

**A TRICKY QUESTIONNAIRE**

(Boston Transcript.)  
From a letter received from an organization helpful to the immigrant we learn that among the questions asked of these unfortunates are: "How many feathers has a goose?" "How long is a string?" "How many feet has an American cat?" "The alien is supposed to say he does not know," this letter goes on. "But how little such questions take into account the motion of the prospective immigrant. America is a strange, vast country. Perhaps an American goose has only just so many feathers. Perhaps there are regulations about the length of a string in America. Perhaps cats in America—it is all very bewildering."  
We make no comment upon this: whether or not the test is a fair one let our readers judge for themselves.

**DOME'S NEW DISCOVERIES REFERRED TO AS NEW MINE**

**Believed That Recent Finds Have Doubled the Life of the Dome Mines**

A very interesting despatch from South Porcupine was displayed on the A. E. Moysey & Co. bulletin board this week. This despatch starts off by saying that if recent developments continue to shape up as they are doing, there is every likelihood of Dome Mines becoming a regular "new mine." Officials of the company are very reticent concerning recent discoveries, but usually well-informed mining engineers are authority for the statement that "it's a regular new mine," as it were, and that the finds are in the greenstones. The despatch gives further information to the effect that the recent discoveries in this formation extend right from the grassroots. Dome Mines (says the despatch) has been attracting a lot of attention lately, but little official information has been available. Considerable ore has been located on the upper levels which has served to extend the life of the known ore bodies beyond expectations. Sufficient ore has been located to permit of the property closing the present year in a satisfactory manner. In addition to the extension of the present ore bodies some new finds were made, and one on the eleventh level served to act as a sweetener for the low grade ore coming from the upper levels on account of its richness. Exploration recently has been largely on the 3,000 foot level toward the east, to what is considered the favourable sedimentary section of the property. It is understood that no outstanding discoveries have been made so far in this week. The work here is in porphyry, and it is reported that this has widened out. In this event it is possible that the sediments at this depth have been cut off by the widening of the porphyry and if such is the case it will mean that a long drive may be necessary into the Dome Extension to pick up another area of sediments.

Miss Sadie Farrell, of Toronto, visited friends in town last week.

**MCINTYRE BOWLING LEAGUE WINNERS FOR LAST WEEK**

**Yorke's, Starr's and Arnott's Teams the Ones to Win Out in the Games Last Week**

On Tuesday last Yorke's pin tossers won three points from the McIntyres. Monaghan rolled high for the winners, 644 pins, and Capt. MacMillan rolled high for his team, 667.

| Maes        |     |     |     |

Arnott, 4 points; Weber, 0.

**ANOTHER GOOD DANCE BY THE AMBULANCE BRIGADE**

There was a good attendance at the masquerade dance given by the St. John Ambulance Brigade in the Hollinger Recreation hall on Thursday evening last. All present had a very good time. Those attending, however, very evidently came to dance, and did not enter into the masquerade idea to any extent, there being only eight in costume. The costumes, however, were good, and the St. John Ambulance Brigade not only gave out six prizes promised, but they added two specials for the two young ladies in costume who had missed a place on the list of prize winners. These special prizes were free admission tickets to the January dance of the St. John Ambulance Brigade. The winners of the six prizes were as follows:—Ladies, first, Mrs. Forrester, as "Miss Winter"; second Miss Mercy, as "Night"; third, Miss Jackson, as "Colleen"; Gentlemen, first, Mr. Beard, as "Turk"; second, Mr. Aspin, as "Radio"; third, Mr. A. W. Snow, as "Nigger." Tommy Stephens and his orchestra furnished good music and lots of it for the evening, the music being a specially good feature. Another good feature was the lunch served by the ladies of the Brigade.

**URGES PRESERVATION OF FISH AND GAME RESOURCES**

In an open letter to sportsmen, Mr. Jacob M. Dickson, president of the Isaak Walton League of America, speaks the following wise words to all sportsmen and others:—  
"No one can rightfully claim to be a true sportsman who is dominated by a spirit of selfish gratification, and pursues his own pleasure with a disregard of the rights of mankind. When game and fishes seemed to be inexhaustible in our country so lavishly endowed by nature, such a spirit seemed innocuous and was not reprehensible. What seemed indestructible has in many respects reached the vanishing point. Now there is but a remnant left of our rich heritage. What then but rarely attracted attention, except from the few endowed with wise prevision of what would come to pass, is now not merely a blunder but a crime to ourselves, to posterity, and to civilization. The sportsmen of the country, who of all others, best know the conditions and the pernicious forces at work, and appreciate what, if not arrested, will surely come, are of all our citizens those who should arouse not only themselves, but, by their insistent activity, the whole country to instant co-operation to loyally support all wholesome laws for protection of our forests, our streams, our coasts and their denizens; and where no such laws exist, then to bring about their speedy enactment and rigid enforcement."

