

# LOCALS

Kirkland Lake Scots have organized a Caledonian Society.

Mr. J. Litter, of Hamilton, was a Timmins visitor last week.

The Salvation Army officer in charge at Kirkland Lake is Capt. Deadman, but he's a live one.

Cobalt town council at its first meeting in 1929 made a grant of \$250.00 to the Victorian Order of Nurses.

During 1928 there were 74 births in the town of Haileybury, and 36 deaths. The highest number of births in any one month was 9, in February, while the lowest was 3, in December. The other months varied from 4 to 7 per month.

The C.N.P.C. Review tells of a gentleman visiting at Sandy Falls recently who missed the last boat for Timmins—the last boat for the year, and for the season. He had to walk home. About half way on the journey, says The C.N.P.C. Review, a little bird heard him murmur:—"Oh, Lord! Why did you make Canada so big?"

The New Liskeard Speaker last week says:—"Mr. Albert Galoska has severed his connections with the Royal Bank and has accepted a position with the National Grocers in Timmins. Timmins is not so far away so that Albert's home folk and friends will still be in close touch with him. All wish him advancement and prosperity, which, with his capabilities he will surely attain."

The Haileyburian last week says:—"The town and community of Elk Lake is at present worrying seriously over the future supply of electric power. When the dam on Bear River went out last spring it cut off the source of power and negotiations which have been carried on since with the Northern Canada Power Company are said to have proved fruitless and have been abandoned. The new council, under Reeve J. W. Brodie, are endeavouring to secure power from another source."

Mr. S. McChesney, of Timmins, was a visitor to New Liskeard last week.

The next regular meeting of the town council will be held on Monday afternoon, Jan. 28th, commencing at 4 p.m.

Dr. D. R. Cameron, one of Oshawa's prominent physicians, and formerly of Cochrane, died on Friday last at Oshawa following a heart attack. He was prominent in sports as well as in his profession. A widow and seven children survive. The late Dr. Cameron was about 48 years of age.

A. Jeacle, while at work at the mill at the Sylvanite Mine one day last week had the misfortune to get his right hand caught in some part of the machinery and two of his fingers were so badly crushed that amputation of these fingers proved necessary.

An ingenious reason is given by The Pas Herald for the lack of trees in the "Barren Lands." The Herald suggests that Paul Bunyan must have travelled up to the arctic and stopped in what is now the Barren Lands and built a fire there to cook a meal for himself and his famous dog.

The report of the Fire Underwriters Inspector in regard to Swastika suggests that a fire alarm bell, a ladder truck and other equipment be installed at Swastika and also that a regular night patrol should be instituted.

Mr. W. D. Cuthbertson returned last week from Renfrew where he visited at his old home with his father and mother, both enjoying good health and strength though over 80 years of age, his father being 92 years old.

Mr. Frank Findlay, of New Liskeard, this year is offering three silver cups for the annual dog races at New Liskeard. The date for the Liskeard dog races will be announced shortly. The race is emblematic of the boys' championship of the Temiskaming District.

Mr. Richard Douglas, who has been pump operator on the T. & N. O. at Latchford for a number of years, has been retired, according to the Latchford correspondent of The New Liskeard Speaker. Mr. Douglas has been succeeded at Latchford by Mr. W. Knight, of North Bay.

At Kirkland Lake some days ago Mrs. G. Kennedy was fined \$50.00 and costs for obstructing the police. When the police went to the house with a search warrant to look for liquor she delayed opening the door, and the police say that in the meantime effort was made to dispose of liquor by pouring it down the drain.

The Matheson correspondent of The New Liskeard Speaker last week writes:—"Hon. Wm. Finlayson deserves great credit for the amount of travelling he has ordered done in the North. This not only gives many of the settlers employment for the winter, but it also will help to put the roads in better condition this spring."

Last week the bad condition of the roads in Orillia compelled the use of the horse-drawn trucks by the fire brigade there. In Timmins the motor trucks are practical and used nearly every day throughout the year. One year recently there was only one call that had to be answered by the horse-drawn truck.

White River has lots of crown as the coldest spot in Ontario, Hornepayne now apparently holding the honour. During the cold spell some days ago, the best White River could show was 48 below while Hornepayne thermometers registered 58 below.

