TOWNSHIP OF TISDALE

VOTERS' LISTS, 1928

Notice is hereby given that I have transmitted to the persons mentioned in Section 9 of the Ontario Voters' Lists Act the copies required by said sections to be so transmitted of the list made pursuant to the said Act; of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said municipality at elections for members of the Legislative Assembly and at Municipal elections and that the said list was first posted up at my office at South Porcupine on the twenty-sixth day of September, 1928, and remains there for inspection.

And I hereby call upon all voters to take immediate proceedings to have any errors or omissions corrected according to law.

Dated at South Porcupine this 26th day of September, 1928.

F. C. EVANS,
Clerk, Township of Tisdale.

Porcupine Power & Telephone Company Limited

Porcupine Power & Telephone Company Limited having sold its assets and undertaking to Northern Ontario Light & Power Company Limited, hereby gives public notice under the provisions of "The Ontario Companies Act" that it will make application to His Honour, the Lieutenant-Governor of the Province of Ontario for acceptance of the surrender of its charter on and from a date to be fixed by the Lieutenant-Governor.

Dated this 19th day of September, 1928.

L. C. HASKELL,
Secretary.

TIMMINS JUNIORS LOSE FIRST GAME AT TORONTO

Walkerville Juniors Too Many for Timmins Lads in First Match of Ontario Junior Finals. Score 13 to 4

At Toronto on Saturday last the Timmins Juniors, champions of the North Land, lost out with the score 13 to 4 when they played the first game with the Walkerville Juniors. Apparently the Timmins lads were completely outclassed, this opinion being emphasized by the greater defeat on Monday referred to elsewhere in this issue. The Toronto Globe makes the following reference to Saturday's game:—

"Walkerville Chicklets won the first game of the Ontario junior baseball finals at Viaduct Park on Saturday when they trimmed Timmins by 13 to 4. "Red" Oliver turned in a fine game for the Chicklets, holding Timmins to four hits and striking out thirteen batters. Godin, twirling for Timmins, was found for nine hits, and these coupled with eight bases on balls, put the game on ice for the western juniors.

"Morley, Murtagh and Oliver, with two hits each, carried the attack for Walkerville, while Godin and Donovan divided Timmins' four hits between them.

"Stewart and Giallanardo looked the best in the field, with many snapper plays. The second game of this series will be played at Viaduct Park to-day at 3:30 p.m., and Walkerville are figuring on making it two straight to clinch the championship."

The Toronto Mail and Empire says the game was well attended, and continues:—

"The second game will be played at Viaduct Park this afternoon at 3:30. The pitching of Oliver was too much for the lads from Timmins, as the Chicklet twirler held the Northerners to four hits and struck out 13 batters. Walkerville hitters got nine off Godin, which coupled with eight bases on balls and some loose support gave the Chicklets a safe lead.

"Godin and Donovan divided Timmins' four hits between them, while Morley, Murtagh and Oliver got two each for the Western boys. Murtagh had a homer and a double and Brown smashed out a homer. Stewart and Giallanardo starred in the field.

Balk—Oliver. Hit by pitcher—By Oliver (Giallanardo, 2), Roberts; by Godin (Brown).

DUNCAN McLEOD MEETS DEATH WHILE DRILLING

Sad Accident This Week at Hollinger When Missed Hole is Struck by Drill.

Duncan McLeod, popular resident of Timmins for about six years past, and well known in the district, met death yesterday while at work at the Hollinger. He drilled into a missed hole apparently and was killed instantly by the resulting explosion. His skull, face and ribs were badly injured by the rock and the steel thrown back against him.

The late Mr. McLeod, who lived at 55 Mons avenue, was a native of Nova Scotia and was 37 years of age at the time of his death. He is survived by a widow and one child, to whom the sincerest sympathy will go out.

The remains are being taken this week to Glencoe Mills, Nova Scotia, for interment.

EXPLANATION GIVEN CAUSE OF HAY-FEVER

Goldenrod has long been blamed for late summer hay-fever but the indictment is justified only by the coincidence in time, asserts R. P. Wodehouse in the September issue of Hygeia.

"Not the gorgeous goldenrod and sunflowers of September, but the lowly ragweeds that grow beside and below them are the causes of the discomfort and misery of hay-fever sufferers. Nearly sixty varieties of ragweed shed enormous amounts of pollen capable of being carried long distances by light winds.

