

Promising Claims Held by Guthro-Monck Syndicate

Properties Near the Picard in the Red Lake Area to be Developed. Work Planned to Prove Claims. Report by Engineer C. B. Dawson on the Properties.

A syndicate known as the Guthro-Monck Syndicate has been formed to develop a group of very promising claims in the Clearwater Lake area of the Red Lake mining district. The capital of the syndicate is four thousand units of a par value of \$50.00 each. The holders of several claims concerned, John K. Massie, Ernest Stevens, Dr. R. H. Brown, Walter L. Monck, John Guthro and John T. Thomas, all of Timmins, are taking two thousand shares in the syndicate in full payment for the properties. All the money received by the syndicate is to be expended in actual work on the property and the necessary expense involved therein. The idea is that having the greatest confidence and belief in the properties the syndicate is ready to take a chance on the claims developing into something especially worth while. Work will be carried on this summer, and the geological formation and the location of the claims, apart from the showings on the properties, appear to assure success to the venture. The claims are described as K.R.L. 5645, 5646, 5647, 5648, 5649, 5650, 5651, 5652, 5653, 6191, 6192, 6193, 6194, 6195, 6196, 6197, 6198, 6199, 6275, 6276 and 6277 in the Red Lake mining division. A glance at the map will show these claims to be very favourably located, while the geology of the area is equally attractive and promising. At present, W. D. Cuthbertson is auditor for the syndicate; Dean Kester is solicitor, and the secretary-treasurer is Walter L. Monck.

A report made, under adverse conditions, by C. B. Dawson, mining engineer, in the early spring of 1927, states in part:—

"A number of trips have been made

to the Guthro-Monck group of claims, 21 in number, and shown on the Clearwater Lake area blueprint as Nos. K.R.L. 5645-5653, 6191-6199 and 6275-6277, all numbers inclusive, located southwest of the Macaulay option.

"The principal work done on these claims consists of some trenching and blasting on claims K.L.R. 5651, 5652 and 5653. Elsewhere on the group work consists of a little stripping.

"Near the north boundary of claim 5653 and about 500 feet west of No. 1 post, blasting has exposed a section of mixed quartz and greenstone, all crumpled and folded together, about eight feet wide from east to west, and carrying a strike of N. 15 degrees E. The quartz is barren or but slightly pyritized; the greenstone carries much pyrite; the east wall is lost in low wet ground.

"A sample, No. 78, was cut across 7 feet of this mixed quartz and greenstone. On analysis this gave \$13.25 in gold per ton.

"The westward limit of this occurrence grades into a massive greenstone; the eastward limit is lost in swampy ground.

"From the foregoing it would appear that work might prove a mineralized zone of which these occurrences form a part. Certainly it does appear as though there might be a mineralized zone in the wet valley, which in several places on its western slope shows the mineralization referred to. Just how you can determine if this is the case is one of your problems. Possibly, the only solution is by diamond drilling."

The solution referred to will be taken up this summer.

Grab samples from the claims run up to \$29.00 per ton.

South Porcupine Audience Pleased With Dance Recital

Pupils of Mrs. R. B. Simms Provide Excellent Programme. One of the Big Events of the Year. News of South Porcupine Boy Scouts' Activities.

South Porcupine, June 6th, 1928. Special to The Advance.

The big event of the past week was the children's dress ball, given by Mrs. R. B. Simms' juvenile pupils in the High School hall on Monday evening, June 4th. It opened with the grand march led by two winsome tots, Dulcie Bell and Myra Cantor. The second number was the Highland Fling, done by the more advanced pupils viz: Mary Morgan, Caroline Sutherland, Edith Rapsey, Newsham Hannaberry, Rosalind Cantor. Then in the next number by the junior tots Marjorie Jamieson and Dorothy Sharp. This last dance was particularly well done, both little girls showing exceptional grace. A tiny mortal dressed as a golden butterfly was Baby Myra Cantor, only four years old, who gave the first solo dance of the evening. The winsomeness of this mere baby as she glided through the graceful movements won the hearts of all. The Sword Dance by Caroline Sutherland, Mary Morgan, Edith Rapsey and Newsham Hannaberry was particularly well done. Jean Wright in the Sailor's Hornpipe was agile and very pleasingly rhythmic in her movements although noticeably nervous. The Scotch Reel by eight girls was a number dear to the heart of every Scot. Mary Hawkins, of Timmins, gave an interpretation of the difficult Narcissus Toe-Dance. She, too, was so over-anxious that she was a little nervous in her movements but gained confidence towards the end. The Eightsome Reel was by the same eight lassies in kilts that danced the Scotch Reel. In these, little Jean Gordon, of Timmins, substituted on very short notice for Marie St. Paul, who is ill. The Hungarian Top-Boot Dance was cleverly given by Alde Gronlund, of Timmins. The Shean Trews was danced by Rosalind Cantor. Then came a special which brought down the house. It was the Highland Fling by two wee lassies in full Scottish costume looking as if they were born generals. The straight shoulders and erect bearing of the two little cehaps called forth admiration from all and they certainly could dance. They were Emmet Cunningham and Terry Wilson. They were very loudly encored and the important shrug of Master Terry's five-year-old shoulders tickled everybody quite as much as their dancing. The Irish Jig was given by the senior pupils of South Porcupine. The introductory number of the second period was a waltz performed at a toe-dance by tiny Dulcie Bell, of Timmins. This was a difficult dance for a child so young and done with exceptional grace. Then the flower dance was one of the prettiest numbers of the evening with Mary Morgan taking the part of the swaying, beckoning central flower. Mary shows wonderful improvement in her dancing this year. The Glow-Worm Dance was gracefully given by Mary Durrell, of Timmins. The Spanish

