Meetings every second and fourth Friday in the month in the Hollinger Hall.

W. SHEWAN, President  
L. McCLURE, Secretary.

## Many Matters of Importance Before Town Council Monday

**Mr. C. R. Murdock Appointed Town Engineer. Petition Asking for Opening of Cedar Street Laid Over as it Would Mean Loss of Ball Grounds. Condition of Road to Cemetery Discussed. Other Town Matters Discussed**

The regular meeting of the town council was held on Monday afternoon with Mayor E. L. Longmore presiding and Councillors F. Francis, A. G. Carson, W. H. Pritchard, Dr. Joyal and G. S. Drew present.

A petition was received asking for a sewer service on Pine street between Fifth and Sixth avenues. This was referred to the public works committee.

The resignation of Constable Chas. Pearce was received, the letter of resignation stating that he would keep in touch with the town so as to be readily available for a case at Cochrane next month in which he was one of the town's witnesses.

A letter was read from Mr. H. W. Darling relative to damage done by water from a broken water main flooding his cellar. He explained that he was not asking for damages, but did think that the town should pay the cost of repairs that had been entailed through the damage done by the water. The matter was referred to committee.

A lad who has lost both his legs and who travels to High School by dog team asked the council to remit the taxes on his dogs as they were so necessary for him and the cost was a matter of importance in the case. The council passed a resolution instructing the Chief of Police to issue the license tags for these dogs without charge.

A petition from a number of ratepayers asked for the opening up of Cedar street through the ball park. The petition claimed that the keeping of the roadway closed as at present was a detriment to the properties and to business. The petition also suggested that other places could be secured for football and baseball purposes, though not specifying these other places available. Mayor Longmore explained that there was an idea held by some that there had been a promise or understanding that if the present ball grounds were taken away, the Hollinger would provide another suitable athletic field. This was not the fact, he pointed out. What Mr. Brigham has said was that if the Hollinger found it necessary to use the present ball grounds, the mine would provide other suitable grounds by running a roadway through them. If the town closed the grounds it would, of course be up to the town to provide its own athletic grounds. Fire Chief Borland, president of the Grounds Committee confirmed this by explaining the Hollinger's understanding with the committee. The Hollinger was allowing the use of the present grounds for athletic purposes and would not take them away without providing other grounds first for athletic purposes, but if the town spoiled the grounds, it would only be reasonable to expect the town to provide the necessary accommodation for athletics.

Councillor Carson said that it looked to him as if the opening of the street would mean the loss of the athletic park for the town, and he did not think this would be good business for the town. He thought the matter might well be left alone for the present.

The petition was allowed to lie on the table for the time being.

A letter was received from Mr. Patrick Shay to say that he had fallen on Pine street and broken his ankle on Feb. 26th. He had been put to much cost and loss and had been laid up as a consequence of the accident. He thought that as the accident had been due to the condition of the town streets for which the town should be held responsible that something should be done for him in the case.

Messrs T. F. King, E. Stevens and

J. Rochon appeared before the council asking for a reduction in the billiard and poolroom licenses which had become burdensome. Mr. King pointed out that the poolroom owners paid big taxes to the town in the ordinary way, and also paid to the Government for licenses. Many towns recognizing the situation were now putting on only a nominal license fee, and he thought this plan might well be adopted here. The poolrooms and billiard parlours were conducted here on the best standards and as high-class entertainment places. The present charges by the town for licenses were: \$10 for each alley; and \$10 for the first pool table, and \$5 for each subsequent table. The council promised to take the matter up and give it every consideration before the next meeting of the council.

Mayor Longmore explained that it had not been possible to get the committees together to consider and report on the petitions for proposed annexations to the town in time for the present meeting but that this matter would be dealt with before the next meeting. It was decided to hold a special meeting on Monday, March 21st, to deal with this and some other matters. The meeting will be at 10 a.m.

The necessary instructions were given for the drafting by the solicitor of the necessary changes in the by-law to fulfil the recommendations of the waterworks committee relative to the installation of meters at the schools, in restaurants and hotels, etc. Also to deal with the cases where there is only one water connection to houses where there are two or more separate tenants. Hereafter the owner of the house is to be responsible for the water rates in such cases for the whole house which is to be rated as if it were not divided. While this may mean a slightly lower return for the town, it will no doubt prove more generally satisfactory. The landlord can arrange the matter with the tenants in the rent or otherwise.