In the eastern states are the common dwarf ragweed and the giant ragweed, which grows to a height of 12 or 13 feet. An interesting feature is that they flower each year at precisely the same time, independent of weather conditions. This phenomenon explains why the hay-fever victim begins to suffer at the same time each year, almost to a day.

The eastern types of ragweed have their counterparts in the west. The western ragweed is very similar to the common eastern plant but it springs each year from the same roots, while the eastern variety comes from seed. The western giant ragweed is almost entirely confined to the southwestern states. It differs from the eastern giant only in its tendency to branch higher above the ground.

Besides the ragweeds, there are many kinds of plants that can cause hay-fever. They fall, however, into three definite biologic groups; the sagebrushes, the chenopods and the amarantids. Chenopods include the Russian thistle, regarded in the West as one of the worst of all hay-fever plants; salt bushes and the common greasewood. Among the amarantids are western water hemp, red root pigweed and careless weed.

THIS YEAR'S WHEAT CROPS GREATEST IN CANADIAN HISTORY

With a total wheat yield estimated by the Canadian Government Bureau of Statistics at 550,482,000 bushels, Canada is this year harvesting the largest crop in the history of the country. This is the first time the wheat crop has passed the half million bushel mark. The previous record crop was in 1923 when 474,199,000 bushels were garnered. The average yield in that year was 21.7 bushels per acre. This year the average yield is estimated at 22.8 bushels per acre compared with 19.5 last year. The record average yield of wheat per acre was in 1915 when it was 26 bushels.

The area sown to wheat this year in Canada is also the largest on record, being 24,114,846 acres or 1,634,692 acres more than in 1927 and 2,228,700 acres more than in the 1923 wheat acreage. But wheat is not the only bumper crop this year. Barley gives a record yield with 144,875,000 bushels from 4,879,588 acres, compared with the previous highest output in 1926 of about 100,000,000 bushels. This year's oats crop is estimated at 474,242,000 bushels, which exceeds the average of recent years.

Of this year's total wheat crop, estimated at 550,482,000 bushels the three prairie provinces—Manitoba, Saskatchewan and Alberta—produced 527,332,000 bushels or over 95 per cent. The yields of the different grains in these three provinces were:—
Manitoba: Wheat, 56,395,000; oats, 55,711,000; barley, 53,468,000; rye, 2,444,000; flaxseed, 937,500.
Saskatchewan: Wheat, 300,641,000; oats, 153,428,000; barley, 49,455,000; rye, 9,139,000; flaxseed, 3,074,000.
Alberta: Wheat, 170,296,000; oats, 102,035,000; barley, 18,166,000; rye, 3,735,000; flaxseed, 61,000.

The crop report issued by the Canadian Government Bureau of Statistics is based upon the returns of numerous crop correspondents, including practical farmers, throughout Canada and bank and elevator managers and railway agents in the different provinces.

The Canadian apple crop for 1928 is estimated to yield 2,939,970 barrels, an increase of four per cent. Nearly half the total is produced in British Columbia.

OUT OF TOUCH WITH HIS FAMILY FOR FORTY YEARS

Former Resident of This Camp Meets Relatives After Being Away From Home Since 1888

The re-union of a former resident of this camp with his relatives from whom he had not heard for forty years, is thus told by The North Bay Nugget this week:—

"Alec Seguin, a prospector of more than 70 years, left his home at Mattawa in 1888 and did not hear from members of the family until a year ago, when James Laroque of the Princess Theatre, Rouyn, informed him that his brother lived in North Bay. The old prospector could not believe it and let the matter drop. Again this month, the aged prospector was told of his brother, John Seguin, by a man named Frank Menard now of Rouyn, but formerly of North Bay. This time, convinced that his brother might still be living, he asked Mr. Menard to write to the North Bay man. The letter was mailed Sept. 11, and when John Seguin received it on Sept. 14, he, too, scarcely believed that his brother was still living, having not heard from him for 40 years. Mrs. Seguin, however, convinced her husband to make the trip to Rouyn, and when he arrived there he was greeted by his brother.

