

**GUTHRO-MONCK SYNDICATE MEETS GOOD RESULTS IN WORK**

A recent letter received from Mr. J. Guthro who is at the Guthro-Monck Syndicate property in Red Lake district says:—  
"We have a gang of men working on

the Guthro-Monck Syndicate claims. We are working on to promising breaks running about north and south. They run parallel and ten feet of greenstone between them. We have the east break opened up for five hundred feet. Both breaks are well mineralized.

Both pan gold. We had some channel samples out of No. 1 pit on the north-west break, across seven feet, run from \$7.00 to \$13.25. No. 2 pit on the west break is sixteen feet wide and we haven't got the west side. It is heavily mineralized and pans gold."

**TIMMINS BOARD OF TRADE MEETING TOMORROW NIGHT**

Many Important Questions to be Before Meeting in Town Hall Tomorrow (Friday) Evening at 8 p.m.

All should remember the meeting of the Timmins Board of Trade in the town hall tomorrow (Friday) evening, commencing at 8 p.m. Further, all business and professional men and all others interested in the welfare and advancement of the town should make a special point to attend this meeting to-morrow evening. The last meeting called for the Board of Trade was adjourned on account of lack of attendance. To offset this fact, there should be an unusually large attendance to-morrow (Friday) evening.

The questions to be before the board are certainly such as to warrant the largest attendance of good citizens. Here are some of the matters to be dealt with:—

Correspondence of various kinds received since the last regular meeting.

Decision as to when the next meeting of the Northern Ontario Associated Boards of Trade should be held, in the opinion of the members of the Timmins Board. The proposal has been made that the next meeting of the Northern Ontario Associated Boards

**BAKE YOUR OWN BREAD**

**ROYAL YEAST CAKES**

STANDARD OF QUALITY FOR OVER 50 YEARS.

**HOME-BAKED BREAD IS BEST OF ALL**

**Contrasting Returns from Mines and Other Industries**

In an editorial article recently The Northern Miner said:—

The dryness of statistics is proverbial. Figures, it is true, can be juggled. Lots of people have lost their respect for them in late years. Yet occasionally the Dominion Bureau of Statistics, a distinctly impartial body, without any cleavers to sharpen, presents a series of percentages attractive for what they reveal in all their baldness.

The Bureau has been working on yield. It has taken 73 Canadian industrial and public utility dividend-paying stocks for July and wrought on them to some effect. Its labour reveals the illuminating fact that 53 industrial common stocks yielded 3.43 per cent. for the month of July; 14 utilities yielded 3.65 p.c. For five iron and steel stocks the return was 3.43 p.c., and so on. The highest yield reported was 5.04 p.c., in six textile and clothing stocks.

Unfortunately, the Bureau has not tackled the dividend-paying mining stocks, so we will have to do it ourselves. Taking mining stocks at their current annual dividend rate and their high for the week ending Tuesday, August 14th, we arrive at the following yield: Dome, 12.3 p.c.; Hollinger, 12.7 p.c.; Keeley, 16 p.c.; Lake Shore, 3.72 p.c.; McIntyre, 4.54 p.c.; Mining Corporation, 7.69 p.c.; Nipissing, 8.99 p.c.; Teck-Hughes, 6.37 p.c.; Wright-Hargreaves, 3 p.c.; International Nickel, 2 p.c.

These ten stocks have an average yield of 7.73 p.c. Not so bad, not so bad! Of course, we know all about the argument that mining stocks are not bought for yield. We know that mining is a "destructive" business, as contrasted with the productive activities of manufacturing. But the little factors of keeping up volume of sales, of opening new markets, of world-wide competition in marketing, of keeping costs of production down to meet prices at which low-cost countries are willing to sell; these little problems are inherent to mercantile industries. Paper producers are having their troubles, power distributors and transportation companies, public utilities, oil and food producers are not sitting on top of the world.

Gold has a ready market; silver and copper can be sold; Canadian lead and zinc producers are enlarging their markets; the nickel companies have a practical monopoly. The problem in mining is not so much to find a market as to find a raw material. We wonder if the Canadian manufacturer or other industrialist is working any harder at his problem than the miner is at his. The greatest search for minerals that this or any other country has ever seen is now in progress.

should be held at North Bay on October 9th and 10th, at the same time as the meeting of the Ontario Associated Boards of Trade which is holding its annual meeting for the first time at North Bay. Some think that it would assist the Northern Ontario Associated Boards to meet coincident with the Ontario Associated Boards and the attendance of the delegates at North Bay at that time would give additional prestige to the North. On the other hand, many feel that only confusion would result from attempting to hold both conventions in the same city at the same time, and that the Northern Ontario body would be overshadowed by the provincial one. Timmins, of course, is only one of the boards asked for an opinion on the matter, but the real opinion of the majority here should be made plain. The only way this can be done is by a large number attending the meeting Friday evening this week and expressing their opinion in the matter.

Report from the committee in regard to the new tourist camp for Timmins.

Arrangements for the entertainment of the Canadian Ticket Agents' Association which is to hold its convention here on Sept. 18th and 19th. This event is only a few days away and arrangements should be attended to at once. The convention is a very important one and the delegates coming here being from widely-separated points in this eastern part of Canada and being in daily touch with a wide circle of the public, should prove good publicity agents for Timmins if they are favourably impressed. In any case it is up to the citizens of the town to say what should be done in such a case. Accordingly, there should be a large attendance at the meeting on Friday of this week.

The keeping-open of the "back road" to the Paymaster and other mines. This is a question of great interest and importance to the business people of the town. Some progress has been made in the matter of plans to keep this road open. All should turn out to the meeting so that proper decision may be made in this matter.