A by-law was passed to place a lien of income taxes in a special suspense account. For the moment these taxes are not collectable, but some of them may be collected later. Another by-law provided for the wiping off the books of a list of income tax accounts not collectable. Both these by-laws were in response to the suggestion of the auditors to assist in simplifying the book-keeping.

Several refunds and remissions of taxes were authorized to remedy overcharges or other errors. Some necessary rebates of water rates were also authorized for sufficient reasons. There were adjustment of taxes in connection with wrong assessments and other matters, including parties assessed wrongly for separate or public school purposes or as householder or non-householder when the case was otherwise.

On motion Mr. C. R. Murdock was engaged as town engineer at a salary of \$250.00 per month, with the privilege of doing work for other municipalities, so long as it did not interfere with his work for the town. The mayor explained that the town has much work now for a town engineer to look after, and that the services of Mr. Murdock will consequently be found to be both necessary and economical in the circumstances.

Councillor W. H. Pritchard called the attention of council to the condition of the road to the cemetery. At least one funeral that he knew of had been held up on account of it being impossible for loaded rigs to turn out to allow the funeral procession to pass. He suggested that two or three places be made on the road so that it

Conservative member for Victoria in B. C. Legislature, whose charges of corruption against the Oliver Government in connection with liquor control has created a sensation in the Province.

## BOXING BOUT POSTPONED UNTIL SOME LATER DATE

On Account of Similar Events, Mr. Jardine Decides to Postpone March 23rd Feature.

Mr. J. Jardine announces this week that the big boxing display that was to have been held on March 23rd has been postponed to a later date. A couple of similar events have been held in the past couple of weeks in the Hollinger Recreation hall, and Mr. Jardine thinks it would not be in the interests of boxing to run too many of these features within a short time. "I don't want to see it overdone," said Mr. Jardine this week in announcing the postponement of the event. It is the intention to have the feature in the course of the next month or so. Further announcement will be made in The Advance as to the date and particulars of the boxing display. In view of the fact that every event directed by "Tex" Jardine has always proved to be attractive and successful, there will be much interest held by all in the coming event and announcement of the date will be awaited with keen anticipation.

## MEETING MONDAY NIGHT OF POULTRY ASSOCIATION

A meeting of the Porcupine Poultry and Pet Stock Association is called for Monday evening, March 21st, in the town hall, Timmins, at 8 p.m. All members are specially asked to attend this meeting as several important matters will be up for discussion.

## ST. MATTHEW'S SOCIAL CLUB MEETING TUESDAY

A business meeting of the St. Matthew's Social Club was held on Tuesday evening in the church hall, with a very good attendance present. It was decided to hold the meetings of the club every second Tuesday from now on, instead of the first and third Tuesdays. After the meeting, the club was treated to a lantern lecture on "Abbeys of Ancient Britain," the very interesting and informative lecture being by Rev. R. S. Cushing. After the lecture community singing was held, with sacred songs, after which a very enjoyable lunch was served by the refreshment committee composed of Mrs. Cretney, Miss Craik, Miss E. Ellies, Mr. Grove and Mr. Harrison. A good programme has been arranged for the next meeting, which will be held on March 29th. Every member should attend.

would be possible to turn out so that the road might be open for the passing of funerals. The mayor said that while the road was Tisdale township, he would be in favour of the town spending a reasonable amount to see that it was kept open for the passing of funerals. Assistant Town Engineer MacLean said that two or three times this year places had been shovelled out by the town for turning out spots to allow the free passage of funeral processions. He was asked to see if anything could be done at the present time to assist in making the road more available for the uses for which it was chiefly used.

Reference was made to the fact that the safe in the police office was the property of the public school board. The police department needed the safe, and it would be more economical to get another safe for the public school board use than to pay removal charges, especially as the public school board would be quite content with a smaller safe. Accordingly an effort is to be made to secure a small second-hand safe for the public school in place of the one owned by the board now and used for some time by the police department. The clerk was asked to secure prices and particulars as to any such safes that might be available in town or elsewhere.

## STYLE

that others admire is found in our Spring ready to wear apparel for women of the discriminating type. Faithful copies of Paris gowns and frocks; coats and suits that reflect the careful thought of skilled designers, and all at very moderate prices.

A TIP FOR THOSE who like to be just a step ahead in style. It is well to know Mr. J. E. Stewart having returned from the fashion centres with the last word in Dresses, Suits, Cloaks, etc. Come in and look them over Saturday.
