VIPOND POSITION NOW A VERY SATISFACTORY ONE

The Market Despatch in its last issue has the following in regard to Vipond: "Porcupine reports indicate that underground conditions in the area of exploration and development in No. 9 Vein System continue satisfactory, with the 400-foot level opening up very satisfactorily. It was on the 400, it will be recalled, that a discovery of \$20 ore over a five-foot width was recorded recently. This discovery, therefore, lengthens the upward extension of this deposit, and the Company now has the ore on five levels, namely, the 400, 500, 600, 733 and 866.

"It is understood that the ore on the 400 was encountered in the drift sooner than was expected, indicating that on this horizon the deposit either may be longer or may have a rake to the east. In respect to ore reserves the consensus of opinion seems to be that the Vipond now probably is as well entrenched as at any previous time in its career. The outlook may be adjudged as most encouraging, and there is a possibility that a further increase in mill production to around 300 tons a day, for a possible monthly output of, perhaps, approximately \$70,000, may be established in the not so very far future. At the present time production is estimated as running at the rate of upwards of \$60,000 monthly, from which the Company undoubtedly is obtaining a fair net profit."

Ski-ing Has Become Very Popular This Season

In this North Land during the past year or two the sport of ski-ing has become very popular. The Porcupine Ski Club, through the interest and talent of its officers, notably Dr. Sundberg, has made ski-ing one of the outstanding winter recreations in Timmins and district. This is very pleasing as ski-ing is a sport eminently suited for this country. It is wholesome, healthy and invigorating and is particularly adapted to the North Land winters. It creates in the young people a love of happy outdoor recreation and the long hikes taken also tend to familiarize the ski artists with the district generally, which in itself is well worth while. The ski hikes to the south and the east have naturally given considerable publicity to ski-ing in Ontario. In this connection it is interesting to note the change in the popularity of winter sports in southern centres. Take the case of Toronto, for example. In a recent issue The Toronto Globe referred to the change noted at High Park. Though the month of February was ideal for tobogganing, and the city, in order to give citizens full use of the slides, paid \$1000.00 to the owners of Grenadier Pond, there have been very few this year taking advantage of the city's generosity. A few years ago six slides were operating and the police had to be on hand to keep the young folks in

line. This year the slides are comparatively little used, and one of the park officials told The Globe that he attributed the change to the popularity with the young people this year of ski-ing.

IROQUOIS FALLS WON 8 TO 0 FIRST GAME WITH SUDBURY

Falls Team Showed Great Superiority Over Sudbury Players on Thursday Night.

In the first of the home and home games for the championship of Northern Ontario and the right to go to Toronto for the finals, the Iroquois Falls Senior N.O.H.A. team showed very decided superiority to the Sudbury team when the two met last Thursday evening on Iroquois Falls ice. Hockey fans from all over the district went in to the Falls to attend the match, and there was a general agreement that the Falls "had it all over Sudbury" this season. Sudbury fans present at the match said that the Sudbury team was really a pick-up team, and that conditions had worked against Sudbury having a thorough drilling in games like Iroquois Falls Eskimos had certainly had during the season. Old-timers from the district regretted the great games of long ago when Sudbury and the Sault had great teams. There was, however, pleasure in the way the Iroquois Falls lads showed up on the ice and the way they played. The Wolves from Sudbury evidenced a decided nervousness in regard to the stalwart Eskimos. They did not usually even attempt to pass the defence, but appeared to think they were doing as well as they could if they shot from the blue line. As a consequence they missed some good chances, though it is more than doubtful if they could have stood much chance to win had all chances been embraced. The fact was that on the play they were outclassed. The long shots were "Eskimo pie" for Kerr, who stops the easy ones as easy as the hard ones. Kerr, indeed, usually stops them all. The mild weather made the ice condition poor and also helped to slacken up the game.

For the Eskimos the pick of the team included Evans, Huggins and Trotter. Evans and Huggins in their lone rushes showed fine form. Special interest was taken in the poke check work by Trotter who was subbing. In selecting these three there is no disparagement of the rest of the team all of whom played good hockey and were right on the job all the time. For the Sudbury Wolves Dalby and McIntyre were the best, the latter being effective, though being sent three times to the penalty box.

The final score was 8 to 0, and this more or less indicated the difference in play of the two teams. The line-up of the two teams was as follows:—

Iroquois Falls Eskimos—Goal, Kerr; defence, Evans, Huggins; centre, Wimperis; wings, Wilson and Fraser; subs, Trotter, Pender and Chirooski; sub goalie, Powers.
 Sudbury Wolves—Goal, McArthur; defence, McIntyre, Dalby; centre, Loney; wings, Simms, Solomon; subs, O'Connor, Olivier, Bray; sub. goalie, Haddad.
 Referees—Roger Mitchell, Sudbury; Percy Fahey, Iroquois Falls.

Summary:

First Period	
Iroquois Fraser,	7.00
Penalties—Evans (2), Dalby, Simms and McIntyre.	
Second Period	
Iroquois Falls, Wimperis	4.00
Iroquois Falls, Trotter	3.00
Iroquois Falls, O'Connor	3.00
Penalties—McIntyre (2), Wilson, Dalby, Evans, Chirooski and Huggins.	
Third Period	
Iroquois Falls, Evans	6.00
Iroquois Falls, Pender	3.00
Iroquois Falls, Wimperis	2.00
Iroquois Falls, Fraser	4.00
Penalties—Evans, Fraser, Olivier, McIntyre, Chirooski.	

In the first period some fine rushes by Huggins featured the play. With Wimperis and Huggins in combination the play was kept well in the Sudbury area. The first goal was scored near the end of the period by Fraser, when there was a scramble in front of the Sudbury net.

In the second frame the Wolves played better hockey. Evans and Wimperis in nice combination got right through and Wimperis slipped in the dandy pass given. Trotter got the third when he grabbed a loose puck before the goal and slipped it in. The fourth one was put in by a Sudbury man in attempting to clear the puck from before his own goal.

In the third period the Falls had it much their own way and scored four, Evans, Pender, Wimperis, and Fraser scoring one each.

The game was generally well handled by Referees Mitchell, of Sudbury, and Fahey, of the Falls.

MAY SAVE THE SIGHT OF MAN HURT AT KEELEY MINE

Reports from Toronto regarding the condition of Arthur Hardie, one of two men hurt in the fatal blasting accident at the Keeley mine, Silver Centre, two weeks ago, are more favourable than had been anticipated. It is believed now that the sight of one of his eyes is assured, and there is a good possibility that the other eye also may be saved. Hardie is in the Toronto General Hospital, to which institution he was sent the night after the accident, after treatment had been given him at the Mines Hospital, Cobalt. Letters from Toronto are to the effect that, while it is yet too soon to state definitely the outcome of the injuries, hopes are strong. Hardie was badly injured about the face when he drilled into a missed hole and at first it was feared he would lose his sight.
