

Timmins and District Notes

Mr. W. Stanforth and Mr. J. R. Trenote, of New York City, were visitors to Timmins this week.

Fifty-four births were recorded in May at Sudbury. Sudbury keeps on growing.

The next regular meeting of the town council is scheduled for Monday afternoon, July 9th, at 4 p.m.

Mrs. Dexter and son, of Lorain Valley, Ont., is visiting her daughter, Mrs. S. H. Pirie, of Timmins.

In registering a conviction for careless driving last week, Magistrate Weegar suggested the opinion that no man should be allowed to drive an auto if he were a cigarette smoker. Magistrate Weegar is not an admirer of cigarettes. So is your old W.C.T.U.

Due to the resignation of Mr. F. E. Wood as issuer of automobile licenses at Iroquois Falls, the Iroquois Falls Motor Club, which is affiliated with the Ontario Motor Club has recommended to the Department of Public Highways that Ernest McDiarmid be appointed to succeed Mr. Wood.

Mr. and Mrs. J. Bartlett, of Tonawanda, N.Y., were Timmins visitors last week.

Members of the Lancashire Social Club are reminded to meet at the Hollinger Recreation hall at 9.45 a.m. on July 1st for the annual outing.

Mr. Geo. Richards, of California, who has been visiting his father, Capt. Richards, of Timmins, for the past couple of months, returned last week to his home in the South.

Mr. R. Stewart, of the Canadian Explosives Co., motored up from Toronto last week-end. He found the road in bad shape, having to be pulled out on more than one occasion.

At a special meeting of the Haileybury Council on Wednesday evening, contract was awarded to Messrs. Warren Bros., Toronto for the building of the road through the town. The contract price was \$63,000. It is understood that the contractors will have equipment on the ground by July 2nd.

Those interested in poultry matters are asked to note the meeting of the Porcupine Poultry and Pet Stock Association called for the town hall on Friday evening of next week, July 6th, at 8 p.m. All interested should attend, as it is intended at this meeting to decide whether or not the association shall carry on.

Norman Fletcher, the three-year-old son of Mr. and Mrs. Angus Fletcher, of Cobalt, received a rather severe laceration on the left side of his head while at play at the Lang street playground there. The little lad got in the way of one of the swings and was knocked down. He had to be taken to the hospital for treatment, but later was sufficiently recovered to go to his home.

An interesting coincidence has been noted in connection with the wedding at Cobalt last week of Miss May Stadelman, and Mr. Wm. Taylor, formerly of Glasgow, Scotland, but now of Kirkland Lake. The bridegroom was the second man of the same name to marry into the family of the bride. An older sister of the bride is the wife of Wm. Taylor, formerly mayor of New Liskeard, and a well-known North Land business man, a member of the Geo. Taylor Hardware Co.

COCHRANE JUNIOR BALL TEAM HERE ON JULY 4

Will Play at South Porcupine the Following Day, Thursday, July 5th

In the Temiskaming Junior baseball association series, Cochrane will play at Timmins on Wednesday afternoon of next week, July 4th. This should be a particularly good game as the Cochrane team is said to be a specially good one. Timmins Juniors have already shown their capabilities and are confidently expected to go through the season with credit to themselves and with the interest of all the baseball fans well maintained. Cochrane is said to have a classy Junior ball team that will put up a lively contest and keep the crowd interested all the time. One of the much talked-of members of the Cochrane team is the pitcher who was one of last year's noted team at Silver Centre, the team that captured the McInnis cup and that has had a big reputation for fine ball playing in this North Land.

After playing here on Wednesday, Cochrane will go to South Porcupine on Thursday of next week, playing the South Porcupine Juniors in the baseball line.

The other games still on the schedule for the Junior baseball series include the following:—

Thursday, July 12th—South Porcupine at Cochrane.

Wednesday, July 18th—Timmins at South Porcupine.

Wednesday, July 25th—South Porcupine at Timmins.

Wednesday, August 1st—Timmins at Cochrane.

Wednesday, August 8th—Cochrane at Timmins.

Thursday, August 9th—Cochrane at South Porcupine.

Wednesday, August 15th—South Porcupine at Cochrane.

MARRIAGE AT TIMMINS ON TUESDAY OF THIS WEEK

A quiet but very pretty wedding took place on Tuesday afternoon of this week at the United Church, Timmins, when Mr. Frederick Charles Barnicoat was united in marriage to Miss Effie Hunter, Balsam street north. Rev. J. D. Parks officiated. Miss Catharine Hunter, sister of the bride, was bridesmaid, and Robt. C. Walsh was groomsmen. During the signing of the register Miss Ina Cotcher sang "Until." Miss Fern McCarthy played the organ for the occasion, the music being a special feature of the event. Mr. and Mrs. Barnicoat will take up residence in town. Many friends in the town and district will join in extending best wishes to the young couple.

