

FIFTEEN MONTH TERM FOR INDIAN ON INCEST CHARGE.

At the district criminal sessions at Cochrane last week, Judge Caron sentenced Sandy Metaban, who has been referred to generally by the newspapers under his supposed Indian name, "Long Horn Face," to fifteen months in the Haileybury jail. The Indian pleaded guilty to a charge of incest.

Suspended sentence was given to Joseph Bellevue, who pleaded guilty to a theft charge in connection with his former employers, the Gamble-Robinson Co.

PROGRESS IN ROOFING IN THE LAST FEW YEARS

Great strides forward in solution of the roofing problem have been made in the last few years. No longer does the owner have to roof with old style inflammable materials, but with asbestos, slate or other fireproof roofings. Not only is this possible, but he may thus equip himself at a moderate expenditure.

From earliest time man has sought for the shelter of a roof over his head. From the thatched roof of the jungle dweller, and the prehistoric stone cover, to the shingled security of the modern home represents a long span. Through these years man has accumulated a deal of experience by which he is now beginning to profit.

With the passing of the grass roof and the stone cave, man has, by virtue a number of roofing materials which give satisfactory service. Slate, tile and asbestos shingles, are all typical of modern construction. Asbestos, itself a rock, embodies all the permanence of those cave dwellings which still exist today.

In the past, a roofing material which was really durable, was more often than not completely out of the financial reach of the average home builder. The Johns-Manville Corporation has developed in the last few years, an asbestos shingle which is well within the possibilities of even the smallest homes.

Constructed in a hexagonal shape it provides for the elimination of waste in laying. By the old methods, shingles overlapped to such an extent that the entire roof was covered with at least a double thickness of shingles. But with the Johns-Manville Hexagonal Shingle overlapping has been cut to a minimum, with a consequent great reduction in the amount of roofing material necessary.

A roof so covered possesses manifold advantages quite obscure to the uninitiated. It is absolutely weather-tight, permanently durable, fire-safe, and above all economical to a marked degree. It is indeed fortunate that with all these material advantages we have, not only a roof to please the pocketbook, but a roof to delight the eye.

The broken line beauty achieved through the hexagonal method of laying is a pleasant departure from the stiff, straight lined roof to which we are accustomed. To have a roof that is beautiful, that is durable, that is permanent, and that is fire-safe should satisfy the most rigid requirements. To have a roof of Hexagonal Asbestos Shingles is to have all of this, forever.

SCOTTISH FOOTBALL TEAM TO VISIT TIMMINS

ALEXANDER ARCHIBALD (Rangers), outside right, 5 ft. 8½ ins., 166 lbs. Strong and fast on the ball, which he controls with dexterity. His favourite move is to cut quickly in after beating the back and to shoot at an angle. He can put great power behind his shot. Is also good at with his head a ball coming from the left wing. Joined Rangers in 1917 and has been one of the most regular members of the team ever since. He holds six League Championship medals and has fourteen International honours. Born in Crossgates, Fife.

WEDDING AT NEW LISKEARD ON WEDNESDAY, JUNE 15TH

On Wednesday, June 15th, the Sacred Heart Church at New Liskeard, profusely decorated for the occasion with pink and white carnations, roses and ferns, was the scene of a very pretty June wedding, when Theresa Mary, daughter of Mr. and Mrs. E. J. Burke, of New Liskeard, was united in marriage to Mr. Cecil Burke, son of Mr. J. L. Burke, of Timmins. Rev. Father Martindale, of Cobalt, officiated at the ceremony. Rev. Sister Superior played the wedding music, and Miss Marion McCoy sang a solo, "Mother Dearest, Mother Fairest."

The bride, who was given away by her father, wore a shell pink frock, beaded with silver, with embroidered tulle veil caught with orange blossoms. She carried a shower bouquet of white and pink carnations and maidenhair ferns. Miss Gertrude Burke, sister of the bride, was the bridesmaid and wore a peach crepe de chine dress, with silver lace, and with hat to match. She carried a bouquet of mauve and pink sweet peas and maidenhair ferns.

Mr. J. T. McNab, of Toronto, was the groomsmen.

After the ceremony, the happy couple motored to the home of the bride's parents, where dinner was served to about fifty guests.

The afternoon was spent in dancing. In the evening a reception was held in the Masonic hall, and a pleasant time spent. The mother of the bride wore a copper-coloured crepe dress and shoes to match. Some of the out-of-town guests were:—Mr. J. P. Seeley, Pembroke; Miss Gertrude Burke, North Bay; Mrs. P. Connolly, Haileybury; Mr. J. L. Burke, Timmins; Mr. J. F. McNab, Toronto.

Mr. and Mrs. Cecil Burke will reside in Timmins, where all will extend to the young couple the sincerest good wishes.

HAILEYBURY ASKING FOR BREAKWATER TO BE BUILT

The federal government will be asked to build a breakwater in Lake Temiskaming at Haileybury, the structure to extend from the foot of Amwell street almost to the wharf and containing space for coal supplies to be stored. The Haileybury town council has passed a resolution to that effect, as the result of learning that the boats of the Upper Ottawa Improvement Co., are to change back from oil to coal as fuel. Major Lang, M.P., for Temiskaming, will be asked to assist in the matter of the breakwater, which, if built would enable the boats to coal at Haileybury.

