

# RED ROSE TEA "is good tea"

You must try RED ROSE ORANGE PEKOE. A little higher price than other teas, but a real difference in quality. Now packed in Aluminum.

## Canada is Well Supplied With Various Associations

Report Issued by the Dominion Department of Labour Indicates Associations for Almost Every Line of Endeavour. Mining, Lumbering and Pulp and Paper Associations, and Their Objects.

The sixth report of the Department of Labour on Organization in Industry, Commerce and the Professions in Canada, for the year 1927, has much of interest. It shows the extent of organization among the various classes of employers in the Dominion. There are apparently associations for every known field of endeavour. Readers of The Advance may be especially interested in the mining and pulpwood organizations. Among the mining associations listed in the report are the following:—

**Ontario Mining Association (Provincial)**—Organized February 18, 1920. Number of members, 44. Objects.—Among the objects is the promotion and fostering of the business of mining, metallurgy and kindred business and to further the interests of owners and operators of mines and reduction plants, and to render such services and assistance to the members of the corporation and to any of the business enterprises aforesaid as shall be deemed advisable from time to time. Pres. A. F. Brigham, Hollinger Consolidated Gold Mines, Limited, Timmins Sec., G. C. Bateman, 330 Bay Street, Toronto. (Note—Since the report was printed Mr. Harry Oakes has been elected president of the Ontario Mining Association).

**Temiskaming Mine Managers' Association**—Organized February 17, 1909. Number of members 10. Objects.—(1) The advancement of the best interests of the mining industry of Northern Ontario, and for the mutual protection of the members of the association; (2) to ensure the support of the Cobalt Mines Hospital, Ltd.; (3) to assist its members in securing labour and to help the unemployed in securing positions; (4) to bring the mines into closer relationship with each other and to promote mutual interests by social intercourse and discussion. Pres., E. V. Neelands, Mgr. Nipissing Mining Company Limited, Cobalt. Sec., G. A. Cavin, Box 149, Cobalt, Ont.

In lumbering, the Canadian Lumbermen's Association heads the list, being followed by provincial and local organizations. The Canadian Lumbermen's Association have 180 members and is nearly 20 years old. It gives its objects as follows:—(1) To promote the interests and conserve the rights of those engaged in lumbering operations, or in the manufacture, sale or distribution of lumber, to protect its members against unbusinesslike methods in the wholesale and retail lumber trades; (2) to foster such trades and reform abuses therein where they exist; (3) to secure freedom from unjust or unlawful exactions; (4) to diffuse accurate information among its members; (5) to secure uniformity in usage, customs and trade conditions. Pres., Walter M. Ross, J. R. Booth Limited, Ottawa, Ont. Sec., R. L. Sargent, 16 Fraser Bldg., Ottawa, Ont.

In reference to pulp and paper two special organizations are noted:—

**Canadian Pulp and Paper Association**—Organized March 8, 1913. Number of members, 64. Objects.—(1) Gathering, compiling and distributing statistics relating to the industry; (2) standardization of production methods; (3) improvement of the technical side of the industry; (4) protection and perpetuation of the forests from which its raw material is drawn; (5) study of freight tariffs and other subjects affecting the welfare of its members; (6) encouragement of technical study among the industry's operatives and the promotion of efficiency in manufacturing methods; (7) surveying of imports and exports and other conditions tending to affect the industry's welfare; (8) advertising of the products of its members and the promotion of the

domestic and foreign demand for Canadian pulp and paper. Pres., L. R. Wilson, Abitibi Power & Paper Company, Limited, Canada Cement Bldg., Montreal, Que. Sec. Edward Riek, 701 Drummond Bldg., 511 St. Catherine Street West, Montreal, Que.

**Canadian Pulpwood Association**—Organized July 5, 1924. Number of members, 91 active; 15,000 associate. Objects.—Among the chief objects of the association are: (1) To promote Dominion-wide co-operation in all movements aiming at forest conservation, fire protection and improved methods in forestry generally, and in the pulpwood business particularly; (2) to promote investigation and study of all matters of general interest to woodland owners, jobbers and dealers; arbitration in case of disputes affecting members of the association; the making and enforcing of agreements for its members; the collection, classification and distribution to members of all statistics of any value relating to the pulpwood business. Pres., Angus McLean, Bathurst Company, Limited, Bathurst, N.B. Sec., Miss D. P. Munroe, P.O. Box 280, Halifax, N.S.

The report also contains the names of associations whose members are concerned with co-operative buying and selling, among which is the Canadian Co-operative Wheat Producers, the largest wheat marketing organization in the world, handling over 180,000,000 bushels of wheat annually, as well as more than 20,000,000 bushels of coarse grains.

Other associations discussed in the volume include those embracing wholesale and retail merchants, as well as organizations comprised of persons engaged in professional, technical and scientific pursuits. The various associations are divided into the following groups:—Manufacturing, Building and Construction, Mining, Transportation and Communication, Printing and Publishing, Laundering Cleaning and Repairing, Etc., Personal Service and Amusement, General Manufactures and Employers, Financial, Agriculture, Dairying, Horse and Live Stock Breeders, Co-operative Societies, Wholesale Merchants, Retail Merchants, Real Estate Dealers, Professional, Technical and Scientific, Insurance, Funeral Service.

The report points out that in the first eight of the above mentioned divisions, in which are included the associations whose members are engaged in industries in which the employment of help is essential, there are 374 main and branch associations, with a combined membership of 44,925. Some of the employers included in these groups have agreements with the corresponding organizations of work people covering the conditions of employment in their respective

establishments. In the remaining twelve groups the employment of labour is in some cases only incidental, and with the exception of the retail merchants' section there is no corresponding body of organized employees. Although the bulk of the associations whose names appear in the report are purely Canadian, several are affiliated with organizations whose headquarters are in the United States.

