

Navigable Waters Protection Act.

R. S. C. Chapter 115
Spruce Falls Power and Paper Company Limited hereby gives notice that it has under Section 7 of the said Act deposited with the Minister of Public Works at Ottawa and in the office of the Registrar of Deeds of Local Master of Titles for the District of Cochrane at the Town of Cochrane a description of the site and the plans of a log storage proposed to be constructed in the Kamskasing River on Lots 22 and 23, Concession 13; Lots 23, 24 and 25, Concession 12; Lots 24 and 25, Concession 11; Lots 25, 26, 27 and 28 Concession 10 and Lots 27 and 28 Concession 9 in the Township of O'Brien, in the said District of Cochrane.

And take notice that after the expiration of one month from the date of the first publication of this notice Spruce Falls Power and Paper Company Limited will under Section 7 of the said Act apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for leave to construct the said log storage and works.

Dated at Toronto this 11th day of June, 1927.

Spruce Falls Power and Paper Company Limited

Per J. H. BLACK, General Manager.

In the District Court of the District of Cochrane

His Honour Judge Caron, in chambers
Monday, the 13th day of June, 1927

Between: HATTIE MCGREGOR

Plaintiff

and THE TIMMINS TOWNSITE COMPANY LIMITED and PAUL JOHNSON.

Defendants

1. Upon the application of the plaintiff, upon hearing the solicitor for applicant and upon reading the affidavit of Elvin C. Brewer, filed herein.

2. It is ordered that service upon the defendant Paul Johnson of the writ of summons, in this action, by publishing this order together with the notice endorsed thereon, once a week for three weeks, preceding the 8th day of July, 1927, in the Porcupine Advance Newspaper published at Timmins, Ontario, be deemed good and sufficient service of the said writ.

3. And it is further ordered that the defendant Paul Johnson do enter on the appearance of the said writ of summons and file his statement of defence in the District Court Clerk's Office at Cochrane, on or before the 14th day of July, 1927.

J. B. T. CARON.
The plaintiff's claim is for specific performance of an agreement between the plaintiff and the defendant Paul Johnson, made in, or about, the month of July 1917, for the sale of land. The description of the said land is as follows: Lot No. 333, as shown on plan M.30 Sudbury, now deposited in the office of Land Titles at Cochrane.

In the District Court of the District of Cochrane

His Honour Judge Caron, in chambers
Monday, the 13th day of June, 1927

Between: MRS. GEORGE H. ROCHESTER

Administratrix of the estate of George H. Rochester, deceased.

Plaintiff

and JAMES KENNEDY

Defendant

Upon the application of the plaintiff, upon hearing solicitor for the applicant and upon reading the affidavit of Samuel Anderson Caldbiek and the exhibit attached thereto.

1. It is ordered that service upon the defendant James Kennedy of the writ of summons and statement of claim in this action, by publishing this order together with a notice thereof endorsed, once a week for two weeks preceding the 30th day of June, 1927, in the Porcupine Advance Newspaper, published at Timmins, Ontario, and by mailing to the defendant by post by prepaid registered letter, addressed to the defendant at Pembroke, Ontario, a copy of the writ of summons herein, together with a copy of this order and a notice thereon endorsed be deemed good and sufficient service of the said writ and statement of claim.

2. It is further ordered that the said defendant James Kennedy do enter an appearance to the said writ of summons and file his statement of defence in the Office of the Clerk of this Court in Cochrane, on or before the 1st day of July, 1927.

J. B. T. CARON.

NOTICE

The plaintiff's claim is for a declaration that the plaintiff is entitled to retain any sum or sums paid under an agreement between the plaintiff and the said George H. Rochester deceased, for the sale to the defendant of Lot No. 45 on the south side of Rochester Avenue, and Lot No. 46 on the east side of Toke Street, as shown on M8 Temiskaming, registered in the office of Land Titles at Cochrane, which agreement was made on or about the 15th day of September, 1921 and for reversion of the said agreement and for possession of the said premises.

25-26

GROWTH OF TIMMINS IN PAST FOURTEEN YEARS

Now a Modern Town With the Best Equipment and a Progressive People.

In this year of the diamond jubilee of the confederation of the Dominion of Canada when special notice is being taken of the progress made by Canada as a whole it seems timely for a review of this comparatively new town of Timmins, less than a quarter the age of the Dominion in which it is located.

Fourteen years ago Timmins was a strip of bush. Today it is a town of 15,000 people, with all the comforts and conveniences of modern city life. Paved streets, cement walks, a modern duplicate high pressure waterworks system, an activated sludge disposal plant of up-to-date type, electrical street lighting at all necessary points, incinerator plant, local and long distance telephone service, telegraph service, including two private wires carrying daily news bulletins,—these are some of the up-to-date features of the town and its services.

Timmins has the most modern electrical fire alarm system in Northern Ontario, with motor fire truck and other modern equipment. The fire chief and fire brigade have a wide reputation for efficiency and success in protecting property and lives from fire.

Timmins is located in the heart of the Porcupine Gold Area, on the T. & N. O. Railway, and on the Mattagami River, approximately 500 miles by rail north of Toronto. The area of town is about 750 acres, and the population approximately 15,000, including suburbs. There are about 15,000 residences and around 500 of businesses.

The chief industries of Timmins are mining and lumbering, with some farms established in the immediate district. Timmins is noted as the home of the famous Hollinger Mines, the largest individual producing gold mine in the world, employing at present about 3000 men the year round. The McIntyre and Dome Mines are situated within a three mile radius of the town of Timmins. The Vipond Mine, another of the camp's producers, is a very near neighbour to the town.

