

Meters to be Installed in All Garages Washing Cars

Monday August 1st, to be Civic Holiday in Timmins. Hollinger Asks for Arrangement for Issuing Debentures to Pay for Waterworks and Sewers. Other Business at Meeting of Town Council on Monday.

At the regular meeting of the town council on Monday afternoon Mayor E. L. Longmore presided and councillors F. Francis, G. S. Drew and Dr. Brennan were present.

Much routine business was dealt with, including the passing of accounts, payrolls, debenture payments, repayment of loans, etc.

Mr. P. W. Curtis was present on behalf of the Timmins Dairymen's Association, and asked council for a by-law that would protect the regular dairymen from unfair competition and the public from the menace to health of some of the milk sellers in a small way who had not proper facilities to handle milk. He pointed out

that people with only one or two cows sold milk at practically any price they could get for it. In many cases they did not know what the milk cost them or even how much they sold. The Dairymen's Association found this sort of competition very unfair. The men who were in the dairy line as a business did not want to put up prices. They were satisfied with the rates now obtaining, but they could not sell their milk in view of the unfair competition. He thought the business was entitled to protection. They followed all the rules and regulations for the protection of the public, while those with only a cow or two did not have to. It cost over 8 cents a quart to produce milk. He suggested a license fee that would give the milk business the same kind of protection that other lines received. Mayor Longmore said that it would appear to be a hardship if a man who kept a cow for his own use was debarred from selling the surplus milk. Councillor Drew thought the matter was largely a question as to whether the small dairies were sanitary or not. Sanitary Inspector Dunn said that the small stables can be kept clean all right, but some of them use their kitchens as dairies, which is not in accord with the Provincial regulations. The small dairies did not have cement floors. Council decided to hold over the question until next meeting, enquiries to be made and consideration given the matter in the meantime.

Consideration was given to the case of a man who had returned from the Muskoka sanitarium for consumption.

NOTICE TO CREDITORS

In the Matter of the Estate of Nicholas Ansara, late of the Town of Timmins, in the District of Cochrane, deceased.

Notice is hereby given pursuant to the Trustee Act that all creditors or others having claims against the Estate of the said Nicholas Ansara who died on or about the 1st day of September, 1926, at the city of Rochester, State of Minnesota, U.S.A., are required, on or before the 30th day of July, 1927, to send by post prepaid or deliver to Dean Kester, Marshall-Ecclestone Building, Timmins, Ontario, Solicitor for Mary Ansara, Administratrix of the Estate of the said deceased, their Christian names and surnames, addresses and descriptions, the full particulars, in writing, of their claims, a statement of their accounts and the nature of the security, if any, held by them.

And Take Notice that after such last mentioned date the said Administratrix will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which she shall then have notice, and that the said Administratrix will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by her at the time of such distribution.

DEAN KESTER,
Marshall-Ecclestone Bldg.
Timmins, Ontario.
Solicitor for the said Administratrix.
Dated at Timmins this 25th day of June, 1927. -26-28

tives. He was unable to work and was a charge on the town. His family had moved to Windsor and council believed that his sons should and could support him and that he should join his wife and family at Windsor.

Another case was that of a woman receiving Compensation who had a child in the hospital. She was paying nothing towards the maintenance of this child, but was receiving \$10.00 per month from the Compensation Board specially for this child. The council felt that this \$10.00 a month should be applied to the keep of the child in the hospital. The matter will be taken up with the mother and then with the Compensation Board if necessary.

Mr. C. V. Gallagher, O.L.S., asked council to approve a slight change in a townsite plan approved by the council some time ago. The plan had not yet been registered and it was desired to take out one road marked so as not to have an overplus of roadways in the block. The necessary approval was given. In this connection the town engineer asked for tracings of all townsites approved, especially those not inside the town limits.

Approval was given to changing a name on the roll from separate to public school, the case being a clear one.

