

Keep Your Hens Everlastingly on their Job

Put them on the Ful-O-Pep Egg Mash ration. Do it today. Make them steady producers—eager to lay. Get more eggs, bigger eggs, more profits.

Ful-O-Pep Egg Mash contains Cod Liver Meal, which forces the other ingredients to work directly and more efficiently on the egg-producing organs. Nothing like the Cod Liver Meal to get the most out of feeds.

Ful-O-Pep Egg Mash has the correct amount of mineral, and laying hens need lots of mineral for egg shells as well as their own nutriment. The base of all Ful-O-Pep feeds is high quality oatmeal—not just ground oats.

Keep Ful-O-Pep Egg Mash before your birds all the time. Cold weather and short daylight won't cut down production, because Cod Liver Meal supplies the element of sunshine. Old hens and new layers both become steady, vigorous profit-makers. Ful-O-Pep Egg Mash gets you lots of strong-shelled eggs, all through the season when prices are highest. Keeps birds everlastingly on their jobs.

Cheap Rural Insurance Now In Effect in the North Land

Farm Buildings That Are Good Risks Have Rates About Cut in Two by New Plan. Government Inspectors to Explain to Applicants the Exact Conditions Under Which Risks Will be Taken.

At the last meeting of the Northern Ontario Associated Boards of Trade, Mr. C. W. Wright, of Englehart, once more brought forward the hardship under which the farmers of the North Land suffered in the matter of fire insurance. He pointed out that the fire of 1922 had wiped out the mutual fire insurance company conducted by the farmers of that part of Temiskaming, and rates were now so high as to be prohibitive. Indeed, the fire companies did not appear anxious for North Land farm risks at any rate. At first there was a tendency on the part of the majority of the members of the Associated Boards to consider the case hopeless. There did not seem to be anything that could be done in the matter. Eventually, however, Mr. C. W. Wright was authorized to form a committee, with himself as convenor, to take the whole question up and see if anything could be done to relieve the situation.

Since then it has been very conclusively shown that the situation was not beyond remedy in part at least. Through the co-operation of Mr. A. J. Kennedy, M.P.P., the provincial government has been interested, and a plan adopted whereby rural insurance rates are practically cut in two. The plan in force may not meet all the situation, but it does a great deal, and effort should now be continued to have the whole situation remedied so far as this North Land is concerned.

In the battle for a fair deal for the farmers of the North Land, The

New Liskeard Speaker has taken a leading part, undeterred by all discouragements. One of these discouragements might be mentioned as the political sneers of papers like The Toronto Star. In a recent issue The Star mentions the reference of The Speaker to the plan whereby the agricultural development board will inspect the farming properties applying for insurance, assume the risk and collect the premiums, but in co-operation with regular insurance companies, among whom the larger risks would be distributed. The Star then proceeds to suggest that the Ferguson Government can not put such a plan into effect because it would not appeal "to the financial friends of the administration." Such a plan The Star suggests would be too "Liberal" in character for a Conservative Government. To this, The Speaker makes very complete reply. The Speaker says:—

"The Speaker is not interested in the political aspect of this insurance scheme, nor do we believe the Temiskaming farmer cares whether it be Liberal or Conservative 'in character.'"

"We have reason to believe that with Government officials to make the inspections risks which are not as safe as the average risks on farm buildings in Southern Ontario will not be taken. Ever since the great fire our farmers have been handicapped by an intolerably high insurance rate. The result has been a falling off of insurance on farm buildings. There are thousands of farm buildings in Temiskaming which are as safe risks as the safest in the Province, but which are not insured. With extra heavy taxes in this new country, and an insurance rate which is intolerably high the farmer simply had to run the risk of being burned out."

"Under this new insurance plan it is probable that inspectors will explain to applicants for insurance the exact conditions, and the only conditions under which risks will be taken. Then it will be up to the applicant to comply with the conditions, or have his application turned down. If inspectors do their duty in this regard, the Agricultural Development Board will, in all probability, not only be able to make a fifty per cent. cut in the present rate in insurance on farm buildings here, but will realize a profit at the same time."

