

TREASURER'S SALE OF LAND FOR TAXES TOWNSHIP OF CALVERT District of Cochrane

TO WIT:
By virtue of a warrant issued by the Reeve of the Township of Calvert bearing date the 2nd day of August A.D., 1927; sale of lands in arrears for taxes in the Township of Calvert will be held at the Municipal Hall of Ansonville, Ont., at the hour of Ten o'clock in the forenoon on the 12th day of November A.D., 1927, unless the taxes and costs are sooner paid. Notice is hereby given that the list of lands for sale for arrears of taxes is being published in the Ontario Gazette on the 6th, 13th, 20th, and 27th day of August, 1927, and that copies of the said list may be had at my office.
TREASURER'S OFFICE
This 20th day of August, 1927.
PAUL DUBE,
Treasurer.

INTENSIVE ACTIVITY NOW EXPECTED AT MARCH GOLD

Deloro Property Will be Re-opened at Early Date and Intention is to Go After the Ore.

Intensive activity is expected soon to be under way at the March Gold Mines in Deloro township. It is understood that when the property re-opens in the very near future a new plan is to be followed from the method in use at the time of the close-down. It is not intended to re-open the mill for a time, but rather to go after ore. A large amount of ore will be placed in sight, before milling is resumed, the idea being to have ore on hand to keep the mill going steadily once it starts.

Accordingly, the first attention will be given to underground development

work. A shaft-sinking contract is to let this week it is understood, and the present shaft will be put down to the 700-ft. level.

Under the re-organization of the March Gold, Mr. Bernard N. Hyman has been appointed manager of the property. In referring to this appointment a correspondent writing to one of the outside newspapers says:—"In Bernard N. Hyman, recently appointed general manager of March Gold under the plan of reorganization a new and interesting figure has been introduced to Ontario mining. Mr. Hyman is a Buffalo millionaire whose rise to fame and fortune has been among the most spectacular spectacles in the realm of finance in New York state. Not long ago Mr. Hyman achieved fame by purchasing a large tract of land on the Canadian side of the Niagara River close to the approach to the Peace bridge, conceiving the idea of subdividing it into small lots and reselling it to Americans at fancy prices for purposes of "Canadian residences." It is reported that Mr. Hyman and his associates won several fortunes by this plan. With his flair for organization it is known that he has in mind some extensive plans for his new mining enterprise the progress of which will be watched with interest throughout the camp." The progress of March Gold under the re-organization plan will be followed with keen interest.

A new air compressor and an electric hoist have been added to the equipment of the property and other changes and additions made. The whole property has been brightened and improved by painting and renovating of buildings, etc.

The March Gold, Limited, has about 300 acres a mile south of the Dome and south of the Ankerite, in Deloro. Shaft No. 1 is down 800 feet, and No. 2 is sunk to 300 feet. The company has great belief that the mine will show improved richness of ore below the 300-ft. level. The property is financed by Buffalo interests, the original group of shareholders being connected with the police force and other municipal services of Buffalo.

A taxi driver from Kirkland Lake reports having made the run from North Bay to Swastika in 4 hours and 25 minutes. Several other records of similar type are reported. Speed of this sort on the Ferguson highway is a danger not only to the speeders but others using the highway. As the distance is 170 miles, this record is clearly over the legal rate of speed, and in such cases the provincial police should take action, if they are not too busy. This sort of record is the least desirable thing imaginable.

OPPORTUNITY HERE AGAIN TO IMPROVE EDUCATION

Vocational Classes at Timmins High School to Start on Tuesday Evening, Oct. 3rd

Again, the Timmins High School, through the evening vocational classes, is offering an unusually good opportunity for all to improve their educational standing and to better their prospects. For those wishing to improve their knowledge of English the courses are especially helpful. English for foreigners is taught by Mr. J. A. Bash, and English (second year) by Miss Rutherford. Conversational French is taught by Miss O'Reilly. The arithmetic class is in charge of Mr. Lowery. Miss Quinn will have charge of the course in chemistry and blowpipe work for prospectors, while the geology for prospectors will be taught by Mr. Ringsleben or Mr. Dunbar. Mr. Henry will have charge of the class in mechanical drawing. There will be two classes in sewing and dressmaking, in charge of Mrs. Andrews. In the business courses, Miss Gowan will teach stenography and typewriting, and Miss Graham the bookkeeping and business practice.

Enrolment for these courses may be made this (Thursday) evening from 7.30 to 9 o'clock at the principal's office at the high school.

The fees for each of the courses is merely nominal (\$3.00), and even this small fee is returned to the student at the end of the term if 75 per cent. of the classes are attended in the subject taken. The evening vocational classes will be carried on at the high school until Easter.

THANKSGIVING DAY AND ARMISTICE DAY ON NOV. 7

Monday, Nov. 7th, is announced as Thanksgiving Day and Armistice Day for this year for the Dominion of Canada. A proclamation to this effect was issued at Ottawa last week. Legislation at Ottawa some years ago decreed that the Monday in November nearest to Armistice Day (Nov. 11th) should be observed as Thanksgiving Day and Armistice Day throughout Canada. The date was to be confirmed by proclamation. According to the calendar Nov. 14th would be the Monday nearest to Armistice Day (Nov. 11th) but the proclamation settles the question by naming Monday, Nov. 7th, as the day for observing public thanksgiving for the year and commemorating the anniversary of the peace that was supposed to close the world war.

