

NOTABLES TO BE HERE WITH WINNIPEG PARTY

Some of the Members of the Manitoba Chamber of Mines to Visit Timmins on Oct. 23 to 25

Among the members of the party who will visit Timmins Oct. 23rd to 25th on the tour of the North by the Manitoba Chamber of Mines the following will be noted with special interest:—Lieut.-Col. R. H. Webb, D.S.O., mayor of Winnipeg; Hon. W. R. Clubb, Minister of Public Works for Manitoba; Dr. R. S. Wallace, Mining Commissioner for Manitoba, and other prominent citizens of the West.

Hon. Chas. McCrea, Minister of Mines for Ontario, will meet the party, presumably at Timmins on Sunday, Oct. 23rd, and will likely remain with them during the greater part of their tour of the mining areas of Ontario.

Some notes in regard to these visitors may not be out of place.

The Ontario Minister of Mines is known too well to need any introduction, and the good work he has done for the advancement of the North Land and its mining industries speaks for itself.

Lieut.-Col. Webb, as well as being mayor of Winnipeg, is president of the Manitoba Command of the Canadian Legion. He has always taken an interest in public affairs, while his attention and assistance in regard to the Legion has been especially keen and helpful. In the Great War he had the misfortune to lose a leg, but apparently there was none of his interest or his loyalty or his public-spirited energy in that leg. As mayor of Winnipeg he has become noted as a booster of Canada in particular and the West in particular. He has travelled extensively in the United States, "preaching the gospel of the Canadian West," and he has made many friends by his breezy exposition of what Canada has to offer. In every address he has been very apt in saying something which leaves its impress on his hearers. He is noted for his frankness, but his addresses lose nothing by this.

Dr. Wallace is professor of geology in the University of Manitoba, and this year was named Mining Commissioner, combining for the present the duties of Mining Commissioner with those of his work in the university. Manitoba hopes eventually to take over the complete control of its natural resources and then a department of mines will be created in Manitoba. Dr. Wallace has done extensive work in the pre-Cambrian areas of Manitoba and no one knows the country better than he does.

Hon. W. R. Clubb is Minister of Public Works for Manitoba. He is very highly esteemed in Manitoba as an aggressive and efficient Minister of a very important department of the government.

ALL VEHICLES MUST CARRY LIGHTS AT NIGHTS NOW

Monday evening a man driving a wagon in Moneta was surprised and puzzled at first when a police officer called to him to ask where his lights were. The man had failed to read the newspapers and learn that beginning on Saturday, Oct. 1st, the law requires all vehicles to carry lights. The fact that he had not read and heeded the notices came close to costing that man several dollars. "Ignorance of the law is no excuse," according to a well-established legal saying. No other stand is possible, for otherwise everyone would defy the law and excuse themselves by claiming they did not know the regulations. It is incumbent upon all to know the law.

As announced previously in The Advance all wheeled vehicles must carry lights when on the roads after sunset and until sunrise. All horse-drawn vehicles, according to the regulations of the new law, must carry a light showing white at the front and red at the rear, and visible at 200 feet. In the case of vehicles to which lights cannot for some cause be attached provisions are made in the act for the use of reflectors similar to those now used on bicycles. The purpose of the act is not only to prevent the frequent collisions of motor vehicles with unlighted horse driven vehicles, but to safeguard the lives and property of persons using horse-drawn vehicles on the roads after dark.

Toronto Star Weekly:—We notice that these fellows who are complaining of the present day and praising the good old times are not trading in their motor cars and buying yokes of oxen.

IT IS EASY TO SEE THAT THIS DUCK WAS NO GOOSE

An interesting little natural history anecdote comes from Fort William where a party of hunters tell about how a mallard duck outwitted a wise old owl. The duck was swimming on the lake, while an owl was watching it from a perch on a rail fence near by. The hunters noted that the owl was casting large covetous eyes upon the duck. A passing auto startled the duck and the latter rose in the air from the water. The owl gave chase, and the duck kept flying rather low, until the owl was ready to pounce upon its prey. Then the duck suddenly headed straight down. The owl naturally followed after. The result was that the duck got into the water and easily made its escape, while the owl, which does not take to the water like a duck, got wet and excited and was so powerless in the water that the hunters were able to capture it. The hunters brought back to Fort William the wise old owl as proof of their story. The mallard duck is free and happy yet in its native air and water, while the wise old owl is in a cage, thinking over the probability that owls are not so wise as their solemnity suggests.

ATTENTION HOUSEHOLDERS

Wrap all Garbage in paper. Keep your Garbage can covered. Use plenty of Chloride of Lime which can be procured at the Town Hall, free.

