HUMANE SOCIETY TO GIVE BIG MUSICAL COMEDY HERE

"Bimbo," with Attractive Songs, Dances, etc., and Beautiful Scenic Effects to be Presented Here January 26th and 27th.

Rehearsals for the Humane Society production of "Bimbo" will start shortly. It is said that this will be the biggest home talent show ever staged in Timmins.

There is a lot of pep, many humorous situations and a touch of pathos in the story that runs through this medley of songs, dances and beautiful scenic effects. The scenery and costumes are all imported and Timmins theatre goers are promised a finished production that will please the most fastidious. Among the choruses are the "Tourists Chorus," "Patter" and "In Romance Land," which are very fine, while "My Lady's Dress," "Here come the Governor" and "Jingle Melody" each have special charm and novelty.

Rehearsals will be held in the Central Public School and the play is to be given on January 26th and 27th at the Goldfields Theatre.

"Just one more glass, boys, and then we'll all go home," said the dishwasher as he laid down the soap.—Ski-U-Mah.

NEGOTIATIONS NEARING COMPLETION FOR HOWEY

Units Expected to Increase in Price on Closure of Deal Now Under Way.

According to Mr. Lorne B. Howey, of Haileybury, original discoverer of the now famous Red Lake property bearing his name, it is only a matter of time until a deal will be completed which will be satisfactory to all the unit holders in the Howey Gold Mines. At least this is the information that is sent out in a despatch last week from Haileybury. Mr. Howey has spent considerable time in Toronto recently in connection with the deal for this property, but declined to make any comment on pending negotiations except to admit that they were about through. He, however, asked the Globe to advise unit holders to hang on to their stock now. In view of the information to which he has access, Mr. Howey expects the units to show a considerable appreciation in value once the deal is completed.

The reports which have been in circulation to the effect that the ore on the Howey would yield \$8.00 a ton are correct, according to Mr. Howey, but he points out that this is a conservative figure, as the high-grade sections have not been taken into consideration. All the high-grade sections have been cut down to arrive at a fair estimate of the value of the ore in sight and he states that it could be worked by selective mining.

The main ore body on the Howey has been traced for a distance of 1,000 feet, and its average width is from 12 to 14 feet, with some sections as wide as 60 feet. It is stated that outside of this zone there are several other known veins that have not been explored. It is generally conceded that the Howey is a mine in the making.

According to Mr. Howey the diamond drill campaign carried out by Dome Mines indicated about \$6,000,000 worth of ore down to a depth of 500 feet and in a length of about 971 feet of cross-trenching on the surface. This estimate was predicted on the bore hole plans and assay sheets. The deepest hole on the property indicated nearly 20 feet of \$19 ore. Drill holes were put down at intervals of 50 feet for the above length, and cores were mostly drawn from a depth of 300 to 520 feet.

"I wish," complained the preacher, "that I could make my flock take more of an interest in heaven. None of them seem to want to go."
"Tell them that children under sixteen are not admitted," suggested Capt. Copeland.

ONE REASON WHY CANADIAN RECORD IS SO FAVOURABLE

In an editorial article last week The North Bay Nugget says:— "This week North Bay had an illustration of one of the principal reasons why the Canadian crime record compares so favourably with other in the world. On Monday any young man walked into a night business here, flourished a revolver and attempted to rob the cashier. On Tuesday night of the same week he had been found guilty same charge against him, had 90% of the sentence to a five year term awaiting removal to Kingston and was tending. Quick, stern justice of the greatest of criminals is one and just so long as deterrents treated in the way criminals are serve, just so long will crimes decrease. Law abiding Canada be a once maudlin sentimentary. But lowered to make national bats are almen and bandits, and foes of gun criminal lawyers are offence clever by which they are enabled loopholes the wheels of justice. Go to slow up courts will lose their Canadian law The difference between effectiveness. law of Canada and the courts of is one of the main reasons States favourable crime records for the people of Canada enjoy which the

POLICE GET NICE CARGO OF CHRISTMAS CHEER

The Northern News last week says: "Pleading guilty to a B.O.T.A. charge when he appeared in police court at Haileybury on Monday, J. P. Vachon, of that town, was fined \$50 and costs by Magistrate Atkinson. The case was the aftermath of a seizure of liquor made by provincial police officers on Friday evening. Two men, with a cargo said to consist of fifty bottles of sundry spirits were returning across the lake from the Quebec side when the officers intercepted them. Vachon assumed responsibility. The liquor was confiscated. Reports about Haileybury indicate a number of citizens had co-operated to secure a supply of cheer for the holiday."

OIL LAMP CAME CLOSE TO CAUSING SERIOUS FIRE

An oil lamp came close to being the cause of a serious fire at Cobalt on Christmas morning, according to The Northern News. The news refers to the incident as follows:—"What might have developed into a serious blaze was nipped in time on Christmas morning, when smoke was noticed coming out of the lower floor of the Wallace Block, Cobalt. Investigation showed that someone had entered the small storeroom next to the furnace room, apparently had lit an oil lamp and had gone out again, leaving the lamp burning. In due time, the heat ignited the wooden box which the lamp had been set on. The building's furnaceman, entering in an alarm about a o'clock, turned some trouble, extinguished the fire, which had worked into a partition. It is believed that some intruder, quite unauthorized, had entered the place, which was not locked. On instructions from the fire chief, locks have since been installed."

MANY NORTH LAND TOWNS ASKING LIQUOR STORES

Many of the towns of the North Land are making overtures to secure a Government liquor store when the new act comes into force. Kirkland Lake, Cobalt, Cochrane, Kapuskasing, Hearst are some of the places mentioned in the newspapers as taking steps to get a liquor dispensary. At the last meeting of the Iroquois Falls town council the members went on record by resolution, passed unanimously, in favour of the establishment of a government liquor store within the town limits.

It is understood that the Government has decided to have a dispensary in Timmins, as one of the largest centres in the North. So far as The Advance can learn, there is no opposition to the locating of a Government dispensary at Timmins, and this will likely be one of the places selected as a centre.

Suspicion is poison.

How About Your Floor?

During the quiet winter months is the time to have your floors refinished, Why worry about this task when you can rent our Universal Electric Floor Surfacing machine. This machine will smooth a new floor and remove paint or varnish on old floors leaving them in readiness for the application of filler or varnish. Rental per day \$10.00. Per half day \$6.00. Plus sand-paper at 70c per pound. In cases where you wish us to do the work we have a competent man to do the surfacing for new floors up to 150 square feet \$6.00, over 150 square feet 5c per foot. Old floors 8c per square foot. Quotations submitted on inquiry for large surface.

HOW TO FINISH NEW FLOORS

For a Natural finish we recommend No. 10 Johnsons Natural Paste Filler on bare wood. This Filler is not necessary on close grain woods, but fills the pores and tones the wood to an even shade. Finish with two coats of Johnson's Paste or Liquid Wax. If you prefer not to use filler, simply give the floor two coats of Marbleite Floor Varnish. Never use fillers or shellac under floor varnish.

For coloured effects use Johnson's Wood Dye, shade desired, then applying two coats Johnson's Wax or else two coats Marbleite Floor Varnish.