"At the re-union, for the first time, Alec was informed that his parents, Mr. and Mrs. Paul Seguin, three sisters and a brother had been dead many years. Alec then told his life history. After leaving Mattawa, he went to New York, later travelling throughout the United States as a prospector. In Montana he staked several claims, but Canada beckoned to him and he went to Winnipeg. In 1914 he travelled to Timmins, when he staked two claims, known as the Metagami and Sandy Falls Mines. After working these for two years by hand, he left them idle, but is still confident that the claims contain a wealth of ore. If he could get the financial aid, he told The Nugget, he would begin operations again. Three years ago he went to Rouyn as a prospector for the White-Montgomery Syndicate, and staked a claim eight miles north of Rouyn, which is very promising. Hired as a prospector for C. Lapierre, he staked the Lapierre and Company Mines, which is also valuable property. During his career the prospector was never lost. "Mr. Seguin wants to go back to the North Bay."

MOST SPECTACULAR FIND YET MADE IN RED LAKE

Discovery at Lost Bay on Clearwater Lake Said to Equal the Famous Golden Sidewalk at the Dome

From Red Lake area this week comes news of the most spectacular gold showings yet seen in that rich district.

For some days past there has been whispered rumours of the notable discovery and this week confirmation is given to the stories with the addition that it seems to be admitted that the original whisperers put the matter too mildly. The scene of the exciting discovery is at Lost Bay on Clearwater Lake. The claims are about eight miles south-east of the Jackson-Manion Mine, and form part of a group formerly under option to the Coniagas. One report in regard to the big find says:—"Early exploration disclosed a great dome running strongly to quartz and having a length of 700 feet by at least 300 feet as so far explored. The early work missed the main fracture through this dome and it is in this fracture which completely eclipses the famous "golden stairs" about which so much was written in the early days of Dome Mines of Porcupine. The high grade fracture itself appears to have important width and length, preliminary work having shown very rich ore across a width of 14 feet and traced over a length of 200 feet in the heart of the big dome. Not sufficient work has been done to present definite figures as to width and length of the higher grade showings."

Robert Jowsey, mining man of Toronto, has taken a 60-day option on the claims on which the find was made and since then he has added other adjoining claims until now there are 30 claims in the group held.

bush, but Mr. and Mrs. J. Seguin won't allow him to, because they say he too old. Asked if he were going to see Mattawa, he said he thought he would. He did not know that a new white stone church had been built in place of the brick St. Anne's R. C. church, which was there when he left home to make a stake. He is still a bachelor. Three brothers and a sister still live. They are: Paul Seguin, 28 Duke street, Ottawa; Joe Seguin, 21 Elm street, Ottawa; and John Seguin, 20 Fifth avenue east, North Bay; and one sister, Mrs. P. Vezina, 334 Main street east, North Bay."

Annual Meeting of the Men's Association at Schumacher

United Church Organization at Schumacher Enjoys Banquet and Programme at Annual Meeting. Mr. W. Lambkin's Home at Schumacher Destroyed by Fire on Tuesday Evening. Other Items of News from The Advance Correspondent at Schumacher.

Schumacher, Sept. 27th, 1928. Special to The Advance.

The annual meeting of the United Church Men's Association was held in the basement of the church on Thursday, Sept. 20th. Rev. Ivan Kennedy presided. A most favourable report was given by the secretary-treasurer, which showed a balance on the right side. Officers elected for the ensuing year were:—President, W. R. Sullivan; vice-president, Geo. C. Murphy; secretary-treasurer, F. Willis. All were re-elected by acclamation. The organization is open to all male members of the congregation who are cordially invited to attend the next meeting which is to be held on October 9th at 8 p.m. in the basement of the church. After the business a banquet was served. Songs were rendered by Messrs. R. Skelly and H. Christopher, of Schumacher, and J. H. Skelly, of Timmins. These were much appreciated and applauded.

Rev. Ivan Kennedy is attending the session of the Cochrane Presbytery being held at Matheson on the 27th and 28th inst.

Miss Isa Cotcher visited friends at

Iroquois Falls during the week.

Dr. E. M. Honey left on Sunday to spend a week with friends in Toronto and Port Perry.

Mrs. J. A. Bush returned on Saturday after spending the holiday season at the home of her parents in Toronto.

Mr. William Moyes, Second avenue, returned recently from a holiday trip to Toronto and Scranton, Pa.

Rev. E. C. Moddle, of South Porcupine, will occupy the pulpit in Trinity United Church Sunday morning, 30th inst. Rev. Kennedy will conduct the morning services at South Porcupine.

A box social and dance under the auspices of L.O.B.A., 742, will be held in the McIntyre Recreation hall on Wednesday evening, Oct. 3rd.

