

CANADIAN GIRLS DO WELL AT AMSTERDAM

Canada has reason to be proud of her girl athletes who are at present carrying Canadian colours at the Olympic Games at Amsterdam. Left to right are five of them: Myrtle Cook captain, 100 meters and relay star; Fanny Rosenfeld, who came second in the 100 meters championship and won five points for the Dominion; Florence Bell, who was third in the 100 meters; Jean Thompson, clever middle distance runner, who broke the world's record in her 800 metres heat, and Ethel Catherwood, pretty high expert, who holds the Canadian record.

EPIDEMIC OF TYPHOID AT THE WYE NEAR THE FALLS

(From The Broke Hinstler) Ansonville is at present threatened with typhoid fever. Several cases have been reported and one death has taken place as a direct result of the dread disease. Every effort is being made by the township council and doctors to prevent a spread to such an extent that it might develop into an epidemic. All householders at the Wye and any others should communicate with the health authorities in order to be well advised what precautions are necessary to take as a safeguard.

A motor car from San Francisco, California, was noted in town last week.

CITIZENS' BAND SHOWS APPRECIATION OF J. B. PARE

At the regular monthly meeting of the Timmins Citizens' Band on Monday evening, the resignation of Mr. J. B. Pare was received in part. Mr. Pare, who has been ill recently, asked the Band to accept his resignation because he felt his strength would not permit of the attention that he felt should be given to the Band. In his letter he expressed his appreciation of the kindly associations he had had with the Band in the past and his good wishes for the organization in the future. The president of the Band referred to the very valuable and generous services given the Band by Mr. J. B. Pare since the organization of the Band. As a player, as a member, and as one of the executive of the Band, his services had been generous and most valuable. Bandmaster Wilford and others added their appreciation of Mr. Pare. A motion was passed expressing the appreciation felt for Mr. Pare and the high esteem in which all hold him. While the resignation was accepted so far as his place as an active player in the Band was concerned, Mr. Pare was asked to retain his place on the executive and so allow the Band to continue receiving the value of his advice and experience and influence. Mr. Pare's son, Mr. Jean Pare, thanked the members for the kind words in regard to his father and said that he knew his father would appreciate the kindly thoughts of the members of the Band, to which organization his father had given the greatest interest in the past. The members of the band all expressed the sincere hope for the early return to complete good health of their valued friend, Mr. J. B. Pare.

AND THEN THE OLD FORD RAMBLED RIGHT ALONG.

On Monday evening about 11:30 at the corner of Balsam street and Third avenue a light collision occurred that caused a lot of heavy humour. A Ford and a Star collided. The Ford saw stars when its rear tire was knocked right off in the collision. There was an argument of about 15 minutes as to whether Ford or Star were wright or wrong or whether it was what Hon. Mr. Finlayson said about the flooding of the South Porcupine area this spring—simply an act of providence. In the meantime a big crowd gathered and there were many laughs. Finally, the occupants of the Star jacked up the Ford and put on the tire, and once more Old Henry was hitting on all fours. Everybody was satisfied, except the crowd, and the crowd had a lot of fun, but were anxious for more.

CROWD APPRECIATED BAND CONCERT SUNDAY

Timmins Citizens Band gave a band concert at the park on Spruce street on Sunday evening after the church services and a large crowd gathered for the event. A number of attractive selections were effectively played, the band doing well under the leadership of the new bandmaster, Mr. Arthur Wilford. The crowd gathered for the occasion fully enjoyed the music and many complimentary words were heard in regard to the concert. The band had turned out specially in the expectation that the "Young Ambassadors of Empire," the party of some 50 young people sent on tour of Canada by the Allied Newspapers of Great Britain, would arrive on the 8:25 train. The party did not arrive, the wrong date being sent here and received by the Board of Trade. It is understood that the party will arrive here on Sunday next, August 12th, at 8:25 p.m.

PRELIMINARY REPORT ON THE TRADE OF CANADA

The condensed preliminary report on the Trade of Canada for the fiscal year 1927-28 has just been issued by the Dominion Bureau of Statistics. This handy little brochure has been considerably enlarged this year and now comprises 120 pages. It consists of two sections, a "Review" and "Condensed Statistical Record" of Canadian Trade.

The "Review" deals with the volume and value of the Dominion's external commerce. Its fluctuations, distribution and routes of transportation are examined in respect to both current conditions and recent variations. Several of the analyses are now published for the first time. Canada's progress and her present position among the great trading nations of the world are explained in particular detail. More particularly, the "Review" treats of the following among other subjects: Relation between Trade in Raw and Manufactured Products; Seasonal fluctuations; Trade by Continents; Imports by Principal Countries; Exports by Principal Countries; Trade Balances; Principal Commodities Imported; Imports for Canadian Industries; Principal Commodities Exported; Trade via the United States; Canada's Position in International Trade; Canada's Share in World Import Trade, etc., etc.

The "Condensed Statistical Record" of Canadian Trade has been enlarged this year so that it now covers eighty-three (83) countries, the commercial exchange which is segregated and dealt with in detail. This is the only official report containing trade statistics in this form. There are also summary and analytical tables dealing with Canada's trade as a whole. Copies of this report may be obtained on application to the Dominion Bureau of Statistics, Ottawa.

Banish Ironing Day Drudgery

The hours spent over a steaming hot iron, pushing a heavy weight back and forth hundreds of times, rubbing a little spot here and a little spot there, are no longer necessary. An Electric Ironer takes all the strain out of this household task and makes it a pleasure.

Clothes last longer because there is no rub, rub, rub to continually wear the fabric. Uniform pressure over the entire surface to be ironed is easier on the fabric and gives a better finish.

An Electric Ironer is light, simple, attractive and compact - - and it is not expensive. Easy terms to suit you.
