

## Do your own washing

If so, it will pay you to try this Chinese Washing Fluid. From your druggist buy:—1 can Gillett's Flake Lye (be sure it's "Gillett's" and not a cheap imitation); ½ oz. Muriate of Ammonia; ½ oz. Salts of Tartar; 1 oz. Sulphate of Soda; dissolve in three gallons of water; keep in large glass bottle or stoneware jar. Use a cup of this fluid to each tub of water, allowing the clothes to soak over night. You'll be amazed at how little rubbing is needed to get clothes spotlessly clean and sweet-smelling, and it will not injure the finest fabrics.

Cobalt women evidently frightened by a flight in progress near her home turned in a fire alarm when she could not get police to the scene. The firemen arrived to find Steve Schnoracher with his head badly battered, but no fire and none of the other fighters around. The injured man was taken to the hospital, while the police are searching for a man named Fred Jackson accused of beating up Schnoracher.

### ALL MOTORISTS MUST HAVE DRIVER'S LICENSE.

After July 1st of this year every motorist in Ontario must have a driver's license before he or she can handle a car. This applies to all motorists, whether owners or not, and irrespective of the fact that they may not be driving for gain or hire. An order-in-council was passed on Thursday last and announced Thursday evening to the effect that all drivers after July 1st must have a license. The fee is fixed at one dollar, and the license is to be valid to the end of 1928.

The proposal for a driver's license for motor car operators has been heralded for some time past by Hon. George S. Henry, Minister of Highways. The intention originally was to make it effective at the beginning of the present year, but clerical difficulties in the department prevented it being handled then, due to the rush incidental to the issuing of the motor license plates. It was stated at that time, however, that the license would come into force about mid-summer.

The license will be granted automatically upon payment of the one dollar fee to experienced drivers into which class all persons who have driven 500 miles, or for six months, will be admitted. Inexperienced drivers will be required to pass the scrutiny of inspectors, who will be appointed by the department in the various centres of the Province. Examination by these inspectors will cost the individual who is securing his

### GOOD PROGRESS BEING MADE AT FURNESS MINE

Work at the Furness Mine is progressing in very satisfactory way. About thirty men are employed at the mine now, and there are shifts at work. The shaft is down about 40 feet.

Last week the directors from England paid a visit to the property and were well pleased with the evident progress being made in the development of the property.

### FIRE ! ! !

The duty of prevention of fire rests upon everybody who steps inside our forests. Don't throw away matches, cigarettes, cigar butts or pipe ashes until you are sure they are out.

Build your camp fires small and on bare soil or rock, near the water's edge—never against a tree, log or stump. Before leaving, put your camp fire out with water—or earth—and be sure. Forest fires start from a tiny spark and are soon beyond control. Take the same care of fire in the woods as in your own home. Millions of dollars, and human lives may be at stake.

Luck always seems to favour the man who doesn't count on it.

## Pale and "dry" like a rare OLD WINE

THE minute you break the golden seal of the aristocratic bottle and pour a bit of "Canada Dry" slowly down the side of a thin-edge glass, as a connoisseur would pour a glass of fine old wine, you will know that here, at last, is real ginger ale.

Hold it to the light! See how clear it is! How it gleams and sparkles! The abounding life and vitality of it. The champagne-like "dryness" and color.

And then—*taste it!* Here is a revelation in ginger ale quality—a delicate, alluring flavor that intrigues your taste—a flavor unlike that of any other ginger ale you have ever tasted!

"Canada Dry" is unquestionably the most famous product ever made in the Dominion and it is recognized in New York and in foreign capitals as the finest ginger ale on the market today.