This is one paragraph from the paragraphs headed "Wawatit Wails," in the C.N.P.C. Review, published by and for the employees of the Canada Northern Power Corporation:—"Mr. Jack Faithful got stung on the hand by the last surviving mosquito. Turning to Mr. Hollett he said, "Blimey, Bill but ain't his blooming feet hot?"

A correspondent at Connaught writes:—"The members of the Orange Lodge are bringing to Connaught the travelling library of the Department of Education. This set consists of fifty books on fiction, travel, history, literature and children's books. They will be for the use of all in the community and will supply a great need in our town. Mr. Smith, the public school principal, will take charge of the books on arrival and act as librarian."

### ASKING RE-SURVEYING OF TOWNSHIPS NEAR MATHESON

Prospectors are circulating two petitions with a view toward securing government assistance in marking the boundary lines of townships in the vicinity of Matheson. McCool, Munro, Michaud and other townships are mentioned.

These townships were surveyed many years ago, but the great fire of 1916 which swept across the country destroyed every landmark and has rendered it extremely difficult to determine the location of mining claims. One petition is addressed to Hon. Chas. McCrea, Minister of Mines and the other to Hon. Mr. Finlayson, Minister of Lands and Forests.

Prospectors believe that even if the outer boundaries of the townships were definitely marked it would be of very great assistance—as under the present circumstances, prospectors are seriously inconvenienced and subjected to hazards of litigations. The request appears to be a reasonable one.—Toronto Mail and Empire.

The tobacco manufacturing industry in Canada had an increase valued at \$6,000,000 in 1927 in the gross value of its products. The gross value of tobacco products manufactured in 1927 was \$71,124,505 compared with \$65,183,751 in 1926.

## T. & N. O. BONSPIEL TO START MONDAY, JANUARY 28

Will Run to Jan. 31st. Preparations Under Way for Big Annual Event at Haileybury

Curlers in the district will be interested in the annual T. & N. O. bonspiel to be held at Haileybury this year commencing on Jan. 28th and continuing to Jan. 31st. In referring to the event last week The Haileyburian said:—"Preparations are under way for the holding of the annual T. & N. O. bonspiel here, commencing Monday, January 28th, and running to the 31st."

A large number of rinks are expected from all points on the T. & N. O. for this big annual affair, and it is reported that the prizes this year are bigger and better than ever. There is also the probability of another event being added to the three already on the programme.

The main event is the Geo. W. Lee trophy, presented by the Chairman of the T. & N. O., and valuable first, second and third prizes. Then there is the A. E. Moysey & Co. Trophy, a beautiful prize, with individual awards for first, second and third place rinks. The Consolation event is for the benefit of those who lose in the main events, and there are prizes for the first and second rinks.

"Nine sheets of ice will be available for the event, and the committees in charge of the various arrangements are confident that everything will be in A-1 shape to cater to the enjoyment of all who take in the 'spiel.' "Entries should be sent to D. A. Carmichael, Bonspiel Secretary, as early as possible, as the draw is to be made for Monday evening, January 28th and no entries will be received after noon on that day."

### ANNUAL REPORT OF THE BRADING BREWERIES CO.

In presenting the annual report of the Board of Directors of Brading Breweries, the president, Lieut.-Colonel Plunkett B. Taylor, stated that the sales during the past year have been the largest since the founding of the company 63 years ago, and have been more than 30 per cent. better than in the previous year. It is expected that during the coming year the business will show a further material increase.

### THE PUBLIC LIBRARY

I like the Public Library With its cloistered hushed repose. I like to browse among the books In varicoloured rows, To mingle with those loyal friends And have them speak to me In captivating English prose Or whispered melody. The magic lines of Shakespeare And Milton's organ phrase Bring golden recollections Of scented summer days; So Bacon, Lamb and Coleridge, Macaulay, Keats, Carlyle, And Chatterfield of courtly grace They cheer me and beguile. The wondrous words of Wordsworth, Harmonious and pure, And many another poet Whose name will long endure; The rippling verse of Tennyson, Ambrosial to the lips, The stately lines of Newman, Like graceful moving ships, With Byron, Browning, Eliot, And dear old Dickens, too; With Thackeray and Stevenson I while an hour or two; With Irving, Lowell, Emerson, Masters of perfumed prose, With Bryant, Hawthorne, Whittier, All redolent of the rose. 'Twere easy to extend the list Of much beloved names, From learned Aristotle To brilliant Henry James I like the Public Library Its books bring peace and rest, Of all those friends I cannot say Which one I like the best! —Grenville Kleiser.