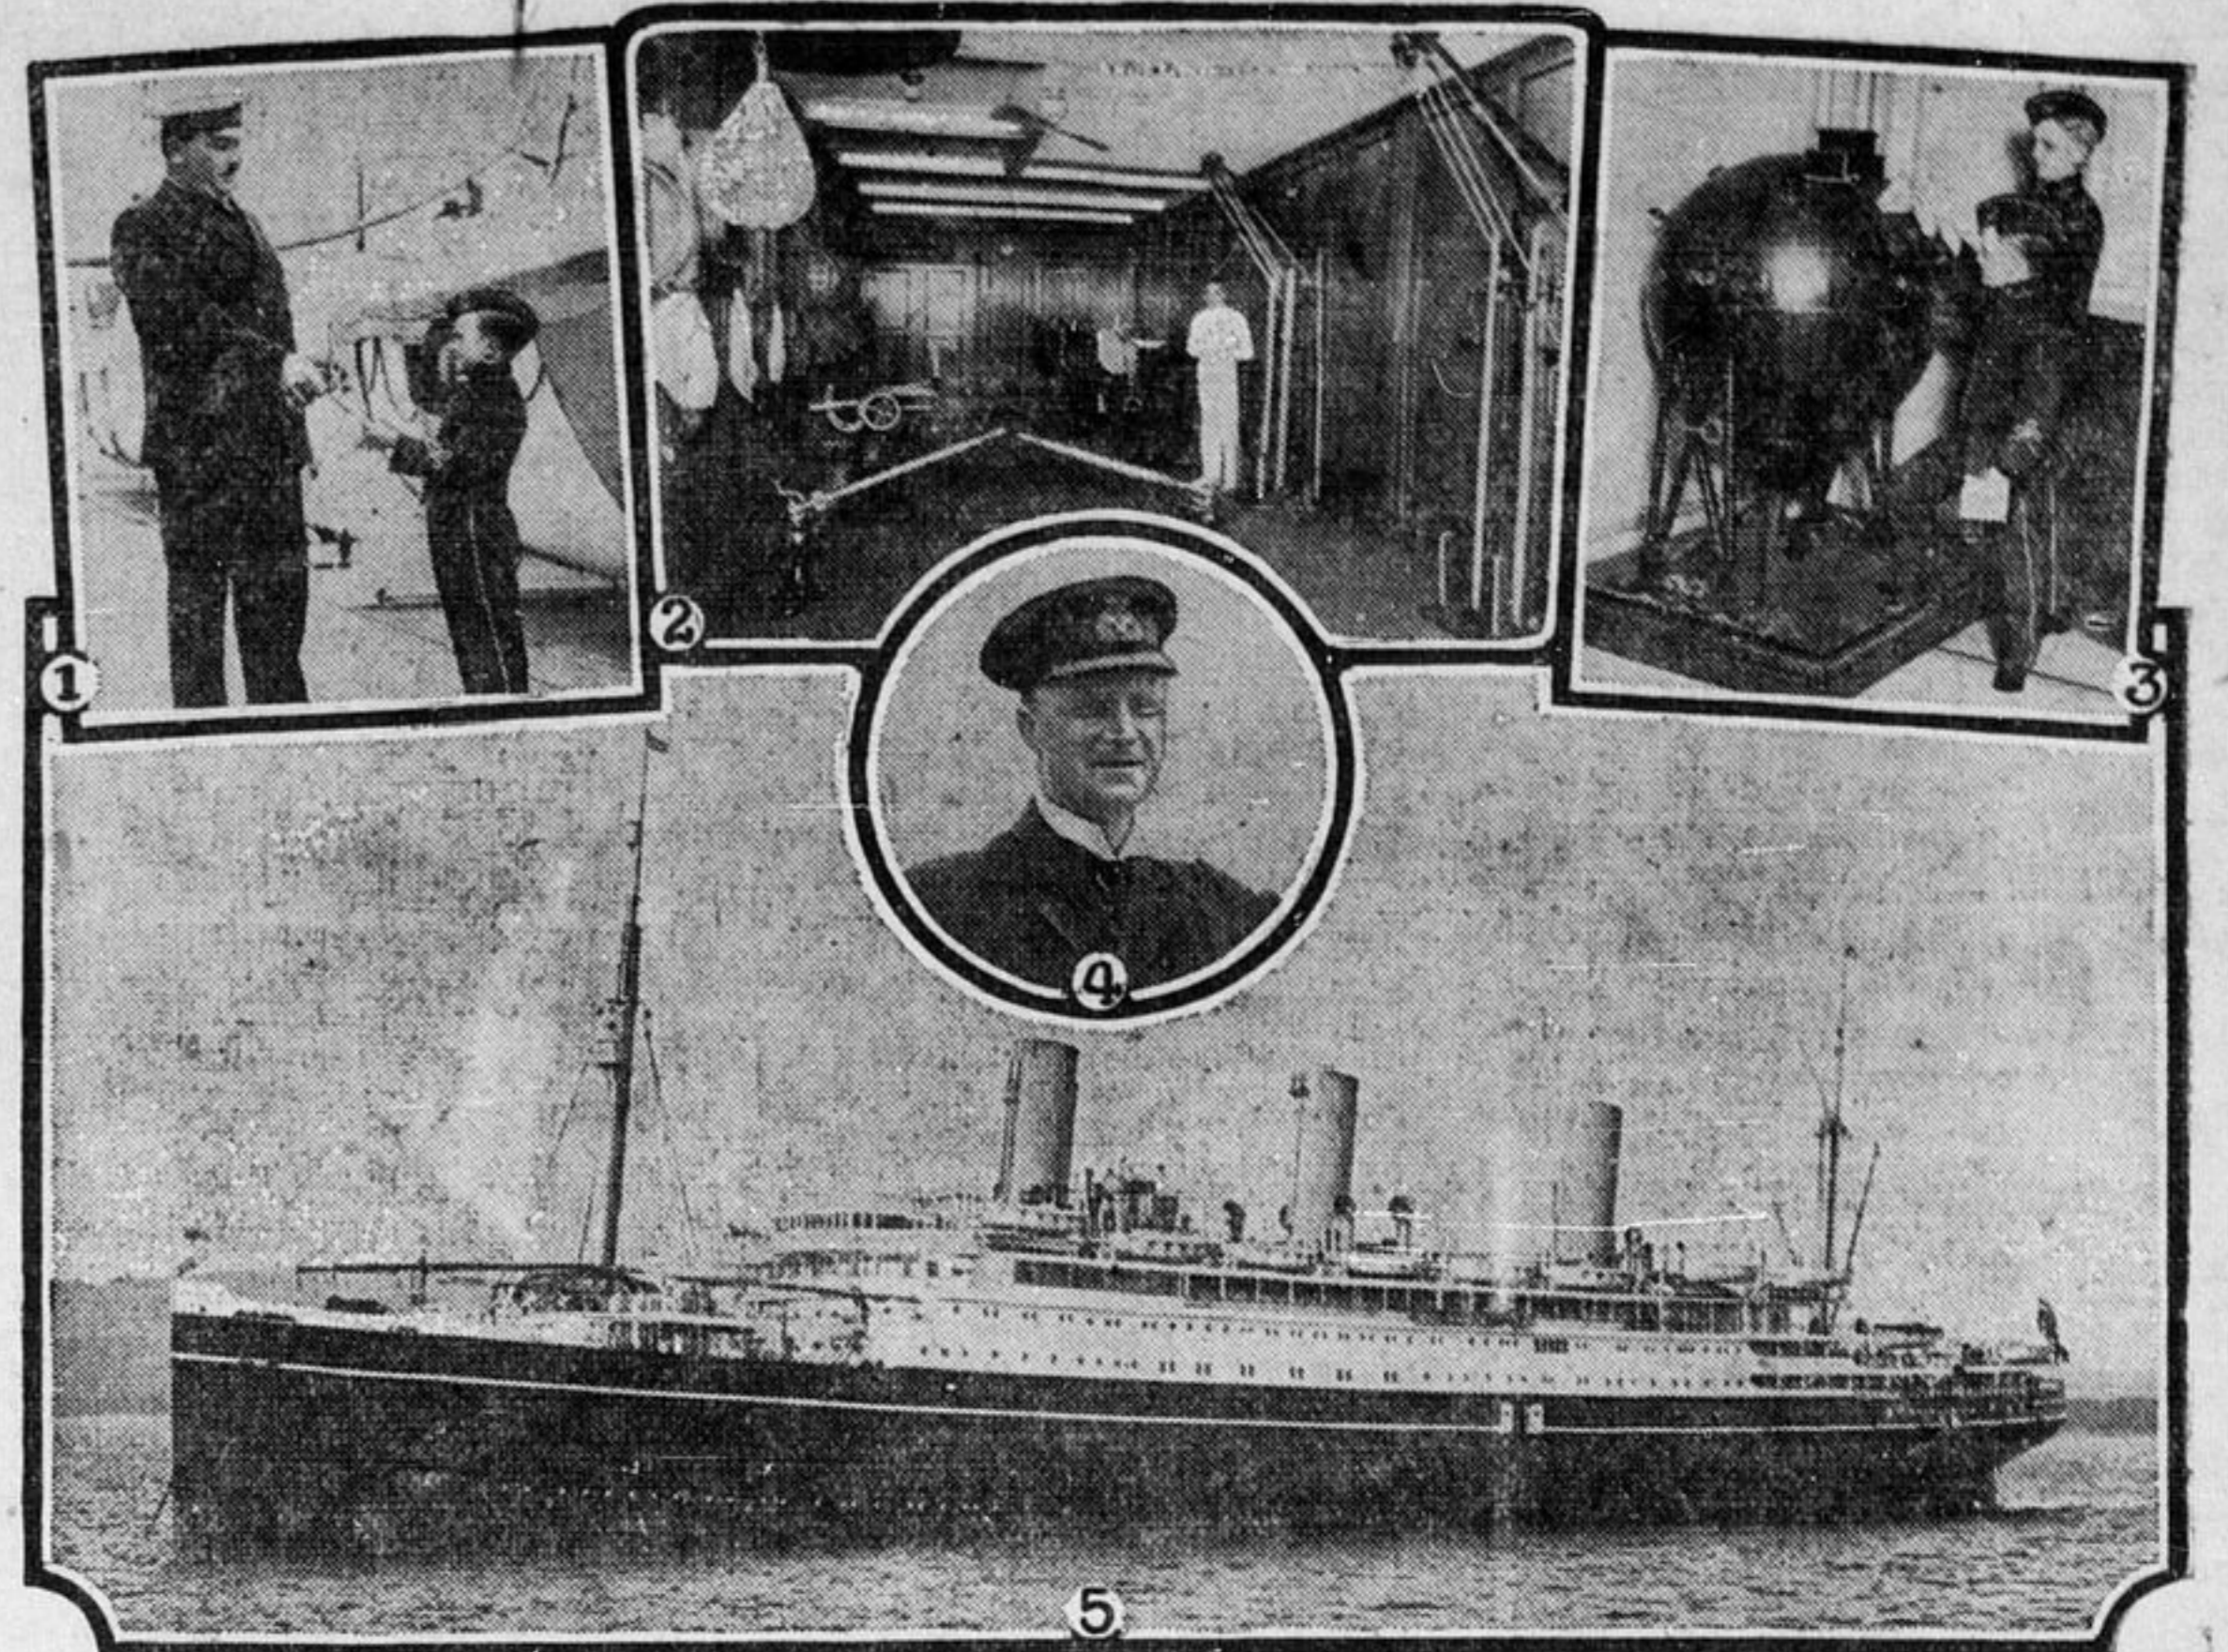

Mr. O. Desjardins asked for a refund to taxes for 1926 on account of vacancies in his buildings, the Windsor Hotel and the property at 11 and 13 Spruce street. The basements, he said had been vacant for a period which was found to average ten months. The mayor was doubtful as to whether the council could do anything in the matter as July 1st had passed and that was the last date that the law seemed to allow for dealing with the previous year's assessment. The application for the reduction had been made in writing on June 30th and Mr. Desjardins thought it should be considered. Eventually the council figured out that Mr. Desjardins would be entitled to around \$50.00 on the Windsor and \$137.00 on the Spruce street property, and the amounts were passed provided the rebates are legally allowable.

Reference was made to the fact that some garages used much more water than others, making a practice of washing cars, etc. Meters should be put in the garages the council thought to see what amount was used. Eventually, a resolution was passed to the effect that meters should be installed in all garages that wash cars.