Householders using well water must boil it for at least 20 minutes. All outside toilets must be made airtight.

UNITED CHURCH SOCIETY HOLDING GRAND BAZAAR

Biggest of Its Kind Yet. Will Occupy Two Days, Friday and Saturday, Nov. 18th and 19th

In the past there have been successful and enjoyable bazaars held by organizations in connection with the United Church of Timmins, but the event planned for Friday and Saturday, Nov. 18th and 19th, bids fair to surpass all previous events. For this big bazaar practically all the organizations in connection with the church are going in with the Ladies' Aid and the Girls' Club to make the two-day event one of outstanding importance. The big two-day bazaar will be held in the basement of the United Church on Nov. 18th and 19th, and already plans are well under way for making the occasion one of particular interest and importance. There will be many booths and a large variety of goods on display. Amusement features and novelties will also form a part of the programme planned. This is the first time that a two-day event of this kind has been arranged by the organizations concerned, and the idea is to make this bazaar double in success just as it is double in length of time. The various committees concerned are actively engaged at present in the work of preparation for the event.

SALE OF BAKING AT THE DOME LIKE IT USED TO BE AT HOME

The United Church Guild at the Dome Mines, is to hold a tea on old-fashioned lines. There will be a sale of home cooking as well as the tea, and on the success of the event all will agree. It will be held at the Old Dome School, and a pleasant time will be the rule. The date for the feature, so they say, will be October's twenty-sixth day. This is Wednesday week after next, and all who miss it should be perplexed. All are invited to partake of cake just like mother used to make. You are certainly sure of a better time, than the quality of this bum rhyme.

Lady—Aren't you the same man I gave a piece of cake to last week?
Tramp (sadly)—No, ma'am, I'm not. And what's more, the doctor says I never will be.—Ideas.

GIRLS' CLUB PRESENTING HIGH-CLASS CONCERT HERE

A rather unusual concert is to be presented in the Masonic hall, Timmins, on Tuesday evening next, Oct. 18th, under the auspices of the Girls' Club of the United Church. The artists on the programme will include not only popular favourites among the musicians of Timmins, but also leading artists from Winnipeg, London, Sault Ste. Marie and South Porcupine. A very attractive programme has been prepared for the evening, and the concert will undoubtedly be a very enjoyable one throughout. The proceeds of the event are to go to charitable and church funds.

GIVEN TWO MONTHS FOR AN UNPROVOKED ASSAULT

At police court last week, Henry Lapine was sentenced to two months in jail for an unprovoked attack upon Mr. M. J. Tinkess the evening previous. The accused was with his brother and another man, they apparently having taken a little more liquor than was good for them. They piled some blocks on the sidewalk in front of Mr. Tinkess' house and when he asked why this was done, Henry Lapine without warning or excuse struck him in the face. The unexpected blow damaged one eye of the man attacked. The accused admitted the offence, and as he had served time previously for another assault, the court naturally could not view the unwarranted attack with much leniency. The other two young men were fined for being drunk. The three were arrested a few minutes after the offence had been committed, the police doing prompt and efficient work as soon as the offence was known.

HIGH-GRADE GOLD FOUND IN ROAD WORK AT ROUYN

During construction of roads and sewers and waterworks trenches at Timmins in past years gold has been encountered on more than one occasion. This fact has been noticed in the newspapers and has aroused very flattering attention sometimes. Of course, it had no especial significance further than to show that this was a gold area. None of the streets here were rich enough with gold to make them worth while working in any other way than for their use as roads. The finding of an odd trace of gold was interesting and odd, and it sounded rich to talk about gold being even in the roadways. In Rouyn similar experience is being encountered, only much more so. There, in at least two places, it is said, gold was found where sewers and waterworks were being put in, the gold thus discovered showing \$19.00 and \$21.00 in gold to the ton, according to the assays. The gold in the streets of Rouyn, however, is not likely to be worked, though the matter is naturally of interest, especially to outsiders, who feel after reading about such discoveries that Rouyn is assuredly a wonderfully rich camp.

All things being equal, men stick to those who stick to them.—The Colgate Clock.

A traffic policeman at a busy crossing saw an old lady beckon to him one afternoon. He held up a dozen motor cars, a dray and two cabs to get to her side. "What is it, ma'am?" he said rather impatiently. The old lady smiled and put her hand on his arm. "Officer," she said in a soft voice, "I want to tell you that your number is the number of my favorite hymn."

A great man is one who can have power and not abuse it.—Henry L. Doherty.
