Mrs. A. E. Donovan and Mrs. J. Kyle left on Tuesday for Rouyn to visit some friends there. Mr. McLeod is carrying on Mrs. Kyle's business until her return.

Delegates from South to Reach Here Wednesday Evening, March 7th. Curling Arranged for Them That Evening. Business Session on Thursday Next. Banquet by Timmins Board of Trade and Kiwanis in the Evening.

The quarterly meeting of the Northern Ontario Associated Boards of Trade will be held at Timmins on Thursday of next week, March 8th. Delegates from the south and from a distance will arrive on Wednesday evening, and for these curling games have been arranged at the rink here.

This was the decision of the Timmins Board of Trade at its annual meeting last Thursday evening. On behalf of the Timmins Board of Trade Mr. M. Boivin at the last meeting of the Associated Boards had invited the Associated Boards to hold their next regular quarterly meeting here. The date was left by the president to the Timmins Board of Trade, and Thursday, March 8th was selected by the meeting last week.

The business session of the Associated Boards will be held on Thursday, there being morning and afternoon sessions. Many important questions will be before the Associated Boards. Among the resolutions from Timmins will be suggestions to the Government for the consideration of the matter of building an extension of the T. & N. O. to Kapuskasing, passing through Kamiskotia, and also request for Government consideration of the idea of a belt line of roads for the North. This belt line of roads would connect Timmins and Sudbury, open up a great section of new country, rich in scenery, fish and game, minerals and timber. Another resolution from the Timmins Board of Trade will be in reference to the question of the care of indigents. This resolution will ask the Government to assume responsibility for indigents from unorganized territory in the same way that the Dominion Government does in similar unorganized territory in its line.

On the evening of Thursday next, March 8th, the Timmins Board of Trade and the Kiwanis Club are combining to give a banquet to the visiting delegates. The event will be held in the Empire Hotel and will be a very attractive affair, a programme of much interest being prepared for this event. Mr. D. Ostrosser kindly agreed to look after the sale of tickets for this event to local business men and others. The tickets may be secured from Mr. Ostrosser or from members of the Kiwanis Club and the Board of Trade or at the door on the evening of the event.

Mr. C. W. Wright, of Englehart, is the president of the Associated Boards of Trade. He is a live wire, capable, energetic and public spirited. Under his presidency the Associated Boards of Trade should prove of even

greater benefit and value than in the past, and it assuredly has been a very helpful organization. It includes all the Boards of Trade of all the towns of the North Land, including Cobalt, Haileybury, New Liskeard, Englehart, Matheson, Kirkland Lake, Iroquois Falls, Timmins, Ansonville, Cochrane, Hearst, Kapuskasing, and other centres.

At each meeting of the Associated Boards of Trade there is a live and helpful discussion of all topics of interest and importance to this North and the Government has come to look upon the Associated Boards of Trade as more or less what a former president, Mr. R. A. McInnis, often urged that it be made,—the Voice of the North.

FACTS OF INTEREST

Exports of cheese from Canada for the twelve months ended October 31, 1927, totalled 117,818,500 pounds valued at \$22,667,501. Most of this cheese found a market in the British Isles. Exports of Canadian butter in the same period were 3,527,400 pounds valued at \$1,317,593.

It is estimated that Prince Edward Island, the smallest of the nine provinces of Canada, will have a total production of potatoes this year of 8,000,000 bushels. A considerable percentage of this crop will find a market in the United States.

The sugar beet crop in southern Alberta this year, it is estimated, will yield between 45,000 and 50,000 tons, the largest crop in the history of the industry in Alberta. Last year's crop was 41,000 tons.

There are 1,310 flour mills in Canada, with an annual output of over 17,770,000 barrels, of which about 10,500,000 barrels are exported.

For the twelve months ended October 31, 1927, Canada exported 4,188,974 gallons of fresh cream and 3,842,175 gallons of fresh milk having a combined total value of \$8,131,002. Practically all of these dairy products went to the United States.

Temiskaming Telephone Co. Take Over Phone System Here

Telephone System Only Sold by Porcupine Power & Telephone Co. Lighting and Power to be Carried on as Before. Temiskaming Telephone Co. Now has an Extended Series of Services in This North.

At midnight last night the Temiskaming Telephone Co. took over the telephone system only of the Porcupine Power and Telephone Co., in the Towns of Timmins, Schumacher, South Porcupine, Porcupine, and in the townships of Tisdale and Whitney, the sale being arranged recently. Mr. P. R. Craven of the Temiskaming Telephone Co., was in Timmins this week from the head office of the company at New Liskeard, seeing to the final details in connection with the transfer of the system.

