#### GRAVEL AND SAND-AND PLACER

The Toronto Star suggests that the prosecution of aliens for sedition should not be undertaken by municipal police but should be left to the Dominion police. The trouble has been that such necessary prosecutions have been left too long in the hands of the Dominion authorities. If the Dominion police had done their duty fully and reasonably in days past there would be very much less of this offensive and evil agitation by self-seeking foreigners. The present undesirable situation has arisen largely because the Dominion authorities fave failed in their duties. The people generally will be pleased to know that municipal police are taking the necessary steps in some places to stop disloyal and disrupting efforts on the part of evil-minded foreigners. The people of Canada do not want to completely discard their present form of government nor throw away every vestige of religion. Reduced to its logical conclusions this is what the communist asks. The attitude in general among loyal and reasonable British subjects is that if the aliens know of some perfect land where an odd form of government and a total absence of religion delights this special form of alien heart then the foreigners who feel like that owe it to themselves to leave this country for the land they so admire. Incidentally, that is the last thing most of the agitators wish to do. They know that in no other country under the sun would they be allowed to sponge on the workers and viciously attack the government system and religious beliefs of the people. The idea used by the Dominion authorities to excuse their laziness and stupidity in handling what is developing into a real menace is that it is well to let agitators "blow off steam." "Let them talk," they say, "that is the British way." Just through such foolish theories, Britain to-day is faced with conditions most undesirable and that well might have been avoided. Tolerance may be a fine thing, but when the meanest form of unsportsmanlike tyranny is tolerated, the result is far indeed from true toleration. \* \* \* \*

Some of the speakers in the House of Commons last week argued that titles in Canada should be abolished because some unworthy people had been given the honour of titles. If this form of reasoning were to be applied to some of the members of the House, parliament would have to be dissolved in toto.

Newspaper editors have to be very careful about what they say, even in humorous way. Last week The Perth Expositor made some reflections on the men for wearing a form of dress that gave considerable trouble in the donning and discarding. The Expositor suggests that a man has to manipulate seventeen buttons each morning in dressing. Perhaps the Perth editor has no one to look after his buttons, poor fellow. Or he may not wear a shirt! Or perhaps, he sleeps with some of his day clothes on! Or he may use the odd shingle nail! If he follows the mode of the day and has all his buttons and uses all his buttons, seventeen will see his trousers, there will be nine buttons there to manipulate! to women and can always find humour in women's dress.

The proposal of the Kiwanees to instal a swimming pool and park at the river this year is a community work that deserves the whole-hearted support of all. Swimming is a healthy, wholesome sport that appeals to practically all, and particularly to the youngsters. Unfortunately, in the past there was danger ever present in this recreation. The establishment of a modern swimming pool with an expert swimmer in constant charge will be a wonderful gift to the town. The need for something like this has been recognized by all giving such questions any thought. The matter has been discussed at board of trade meetings and elsewhere The Kiwanees have passed the discussion stage and have plans now well advanced to provide the swimming pool. The iadies have the energy, the enthusiasm and the talent to carry their plans to success. Everyone should not only wish them well in this worthy work, but wherever possible give them any assistance possible

The Pas. Manitoba, now has the distinction of possessing daily newspaper. The Pas is the only town-in Canada in the far North have this distinction. Whether a daily newspaper can be successfully conducted in the territory remains to be seen. In any event The Pas and its daily newspaper will not suffer for lack of good wishes. Everyone will wish them well. The Pas Herald published weekly for many years, has been amalgamated with the new daily, and has discontinued publication. This will be viewed with general regret. The Pas Herald has served its district with both earnestness and talent. Always bright and readable, it has been fair and public-spirited. There is no doubt but that its editorial excellence has done much to make The Pas more widely known than it would have been without such an advocate. To many in the East, as well as many in the West, the discontinuance of The Pas Herald will be like the loss of an old friend.

