prizes Are Being Given

It is the custom of large concerns to spend big sums of money in advertising their goods. Instead—to spread the fame of Campbell Hosiery Mills, our high-quality products and our money-saving methods—we sell direct from the mills to our customers, and offer these huge cash prizes. If you want to win \$1,000 spend a little time to solve the Bagpipes' message. You are not required to sell anything in order to win any of the prizes offered.

Read These Simple Rules

1. Give the name and date of this newspaper.
2. Send in your answer on one side of one sheet of paper only. Write your name and full address plainly in pen and ink in the upper right hand corner. State whether Mr., Mrs. or Miss.
3. Employees and their relatives, or persons connected in any way with the Campbell Hosiery Mills, are barred from the contest.
4. Only One Answer may be submitted by a person.
5. Answers will be judged and prizes awarded by a committee of prominent business and professional men, not connected with the Campbell Hosiery Mills. The names of these gentlemen will be announced to all who enter the competition before the closing date, June 30, 1927. Their verdict will be final.
6. All answers to this puzzle shall become the property of the Campbell Hosiery Mills.
7. As soon as we have received your answer you will be advised of the number of points gained, and asked to fulfill a simple condition.

CAUTION—Remember, Neatness and General Appearance will be the chief considerations in awarding the last 50 points.

Read Rule No. 2 carefully before writing your answer. Don't delay—Send in your answer today.
