Carnation Quality is Protected at the Source

It looks creamy
It tastes creamy
It is creamy

NO process in the world can make good milk out of milk which is poor to start with.

So Carnation's milk supply is protected at the source—the farms. Carnation quality begins with the cow.

The Carnation Milk Farms are operated solely to improve the Holstein breed and enable dairy farms to produce more better milk.

The Carnation Field Force spends its entire time selecting the farms from which we obtain milk and inspecting them regularly.

These great investments of time and money aim only at one result—to keep Carnation the world's first choice in evaporated milk—double-rich, full-cream flavored, pure.

Order Carnation Milk from your grocer—several tins or a case of 48 tins.

PROVISIONS OF BILL FOR GOVERNMENT CONTROL

Rules and Regulations Laid Down by Government for Enforcement of the New Measure of Temperance Legislation.

The Government Control Bill, as presented to the Legislature last week is an enactment of 144 clauses, replacing and superceding all other Provincial legislation. It has many interesting provisions, including the following:

The Control Commission is supreme and its actions are not subject to review by the Government. It can refuse permits to any individual, even without explanation. It controls the brands and prices of liquor to be sold, the hours of sale, and it may regulate, if it sees fit, the amount of liquor to be sold at any one time.

Physicians are restricted to six-ounce prescriptions. Druggists can only use liquor as a solvent or a preservative. Sale of essences, potent medicines and tinctures is rigidly restricted.

Permits are granted irrespective of nationality to persons over 21 who have been resident in the Province for over one month. They may be revoked for abuse or law violation. Persons keeping or frequenting disorderly houses lose permits for one year. Tourists secure permits good for one month.

Individual permit to resident of Ontario, expiring thirty-first of each October.

Individual permit to temporary resident, good for one month.

Special permit to physicians, dentists, etc.

Special permit for ministers of the gospel for sacramental purposes.

Druggists not permitted to dispense liquor.

Breweries and distilleries can sell in the Province to the board only under a permit from the board.

No liquor may be consumed in a public place.

Liquor consumed must be consumed in residence or temporary home of purchaser.

Establishment of stores left to board, provided local-option areas or Canada Temperance Act areas are not affected.

Prosecutions to be conducted by the Attorney-General.

Any person found selling liquor to be imprisoned on the first offense.

A board official in every brewery warehouse.

One appeal allowed to a County Judge.

Board supreme in its powers, and cannot be interfered with by courts or Government.

No public advertising of liquor.

For William, Ontario—The second paper machine has been installed by the Provincial Paper Mills at Port Arthur, and is now in operation. This increases the daily output of book-print from 35 tons to 100 tons.

We Wouldn't Go That Far!

We wouldn't say that Wrigley's has a place at the wedding ceremony, but in times of stress or when you have a trying ordeal to face—use Wrigley's new DOUBLE MINT—it's real Peppermint.

After Every Meal

MINING CONGRESS TO BE DIVIDED IN TWO CIRCUITS

Itinerary Includes Visit to Timmins and the Porcupine in August This Year

A bulletin issued by the Canadian Mining and Metallurgical Institute gives details in respect to the programme for the British Empire Mining and Metallurgical Congress to be held in Canada this year, reference to which has been made on several past occasions in The Advance. The congress is a most important one, the delegates coming from all sections of the world-wide Empire and the men to attend the Congress including the outstanding figures in the mining world.

It is said that over 1000 mining engineers will attend this congress which will open in Montreal on Aug. 22nd. The chief purpose of the congress is stated to be "a thorough inspection of the mineral resources and mining systems of Canada." To this end the congress will have separate tours, and the delegates may choose which one they will take.

The first group, or tour, will leave Montreal on August 23rd, and travel through Ottawa, Toronto, Niagara Falls, Port Colborne, Hamilton, Sudbury, North Bay, South Lorrain, Cobalt, Haileybury, Kirkland Lake, Timmins and Cochrane. From there it will turn west, stopping at Minaki, Winnipeg, Estevan, Banff, Calgary, Fernie, Kimberley, Kootenay Landing, Nelson, Tadanac (or Trail), Princeton, Vancouver, Britannia and Victoria. It will return east on September 16th, via Vancouver, Jasper Park, Stereo, Cadomin, Edmonton, Wainwright, Saskatoon, Winnipeg, Fort William and Port Arthur, Cochrane, Taschereau, Rouyn, Quebec, Thetford Mines, Sherbrooke, Minto, Moncton, New Glasgow and Sydney. It will embark there for Port-aux-Basque Newfoundland, where it will cross the island to St. John's. With that point as its headquarters, it will inspect the largest iron mine in the British Empire, at Wabana, on Bell Island, in Conception Bay. Leaving St. John's on September 14th, the expedition will travel via Port-aux-Basque, Sydney, Moncton and Bathurst, cross the St. Lawrence over the Quebec Bridge, and arrive in Montreal on the evening of September 16th. The party will have travelled from Montreal to Montreal, about 4,500 miles.

The second group will accompany the first as far as Cochrane on the outward journey and will then turn east, visiting Rouyn, Arvida, Quebec, Thetford Mines, Sherbrooke, Minto, Moncton, New Glasgow and Sydney. It will embark there for Port-aux-Basque Newfoundland, where it will cross the island to St. John's. With that point as its headquarters, it will inspect the largest iron mine in the British Empire, at Wabana, on Bell Island, in Conception Bay. Leaving St. John's on September 14th, the expedition will travel via Port-aux-Basque, Sydney, Moncton and Bathurst, cross the St. Lawrence over the Quebec Bridge, and arrive in Montreal on the evening of September 16th. The party will have travelled from Montreal to Montreal, about 4,500 miles.