**HOURS FOR CHILDREN AT MR. FIELD'S SKATING RINK**

Mr. Field's skating rink, established this year for the children of the town, is doing a land office business. Each day the rink is crowded every available minute, and the boys and girls are certainly grateful to Mr. Field for giving them this chance at wholesome and healthy sport. The rink is situated on Hollinger avenue, across from the C.A.S. Shelter, but it is used by youngsters from all over town. Mr. Field has arranged certain hours for the children, so that all may have a chance to enjoy the rink. The hours are as follows:—  
From 4 to 5 p.m., for children under ten years of age.  
From 5 to 6 p.m., the rink has to be free for cleaning off.  
The hour from 6 to 7 p.m. is reserved for hockey.  
From 7 to 8 the rink is for the use of children under 16 years, part of this time being for girls' skating.  
From 8 to 9.30 is for children over 16 years of age.

**GOLD MAY SOON FLOW FROM UNITED STATES TO ENGLAND**

A cable from London, England, this week says that financial optimists say gold may flow from New York to London before the year's end and prophesy a reduction in the British bank rate. Exchange experts calculate that the American gold export point is now about \$4.89 3-16, thanks to the lower shipping rates for gold.  
The Treasury and the Bank of England probably would welcome a spell of cheap money in the new year to pave the way for a favourable conversion of maturing war bonds but unless the Bank of England's theory of proper proportion between reserve and liabilities is lowered a reduction of bank rate would require favourable conditions on the United States side and co-operation of the Federal Reserve Board.

This view is confirmed by The London Times, where the financial editor declares that hopes are running high of gold from the United States to Europe and that such a flow resulting from purely exchange conditions would be an event of great importance, marking a fresh stage in the establishment of post-war economic equilibrium.

The Haileyburian last week says: "Gordon Elkins returned last week to Timmins, where he has secured a position."

**DOUBLING UP IN THE MATTER OF EXCUSES**

A little story now and then is relished by the wisest men, said Solomon. Here's another. Solomon!  
A firm kept a book in which each employee was required to write his name every morning together with the time of his arrival and any excuse he might have for being late. The first man to come always gave as his excuse, "Train late," and the others followed suit by writing "ditto."  
One morning when the usual number of dittoes had followed the first man's alleged excuse it was seen that the latter had written, "Wife had twins."

**NOTED STARS APPEARING IN "MONTE CRISTO" HERE**

The special at the Goldfields on Friday and Saturday of this week will be "Monte Cristo." Because of the drama itself and because of the popular stars in the cast, this special should prove especially attractive.  
What is probably one of the most widely read novels in the world is "The Count of Monte Cristo," which was written by Alexandre Dumas about one hundred years ago. Despite the fact that the technique of the novel has advanced greatly in the last hundred years, Dumas' masterpiece still remains one of the most called for books in the public library.  
Translated to the screen about three or four years ago by Fox Films, with John Gilbert, Renee Adoree, Estelle Taylor and William V. Mong, in the stellar roles, the picture created a sensation at the time. In fact, the tremendous demand to see this masterpiece again has induced Fox Films to reissue it.

**COMMUNITY SINGING AND CHRISTMAS CAROLS**

**To Feature Next Band Concert to be Held on Dec. 18th in the Goldfields Theatre**

The band concert in the Goldfields theatre on Dec. 18th will be the Christmas feature for this year. Work is now under way to make the programme a memorable one. There will be a number of special selections by the band, all the numbers being particularly appropriate for the Christmas season. Popular Christmas carols are to be specially featured and it is hoped to have the audience join in the singing of some of the better-known carols, the band playing the accompaniments. When Brigadier Taylor, S.A., was in Timmins a couple of years ago he remarked on the excellence of the community singing here and urged the people to do more of it. As Brigadier Taylor is a musician of recognized high standing having been in charge of the noted Salvation Army Overseas Band that made such a decided impression when it toured the Old Land after the war, his words are worthy of particular attention. The popularity of a similar event here also prompts the band to put forward this special feature for the Christmas concert. In addition to the instrumental numbers and the community singing, there will be vocal and other numbers appropriate to the Christmas season by local artists of special talent. At the regular monthly meeting of the Timmins Citizens' Band on Monday evening the members were unanimous in expressing their intention to make the Christmas band concert to be held on Dec. 18th the very best yet.
