GOLD OUTPUT IN FEBRUARY \$211,403 OVER LAST YEAR

Increase at Porcupine in February, 1929 was \$24,523 Over February of Last Year. Figures for Province

Returns received by the Ontario Department of Mines from the gold mines of the Province for February were higher than the figure for the corresponding month of 1928. The increase at Porcupine was \$24,523, and at Kirkland Lake \$186,880, or a total of \$211,403. The figures for tonnages milled and values recovered are shown below:

Monthly Output of Ontario Gold Mines (Gold and Silver Values)	
Source and Period	Total Value
*Calendar year 1928	\$20,351,931
Average per month	1,695,994
January, 1928	1,956,969
January, 1929	1,604,861
February, 1928	1,439,161
February, 1929	1,463,684

KIRKLAND LAKE—	
Source and Period	Total Value
*Calendar year 1928	12,271,110
Average per month	1,022,592
January, 1928	1,005,886
January, 1929	1,058,413
February, 1928	964,830
February, 1929	1,151,710
*Total for cal. year 1928	32,623,041
Average per month, 1928	2,718,587
Total for January, 1928	2,962,855
Total for January, 1929	2,863,274
Total for February, 1928	2,403,991
Total for February, 1929	2,615,394

*Subject to Revision
Producing Mines
During February producing mines, in order of output, were as follows:
Porcupine (8)—Hollinger, McIntyre, Dome, Vipond, Conlastrum, Ankerite, West Dome Lake and March.
Kirkland Lake (6)—Lake Shore, Teck-Hughes, Wright-Hargreaves, Sylvanite, Kirkland Lake Gold and Barry-Hollinger.

Receipts of crude bullion from Ontario gold mines at the Royal Mint, Ottawa, for February totalled 96,764.16 crude ounces, containing 79,612,081 fine ounces of gold and 13,981.55 fine ounces of silver, having a total value of \$1,653,467.04.

Timmins Made a Win in the Inter-town Bowling

As a change in the series of wins for Schumacher, Timmins made a win last week in the Inter-town bowling. The game was played on Friday evening at Timmins and the local bowlers emerged with three points and a feeling of great happiness in their victory. The following is the scoring for the occasion:—

Schumacher	
Weber	219 174 143 536
MacMillan	234 221 176 631
Attilio	176 192 230 598
Tonkin	237 229 250 716
Arnott	186 225 186 591
Total	1046 1041 985 3071
Timmins	
Daher H.	167 167 167
Tomkinson A.	183 256 338 777
Angelo M.	217 241 285 743
Sauve A.	270 284 260 814
Skelly J.	179 204 165 548
McDougall	198 176 374
Totals	1016 1183 1224 3423

Timmins win 3 points.

KAPUSKASING COMMUNITY CLUB FINE INSTITUTION

According to all accounts the community club at Kapuskasing, recently placed at the disposal of the citizens of the town, is a particularly handsome and well-appointed structure. It is the intention to hand over the community club to a board of directors of seven men, two elected from the town, two from the employees of the paper mill plant, two by the management of the Spruce Falls Power and Paper Co., Limited, to whose enterprise and generosity the public owe the magnificent community centre, and a chairman to be appointed by the company. The building is a commodious structure, containing every provision for recreational and cultural activities. There is a library, gymnasium, billiard room, bowling alleys, motion picture theatre, card rooms, banquet room, kitchens, board room, clinic room, lounge rooms, etc. There are separate locker rooms, showers, lounge rooms, etc., for ladies, men and boys. The furnishings are described as elegant and practical. Open fireplaces are featured in the lounge rooms. In connection with the soda fountain, soft drinks, light lunches, teas, etc., will be served at specified hours.

Membership in the Kapuskasing Community Club will be available to all. The annual dues will be six dollars a year for a husband and wife and any children under seventeen years, and four dollars per year for single membership. Prices for the motion picture shows are also to be set at a comparatively low figure. The activities of the Kapuskasing Community Club will include hockey, baseball, basketball, volleyball, softball, quits, football, badminton, tennis, lawn bowling and other sports. Specific hours will be allotted at the gymnasium for the votaries of the various sports.

From the descriptions given by travellers and others of the new community club building at Kapuskasing, the plan is going to be a great benefit and advantage to the people of the town, and the Spruce Falls Power and Paper Co. are being warmly praised for the interest and effort shown for the comfort and contentment of the people of the town.

INTERESTING ADDRESS ON SOME MASONIC LANDMARKS

Mr. Harry Linney, of Bracebridge, Addresses Iroquois Falls Lodge, A.F. & A.M., in Very Effective and Pleasing Way.

