CAN FIGHT MOSQUITOES

Draining ponds and marshes or pouring crude oil over such places is known to be one method of controlling malaria by preventing the breeding of the malaria-bearing mosquitoes. However, in summer resorts and at coun try clubs it is not practical to do this. Another method is to stock the ponds with small fish that eat the larvae of the mosquitoes, reports Hygeia.

The edges of the ponds must first be cleared of willows, water grasses and floatage so as to leave a sharp bank that the fish can swim up to.

The Rouyn Miner last week says:-"Bill Hermiston, manager of the O Brien properties in Cadillac, wandered into Taylors' Limited, at Amos, the other day and made a general inspection of the stock. He told Miss Sabourin that he had come for something but could not remember if it was a casserole or a camisole. She said she would do her best to help him if he could tell her if the chicken was thing but ice and rocks. He has been politically, socially and financially, in alive or dead."

Any one from the north who visits Toronto is struck by the absolutely appalling ignorance of Northern Ontario displayed by the Toronto citizen. He has not yet got it into his head that Northern Ontario is anytold often enough what Northern Ontario is like but it has no effect and needs something to wake him up. It is curious but a fact that United States citizens take more interest in Northern Ontario than do the people of Southern Ontario.

Northern Ontario more than does Ontario capital. Such summer resorts as Lake Temagami have a much larger number of United States campers than of Ontario people. In every way Southern Ontario seems lethar- Seven Young Ducks Born Near Comgic as regards the northern part of the province. It needs something to rouse them.

When the Hon. Wm. Finlayson suggested the crusade to Toronto it caught the fancy of the Northern Ontario people for they saw the effect it must have on the people of the south. If Northern cars can drive to Toronto, Toronto cars can drive north. Instead of being a million miles away they will know after September 6th that it is at their door. well cared-for. The other three met It will lead to big tourist traffic, to an influx of the right kind of settlers, and foolish people. Just why it was to the investment of a much larger amount of capital and in every way things against all the laws of sense be a big thing for Northern Ontario. and the law passes comprehension, but It will be equally as big for the south, as it makes Southern Ontario realize the opportunity for settlement and investment presented by the North.

The big trek of Northern Ontario with Parliament Buildings at Toronto.

derful. The dinner given by the city would alone be worth going down for, for it isn't every day that the ordinary man gets the chance to sit down to a dinner where there are 2,000 banqueters, among them being the biggest men, the province of Ontario. It is a wonderful opportunity for everyone who has a car and more than that it is a pleasant duty to show the Government that we appreciate their building of the highway.

United States capital flows into WILD DUCK NOW RAISING

pressor Plant. Four of Them Now Thriving Well.

Among the new arrivals in Timmins his year were seven young wild ducks. Their mother, a wise old duck, started to raise her brood on the lake near the Hollinger compressor plant where the wild geese stopped this spring on their migration to the far north. Of the seven young wild ducks only four are now living, but they are thriving well and appear happy and death at the hands of some senseless necessary to slaughter these wild there are apparently people who have no more decency and good sportsmanship than to uselessly kill when com-North. or this season. The following is a summary of Fri- SCOTTY MCPHERSON HURT IN TORONTO BALL GAME

Three Stitches Required to Close Wound Made by Spikes of Another Player's Shoes.

From information given to The Advance by Mr. V. Chadwick, manager of St. Joesph's Juniors at Toronto, "Scotty" McPherson, star defence man of the Timmins Juniors hockey team, while playing ball for St. Joseph's Juniors at Toronto, received a very painful injury which required three stitches to close up. The worst cut was on the chin, but he also had cuts on the lip, nose and left eye and it will be quite a while before his face looks normal again. Scotty was playing second base and when a runner attempted to slide while stealing second, Scotty tagged him for an out, but the player kicked his feet in the air, and in doing so his spicked shoes struck McPherson's face. After resting for a day or so in the hospital, it is hoped that Scotty will be around again. In the meantime, however, the manager says that the loss of McPherson cripples the team, but they are carrying on nevertheless and will still be in the play offs.
