Mr. Quirt judged the animal's antlers had a spread of six feet. In his opinion it had come to the open space seeking relief from black flies which are said to be particularly bad in the bush at this time."

The citizens of South Porcupine are much worried over the report that Andrew Taylor is lost in the Northern Manitoba mining district. Being known to be an experienced woodsman and prospector and an expert swimmer many of his friends cannot credit his being lost but still cling to the hope that he may have reached some prospector's hut.

Mrs. Taylor, his two daughters and small son, reside on Main street here. The first news of his being missing was brought to-day by the "Star" reporter of Timmins, and was a decided shock. His wife had a letter from him dated June 26th, stating that the work he had come to do at the Sherritt-Gordon would not be ready for him for a week, so he was going on a little prospecting jaunt with two old-time prospectors of Cobalt, Messrs Avery and McCoy, and for her not to worry if she did not hear from him for a few days. As nearly as can be found out he did go and near Shirley Lake, while the other two men were building camp he assayed to go for some water at a creek about a quarter of a mile away. He was not gone over fifteen minutes when his comrades called to him and getting no answer started the search for him. That was on June 28th we believe. He has not been seen since. His brother, Will Taylor, assisted by Chief of Police McInnis, and Reeve Gallagher, have been making strenuous efforts to get further details to-day. This evening Mr. Archie Daly of Kirkland Lake, phoned from there that he had just come from the Sherritt-Gordon and that all possible efforts

Hector Laroque, who was arrested at North Bay recently and taken back to Cobalt on a charge of the theft of clothing and other articles from Clifford Lapointe, of Latchford, was found guilty in police court at Cobalt last week and sentenced to two years in the penitentiary. Laroque had a prison record.

Previous to his leaving Cobalt for his new post in Cochrane, Sergt. Gardiner was formally thanked by the Cobalt town council, by resolution, for the good work he had done in that town and the co-operation given the municipal authorities. Copies of the council's resolution were ordered to be sent to Sergt. Gardiner, to Inspector Moore and to General V. Williams.

The death occurred on Tuesday of last week at Kapuskasing, where she was visiting, of Mrs. Lillian Gardiner, of Monteith. The late Mrs. Gardiner was stricken with pneumonia and died in a few days despite all possible care and skill. A husband and three small children are left to mourn her loss. Interment was made at Matheson on Wednesday last.

HAD NARROW ESCAPE FROM DROWNING MONDAY NIGHT

Monday evening shortly after seven o'clock a young man swimming at Gillies Lake was taken with cramps and but for the prompt assistance of some others there he might have been drowned. He was assisted from the water and restorative methods used to revive him. Eventually he was taken to the hospital where he remained for some little time, eventually recovering from the ill-effects of his experience and being able to return to his home.

that had been made to find him had proved unavailing. It is probable that his brother, Will may leave for Northern Manitoba to-morrow but it will be fully four days before he can reach the place from which he was missed. Meantime all the sympathy of the neighbourhood is being given to Mrs. Taylor and family in their terrible suspense. Mr. Taylor was for sometime Captain at the New York Porcupine.

South Porcupine, July 11—The latest news from Andrew Taylor was received this morning when Reeve C. V. Gallagher received an answer to his wire to the chief of police at The Pas, Manitoba. It stated that he had been missing since June 28th, that a force of aeroplanes and men were still searching and that several clues had been found. Mrs. Taylor and family feel much more hopeful on receipt of this news.

On Monday evening while Mrs. A. DeRosa of 66 Bruce avenue was sitting on her front porch with a lady friend a sneak thief entered the kitchen by the back door and obtained her purse which was in a cupboard there. Her son, Victor who had gone up to his room hearing the stealthy footsteps in the kitchen thought they seemed peculiar and came down to investigate. When he made his appearance the burglar made a dash out the back door. Victor called out "A robber, mother, quick!" so both women hastened to the kitchen but seeing he had gone from there Mrs. DeRosa rushed back to the front door just in time to see him take refuge behind a neighbour's house. The neighbour was phoned and when they looked out he fled down the road. By this time a boarder in the DeRosa house was up and he joined in the chase down the road but the man disappeared in the bushes by the bridge on the Timmins road. It was then after eleven o'clock and unfortunately the police were not notified till later and no trace could be found of him. There was only around five dollars in the purse in cash but it contained valuable papers. This evening a drunken man was found down among the bushes by the bridge but Mrs. DeRosa and Victor both claim it is not the same man. He is badly bitten by flies as though he had been there some time, but while both claim the thief was tall and rather slight this man is short and of a sturdy build.

The Girl Guides enjoyed a hike around the Porcupine Lake on Saturday, July 7th, stopping at the pump house for a swim. They also had supper there cooked over an open fire. The Red Rose and the Oak patrols drew maps of their route, thereby winning marks for their patrol. They had numerous companions along the route in the form of mosquitoes and black flies. Otherwise the trip was most enjoyable. On Monday, July 9th, their regular meeting was held in the Boy Scout headquarters but was cut very short by the approaching storm. It is hoped to soon have a headquarters of their own and suggestions of a place for such would be welcomed. In about two weeks several of the newer guides will be ready for investiture and the troop would like very much to have a corner of their own by then.

Master Thomas Holding, patrol leader of the Crows in the Boy Scouts is to be complimented on his prompt action in getting a little boy out of water at the dock safely. Danish Jazz Late

Excepting a recent term at Wellesley College, these young ladies, Miss Peggy Letcher, and her sister Adele, have lived exclusively in Copenhagen, capital of Denmark, where their father is consul-general for the United States. Here they are sailing aboard the Cunarder Aurania from Montreal this summer for "home". Denmark's native "jazz" is not the best, and United States fox-trots are somewhat late arriving in Copenhagen, they said; but young Danes are admirably sociable, young women may vote, and the winter climate is mild—all of which offsets "jazz" difficulties. The seven hundred passengers of the big Cunard liner agreed that the diplomatic sisters were ambassadors of beauty as well as goodwill.