CAVE-IN ON GROUNDS OF CENTRAL PUBLIC SCHOOL

Considerable attention was directed to a part of the Central public school grounds on Saturday last, there being a cave-in of twelve or fifteen feet or so square, the filling on top dropping down some three or four feet. The cave-in occurred during the night. It was due to the covering of a old filled-in cesspool rotting away and leaving a cavity, the cyanide filling on top eventually breaking down. The cave-in was not serious enough that any injury would have resulted had there been children playing above it at the time. As it was, however, the cave-in occurred when all the youngsters were at home asleep. "A drop-in of the sand and earth" would perhaps better describe the incident than a "cave-in," the latter word suggesting to the most of people something more serious than the little drop in the level at the school grounds.

FIRST DICKSON CUP GAME HERE ON TUESDAY NEXT

The first round of the Dickson Cup will be at Timmins on Tuesday next, July 3rd, between the Lancashire and Dome Mines F. C. Holly Rees, have a bye. The final game will be on Saturday, July 14th, between the Holly Rees, and the winners of next Tuesday's game.

DOROTHY JOHNS' NAME SHOULD HAVE BEEN ON LIST

In the list of those passing from Form I to Form II at the Timmins High School, as published in The Advance last week, the name of Dorothy Johns was inadvertently omitted. Dorothy passed the examinations for promotion from Form I to Form II making a percentage of 54.6 on the total.

INSPECTOR OVER THREE NORTH LAND DISTRICTS

As a result of recent study of law enforcement and conditions in general in Northern Ontario and in the province in general, Hon. W. H. Price, K.C., Attorney-General of the province, last week made the announcement that a provincial police inspector would be appointed to co-ordinate the work of the three Northern Ontario provincial police districts, and also that Inspector Moss, the senior inspector of the province, now at the London post, would be transferred to take charge of the more difficult Windsor situation.

The Northern Ontario work is carried out by three police districts, each in communication with the Toronto headquarters. The intention, however, is to give the work the co-ordination which it needs by transferring either the Prescott or the Ottawa inspector there, and attaching him jointly to the three districts. Greater efficiency in law enforcement work is anticipated from such a policy.

Attorney-General Price further intimated that there might be further announcements of provincial police reorganization. The policy which was being followed, he said, was that of transferring the officials at intervals, to give them the benefit of broader experience and to achieve the efficiency which would characterize a force used to service under varying conditions.

WEATHER PREVENTED PLAY FOR GEO. LAKE GOLF SHIELD

On account of the bad weather last week the play for the Geo. Lake shield was cancelled. It is proposed now to cancel the first round played and instead to play only 36 holes this year for the shield, play to be on July 2nd. Owing to the lateness of the time for the completing of the 72-hole play, this plan is considered the most acceptable.

PRODUCTION OF GOLD NOW ATTRACTING ATTENTION

At the present moment when the European nations are struggling back to the gold standard, the question of the production of gold in the world in attracting the greatest interest and concern, writes a noted economist. Canada as a gold producing nation now stands third, having produced 1,748,364 fine oz. in 1926, with the United States second, with 2,288,089 oz. and the Transvaal easily first, with 9,954,764 oz. The problem which is so engrossing the attention of the world's money markets is whether the output of gold in the future will be adequate to supply the needs of the world for money purposes and the fine arts. Grave apprehensions have been voiced of late that this will not be so, since the great Rand Mines seem to be at their peak of production, and their rapid decline in output is confidently foretold in the next few years. That this forebodes some quite serious consequences seems undoubted. The leading nations of the world have, for ill or well, adopted the gold standard and if sufficient supplies of this metal are not forthcoming, serious problems will have to be met in the not far future. The ability of the Canadian mines to supply the world with the gold it needs, therefore becomes a question of very great importance.

Although the production in Canada is becoming every year more important, yet it can be easily realized that they have to go a long way yet before they are able to supply the world with such enormous quantities of the precious metals as do the South African mines. But however that may be, the importance of Canadian gold mines to the world cannot be over-estimated.

The bosoms of the wise are the tombs of secrets—Japanese Proverb.

DUNKIN GOLD MINES

In The Woman Lake Gold Area

Owens approximately 520 acres, in the Woman Lake Mining Area, District of Patricia. The surface indications and showings were so rich, mining men refer to this property as the "Jewellery Shop" Capital 4,000,000 shares \$1.00 par value, of which about 1,500,000 remain in the Treasury. Company with over \$120,000 on hand is amply financed to carry out projected plans.

Shaft sinking now under way; mining plant, buildings and equipment are sufficient to sink to the 1,000 foot level.

Directorate composed of substantial business men—R. Home Smith, J. H. Black, K. G. Masson, J. R. L. Starr, J. A. Dunn, W. F. Spencer and S. A. Shoemaker; assuring speculative possibilities Additional information on request.