"In connection with the foregoing we might say that Mr. Farrow, chairman of the Agricultural Board, arrived in New Liskeard on Tuesday evening, and spent Wednesday with Mr. W. H. Cruickshank, who is the Board's Inspector. On the 22nd there is to be a conference composed of the Inspectors of the Northern District. This conference has been called by Mr. Farrow and it is presumed that a chief topic for discussion will be in regard to valuations."

"Also, we might say that the Rural Insurance scheme for the Northland is now in effect and that applications are being considered."

KIRKLAND LAKE BOY MET DEATH IN MONTREAL FIRE

Clayton McDonald, a thirteen-year-old boy from Kirkland Lake, was one of five persons who met death in Montreal last week in a fire that destroyed three houses. The Kirkland Lake lad was in Montreal on a visit to his grandfather, Mr. Jas. McDonald. Mrs. Jas. McDonald and daughter, Emma, and another relative, Gordon McDonald, aged 16 years, also lost their lives in the fire, as did Videnco Colletto, who resided in a house near the James McDonald home. An enquiry into the fire is now being conducted. The late Clayton McDonald was a son of Mr. A. R. McDonald, formerly reeve of the township of Teek and well known in the North Land.

RYPAN PORCUPINE MINES MAY RESUME OPERATIONS

According to reports now current the Rypan Porcupine Mines are planning to resume work on the property in the immediate future. The Rypan Porcupine Mines property is situated in North Deloro, in the same area as the Paymaster, Ankerite, March and other promising properties. In years past there was a considerable amount of work done on the Rypan, and the results were understood to be very satisfactory. The property has been idle for some time past, but this has been generally taken to be for other reason than any fault in the claims so far as they were developed. Recently, the whole Deloro gold region has shown very material progress in development, and accordingly the Rypan have special additional encouragement to resume operations on the property at this time.

The Waukesha correspondent of The New Liskeard Speaker last week says:—"Mr. Chas. Vertlieb, B. A., graduate of the University of Pennsylvania of Philadelphia, Pa., is visiting his uncle here. He also expects to visit Timmins and Montreal before returning home."

ORGANIZATION MEETING FOR THE K K K AT COBALT

The Northern News last week says: "Upwards of 40 citizens were present at a meeting held at the Orange Hall, Prospect Avenue, on Wednesday night to hear Mr. J. S. Lord, M. P. P., Charlottetown, N.B., explain the ideals and purposes of the Knights of the Klu Klux Klan, of which order the speaker is the Imperial secretary."

Following the address opportunity was given for any member of the audience to ask questions. Announcing that the advisability of forming a unit of the K.K.K. in Cobalt was to be considered the speaker asked all who felt that they could not see their way to becoming a clansman at the present to leave the hall. The invitation was accepted by the majority, about a dozen remaining to further discuss the matter."

Safety Deposit Boxes

THE purpose of a Safety Deposit Box is to keep your valuables safe from accident and from theft and to relieve you of worries:

Where are my policies?
How can I keep these records?
What will we do with the Bonds?

The Safety Deposit Box is the "cranny hole" of the grown up,—it is yours; it is secret; it is secure!

Somehow the evening never seems complete without this fine old ginger ale

To THINK of entertaining is to think instinctively of "Canada Dry." For there is something about this fine old ginger ale which adds a bit of distinction to every occasion and makes your home, indeed, a pleasant place to be.

The very sparkle of this famous and honored drink brings memories of some well-remembered visit to a great hotel or exclusive club. Just to pour it forth into the long-stemmed glasses is to give new charm to napery and silver and add a cheery, joyous note to the bridge game, the dinner, or the dance.

So it has been said that the evening never seems complete without this Champagne of Ginger Ales. It accentuates a welcome... lingers in a farewell. "I've had a lovely time" is no idle, empty phrase when recollections of truly pleasant hours warm the parting handclasp.

In all the world there is no beverage so sure to please so many people as "Canada Dry." The witchery of a wonderful flavor has made it the outstanding beverage success of all time.