The dwelling, owned and occupied by Mr. W. Lambkin and family of Gold Centre was destroyed by fire on Tuesday evening. The sympathy of friends is extended to the owner in the loss of home and contents.

Teachers' Convention will be held in the Central public school, Timmins, on Oct. 4 and 5. Our school will be closed on the foregoing dates.

Firemen's Convention in Schumacher Oct. 1 and 2.

SUDDEN DEATH OF MR. W. R. LOWERY, OF COBALT, TUESDAY

Word was received in Timmins on Tuesday evening of the sudden death at the Kiwanis District Convention at Kingston that evening of Mr. W. R. Lowery, of Cobalt. No particulars are to hand, but it would appear that Mr. Lowery succumbed suddenly to a heart attack. He had been troubled with his heart for some time past, but otherwise was apparently in good health. The late Mr. Lowery was an old-time resident of the North Land, conducting a successful wholesale business at Cobalt, with a branch at Timmins. He recently opened another branch in Kirkland Lake. He was a good business man, took a keen interest in municipal matters and in public affairs and was widely known and very popular, and esteemed by all who knew him. He was an active member of the Cobalt Board of Trade, the Associated Boards of Trade, the Kiwanis Club and other public bodies. He was well-known in Timmins where he has had a business for a number of years under the management of Mr. John Massie. The death of Mr. Lowery will be a shock to his friends in Timmins and a loss to Cobalt and the North.

The funeral of the late Mr. Lowery will take place from the undertaking parlours, Cobalt, on Saturday, Sept. 29th at 2 p.m.

Rightness expresses of actions what straightness—does of lines; and there can no more be two kinds of right action than there can be two kinds of straight lines.—Herbert Spencer.

MR. STOKES WINS FROM MR. WOOKEY IN THE SEMI-FINALS

Among the interesting matches played on the Timmins Gold course during the past week was that between Messrs Stokes and Wookey in the semi-finals played partly in a heavy rain, and the victor made the outstanding score of 34 for nine holes.

Miss Mills, the Ottawa golfer, who was up here during the past week, and played on the Abitibi course, also played in Timmins, making an 83 for eighteen holes, which is very good golf.

HOLIDAY SUBSTITUTION

Go next door or across the street; sit there and wish you were at home. Remarkably like a vacation.

Examine ruts in roads near your home through a magnifying glass. Looks exactly like Grand Canyon.

Poke cinders in your eyes and sleep on the pantry shelf. Wonderful substitute for an upper berth.

Fill your grips with books or lead, and run for cars every day. Same thing as touring Europe.

Fill bath tub with water, put in some broken glass. Ah! Just like the old swimming hole.

Open up all screen windows and doors and let the mosquitoes in. Just like camping.

—Exchange

Canada is the third largest producer of platinum among the countries of the world, Russia and Colombia, South America, holding first and second place respectively. Last year Canada produced 11,228 fine ounces of platinum valued at \$717,613.

FISHERMEN SHOULD TAKE OUT LICENSE

All Cheerful Liars should be licensed.

The Bearer, all Biron fishermen, having by reputation and long practice, coupled with a vivid imagination, exhibited all of the proper requirements therefor, is hereby empowered to Lie, Prevaricate, and show every other recklessness with the Truth, considered expedient by him, in connection with all matters relative to Fish and Fishing, for the current Season of 1928, subject however to the following regulations:—

- 1—Lies may be told at any place or time without notice. (Note: not advisable to Game Wardens.)
- 2—Cameras may be used, scales doctored, and elastic rulers employed.
- 3—Borrowed or rented fish may be used at any time.
- 4—Guides or others may be bribed or otherwise induced to corroborate all good lies.
- 5—No lies may be retracted, but may be added to, at will.
- 6—An extra quarter pound or half inch will improve all lies.
- 7—This license is null and void if used for any other purpose, including:
 - A—Weight of babies.
 - B—Tire and gasoline mileage.
 - C—Golf scores.
 - D—Prohibition matters.
 - E—All private and business purposes.

About \$7,000,000 is spent each year by the Canadian government for the promotion of the agricultural industry.

Gagnon Brothers
Of 27 Fourth Avenue
Moving to 13½ Pine St. S.
IN KING'S BLOCK
To carry on same business as in the past, Sewing Machines, Pianos, Phonographs and Electric Washers.
After October 1st remember the new address:—