The bulletin of the Canadian Mining and Metallurgical Institute states that the Congress is being entertained by the Canadian Institute of Mining, and that the visiting groups will consist of The Institute of Metals (London), The Institute of Mining Engineers (London), The Institution of Mining and Metallurgy (London), The Iron and Steel Institute (London), The Institute of Petroleum Technologists (London), The Chemical Metallurgical and Mining Society of South Africa, The South African Institution of Engineers, The Australian Institute of Mining and Metallurgy and The Mining and Geological Institute of India.

The main purpose of the congress, as noted before, will be a thorough inspection of the mineral resources of the Dominion. Sessions and speeches are to be a secondary consideration. Instead there will be days spent in the mining camps, and discussions with the men actually running the mining industry.

The congress should result in much benefit to Canada in general, and in special value to the various camps visited. The tours of these leading mine men of the Empire certainly should attract all sorts of favourable notice to Canadian mining.

Old Napoleon said there was no such word as can't. Wonder if he ever tried to scratch a match on a cake of soap.

Fashion Fancies

Early in the season there was much talk in fashion circles regarding tailored suits, whether or not they would be much in demand. The answer now seems to be established—that discriminating women, at least, will add a chic tailored suit to their wardrobes. The reason for this is ably demonstrated in the effective garment above, made in a mannish "trouser" material and smartly shaped at the back. Tuck-in shirts are also appearing in new and attractive styles. Many of the suits, mounted like men's trousers with pleats from the waist-band, take strictly tailored shirts.

TORONTO CLUB TOLD OF THE PROMISE OF THE NORTH

"When Canadians realize the almost untold wealth of our North Country, the young men will be trekking up there in thousands instead of looking elsewhere for their future prospects," Cyril Young told the Gyo Club at the weekly luncheon in the King Edward Hotel last week at Toronto.

His long association with the Canadian National Railways in their first development, and his contact with the recent developments in the basic industries, made him a firm believer in Canada's future. He saw the upward trend already under way. Mining, lumber and pulpwood were already bringing more newcomers into the North in one year than had settled in any Western province during the last five years.

Said Mr. Young: "Canada's prosperity in the future will be in the development of those natural resources, especially in metals, thus establishing industries which cannot be wrecked by tariff tinkering."

Marrying an actress may be all right; it all depends on how she acts.

NOTICE IN THE SURROGATE COURT OF THE DISTRICT OF COCHRANE

In the Matter of the Guardianship of Daniel Joseph McMahon and Mary Marjorie McMahon, the infant children of Daniel Joseph McMahon, deceased.

Notice is hereby given that after twenty days from the date hereof, James Edward McMahon, of the Town of Timmins in the District of Cochrane, Esquire, will make application to the Surrogate Court of the District of Cochrane to be appointed Guardian of the persons and estates of the said Daniel Joseph McMahon and Mary Marjorie McMahon the infant children of Daniel Joseph McMahon, late of the Town of Timmins in the District of Cochrane, who died at the ninth day of October, A.D. 1926, intestate, without having appointed a guardian of the said infants, the said James Edward McMahon being a lawful uncle of the said infants.

Dated at Timmins, Ontario, the 24th day of February, 1927. JAMES EDWARD McMAHON, -9-11. by Frank J. Kehoe, his solicitor

DO NOT WANT ANYTHING MORE THAN THE TRUTH

New mining companies, like other concerns, are sometimes tempted to put their best foot a little too far forward, to put it mildly. In some cases, it would not be right to put it so mildly. Of course, too large claims or exaggerations of the prospects, will not pay in the long run, but new concerns do not always realize this. It is refreshing therefore to note a new company that not only attempts to keep all its statements on the conservative side, but is also seeking to restrain the exuberance of others. Such a case is noted in the matter of reports made recently about the Potter-Doal copper property near Matheson. An item published last week says that the directors of the Potter-Doal Mines, Limited, have issued a denial in connection with a report published in Toronto that drills on the Potter-Doal were working at a depth of 400 feet, and "are still in ore." This fact is, say officials, that one drill is at work on the property and it has not yet reached its objective. The directors consider that the property should be judged on its merits, and that it is unfortunate that any misleading reports should become circulated.

Haileybury expects to have a tax rate this year similar to last year, that is, 49 mills on the dollar for public school supporters and 64 mills for separate school supporters.

Style-Quality-Performance

for Economical Transportation

Comparable to the Costliest Cars

SMARTLY stylish new belted Fisher Bodies—rich and luxurious new upholstery and appointments—never before has any low priced car presented so many evidences of style and beauty, as the Most Beautiful Chevrolet. And, underlying this smartness and beauty is a new and higher standard of quality. Its advanced features include New Oil Filter, Air Cleaner, Bullet-type Head and Cow Lamp, Newly Designed Radiator, Full Crown Fenders, Sliding Seats in the Coach, and many others literally too numerous to mention.

But seeing the Most Beautiful Chevrolet is not enough. . . . Only when you have ridden in this car and driven it can you fully realize how supremely satisfying is Chevrolet performance. For the attributes which gained the titles of the Most Powerful, the Most Economical, and the Smoothest Chevrolet are still present, enhanced by new improvements, in the Most Beautiful Chevrolet.

It is amazing indeed that the Most Beautiful Chevrolet in Chevrolet History is now selling at new and lower prices—the lowest for which Chevrolet has ever been sold in Canada.