Dance was one of the most colourful events of the evening, Edith Rapsey and Newsham Hannaberry showing up particularly well in it. The Dutch Dance as given by Jean Gordon and Jean McChesney, of Timmins, was a loudly encored number. The part calling forth possibly the most applause of the evening was the Irish Jig by two tiny tots, Molly Kearns, as the boy, and Jean Barr, as the girl. The children were wonderfully adapted for the parts they performed, the nonchalance of Molly and the modest grace of Jean winning the hearts of all. The Court Minuet was beautifully done and the pretty old-time costumes were most becoming to the dainty little ladies wearing them. The Tarantelle was a colourful solo dance also given by Mary Durrell. The Butterfly Dance by Caroline Sutherland brings out wonderfully this child's grace of movement and the light airiness of her dancing. In the Skirt dance Jean Wright, was again particularly good. The Sailor's Hornpipe done with a vim by the Senior Class of South Porcupine closed a most pleasing programme. Besides those mentioned before among those coming out from Timmins to dance was little Marion Twaddle who took part in the Flower Dance. Miss Sayles was at the piano, accompanied by Mr. Gordon on the violin. The hall was crowded and all went away well pleased with the evening's performance.

The following is the latest signal from scout headquarters. On Tuesday, May 29th, the Court of Honour of the 1st South Porcupine troop met at headquarters to discuss the business of the troop. A rough programme was drawn up for the Boy Scout field day at South Porcupine on July 2nd.

On Friday evening, June 1st, the troop held their regular weekly meeting. The boys worked hard at items for field day. The Owls practised signalling and the Crows first-aid demonstrations. The Chickadees and Porcupines combined to build a model bridge of Scout staves. When finished some of the boys climbed on top of it to prove their handiwork. On Saturday afternoon the troop held an athletic meet on the ball field. High pumping, pole vaulting and softball were the events. On Friday, June 8th, there will be an investiture of the Scouts.

COMING FOOTBALL GAMES IN THE DISTRICT SERIES

The following are the matches in the P.D.F.L. schedule for the next few weeks. All matches start at 6.15 p.m. sharp. The first-named team in each case is the home team.

Tuesday, June 12—Cornish vs. McIntyre.

Saturday, June 16th—Holly Rec. vs. Dome.

Tuesday, June 26th—Lancashires vs. Cornish.

Saturday, June 30th—Lancashires vs. McIntyre.

AUCTION SALE OF JEWELRY, ETC.

Re assigned estate of A. T. Pommier, town of Timmins in the District of Cochrane.

LADIES PARTICULARLY INVITED

ASSIGNED ESTATE OF

A. T. POMMIER

By order A. E. BROCKLESBY & CO.

Trustee in Bankruptcy

HORACE DORER,
SALES MANAGER

PLAN NOW FOR FLOWER AND GARDEN COMPETITIONS

Any Information Desired May be Secured from Officers of Horticultural Society.

With the approach of the summer the Timmins Horticultural Society is actively engaged preparing for their annual flower show and garden competition in September.

All those interested in the show or in the garden competition should plan accordingly. Further information will be gladly given by the president or members of the society.

In previous years the society has endeavoured to interest the people of the district in the growing of flowers and to improve the home surroundings. That the efforts of the Timmins Horticultural Society have been successful is attested by the splendid display at their annual shows and by the many fine gardens in town.

Last year the total given in prize money was two hundred dollars, in addition to a large number of special prizes. This money and the prizes were raised by donations and the sale of membership tickets. The society is asking for the same co-operation this year. A number of special prizes have already been donated and these are greatly appreciated.

Dr. S. Lee Honey has donated three prizes for the best frontage. There will also be specials for the best 30-foot lot, 60-foot lot, and best any size over 60 feet. Special for lady members for the best table centre of flowers. Further particulars of the show will be given later. Membership tickets may be obtained from the secretary or any of the directors.

YOUTH MEETS DEATH BY ODD DROWNING ACCIDENT

The nineteen-year-old son of Mr. and Mrs. William Sebastini, of Cobalt, Gusto Sebastini, was accidentally drowned in the Montreal river at Latchford, when he fell from the Government dam while fishing. The young man had been engaged in the pleasing work of seeking to catch some big fish, when he was warned to move away for a few minutes while a dynamite charge was fired by river drivers who were busy breaking a dam. Apparently Sebastini did not notice how close he was to the edge of the dock and he stepped back rather suddenly and misjudging the distance he stepped off into the river. He was drowned before assistance could reach him.

The first shoot of the Rod and Gun Club for the season is to be held this (Thursday) evening, June 7th, at 6 p.m. sharp.