The Advance this week received a clipping, apparently from The Sudbury Star, in reference to the tolls proposed to be collected by the Vermillion Boom Co., Ltd., and the Spanish River Improvement Co., Ltd. Accompanying the clipping was the following note:—"Dear Editor: Why not go after these and several other "overlordships" of Ontario rivers, viz., Sturgeon river (actually blocked four months each summer)—French river, and these per notice here.-A. E. Wicks." In reply The Advance would say that it does not believe in taking over too much territory all at once. The chief concern of this paper is to do what may be done to see that the Mattagami river, right here in this Porcupine district, is kept open for traffic and free from the domination of strutting lords. After it is assured that the Mattagami is free, The Advance may turn attention to the streams skip, 13. in the distance. It is not easy for this newspaper to learn all the facts about any improper blocking of distant streams. The attempted "overlordship" of the Mattagami is very evi- Todd, A. W. Lang, skip, 7. dent here. Again, The Advance would warn the settlers and lumbermen and others interested to continue to guard their rights on the Mattagami river. Although the recent meeting here would suggest that the licenses of occupation and the charter of the booming association were to be cancelled. the booming association is proceeding along some lines as if skip, 9. ts future were assured. The settlers and others concerned hould see to it that the situation is kept fairly before the Haileybury, W. A. Gordon, skip, 7. government so that the public rights are safeguarded. There should be a good representation of settlers and lumbermen skip, 11; Haileybury, E. Smith, skip, at Cochrane when the matter of the proposed tolls to be charged by the booming association comes before the Dis trict Judge. It should be made plain at that time that the booming association is not desired nor desirable and that the general wish and demand is that the Mattagami be kept open for traffic by "Government Control," as Major Hartt don, 7.

## KIWANEES TO BRING HERE COMMUNITY CHAUTAUQUA'

Several Days of Remarkable Entertainment to be Provided by High-Class Artists to be Here in September

The ladies of the Kiwanees have just completed arrangements to confer another noteworthy benefit on Timmins and district. This latest move is the securing of the famous "Community Chautauguas" to visit Timmins on their summer tour this year. The Community Chautauquas will be here in September and all should note this fact and watch for further particulars.

Providing the best of high-class tarent the Community Chautauquas require a heavy guarantee and this has been arranged by the Kiwanees. To make the event a financial success it will be necessary for the general public to co-operate with the Kiwanees. As for the success of the event as an entertainment, that is assured from past successes of the Community Chautauquas. "They the very best obtainable" is the verdict of other towns and cities where the Community Chautauquas

#### IN MEMORIAM

IN LOVING MEMORY of my dear husband, William Crews, who died Feb. 26th, 1927. A string on memory's harp is sadly

touched to-day. -Sadly missed but lovingly remem bered by sorrowing wife and little daughter Helen

#### IN MEMORIAM

IN LOVING MEMORY of our dear mother. Mrs. Lucy E. Cox, who died at Schumacher, Feb. 19th, 1928. Sleep on, dear one, thy labours o'er. Thy willing hands can do no more. The midnight star shines on the grave Of one we loved but could not save. -Sadly missed by Husband, Freddie, Sadie, Mary and Don.

#### IN MEMORIAM

IN LOVING MEMORY of Elsie Atkins, beloved wife of Gordon Thompson, who passed away March 2nd, 1928 Do not ask us if we miss her,

Can we e'er forget her footsteps, Or her loving, smiling face. As we loved her, so we miss her. In our memory she is near,

There is such a vacant space;

Loved, remembered, longed for, always, Bringing many a silent tear. We loved her; oh, no tongue can tell How much we loved her and how well.

God loved her, too, and thought it best To take her home with him to rest. A bright and shining memory Enfolds our dear one night and day And makes that land in which she dwells A home we long to see some day.

Our heart is her's, we can't forget, Her smiling face and loving ways, And in the birds and flowers I see Glory that brings her back to me. -Husband, Daughter and Mother, -9p