By-laws were passed for the construction of sewers, waterworks extensions and concrete walks, and for the issuing of debentures or the same.

On behalf of the Timmins Citizens' Band, the council was asked to make Monday, August 1st, civic holiday for the town of Timmins, this being the date of the Band's annual regatta for

Canadian Pacific Pride for Atlantic Service

1. The Tallest Officer and Smallest Bellboy. 2. Interior of Gymnasium. 3. German Floating Mine Forms a Novel Letter-Box on the Ship. 4. Captain R. G. Latta, R. N. R., Commander of the Empress of Australia. 5. Latest Photo of the Canadian Pacific Empress of Australia.

Formerly on the Pacific Service of the Canadian Pacific Steamships Limited plying between Vancouver and the Orient, the Empress of Australia has for the past six months been in Great Britain, in the hands of Fairfield Shipbuilding Company by whom the vessel has been completely re-engined and re-conditioned, so that she is entering the Atlantic service in her new career virtually a new ship.

This luxurious vessel displaces 21,850 tons, and carries 1,176 passengers. In the luxury of her fittings the Empress of Australia is the pride of the Canadian Pacific fleet. Specially attractive are the high-domed dining rooms in the style of the

French Regency and the Louis XIX, smoking room with its oak panels and tapestry decorations. Tourist third class passenger traffic across the Atlantic which is greatly on the increase, is catered to on generous lines, the accommodation provided being equal to what most first class passengers got twenty years ago.

The Australia took her first trip from the Clyde to Southampton in June and answered every test. She developed four knots a hour above her schedule with a fuel consumption less by fifty per cent. At Southampton Mayor P. Boyer, who is also ex-officio admiral of the Port, headed a civic welcome to the ship and was welcomed on board by Sir George

McLaren Brown, European General Manager of the Canadian Pacific.

