TURN ABOUT

Montreal Gazette: "Leon Trotsky, on his way to Turkey, where he is permitted to be an exile under surveillance, must have bitter thoughts of this Russian fellow, who are glad to be rid of him. It is not long since he was president of the Petrograde Soviet and leader of the Bolshevik Revolutionary Committee whose coupe d'etat led to Kerensky's downfall, after which, with Lenin, he seized the reins of government and established the Council of the People's Commissioners. Today he is a wanderer seeking refuge in a foreign land. Trotsky had no mercy for the people he ousted and now the Russians he led have none for him. His opinion on Soviet Russia today might be interesting if anyone cared enough about him to listen."

THEIR STATUS

Cincinnati Enquirer
 Husband-shooting and wife-shooting are becoming so common, and so seldom punished, that we might as well include them as just another form of divorce.

AT THE SOURCE

Toronto Globe
 Canada is now producing nearly twice as much newsprint as the United States. The tendency is everywhere to follow the Ford motto: Manufacture at the source of raw material.

Here and There

245
 In 1921 the Canadian Pacific paid out \$2,000,000 from freight revenue in loss and damage claims. In 1927 it paid \$700,000—a decrease of \$1,300,000, although in the same period the gross freight revenue had increased by \$15,000,000. Better freight handling did it.

The stonework and most of the partitioning of the Royal York Hotel have been completed, and there appears every likelihood that the great building will be open to the travelling public by June 1. This hotel is the largest and tallest in the British Empire.

Some idea of the world-wide area over which the Canadian Pacific operates may be gathered from the fact that in making out its monthly balance it is necessary to turn fifty-nine different foreign currencies into dollars in order to get an accurate result in Canadian money.

Wireless is now being used to aid in the protection of forests against fire. The Ontario Provincial government planes are equipped with the latest apparatus with a radius of 400 miles, so that the headquarters may be readily communicated with an immediate step taken upon the discovery of an outbreak.

"The principle of rapid freezing has such qualifications that there seems to be little room for doubt that it is going to revolutionize the fishing industry," stated W. A. Found, deputy minister of fisheries. "We intend to make these experimental stations at Halifax of the utmost value to the whole industry."

W. J. C. Madden of Calgary, is making arrangements with the Canadian Pacific Express Company for the transportation of whitefish caught in Great Slave Lake from Edmonton to Chicago. It is intended that the distance from the fishing ground to rail head will be covered in eight or nine days, operating upon the thick ice of the Slave and Athabaska Rivers, traversing country that would otherwise be difficult to cross.

A new and strange form of wild-fowl is being imported into Alberta by the Calgary Fish and Game Association, which has arranged to secure 2,000 Mongolian and Chinese ring-necked pheasants. The birds are to be liberated this summer throughout the southern part of the province, where 1800 were placed last season as part of the Game Association's plan for re-stocking Alberta's game bird supply. With all these Oriental birds loose the ancient Yellow Peril seems more imminent.

Copping as much as an hour and a half off her schedule eastbound, and half an hour westbound, the Trans Canada Limited, crack flyer of the Canadian Pacific Railway running between Montreal, Toronto, and Vancouver, will be further remarkable this summer by reason of a "solarium" car, containing baths and a special sun-room, that will be included in her luxurious equipment. The Mountaineer, another speedy summer train, running between Vancouver and Chicago will also have "solarium" cars, and run on faster time. The Trans Canada makes its first run on May 12, and the Mountaineer on June 19. The former train makes 140 trips during the summer season covering a distance equal to about fifteen and a half times around the world.

Workers' Co-operative of New Ontario, Ltd.

Timmins - Ontario

THIRD ANNUAL MEETING

Notice is hereby given that the third annual meeting of Workers' Co-Operative of New Ontario will be held at the hall of the Finnish Society, 50 Fourth Avenue, Timmins, Ont., on the 24th day of February, 1929 at 10 o'clock in the morning.

Following subjects will be considered at this meeting, namely:

- Financial Statement of Trading and Profit and Loss for period from January 1st, 1928 to December 31st, 1928.
- Board of Directors will present full report for the same period.
- The audited report prepared by Mr. G. N. Ross, Chartered Accountant, will be submitted.
- Election of two members to the Board of Directors
- Manager's Report
- Any ordinary business of interest to the Co-Operative will be considered.

By Order,
 (signed) N. D. Thachuk,
 Secretary

Dated at Timmins this 4th day of February, 1929 7.8

CANADIAN'S PROTECTION

(From the Mail & Empire)

The United States government is perfectly within its rights in raising a tariff wall against any Canadian products. The proper business of the United States government is to look after the interest of the United States. When it does that Canada can have no complaint, as long as the Canadian government similarly occupies itself exclusively with the business of protecting the interests of Canadians.

them Mail says editorially, it took courage to found a new paper in a country just on the verge of development. Only by taking such courage did most of the great newspapers in Canada start on careers which, though often difficult and hazardous, have achieved success, and retained the confidence widely and generously imposed in them."

"THE NORTHERN MAIL"

Winnipeg Free Press: "The Northern Mail appeared on the last day of January as the first newspaper to be published daily at The Pas, and is to be congratulated on its creditable appearance. With becoming modesty, it alludes to itself as 'the infant in Canada's family of daily newspapers.' It begins with the advantage of being born into a good family. As the Nor-
