—Mrs. L. S. Newton, Mrs. E. Rogers, Mrs. J. D. MacLennan. -30p.

DOMINION CHIEFS HEAR OF NORTH'S FIRE MENACE

Mr. Chas. Jucksch, chief of the fire brigade at Schumacher, is the representative from this part of the North at the Dominion Fire Chiefs' Association meeting which is in session at Hull this week. Reports from Ottawa indicate that the discussions at the meeting are of great interest and value.

Clyde Leavitt, chief fire inspector of the Board of Railway Commissioners, in his paper on the Forest Fire Hazard, vividly described the "menace of the north," and told of measures to combat forest fires. The greatest factor of hazard, he said, arises from general conflagrations having an origin outside populated

centres and covering large areas of forest. To a large extent, towns and villages are surrounded by agricultural lands from which the forest growth must be cleared before cultivation is possible, and in this process fire must be used to clear the debris, and experience has given rise to laws which protect life and property. For towns and villages where complete cultivation of the surroundings is not feasible, experience has again shown the effectiveness of cleared, fire-guards, maintained free of debris. The Ontario Government has aided this to the amount of \$10,000 in 1921 and 1922; \$100,000 in 1923; \$35,000 in 1924 and \$50,000 in 1925-6-7.

CAR STILL SUNK IN BAD SPOT OF NEW HIGHWAY.

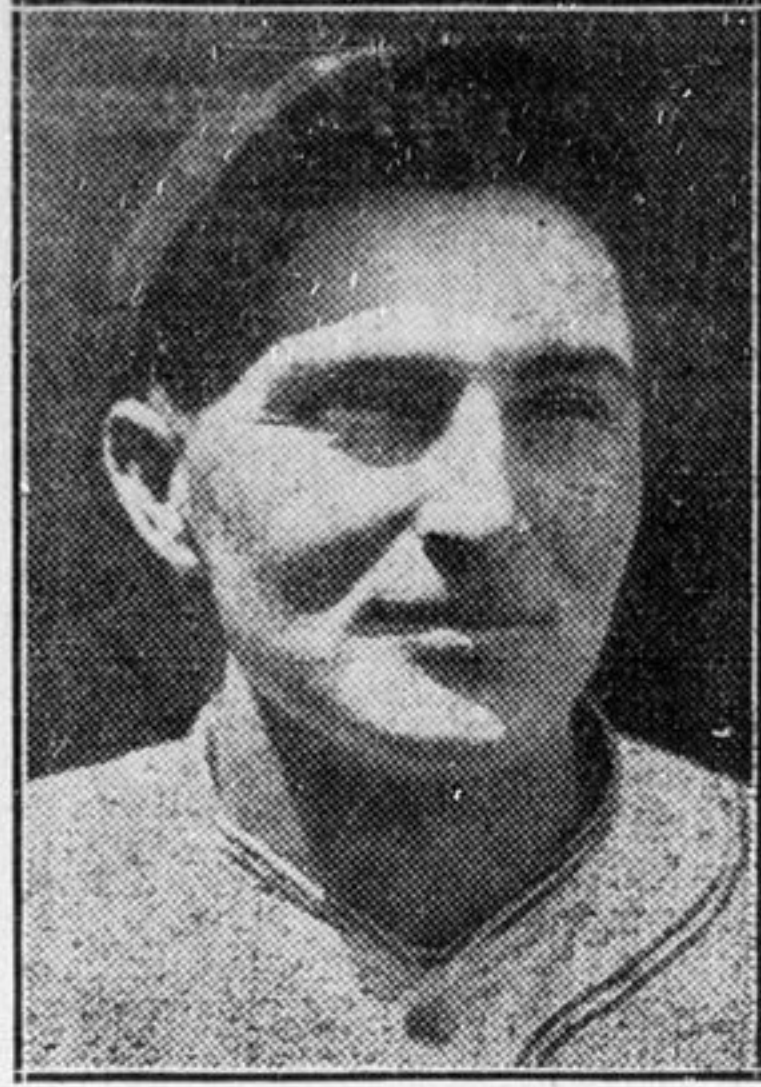

Last week members of the staff of the Northern Development Department were busy trying to rescue the car that went through the bad spot of road about thirty miles north of North Bay on the new North Land highway. So far as can be learned their efforts did not meet with success. They were able to get a grip on the top of the car but when they attempted to raise it from the mire or quicksand or whatever it was where the road gave way, all they were able to bring to the surface were some pieces of the top. The car was held. Some people feared that the accident would turn tourists from the use of the highway but this does not seem to be the case, as the tourists apparently are taking the sensible and proper view that the accident to the road at the one particular spot was simply a sort of freak of nature and that it did not suggest anything against the safety of the road in general. This is quite evidently the fact, and with the detour built at the spot where the car went "out of sight," the tourist traffic on the highway is particularly heavy. As a matter of fact it has never really slackened up from first rust when it was officially opened.

"I'm smoking a terrible lot of cigars lately."
"You certainly are if that's a sample."
—Exchange

"The house needs paint, the wife needs clothes,
The children all need shoes,
Among these needs you may suppose,
It's very hard to choose.
No man could be in a worse strait,
Between two burning fires—
I guess all else will have to wait
For the car sure needs tires."
—Exchange

There was a family called Slightam
Who were afraid that disease germs
would bite 'em.
They ate an apple a day
To keep the doctor away,
But Doc came and brought 'em just
to spite 'em.
—Exchange

Great occasions do not reveal heroes
or cowards; they simply veil them
to the eyes of men. Silently and imperceptibly, as we wake or sleep, we grow strong or weak, and at last some crisis shows us what we have become.
—Canon Westcott.

