

EX-ARMY MAN SAYS IT IS TRUE

NOTHING LIKE "FRUIT-A-TIVES" FOR CONSTIPATION

MR. E. E. NEWMAN.

Even the most severe cases of constipation yield to "Fruit-a-tives". Witness this letter by Mr. E. E. Newman, Iona Station, Ontario: "Ever since leaving the army I suffered terribly from constipation. After spending a great deal of money on other remedies, I took 'Fruit-a-tives'. I can sincerely say it gave me permanent relief. I often thought testimonials were untrue. I will gladly assure anyone writing me that 'Fruit-a-tives' are all they are claimed to be." "Fruit-a-tives" goes right back to nature. Apples, oranges, prunes and figs give to it their fresh juices which are intensified and blended with tonics. Consequently, the action of "Fruit-a-tives" is naturally corrective and strengthening. It is a positive remedy for poorly functioning stomach, kidneys and bowels. This day buy a box of "Fruit-a-tives" yourself. Feel well, vigorous, again. 25c and 50c everywhere.

SOME GOOD FOOTBALL AND SOME BAD WEATHER HERE

McIntyre, Holly Rees., Cornish and the Dome the Winners in last Week's P.D.F.L. Matches.

On Thursday last the Cornish were at home to the McIntyre, and the latter won by the only goal scored. This match was slow going, the only excitement being when the Cornish pressed hard in the second half and Parker was called on to save some hard shots, which he cleared well. Street sent in two very swift ones, which just missed only by inches. Both teams played the long pass game, and the ball was kept mostly in the midfield during the whole match. The McIntyre got their goal early in the match, when McLatchie centred the ball, the pass striking Hooper on the back and going into the net.

In the second half, Woods missed a penalty shot by sending the ball wide of the mark. Chalmers had a good chance to equal the score, being in position for a nice shot, but thought it better to pass. The pass, however, was not taken, both Taylor and George missing the chance.

Cornish:—Tucker, goal; Towler and Hooper, backs; Rice, Harris and Hignman, half-backs; Taylor, Street, Chalmers, Wilkinson and George, forwards.

McIntyre:—Parker goal; Johnstone and Goodman, backs; A. Cooper, Woods and Moore, half-backs; Bratby, Truscott, Hallowell, Crann and McLatchie, J., forwards. S. Lynn, referee.

On Friday the Holly Rees. were at home to the Thistles. The former won by two goals to one. This win puts the last year's champions at the top of the table. This match was a very fast one and Referee Buck did great work in keeping the match well in hand. There were a few accidents,

which were attended to by the Ambulance men. There was another incident towards the end of the first half, when N. Dougall thought he was in a boxing ring instead of a football field, and started a fight with Rankin and both were promptly sent off the field. The public want this sort of thing stopped, for it is not sport.

The Holly Rees. landed their first goal within five minutes from the kick-off, when Harris got a pass from the wing and drove in a nice goal. The play followed very fast from end to end with the Rees. having the best of the play, and the change-over was made without further scoring. The Thistles started pressing in the second half and had the best of the play, but they finished badly in front of the net, for time and again, they had some fine chances but they could not seem to get the direction on the ball. At the other end, the Rees. broke away and Winder was called on to save a shot which he fumbled and McWhinnie ran in and tapped it into the net. The Thistles came down again, and A. Cadman moved into the forward line to put more pep into it, and some hot play ensued around the Rees.' net, and Liddle and Doherty were doing well to keep them out, but the Thistles would not be done and were rewarded when Rudkin passed to Alex. who with a fine drive, shot the ball into the net. Shortly after this Alex was a little too wide with another shot and press as they would, they could not get the ball in the net, and the match ended with a win for the Rees.

Holly Rees.:—Elrick, goal; Liddle and Doherty, backs; Trenouth, E. Dougall and Robson, half-backs; McLatchie, Harriss, McWhinnie, McKenzie and N. Dougall, forwards.

Thistles:—Winder, goal; T. Ramsay and A. Cadman, backs; Cooper, F. Cadman and Rankin, half-backs; A. Roberts, sr., Choynes, Shaw, McDonald and Rudkin, forwards.

