

## Timmins and District Notes

The Schumacher Choral Society will give a sacred concert in the Goldfields theatre after the church services on Sunday evening, June 26th. Previous events by the Schumacher Choral Society give assurance that the event on June 26th will be one that no music lovers will care to miss.

Mr. Frank Kehoe, District Deputy Grand Knight, and Messrs J. A. Walsh and J. Scully, have returned from Windsor, Ont., where they were attending the State Convention of the K. of C., as representatives from the Timmins Council of the K. of C.

The next regular meeting of the town council will be held on Monday, June 13th, commencing at 4 p.m.

Chairman Geo. W. Lee, of the T. & N.O. says that there will be passenger trains running into Rouyn from Cheminis before Christmas this year.

Rapid progress is being made in the completion of the new Homer L. Gibson & Co. office building on Pine street, next the Bank of Commerce.

Mr. D. B. Curtis, of Hamilton, is a business visitor to Timmins this week.

The Rouyn Miner last week says: "Sam' Whiston, of the Copperfields drug store, has gone West for a few weeks to take a much needed rest."

Cobalt is planning to celebrate the Dominion's diamond jubilee, sports, fireworks and tree-planting to be three main features of the celebration.

Friends in Timmins and district will be interested to know that Mr. and Mrs. R. T. Shillington have returned from Haileybury for the summer, after spending the winter at southern points.

The lad, who was injured recently by being struck with a baseball bat that slipped from the hands of a batter at the athletic grounds, was able to leave the hospital last week and is making excellent progress to complete recovery.

### SHAREHOLDERS OF K. L. M. PASS BY-LAW UNANIMOUSLY

The shareholders of Kirkland Lake Gold Mine were unanimous Monday at Toronto in their consent to the conversion and reclassification of the

1,000,000 preference shares of the company into an equal number of common shares.

In his opening remarks, President D. B. Hanna expressed great satisfaction with the progress and results at the mine. He quoted assay figures which were at least as high as any that had been mentioned in recent news despatches, and said that there hadn't been a month since last October when the proceeds from the sale of bullion hadn't left a substantial balance in addition to paying for all betterments and new material.

There was a cash balance of approximately \$153,000, he continued, after paying for all ordinary development work and spending \$28,660 in improvement, and of this \$100,000 had been invested in good securities. This action would not have been possible, he said, if the preference shares had been left as they were, as it would have had to be paid out as a dividend. He denied that there had been any friction on the board of directors, stating that they were absolutely in unison with regard to everything that had been done.

At the Zoo: "That's a new one on me," said the monkey as he scratched his back.—Widow.

## FINE OF \$25 AND COSTS FOR ILLEGALLY KILLING MOOSE

### Other Cases at This Week's Session of Police Court at Timmins

Probably the most important case at the police court this week was the charge against Jos. Demille for illegally killing moose out of season. Demille was found guilty, and a fine of \$25.00 was imposed, which with the costs, will make it a very dear moose. Magistrate Atkinson showed the accused the harm done by such illegal action, and warned him against any repetition of the offence. Provincial Officer H. O. Finger laid the charges.

On a charge of the theft of some records from a Moneta drug store A. W. Griffith was sentenced first to two months. He joked about the sentence, and very promptly the magistrate accommodated him with a revised sentence—three months.

Again, the folly of boys throwing stones has been shown. A young lad got into a dispute and as a result there was much throwing of stones. N. Ansara, one young fellow, pitched stones across the road. During the performance the window in Frank Ellies store, River road, was broken. At court this week the young Ansara was assessed \$19.75.

For speeding one man paid \$10 and costs; another on the same charge will likely pay up ere long for the present. Another couple of men paid \$20.00 and \$30 each respectively for reckless driving.

On a charge of being drunk and disorderly, Joseph Norlock was assessed \$25.00 and costs. Not content with getting lots of liquor, the accused attempted to force his way into a private house.

Wednesday evening before eleven, two men were caught near Hamilton's livery and charged with drinking in a public place, etc. The accused young men each had a bottle on the hip. One of the men tried to smash one of the bottles in the police station but he was unsuccessful and he and his partner will likely come up before the court this (Thursday) afternoon.