PAUL WANER

Of Pittsburgh Pirates, is right up with the leaders this season. He is second in batting averages, has scored the most hits this season, and slugged the most doubles and triples in the National League. A first class record for a youngster.

IMMIGRATION TO CANADA

Ottawa, Canada.—Immigration to Canada in the month of May this year totalled 23,941, according to a statement issued to-day by the Department of Immigration and Colonization. This is an increase of 29 per cent. over May, 1926, when the total immigration to Canada was 18,620; and 79 per cent. over May, 1925, when the total immigration to Canada for that month was 13,338.

Last May there were 8,408 British came to Canada, 2,503 from the United States and 13,030 from other countries, as compared with 7,986 British, 2,063 from the United States and 8,571 from other countries in May, 1926.

Immigration for April and May of this year totalled 59,382 or almost 1,000 persons per day for the two months.

In May of this year 5,561 Canadians who had gone to the United States intending to remain there permanently, returned to Canada declaring their intention of staying in the Dominion. These are not included in the immigration figures.

EXPORT AND IMPORT MARKETS

Ottawa, Canada.—Canada is the most important export market of the United States, taking 15 per cent of that country; and the United States, in turn, is the largest market for Canadian goods, taking 38 per cent of the total exports of Canada. Great Britain is second only to the United States in imports from and exports to Canada. During the last twelve months, Canadian imports from Great Britain had a value of \$164,000,000 and exports amounted to \$447,000,000.

A real foreman prides himself on his ability to take a dub and make him an expert.

(Mrs. John Hamilton and children have returned from a visit to California and other points south, and are taking up residence with her husband in Timmins.)

Mrs. Menhadden, who was charged at Timmins with a breach of the O.T.A., and failing to appear in court after several remands, was arrested this week at South Porcupine and will likely have to serve the term imposed on her in her absence from court here. She left Timmins while the O.T.A. charge was pending, but apparently went no farther than South Porcupine, where she was picked up as noted and was to come before the court to-day.

THE MOST IMPORTANT THING

Protection against fire is the most important single forest problem. Its solution rests in an enlightened public sentiment. According to Lincoln, "Public sentiment is everything." With public sentiment nothing can fail; without it, nothing can succeed. Consequently, he who molds public sentiment goes deeper than he who enacts statutes or pronounces decisions. He makes statutes and decisions possible or impossible to be executed."

Ottawa, Ontario.—Canadian employment conditions at the beginning of June showed a more favourable aspect than in any other month since 1920. Approximately 43,896 more workers were employed on June 1st than on May 1st. Statements were tabulated by the Dominion Bureau of Statistics from 6,150 firms employing 876,768 workers at the beginning of the month, as compared with 832,872 on May 1st. This increase of 43,896 workers, or 5.3 per cent., brought the index number to 105.9, as against 105.2 on October 1st, 1926, the previous high level in the last seven years. In the month of May last the index stood at 100.6.

The possession of knowledge does not constitute greatness unless the possessor is able to use that knowledge for the benefit of humanity. Nobody cares a damn what a man knows; it is what he does with what he knows that counts.—Houghton Line. —Exchange

Great Pier Dedicated to Empire Service

1. New C.P.R. Pier at Vancouver. 2. Bronze plaque unveiled by Mayor Taylor of Vancouver. 3. The C.P.R. Docks as they appeared in the early days of this port.

One notable feature of Greater Vancouver's celebration of the Diamond Jubilee of Confederation—and one that no other city in the Dominion can boast of duplicating—was the dedication and official opening of the new \$5,000,000 Canadian Pacific Pier B-C.

The new mammoth pier is the second longest in the world, and was planned with an eye to a prosperous future when Vancouver will be one of, if not the largest, port on the Pacific coast, and designed to accommodate at least two of the greatest world built.

It is a far cry from the first wooden pier built by the Canadian Pacific in the early spring of 1858, when Vancouver was a city of shacks and possibilities to the present pier with nearly 3,000 feet of berthing space available and accommodation for the cargoes of a dozen of even the most modern ocean grey-

hounds. Representing the last word in modern machine construction, the new pier is also notable for the pleasing manner in which the practical has been combined with the artistic.

The Canadian Pacific is interested chiefly in the trade with the Orient, Australia and New Zealand. Although imports and exports are of a mixed character, the most valuable single article is silk. Silk shipments must be transferred from boats to rail with the least possible delay. Facilities embodied in the construction of this pier ensure the rapid and careful handling of all cargoes.

While designed primarily for the use of its own ships, the C.P.R. will allow pier B-C to be used by the ships of other lines. Its length of 1,140 feet permits the docking on either side, of the largest of the present day trans-Pacific boats—the Empress of Canada, 640 feet in length—with a

smaller vessel. Its width of 331 feet permits a moderate sized boat to be docked at the off-shore end at the same time that either or both sides of the pier are in use.

A special feature of the construction of the pier is that a promenade is constructed down each side of the pier leading from the head-house over the roofs of the freight sheds. Connections are made from this promenade to the ships by a long gangway so that passengers may embark or disembark without hindering the freight handling on the lower deck.

In officially opening the pier Mayor Taylor unveiled a magnificent bronze plaque, a gift of private citizens of Vancouver, which bears the following inscription: "Piers B and C. Formally Opened and Dedicated to the Canadian Pacific Empire Service during Greater Vancouver's Celebration of Canada's Diamond Jubilee of Confederation by Louis D. Taylor, Mayor of Vancouver."