The figures presented in the report show that there are in the Dominion exclusive of the co-operative group which numbers 1,155 societies with 474,160 members, 1,300 associations, with a combined membership of 1,024,364. The total number of all classes of associations whose names are given in the report is 2,455, an increase of 514 over those recorded in 1926, the main addition being to the co-operative group, to which 352 societies have been added. The total combined membership of all classes of associations is 1,498,524, an increase of 259,712 over the number recorded in 1926, when there were 1941 associations with a combined membership of 1,238,812.

### RICH COPPER FOUND NEAR NEW LISKEARD LAST WEEK

The extent of territory in this North Land in which copper may be found is indicated by an item in The New Liskeard Speaker last week in regard to what that paper terms a "Rich Find Near Home." The paragraph from The Speaker is as follows:—"Messrs Cameron, Kirkland and Lefriener, prospectors, have discovered what they believe to be a rich copper, zinc and lead mine in the Township of Bailey, about 12 miles from Tomstown."

### THREE RESCUED IN FOUR DAYS FROM DROWNING

Inside of four days recently Haileybury saw three rescues from drowning. A man named Duchesneau, released from a short stay at the district jail, attempted to get a drink from the lake and fell in head-first. His cries attracted the attention of Mr. J. W. Willis, of North Bay, who was in Haileybury in connection with an I.O.O.F. Encampment meeting. Mr. Willis jumped into the lake without hesitation and rescued Duchesneau in short order.

The second rescue was that of Mr. R. A. Kerr, who himself has a Royal Humane Society medal for life-saving, having saved a man from drowning in the Lachine canal some years ago. Mr. Kerr went out for a sail in a small dinghy. Hit by a squall the boat swamped, the tiller broke and Mr. Kerr was adrift on the lake. He was two hours in this position before he was rescued by Mr. Bruce Jemmett, of the Temiskaming Navigation Co., and some others. Mr. Jemmett also figured in another rescue on Wednesday last week when he pulled Kenneth Philbin out of the lake at the Haileybury wharf. The boy fell into the lake from one of the slips, and Mr. Jemmett jumped in the water, fully clothed, and effected a rescue. Kenneth, who is only about six years of age, is none the worse for the accident, but it was only the prompt and able work of Mr. Jemmett that prevented a tragedy.

Parson—"You love to go to Sunday school, don't you, Robert?"  
Bobby—"Yes, sir."  
Parson—"What do you expect to learn today?"  
Bobby—"The date of the picnic."

**Stop Bleeding AT ONCE PREVENT BLOODPOISONING WITH DOUGLAS' EGYPTIAN LINIMENT**

HON. ERNEST BLYTHE

The Irish Minister of Finance, who has undertaken the duties of Vice-President of the Irish Free State, in place of the late Kevin O'Higgins, who was recently murdered.

### RECORD TIME IN GETTING PASSPORT AND PASSAGE

The Haileyburian last week says:—"When Miss Charlotte Brooks, public health nurse here, received the news on Friday last that her brother Edward, was seriously ill in England, she made a fast trip from here, catching the first steamer out of Montreal and is now nearing the bedside of the sick man. On receipt of a cable from the hospital where Mr. Brooks is a patient, owing to his previous war service, Miss Brooks learned that the C.P.R. liner Montelare was due to sail from Montreal on Saturday at 10 a.m. She had only a few hours to arrange for the trip, but by the assistance of railway officials and others she was able to get away and catch the boat. The question of a passport was solved through a telephone call by Mr. Mac Lang to the Immigration Department at Ottawa, and what is known as an "emergency passport" was issued and delivered to Miss Brooks on the train. An official of the C.P.R. at North Bay was called up and he arranged for her to be met at Montreal and directed to the ship, as she had not taken a trip of such length before. Her tickets were secured at Cobalt and she left on No. 2 of the Canadian National on Friday evening, arriving in Montreal in time for the Montelare. Mr. Brooks sailed on June 3rd, last, for a trip to England. It was learned by his brother and sister here that he was not well, but they had no intimation that his illness was so serious until Friday."

### TIMMINS TAX RATE WILL LOOK SMALL IN COMPARISON

Anyone who has studied Einstein's theory of relativity, and some who have not made any such study will know that everything is comparative. Accordingly, it may be said that, compared to Cobalt, Timmins has a very small tax rate. In Cobalt this year the tax rate will be 80 mills on the dollar for public school supporters. At that, Cobalt's tax rate is said to be slightly under the previous year's rate.

### A.S.D. MIDSUMMER DANCE AN ENJOYABLE SUCCESS

The Midsummer Dance held by the A.S.D. Club on Friday evening last was a very successful affair. The event was held in the McIntyre Recreation Hall, Schumacher, this hall having the largest floor space of any dance hall in the Porcupine District. There was a large crowd present for the event, and every one reported an excellent time.

The best of good music for the dancing was provided by Tommy Stevens and his red coats. The orchestra responded to the insistent demands for more in a very creditable manner, this being about the chief contributing factor to the success the evening proved to be.

The programme consisted of the usual waltzes and foxtrots, and an excellent luncheon served about midnight by the members of the Club.

The most successful dance held for some time was concluded at three o'clock with the home waltz and the National Anthem.

Don't talk about your abilities. Demonstrate them.

There's only one quality of **MAGIC BAKING POWDER** and that's the highest. Made in Canada. **NO ALUM**. E. W. GILLET CO. LTD. TORONTO, CAN.

The subtle flavour and fresh crispness excel all others