Timmins should be proud about its expenditures for education. Over a million dollars has been invested here for school buildings. There are three large up-to-date public school buildings in town, and four modern separate school structures. At present a four-room addition is being built to one of these schools to accommodate the increasing number of pupils. The Timmins high school is a model in school building, both for accommodation and appearance. A new technical high school, to cost \$130,000.00, is being built this summer as an addition to the Timmins high school. The town has a business college of its own. The evening vocational classes at the high school offer educational advantages of much value. The Timmins public library and reading room is another educational asset of which the town has right to boast.

Timmins has always been a musical town, appreciating and supporting good music, and with a pleasing array of superior talent in this line. Among the musical assets are:—the Timmins Citizens' Band, a number of first-class orchestras, several up-to-date music studios, and individual artists of ability.

There are five churches in Timmins, the religious wants of the people being well cared for.

In recreations and amusements the town is well supplied, as may be judged from the following abbreviated list:—two up-to-date theatres, showing good motion pictures, and occasional stock companies, and local events; large skating arena; fine curling rink and club house; big athletic field; Kiwanis community playground; nine-hole golf course and elegant club house; six clay tennis courts; boxing clubs; hockey; baseball; football; softball; aquatic sports; the Porcupine Dog Race and Carnival; amusement parlours, etc.

Timmins is well supplied with hotels, the Empire being justly known as "the pride of the North," and others offering the best of accommodation.

In the way of clubs, societies, fraternal bodies, church groups, etc., the town of Timmins has over 200 organizations of one kind or another. So the town is well organized! All the leading lodges are represented, with many local organizations. Social clubs are especially popular.

All professions and businesses are well represented in Timmins. The stores are up-to-date and carry extensive stocks. Most of the businesses are housed in substantial, fire-proof buildings, and there are a number of good office buildings. There are five chartered banks, and the bank clearings, equivalent to a city of 60,000, show the prosperity of the community. Timmins is a distributing centre for the Porcupine area and has several good wholesale concerns housed in permanent buildings.

Timmins has at the present moment good hospital accommodation, but much better is promised for the very near future. The \$150,000.00 Hollinger hospital is being practically doubled in size and will be conducted as a general hospital by the Sisters of Providence. There are also private hospitals giving good service. Timmins has a Victorian Order Nurse, as well as two town nurses for

the children. The clinic nurses are invaluable to the mothers and children, and the V.O.N. nurse is doing excellent work here.

CORNISH SOCIAL CLUB TO HOLD BASKET PICNIC

The Cornish Social Club announce a basket picnic to be held (weather permitting) at Golden City on Sunday, July 17th, by the Cornish Social Club. All arrangements are being made for a good time. All Timmins members wishing to attend please give in their names to the secretary, 50 Cambrai avenue, not later than July 12th. Schumacher members please notify Mr. J. G. Harris, Third avenue, Schumacher. Members from the Dome notify Mr. P. Varker, so that suitable arrangements can be made for transport. Please watch The Advance next week for further information. It was decided by the executive committee at their last meeting to hold outdoor events for the remainder of the season, instead of social evenings in the Hollinger Recreation hall.

The Liberal-Conservative Association of the District of Temiskaming will hold a meeting at New Liskeard on Tuesday, July 5th, for the election of officers and the selection of delegates to attend the Dominion convention of the party in Winnipeg in the fall.

DIP NEEDLE SURVEY BEING MADE AT ST. ANTHONY'S MINE

Many here are interested in the St. Anthony Mine in the Thunder Bay district and so will be interested in the further progress report on the property given last week. The report by Douglas A. Mutch, consulting engineer, states that boundary lines have been cut around the southern block of twenty claims. A base line for the dip needle survey has been cut for the full length of the holdings. From this base line survey lines are being cut east and north and south for the full length west across the property. These lines are 300 ft. apart and up-to-date approximately ten miles have been cut. Line cutting is at the rate of two and one-half miles per day. Three weeks should see the line cutting completed. A camp has been built and equipped for a force of ten men. As work progresses it will likely be necessary to erect other camps closer to the centre of the property.

While cutting lines on claims 9382 and 8377 in the northeast corner of the property an occurrence of Dalamanite was found, the report continues. This is the "spotted dog" formation which is associated with ore in other sections of the Rouyn district. We consider the finding of this formation to be very favourable. In addition to finding this formation we have located, one quarter mile west of the

west boundary of the south block an outcrop of coarse gabbro. This is the formation with which the important deposits at Noranda are associated. This will likely be found to extend on to the south block of claims. Nothing has been done as yet in opening up the gossan zone found on claim 9868. This section of the property where diabase has been located in contact with rhyolite offers good prospective chances. There is considerable mineralization showing in this section and the formation is favourable for ore deposition.

The recent find of chalcopyrite made on the Oriole property to the west indicates that important deposits may be looked for. Results from the dip needle survey should be available in approximately three weeks.

FAREWELL SERVICES AT SALVATION ARMY SUNDAY

As noted before in these columns, Adjutant and Mrs. Crowe and Lieut. Patterson, of the Timmins Salvation Army, are being transferred to other posts. At the time of writing the names of the new officers and new places for Adjutant and Mrs. Crowe and Lieut. Patterson are not known.

Farewell services are to be held on Sunday at the Army hall here at 11 o'clock in the morning and at 3 and 7 p.m.

Adjutant and Mrs. Crowe and Lieut. Patterson have given excellent service and made innumerable friends during their stay here, and there is general regret at their departure.

Dr. L. Gagnon was a visitor to Haileybury last week.