PORCUPINE-DELORO GOLD MINES SYNDICATE FORMED

Announcement is made of the formation of a new organization to be known as the Porcupine-Deloro Gold Mines Syndicate. This syndicate is understood to be comprised of English capital with the addition of some money from New York men. The syndicate plans to explore and develop a group of forty claims in Deloro township. These claims were staked and held on behalf of a group of Timmins men. It is understood that an intensive surface prospecting and exploring programme is to be carried through at once. A gang of men started work on the property some days ago. It is said that about 26 veins are exposed on the claims, and the present plans are along the line of systematically exploring and developing these veins and testing out the possibilities of the property.

PULLED FIRE ALARM AND THEN RETIRED TO DRESS

Janitor Showed Good Taste and Judgment, but it Caused the Firemen Some Anxiety.

At 2.05 on Monday morning there was an alarm of fire sent in from Box 14, and the firemen made their usual speedy response. When they arrived at the alarm box, however, there was no one there that could tell them where the fire might be and there was no fire visible. It looked like a false alarm, but Chief Borland and his men were taking no chances, and made a hurried examination of every place in the neighbourhood. In the meantime Costable Parcher had located the caretaker of the Goldfields theatre block who said he had turned in the alarm. He had been alarmed by smoke in the basement of the building and had run out in his night attire. "Why didn't you stay at the box until the fire brigade arrived, so that you could give them the exact location of the fire?" he was asked. "Well, you see, there was a big crowd gathered soon," was the reply, "and I thought it would be better if I would go and get some more clothes on." The janitor accordingly had fled before the crowd, with the intention of getting into his boots and trousers before the brigade arrived. The response made that impractical. The only way to be dressed for a fire is to do like the firemen do,—dress on the way.

The cause of the alarm was the pipes of the furnace and the chimney being on fire. The fire back-fired, and threw open the vent door at the bottom of the chimney, the flames coming out there in spurts. This is what particularly alarmed the janitor who did not wait to take chances,—or to dress,—but promptly sent in the alarm. All of which showed good judgment and good sense. However, there was no damage done, and no danger, the pipes and chimney being of the fire-proof variety.

The next regular meeting of the town council is scheduled for Monday afternoon, Oct. 10th, commencing at 4 p.m.

HARVEST THANKSGIVING SERVICES AT ST. MATTHEW'S

The Harvest Thanksgiving services at St. Matthew's church will be held on Sunday, Oct. 2nd. The church will be specially decorated for the occasion, appropriate to the harvest season, and there will be special music and special sermons fitting for the event. Holy Communion at 8.30 a.m., and after the 11 o'clock service.

RECEPTION AT MONTEITH FOR MR. AND MRS. REDMOND

The many friends of Mr. P. J. Redmond, of Iroquois Falls, will be interested to hear of his recent marriage at Montreal, Que. On their return from the honeymoon Mr. and Mrs. Redmond were tendered a reception last week by Mr. Harry Johnson, of Monteith, and other friends in the district. The event was held in the town hall at Monteith, the building being beautifully decorated for the event. The wedding presents were evidence of the esteem in which the young couple are held. The social evening included dancing for which a noted Iroquois Falls orchestra—the Footwarmers—supplied the music. A very pleasing luncheon was served during the evening. Many friends and acquaintances in Timmins and district, where Mr. Redmond is well known on account of his active connection with sports, will extend very general and sincere good wishes to the young couple at this time. Mr. and Mrs. Redmond have taken up residence on Buckingham avenue at Iroquois Falls.

FERGUSON HIGHWAY ADDS TO INTEREST IN NORTH

That the Ferguson highway has proved of great value to the North as a means of communication with the south and for transportation purposes goes without saying. There are other ways, however, in which the highway is proving of great value. One of these ways is suggested by the following paragraph from the financial page of The Toronto Mail & Empire:—

"Visitors who are touring the mineral areas of the North Country, in larger numbers than ever before, are returning with highly enthusiastic reports concerning what they have seen, and the vast wealth producing possibilities of the Northland. When these first-hand reports are communicated to their friends and business associates, back in their own homes, it needs no wild flight of imagination to visualize the eagerness with which outsiders are going to begin absorbing the representative Canadian metal shares. The Ferguson Highway apparently has opened up the way to the Golden North and proof of this is evidenced daily on the exchange."

Kirkland Lake has a baby's go-cart picked up on the street some time ago, and still unclaimed by any owner. The police are worried over the matter, as the go-cart is no use to them at present, and they fear the owner may need it.

ATTENTION HOUSEHOLDERS
Wrap all Garbage in paper. Keep your Garbage can covered. Use plenty of Chloride of Lime which can be procured at the Town Hall, free. Householders using well water must boil it for at least 20 minutes. All outside toilets must be made 4y proof.
By Order of THE BOARD OF HEALTH