Under the command of Captain R. G. Latta her second voyage will be honored by the Prince of Wales and Premier Baldwin of Great Britain and Mrs. Baldwin, on July 23. Commander Latta is known to thousands of passengers from all parts of America and the British Isles having been in command of the Round-The-World cruises of the Empress of Scotland. This winter, however, the Empress of Australia will be used as the world-cruise ship of the Canadian Pacific sailing on this well-known four-months voyage to the four corners of the earth from New York in December.

Tisdale Council Discuss Question of Use of Water

Rates for Lawn Sprinkling Purposes Considered. Drinking Fountains to be Placed at Schumacher and South Porcupine. Other Business at Township Council Meeting.

South Porcupine, July 13th, 1927. Special to The Advance.

The Tisdale township council met on Tuesday evening, July 12th. The reeve and Councillors Williams and Laforest were present, some of the other councillors being absent on holidays. After the reading of the minutes a few matters of correspondence were taken up. A request from the Timmins Horticultural Society for a donation towards a cup was not granted. A report was read from a patient in a sanitarium saying he could now be discharged and given light work. It was decided to be wiser to find a job for him before bringing him back. There were a number present re taxes but as it is now past July 1st, these cases cannot legally be dealt with by council but must be taken before the Judge on August 30th. His court will be held at the Masonic Hall on that date and both Clerk and Tax Collector will be present to help tax-payers place their case before the Judge. The by-law to enforce the using of proper sewerage where such is available was passed and will shortly be fully enforced. It also covered the providing of proper drinking facilities in public places, forbidding the use of a common drinking cup. It was decided to place a public drinking fountain both in Schumacher and South Porcupine for the convenience of tourists and the general public. The one in South Porcupine will be located. Somewhere on Bruce avenue, between Main and Crawford streets; the one in Schumacher in the central part of the

town. Costa Fadeorac and a neighbour asked that the road past their place be graded. He has a dairy there and the road at present was merely stumped. This will be attended to. Another party asking for the rocking of Dome avenue, was told it would be given further consideration. The greater part of the evening was taken up in a discussion re lawn-sprinkling and hose rates, etc. Councillor Williams introduced the subject by stating that he believed the rates at present for this were rather burdensome and that people should be encouraged to improve their property. However the other side of the question was also considered, that for the size of the place a large amount of water was being either consumed or wasted in Schumacher where the water is paid for by the gallon by the township. It was stated that so far this summer there has been three times as much used per service as in Timmins while in winter it was five times as much. Owing to this fact and considering the best interests of the township the engineer had been loath to grant any permits for street sprinkling but on the request of Councillor Williams it was decided to grant permits temporarily for those in the business section of Schumacher to sprinkle the streets in front of their premises for a half hour in the morning and again in the afternoon. These permits do not cost anything and must be obtained from the engineer but the possession of a permit does not exempt the party from having to pay the extra rates for hose attachments. There is a case to be tried on this coming Thursday of a party who persisted in sprinkling without the necessary permit and after a warning not to do so. The Reeve intimated that the by-laws were made to be kept, that the water-work would have to be paid for and their use not abused and that infringements would be looked into whatever part they happened to take place. Even with paying hose rates there are certain restrictions as to the time they may be used legally. Pails or buckets may be used for watering a garden without the extra rate being incurred but sprinkling with hose either for cooling the ground or any purpose or the use of lawn attachments require that the extra rate be paid in Tisdale township. The routine salaries and accounts were paid and it was decided to discuss the water sprinkling question more fully when there would be a larger attendance of councillors. Any interested would do well to hear this discussion to find out just what they may do and may not with the water.

A LOT of people saved considerable money last week.

They dropped in at the Hollinger Stores and took advantage of the special bargains being offered all this month.

Something new every day, and genuine Hollinger bargains. They won't last long.

Better come in often.

All Hollinger quality.
Regular stock.

We are clearing up in preparation for Fall Season. That's all. You get the benefit.

MOOSE STAG AND EUCHRE FRIDAY EVENING THIS WEEK

Announcement is made of a Moose Stag and Euchre to be held in the Moose hall, Timmins, on Friday evening, July 15th, at 8.30, for the Moose Relief Fund. Refreshments will be served. There will be good music for the occasion. All can be sure of a very enjoyable time, and the cause is a good one.

Two petitions are being circulated and largely signed in the Sudbury district, asking for a re-opening of the inquest into the death of Mrs. Peter Therrien, whose partly clothed body was found in the river near Espanola some weeks ago. It is claimed that further evidence has been obtained pointing to the murder of Mrs. Therrien.