### MIKE GLEASON FOUND GUILTY OF WOUNDING BOY

At Haileybury this week Mike Gleason, of Mileage 104, was found guilty of wounding Roger Emden, a ten-year-old boy, and was remanded until June 25th for sentence. The evidence was to the effect that some boys had been annoying Gleason by throwing snowballs and firing a cap gun near his home while he was busy cutting his own boy's hair. Eventually he ran out and chased the boys. Emden, who said he was not doing anything and taking no part in the annoyance of the man, stood his ground. Gleason caught him by the arm and started to take him back towards the Gleason house. In the scuffle the boy was struck in the armpit by a pair of scissors that had been in Gleason's hands when he left the house. As a result of the injury thus received the boy has spent a couple of months in hospital and under medical care. He is still unable to use the one arm. The case has been adjourned from time to time to give time to see what result would follow from the injuries suffered by the boy. Magistrate Atkinson did not think that Gleason had really any intention to injure the boy seriously, but the accused man had lost his temper and so had done more than there was excuse for doing in the circumstances, perhaps.

### THE LURE OF THE MOUNTAINS AND THE WORK OF SURVEYS

Many people in these days are like the Psalmist in wishing to lift up their eyes unto the hills. In all ages mountains have had a fascination for dwellers on the earth. Early races worshipped upon hills or looked to the mountains as the dwelling places of their deities. In these days the mountains have an increasing lure to all classes who are in a position to make the necessary trip to reach them, and in Canada we are indeed fortunate in having mountain scenery in variety and extent that cannot be surpassed anywhere.

The Rocky Mountains with the Selkirk and Coast Mountains form a veritable mountaineer's paradise. Its extent is so great as to provide fresh trails and deeper thrills each season for those of the hills. Many of these adventurous playgrounds have been mapped by the Topographical Survey, Department of the Interior, and very excellent maps are available. Some of these maps of park areas have been issued in cooperation with the Canadian National Park Branch of the Department and may be obtained from either office. Other map series which may be obtained from the Topographical Survey comprise the interprovincial boundary map sheets extending from the United States border to the crossing of the Canadian National railway at Yellowhead Pass, with other sheets north of this being issued from time to time, the Banff, Donald and Calgary sheets of the Sectional Map of Canada in the new revised series, and the Lake Louise and Kamloops sheets of the National Topographical Series. Indexes of any of these series and information as to prices of the maps will be gladly furnished upon application to the Topographical Survey, Department of the Interior, Ottawa.

Choose always the way that seems the best, however rough it may be. Custom will soon render it easy and agreeable.—Pythagoras.

## Watch and Jewellery Repairs

Bring that broken watch here where it will receive the best attention. We do nothing but repairing and can give your work the proper care. We have the parts for every watch on the market and guarantee to turn out your watch like new.

