

Moysey Service in Mining Stocks

It's a hard thing to describe just what we mean by Moysey Service

Probably our clients could do it better.

We are willing and able to assist our clients to help them make money through intelligent investment.

The desire to help is born of a friendly interest in the welfare of those whose business is entrusted with us:

and the ability to do so is born of knowledge and experience accumulated over many years and supplemented by a network of private wires into every mining camp of importance in Northern Ontario and Quebec.

Our advice, based on facts, may be of distinct value to you.

Is your name on our list to receive our Market Despatch each week? It will keep you well posted. Mailed free on request.

GOLD OUTPUT FOR JULY BREAKS ALL THE RECORDS

Total Recovery of Gold in Ontario Mines for Month of July Amounted to \$2,805,71300

Returns received by the Ontario Department of Mines from the gold mines of Ontario for July show increases in both quantity of ore milled and value received. The total value of the recovered bullion was higher than for any previous month, while the tonnage was slightly below that of the peak month of May.

Seven mills were active in Porcupine and eight in the Kirkland Lake area, in which is included the Barry-Hollinger at Boston Creek and the Argonaut in Gauthier Township. The Canadian Associated Goldfields at Larder Lake operated their mill in July, but did not produce bullion until August.

Output of Ontario Gold Mines, 1926-27

Source and period:	Total value*	Crude bullion
Porcupine—		
Calendar year 1926	\$23,810,700	
Average per month	1,984,225	
January, 1927	1,926,908

Total for April, 1927	2,663,298	
Total for May, 1927	2,782,954	
Total for June, 1927	2,672,165	
Total for July, 1927	2,813,989	

*Figures include the silver contained in the crude gold bullion marketed, but not the gold recovered from nickel-copper matter. The value of the silver contained in the crude gold bullion sold in 1926 was \$149,717, or an average of \$12,476 per month.

During July, producing mines in order of output were as follows:

Porcupine (7)—Hollinger, Dome, McIntyre, Vipond, Ankerite, Paymaster, and West Dome Lake. Kirkland Lake (8)—Lake Shore, Teek-Hughes, Wright-Hargreaves, Sylvanite, Kirkland Lake, Barry-Hollinger, Argonaut, and Tough-Oakes-Burnside.

Receipts of crude gold bullion from Ontario at the Royal Mint, Ottawa, for July totalled 150,004.82 crude ounces, containing 113,603.97 fine ounces of gold, and 18,919.22 fine ounces of silver, having a total value of \$2,358,994.30.

SIR HENRY THORNTON SAYS CANADIAN PRESS ALL RIGHT

An editorial article in The Montreal Star last week says:

"It is not the custom of the daily press to go about seeking tributes to its honesty and integrity; nor are such tributes a common occurrence in the routine of the newspaper world. But when a public man of such prominence as Sir Henry Thornton sees fit to testify to the fair play he has received at the hands of the newspapers and newspaper men of Canada, there is legitimate excuse for expressing satisfaction. Sir Henry evidently picked his words, for they reveal a deliberateness that is not accidental. He said, in an address at Winnipeg yesterday: 'It is my honest opinion that no country has a more courageous, a cleaner, a fairer, more honest press than the Dominion of Canada.' That is an high eulogy indeed, and coming from a man who has often been the target of severe criticisms in the press, it is all the more significant. The Montreal Star, among other newspapers, has had occasion from time to time to differ from Sir Henry Thornton on matters of public moment. But it would be worse than ungracious on our part not to acknowledge the gracefulness of his tribute to the press of this Dominion. Sir Henry is a man who can give and receive hard knocks without any feeling of animus. He has the courage of his convictions at all times, and what he says he means. If the newspapers of Canada are fair, it must be said also that men of Sir Henry Thornton's stamp make the work of newspaper criticism a less irksome and less embarrassing task than it might easily be, and make it possible to oppose the policy of a great railway chief while holding the man himself in the highest esteem."

WOMAN METALLURGIST ON EMPIRE CONGRESS TOUR

Among the experts on the Empire Mining and Metallurgical Congress tour of Canada is one woman—Miss C. F. Elam, M.A., D.Sc., of South Kensington, England. Miss Elam is on the staff of the Royal School of Mines at South Kensington. She is also the holder of one of the two travelling scholarships provided by Sir Robert Hadfield to the Iron and Steel Institute and the Institute of Mining and Metallurgy. A despatch from Montreal last week refers to an inter-