It is understood that the sale of the telephone business, so far as the Porcupine Power and Telephone Co. is concerned, was induced by the fact that the company is chiefly interested in lighting and power. "The sale of the telephone system does not in any way affect our other business in the Porcupine camp—our lighting and power business being carried on under the names of the Porcupine Power & Telephone Company, Limited, and the Northern Canada Power, Limited," said Mr. B. V. Harrison, general manager of the Canada Northern Power Corporation, Limited, this week. "The Temiskaming Telephone Co. will continue to supply telephone services and assume any obligations entered into by us in connection with this department. In Timmins, the Temiskaming Telephone Co. will occupy the full second storey of our new building, and in South Porcupine they will occupy the building in which the exchange is at present located."

With the addition of this system to the Temiskaming Telephone Co. the latter company covers this part of the North in the telephone line and assumes an important place indeed as a public utility. The Temiskaming Telephone Co., whose head office is at New Liskeard, now has exchanges at the following towns:—New Liskeard, Cobalt, Haileybury, North Cobalt, Silver Centre, Gowganda, Kirkland Lake, Cheminis, Rouyn, Noranda, Clerique, Larder Lake, Elk Lake, Boston Creek, Swastika, Uno Park, Earlton, Charlton, Englehart, Pearson's Landing, Schumacher, South Porcupine, Timmins, Tisdale, Whitney and Kapuskasing. In addition to the services in these places, the Temiskaming Telephone Co. has lines to North Temiskaming, Guiges, Ville Maire, Judge, Thornloe, Milberta and other

centres. The Temiskaming Telephone Co. started in a small way in 1905, and the fact that it has grown to its present proportions, practically covering this whole big area of the North Land, suggests that it has prospered by good service and filling a need in acceptable way.

"How did you sew up courage to propose to the rich Mrs. MacTavish, Sandy?"

"Losh, mon, 'twas awfu'! I'd sworn I'd do it come Monday night, so I took her for a ride in a taxi-cab, and wi' ane e'e on the meter tickin' awa', I had her won as the end o' half a crown."

A news item mentions the case of a New York man who started life as an errand boy and has now been made an editor. This just shows the danger of starting life as an errand boy.

Through Canada's Inland Ocean

1. The Great Lake Steamer S.S. Assiniboia, of the C.P. Fleet which carries its passenger through the land of charm.
2. Serving a little bovril during the trip. 3. The passengers companions and well-wishers of a bon-voyage.

The Great Lakes for a summer holiday have no equal. Contrary to the generally prevailing opinion that the automobile and touring and camping are a greater attraction, these large bodies of fresh water, really inland seas, are holding their own, indeed, by those who know it is said that they are doing more.

From Port McNicoll to the Head of the Lakes, is practically an ocean voyage. The great white steamers of the Canadian Pacific Railway are operated the same as the huge ocean liners. At Port McNicoll the visitor sees a man made harbor, surrounded by a village which has been developed from the original within the last twenty years. About an hour and a half after leaving port, a bugle sounds the dining call, and going below the traveller finds the dining-room spacious and comfortable which greatly whets the already huge appetite.

After dinner a promenade of the broad white decks, as motionless as the city streets, but with what a difference! The fresh clean breeze stiffens, the sun strikes the horizon and sinks in blazing splendour leaving behind a sense of peace and well-being. Host upon host of graceful white-spread wings appear over the stern, crying the poignant call of the hungry gull. So still they are as to appear motionless, a floating bit of white feather; but a chance opening of the cooks galley port hole brings them swooping down, screaming with the wildness of the blizzard, with a strength and speed that is amazing.

Land slowly disappears, and the islands are lost in the soft enfolding darkness. Stars come out, and a white moon floods the lake with an ethereal beauty. All is quiet—a friendly intimate quiet—broken

here and there by a merry laugh, a passing footstep, the throb of the great engine and the spark on the wireless up above. A little later we pass the protruding Bruce peninsula, then the Manitoulin Island, the home of the Great Spirit. In the distance can be seen the blinking light of the mariners' guides, the light-houses at Cabot's Head, Lonely Island, the Flower Pots and in the further distance ah ad, Cove Island, the marking point of the entrance to Lake Huron.

These steamships, the "Keewatin", "Manitoba", and "Assiniboia" of the Canadian Pacific service are first-class in every way, and ply these inland waters from May 21st, to September 28th. The journey occupies the better part of three days, with every wave bringing further charm and amazement at the unfolding beauty of the trip.