**MR. AND MRS. SCHELLETIER BACK AGAIN AT VETERAN HOUSE**

Mr. and Mrs. E. Schelletier are again conducting the Veteran House, at the corner of Cedar street and Fourth avenue. They are the owners of this property and formerly conducted the house with marked success. The last tenants having recently vacated the property is again being conducted by Mr. and Mrs. Schelletier with their usual efficiency. Mr. and Mrs. Schelletier are old-time pioneers of the Porcupine camp and will be welcomed back here by all old friends.

**FEASIBILITY OF PROSPECTING BY AIR NOW DEMONSTRATED**

In an editorial note The Mining News, of Rouyn, says:—

The completion, without event, of twelve thousand miles of air travel over most treacherous and unknown "bush country" by "Bobbie" Cockeram and "Pete" Graham, with L Berge as pilot, is a feat that demonstrates in no uncertain manner the feasibility of prospecting by air. Given a good pilot, a good machine and common, ordinary, unadulterated, everyday horse-sense the airplane will prove a most important factor in the exploration of the greatest, and probably the richest, mineralized belt in the world, that stretch across Northern Canada.

**THOUSAND DOLLAR SURPLUS FOR PEMBROKE'S CENTENARY**

Usually the Old Home Weeks conducted by the towns and cities on occasion wind up with a deficit to be met. In some cases the loss has been a comparatively serious one. It was not so in the case of Pembroke, Ontario, and its Centenary and Old Home Week this summer. Not only did Pembroke give its old boys and girls a wonderful welcome and a "whale of a time," but the big event was conducted so efficiently that there will be a balance to the good. Accordingly, it may now be set down that the Pembroke event was a complete, all-round success in every way. In reference to the finances The Pembroke Standard-Observer last week says:—

"Pembroke's Old Home Week was not an outstanding success financially, but it will be gratifying to many to know that the committee will be able to show a surplus. While it will be a week or ten days more before the committee will know definitely just where they stand, the secretary wrote the Town Council informing them that there will be a favourable balance of about \$1,000. While this surplus is perhaps not as large as some anticipated, it is better than has been done at some other celebrations, for the history of Old Home Week celebrations in many other towns has not always been one of financial success—in fact quite a few have had to face deficits after the excitement was over."

**EXAMINATIONS FOR HOISTING AND STATIONARY ENGINEERS**

Mr. Scott of the Board of Stationary and Hoisting Engineers, Toronto, will be conducting examinations in this district for those wishing to secure certificates for stationary and hoisting engineers. The examinations to be held in this part of the North Land in the near future are as follows:—

At Halleybury, High and Technical School, Monday, Sept. 17th, at 1 p.m.

Kirkland Lake, Miners' Union Hall, on Wednesday, Sept. 19th, at 9 a.m.

Timmins, High School, on Friday, Sept. 21st, at 9 a.m.

These examinations, held at convenient centres through the North are of great service and advantage to those wishing to qualify under these tests.

**FURTHER CHANGES EXPECTED IN PROVINCIAL POLICE FORCE**

A despatch from Cobalt last week says that further changes in the personnel of the provincial police of the district are expected at an early date. Constable B. A. Kennard, who has been stationed at Gowganda for the past four years, is being removed to Finch, near Ottawa, it is stated. The necessary authority has been granted for this change, but it will not go into effect until the return of Inspector Moore, who is holidaying in the south at present. Constable Hartleb, formerly of Larder Lake, has arrived in Halleybury to take over the post there, and it is probable that Constable George Delves, of Timmins, will get the appointment of sergeant at district headquarters at Cobalt, vacant by the transfer of Sergeant Frank Gardner to Cochrane. No official announcement regarding Constable Delves has yet been made, and the matter is understood to be under consideration at Toronto.

Wife—"You think so much of your old golf that you don't even remember when we were married."

John—"Surely I do. It was the day after I sank that thirty-foot putt."

**9th Anniversary Sale**

Where Quality and Personal Service are assured

Where Quality Counts

Canada's Largest Retail Grocers

**AN INVITATION** is given this week to the public to share in the 9th Anniversary celebrations of the incorporation of Dominion Stores Limited. In nine short years we have grown to be the largest chain of Canadian Grocers in the Dominion (of Canada), operating 550 stores throughout the Provinces of Ontario and Quebec.

This enormous growth has been made by the consistent support of hundreds of thousands of housewives who have proved that "Where Quality Counts" and "Personal Service" are the two necessary attributes to "Real Value."

We invite you to share in our Anniversary Sale this week. Here are some SALE figures. Do you know we sell yearly OVER

17,500,000 Loaves of "Tasty" Bread made at our three bakeries. 1,500,000 lbs. of Tea each year.  
7,500,000 lbs. of Butter each year. 2,900,000 lbs. Mayfield Bacon and 30,000,000 Eggs.

We employ 550 Managers and 1,400 Clerks to give our customers PERSONAL SERVICE, and their efforts are supervised by Superintendents who are constantly looking after our customers' interests, seeing that goods are turned over rapidly in the stores, ensuring our customers getting goods in perfect condition, imparting the knowledge that they have gained by experience to the managers and clerks, so that they can improve their service to the public.

These Superintendents do not come into direct contact with our customers, but they form a vital part of our organization, and in their honor we will stage a Superintendents' Week of Sales, in conjunction with our 9th Anniversary, the object of which is for each group of Managers to try to put their Superintendent at the top of the list as far as sales are concerned, and to the Superintendents whose managers are successful in putting this sale over for them, we are donating valuable prizes.

The success of our managers depends on the response obtained from our customers. We are therefore offering SPECIAL PRICES FOR THIS SALE, so participate in the savings by placing your grocery order at the nearest Dominion Store; your regular patronage, if we do not already enjoy it, will surely follow.