THE PRICE IS ALWAYS RIGHT

**A. F. THOMSON**

Reed Block

Room 8 and 9

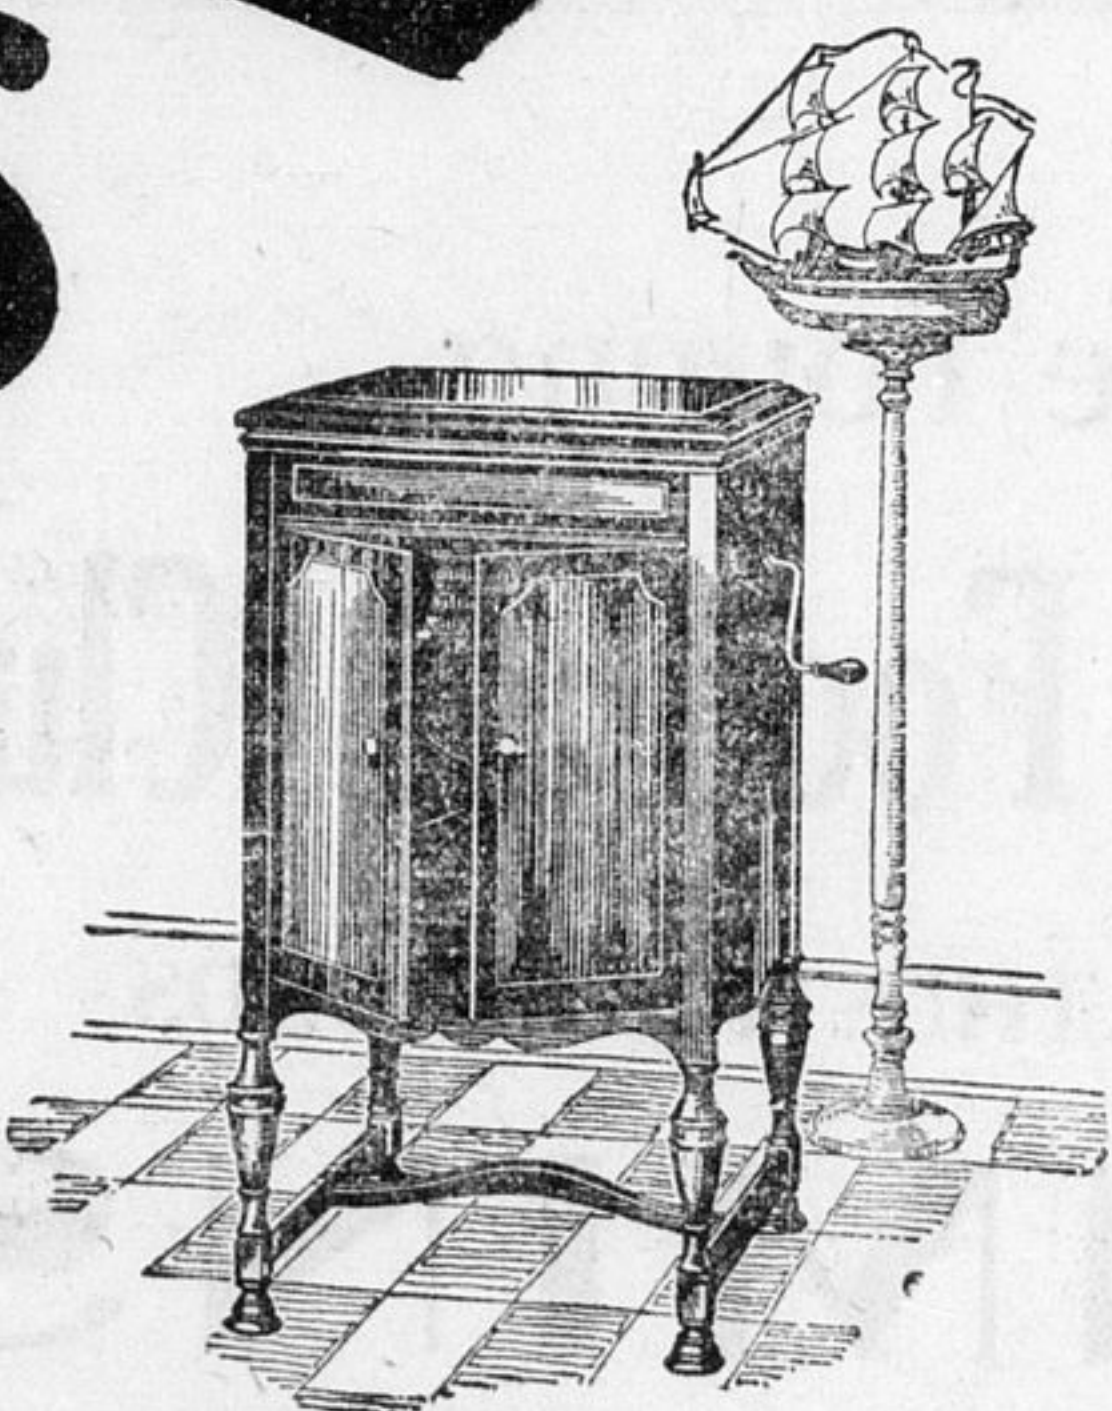

Late Store Manager for A. T. Pommier

Watchmaker and Jeweller

3 Pine Street S.

WALK UPSTAIRS AND SAVE YOUR DOLLARS

AS LOW AS  
**FIVE DOLLARS**  
AND YOUR OLD PHONOGRAPH

Now Is The Time  
To Dispose of  
Your Old Phonograph

AT THE PRESENT TIME WE ARE IN NEED OF A limited number of used phonographs for use in Summer Camps, Resorts, Etc., and are, therefore, able to make a far greater allowance for your old phonograph in exchange for the new Orthophonic Victrola than ever before. TO ACT NOW MEANS TO SAVE.

Why Not Exchange Yours To-Day?  
As low as Five Dollars and your old Phonograph sends an Orthophonic Victrola home to-day. Take a year to pay the balance.