H. Buck, Referee.

On Saturday the Hollinger had the misfortune of another bad game owing to rain when they played the Cornish. It is a pity that some mutual agreement could not be arrived at, for it is impossible to play good football on wet grounds, and in the pouring rain. Although the match was slow, there was some very good combination played by both teams, and the Cornish came out on top by winning their first full points this season by a score of 2 to 1. All the scoring was done in the first half and all were good goals, although the Cornish second goal looked off-side. It was hard for a referee to see what really happened, for it was quick combination on the part of three Cornish players and Chalmers netted. Toms netted the first for the Hollinger with a very nice shot. Wills equalled well on in the half from a pass, and before the end of the half, Chalmers got the last. The Cornish had a new goalie between the sticks, and a deal of credit for the win goes to him, for he certainly mastered the ball well and he knows the game.

Hollinger:—Eriksen, goal; Collings and Snersrud, backs; Pethick, Kjensted and Gustavsen, half-backs; Landers, Pedersen, Spanton, Toms

Frank J. Kehoe
BARRISTER, SOLICITOR, ETC.
Gordon Block Timmins

SCOTTISH FOOTBALL TEAM TO VISIT TIMMINS

THOMAS MORRISON (St. Mirren) right half-back. 5 ft. 8 in., 151 lbs. A fine upstanding athlete with inexhaustible strength. In forcing the game he has no superiors in Scotland and, within a radius of thirty yards is a ready marksman. He was one of the renowned St. Mirren half-back line when they won the Scottish Cup in 1926, and the foundation of that triumph was undoubtedly laid by Morrison, Summers and McDonald. His standard is high and his consistency equally so. As St. Mirren's only representative he will worthily uphold the reputation of his club. Born in Troon, Ayrshire.

TO TAKE MOTION PICTURES IN THE JAMES BAY AREA

The following is from the last issue of The Haileyburian:—"Capt. William Lucey, Hughie Roberts and Billie Brookbank left on Monday for Cochrane, where they will gather their outfit, proceed to Island Falls on the T. & N.O., and then on to the Abitibi River and up to Hudson's Bay, where they will prospect this summer. The party will also take motion pictures of interesting scenery, etc., on the Bay, having a movie camera and plenty of film. Mr. Brookbank has been in the locality before, having made an exploration trip there two or three years ago."

USEFUL MAP OF THE ROUYN MINING AREA AVAILABLE

Arthur E. Moysey & Co. have an up-to-date and complete map of the Rouyn, Quebec, mining area for their customers and friends. The map shows in detail the townships of Rouyn, Boischatel, Dasserat, Duffrenoy, Duprat and Montbrory, all claims and mining properties being clearly marked. The map should prove of great value to all interested in the Rouyn field. A key map in one corner, shows the locations of Rouyn in regard to the other mining camps of the North Land, and to the leading cities of the south and east.

and Roberts, jr., forwards.

Cornish:—Leonard, goal; Hooper and Stan, backs; Hignman, Harris and Rice, half-backs; Jefferys, Willis, Chalmers, Graham and Street, forwards.

B. Lambie, referee.

At the Dome on the same evening (Saturday) the lanes, took a trip over to play the Dome F.C. The result was a win for the Dome by a score of 2-0. The match was also a poor one owing to the wet grounds, the players slipping all over the field.

Now packed in Aluminum, the same as years ago.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

PORCUPINE MINES MILLED 848,610 TONS IN QUARTER

Production of Gold Greater Than Last Year for First Three Months of this Year.

The returns for the first quarter of 1927 for the production of minerals in Ontario, as just issued by the provincial Government shows that the production of gold from all sources was nearly \$100,000 in advance of the corresponding quarter in 1926. There were 101,305 more tons milled in the Porcupine than for the first quarter of last year. Owing to mill enlargements, shaft-sinking and construction work, the increase in production was smaller than it would otherwise have been. The effect of the enlarged milling capacity should be felt later in the year. The figures were 371,005.5 fine ounces, valued at \$7,670,127 in 1927, as against 366,472.7 fine ounces worth \$7,575,114 in the previous year. Development at the mines have continued steadily, both in Porcupine and at Kirkland Lake. In the latter camp a 200-ton mill, that of the Sylvanite, commenced operating in April, while the Associated Goldfields at Larder Lake also turned up its new 200-ton milling plant. Neither of these properties, however, made any production during the period covered by this statement.