PARK AT KAPUSKASING NEARING COMPLETION

A despatch from Kapuskasing says that in spite of the fact that some of the plants were frozen a day or so after they were placed in the ground, the park along McPherson avenue and skirting the bay is most pleasing to the eye. Work was commenced on this park last Fall and resumed early this spring. As a result of experimenting, trees, shrubs and plants of different kinds which would thrive best in this North Country were chosen and have been artistically placed in groups, beds and clusters. Winding einder walks, which eventually will be bordered with stones, lead through the park. It would seem that the work which has been carried on under the able direction of an expert landscape gardener is nearing the stages of completion so far as the hand of man is concerned. It requires time now, and the touch of nature to complete the work.

CHINESE INSURANCE CO. NAMED IN COURT ACTION

Often in this country it is found that some person is carrying insurance with a company in some foreign country, usually the U.S.A. It is not infrequent to hear of such cases through the fact that the policies are not paid when fires occur. Canadian insurance companies are noted for making prompt payment of claims, but with foreign companies it is not always so. Probably the reason many insure their properties with foreign concerns is because Canadian fire insurance rates seem pretty high in this North Land. At the same time it may be noted that insurance that does not pay when claims occur is certainly not cheap insurance, or, indeed, may be termed insurance at all.

Insurance with foreign fire insurance companies may be common in this country, but last week a new one came to public notice through a projected court action. It was a case of insurance with a Chinese concern. A court action, involving an insurance company having its head office in Shanghai, China, has been started in the District Court of Temiskaming. Colin McKee, Hudson township, who lost his dwelling house, blacksmith shop, other buildings and some farm produce by fire, has entered action against the Yang-Tze Insurance Association, Shanghai, to recover \$497.02. being insurance he carried on the pig sty and poultry house at his property. He has issued a writ against the Association.

NO CONCERT ON SUNDAY BY SCHUMACHER CHORAL.

The sacred concert referred to in recent issues of The Advance as to be given by the Schumacher Choral Society in the Goldfields Theatre on Sunday evening, June 26th, after the church services, has been postponed until the autumn. On account of the holiday season the Schumacher Choral has found it difficult to get all its members together for the event intended for June 26th, and so have decided to defer this concert until later in the year. The events by the Schumacher Choral Society are always excellent, and the concert to be given in the Goldfields later in the year will be looked forward to with special interest.

RECOVERED BODIES OF MEN DROWNED AT LONGUE POINT

The bodies of James McMillan and Finlay McLean recently drowned at Longue Point, half-way between Elk Lake and Gowganda, were recovered last week. Mr. McMillan's body was taken to Cobalt where the funeral was held on Thursday last. Mr. McMillan has relatives in Timmins. The body of Mr. McLean was sent to his old home in Nova Scotia for interment.

LAND WITHDRAWN FROM STAKING NEAR HIGHWAY

An order-in-council issued last week, gives notice of the withdrawal from staking of a strip of territory two miles wide extending along the route of the North Land highway from Widdifield township to Latchford. The order states that on the recommendation of the Minister of Lands and Forests, and under section 44 of the mining act, all lands and mining rights that are the property of the Crown are withdrawn for prospecting and staking and from sale or lease under the mining act. Twelve townships are affected, also the Gillies limits, the country designated as included in the scope of the order-in-council being one mile on each side of the centre line of the North Bay to Cobalt road. There have been a number of claims already staked in the strip of land referred to, and it is understood that the purpose of the order-in-council is to prevent individuals from staking out land along this part of the highway with a view to establishing camping grounds for themselves or their friends or for profit. The danger of fire is also another factor no doubt in the decision that lead to the passing of the order-in-council in question.

WOMAN AT MONTREAL RIVER BEATEN BY INSANE MAN

The story of a woman being badly beaten, without apparent provocation, by a man who evidently had a sudden attack of insanity, and of the man himself likely finding death by drowning, comes last week from the Montreal River district. According to the story, Antoine Lavellee, 65 years of age, and believed to be suffering from a sudden fit of insanity, attacked Mrs. Bonin, a woman for whom he was working. Mrs. Bonin, who is 63 years of age, was busy making preparations for breakfast when Lavellee made an onslaught upon her, using an axe as a weapon. Other people in the house heard Mrs. Bonin's cries of alarm and pain and hastened to her assistance. Before they could reach the scene of the assault, however, Lavellee had made his way into the nearby bush. He has not been seen since, and it is believed that he drowned himself in the river. Mrs. Bonin was taken by launch to Haileybury and then to the Mines hospital at Cobalt, where she is reported as making good progress to recovery. The Provincial police and men employed by the Booth company made diligent search for Lavellee, but without success.

ONTARIO

Weeds—a menace

Neglect is the friend of weeds. Neglect is responsible for the alarming spread of this pest in Ontario. Weeds now take an annual toll of at least five million dollars out of the wealth of the province.

The Department of Agriculture asks for united, active co-operation to exterminate weeds on every farm, highway, lane and waste space in town and country. Destroy weeds wherever found, as often as necessary to prevent their going to seed.

Write for bulletin No. 188, "Weeds of Ontario".

WARNING

Under the provisions of The Weed Control Act 1927, now in force, the destruction of noxious weeds is no longer optional. The destruction of noxious weeds is now compulsory.

Every occupant of land and every owner of unoccupied land is required to destroy all noxious weeds before their seeds ripen. Municipal councils are required to destroy all noxious weeds growing upon the highways. Let everyone co-operate to end the weed nuisance.