During the period 848,610 tons were milled at Porcupine, and 161,071 tons at Kirkland Lake. In the first quarter of 1926, the corresponding figures were 47,305 tons and 107,811 tons.

ROUYN TO HAVE NEW HOTEL WITH A HUNDRED ROOMS

Among the many evidences given by Rouyn, Quebec, of its march to progress is the fact that a modern new hotel is contemplated there. In regard to this, The Rouyn Miner last week says:—"Although the names of the backers are still being kept quiet for the present it has been made known that construction of the new 100-room four-storey, modern hotel is to start on June 15.

"The building, which is to cost about \$200,000, will be located at the corner of Main and McQuaig avenues, thereby placing the two largest hotels in town side by side. The ground for the new structure has been cleared and there is some material on the spot so there are some who believe that actual construction will begin before the date set.

"The new hotel, although its ownership, name and type are all something of a mystery, is still the source of a great deal of conjecture throughout the town. Some people believe, due to the fact that the Quebec liquor law confines the sale of beer and wine with meals to hotels of 70 rooms or over, that the opening of the new hotel will mean the beginning of legalized liquor sales here.

"The other bit of gossip that has the new hotel for its centre is the principal topic of conversation at every opportunity—that is what is going to be the new centre of business in Rouyn. The erection of the new hotel gives new ammunition to the Main avenue boosters while those whose opinions run to Perrault street find much solace in the number and size of business structures that are going up along that thoroughfare daily. To an unprejudiced observer it looks as though both streets, formed into a sort of huge letter 'L' will be the centre of commercial activities here for many years to come."

Miss Jane Murray, of Cobalt, last week celebrated her 88th birthday. Friends presented her with a beautiful white gold bar pin set with amethysts, and a handsome bouquet of roses and carnations.

EVERY SCHOOL CHILD TO RECEIVE JUBILEE MEDAL

Last week Lady Willingdon struck the first Confederation Jubilee medal at the Ottawa mint. With her own hands she moved the necessary levers to complete the work. Two million of these medals will be struck, the input of 300,000 of 2100000000 every school child in the Dominion as a souvenir of the 60th anniversary of the confederation of Canada. The medals are of bronze. On one side there is a picture of Queen Victoria as she was in 1867 and one of King George as he is at present. "Confederation" is printed at the top and "Canada" at the bottom; with 1867 opposite Queen Victoria and 1927 opposite the King. On the reverse side is a shield containing the Canadian coat of arms, surrounded by maple leaves, and also there are the words of the coat of arms, "A mari usque ad mare."

The Haileyburian last week says:—"From the North comes the report of the recent drowning of Alfred James Brissette, aged 2 years and month, which occurred at his home at Harty, near Kapuskasing. The child fell into a well on the farm during the temporary absence of his parents according to the report, which gave few particulars."

Janet's just full of life!

"She gets a bowl of Kellogg's Corn Flakes and milk every day. How she loves it! And it's fine for her!"

It's flavor that makes kiddies love Kellogg's so! Matchless flavor! Kellogg's are always crunchy and crisp—always easy to digest!

Serve with milk or cream and add fruits or honey. For breakfast, lunch or supper. Order at hotels, cafeterias. Sold by all grocers.

Made by Kellogg in London, Ontario. Oven-fresh in the inner-sealed red-and-green package. Imitations cannot equal such wonderful-flavor. Demand the genuine!

Kellogg's CORN FLAKES

"STILL SERVING"

The Red Cross appeals to YOU for support

SINCE the War, the Red Cross has disbursed over Seven Million Dollars for the Soldiers, Women, Children and Frontier Families of Canada.

About half of this has been spent for disabled soldiers—half in the other services of the Society about which you have been told. The Treasury is almost empty.

\$1,000,000 Needed Now for Red Cross Work

The Red Cross brings cheer to our disabled warriors and their families. It stimulates the children of Canada to healthy living and good citizenship. It relieves suffering, and brings skilled attention to Canada's frontier districts remote from other aid. Its work is indispensable.

It now appeals to YOU, as a patriotic and humane Canadian citizen, to contribute generously to its need for funds.