A correspondent at Matheson this week kindly furnishes The Advance with the following interesting account of a very interesting address on "Masonic Landmarks," given to the Masonic Lodge at Iroquois Falls recently:—

A number from Matheson visited Abitibi Lodge, A.F. & A.M., Iroquois Falls, on Friday night, when Mr. Harry Linney, of Bracebridge, was the speaker. His subject was "Some Masonic Landmarks"; an address he illustrated by lantern slides.

Mr. Linney portrayed the architecture of ancient days, tracing development of original temple and pyramid construction and revealing stupendous and magnificent walls, viaducts, temples, etc., all erected with stone, either in desert plain or on mountain tops; materials obtained in quarries many miles distant and in places almost inaccessible; some of the stones so great that modern contrivances would prove ineffectual in moving them!

From Palestine, Assyria, Egypt and Babylonia architectural designs wherein history and prophecy were preserved and systems of geometry and astronomy given to us. The speaker showed in contrast the early temples of religious worship in Brittany.

Mr. Linney outlined the history of Masonry in Canada, starting when Gen. James Wolfe won his great victory at Quebec, when lodges were established in the Citadel City from among craft members in the regiments. From these early days the history was traced through the years in which distinguished men in all walks of life were identified.

The address was much enjoyed.

McIntyre Bowling League Scores Week of March 16

The following are the scores for the McIntyre Bowling League last week:

SUBBURY BOY LOSES SIGHT OF EYE THROUGH DETONATOR

The danger from detonators has been so often emphasized in this North Land that one would think that everybody would understand the danger and guard against it. It might even be expected that boys would have learned by horrible examples the danger of fooling with these dynamite caps. But further examples keep coming up at the time. The latest is the case of a Sudbury boy, 15 years old, who found a detonator in a drawer. There were two wires attached to the cap and the boy carried the detonator to the garage where he applied the ends of the wires to the terminals of the battery on his father's car. The resulting explosion hurled the boy to the ground. He was cut about the face and left arm, while the sight of the left eye was destroyed. Splinters of the cartridge were extracted from almost every exposed part of lad's body. He had a painful time, indeed, while a physician gave him first aid, after which the boy was removed to the hospital. The lad showed much bravery in his suffering, but the regrettable part is that he should have been involved in the unnecessary accident. The references to the matter from Sudbury say that the detonator had been carefully hidden, and it is a mystery how the lad located it. The incident should surely be taken as a warning by all other boys not to fool with these useful but highly dangerous devices.

URGING TOURIST BUREAU AT NORTH BAY FOR NORTH LAND

Associated Board of Trade at Next Meeting Will be Asked to Consider This Question

It is understood that one of the questions to come before the next session of the Northern Ontario Associated Boards of Trade will be the plan of establishing at North Bay an information bureau for tourists. The idea originated with the Halleybury Board of Trade, according to the discussion now in progress about the question. Halleybury Board of Trade found that there were many complaints from tourists as to inability to secure information in North Bay relative to the Temiskaming and Cochrane districts. It is felt that if tourists coming up to this North comment on the difficulty of securing details about this country, it is more than likely that a number of tourists fail to visit here altogether because of this lack of authentic information. Those in favour of a tourists information bureau at North Bay argue that it would do much to increase tourist travel up to the farther North. The need for an official centre for the dissemination of information to increase tourist traffic, and supply needed data for those visiting the North is stressed in the references now being made by several newspapers interested. North Bay is of course in favour of the plan, but in this North all are not agreed that North Bay is the proper place for such a North Land information bureau. Toronto is favoured by many here, the argument being that if the office is to be in the South, it should be in the largest centre available in the South. Hence, the favour for having the office in Toronto. Against Toronto, it is suggested that in such a large city the office would not be conspicuous enough and so the object for which it was established would be defeated. In other words, it is suggested that if the tourist information bureau were placed in Toronto, most of the tourists would not find it. In reply to this there is the insinuation that a large number of the prospective tourists for this North might not find North Bay. Probably the ideal plan would be to have offices at both North Bay and Toronto for this North Land, but falling this it is emphasized that effort should be directed as closely as possible to the source of tourist traffic for the North.

The matter, however, has already proceeded this far,—that plans are indicated as to how the project could be financed. The proposal is to make a levy on the various municipalities concerned for the upkeep of the information bureau, which would be kept open for about four months a year. Whether such a plan could be worked out so that the municipalities would pay in proportion to benefits received, and whether all the municipalities and the unorganized areas could, and would, support the plan are matters open for consideration. However, the whole question is one worthy of thought and attention and will likely receive due notice at the next meeting of the Northern Ontario Associated Boards of Trade.

MAN DIED AS HE TOOK STEP FORWARD IN THE FAR NORTH
Press reports from Toronto last week purported to make mention of a mysterious death in the far North. The name of the victim of the peculiar tragedy is missing as are also some other vital particulars, but the story as reported from Toronto is given for what it may be worth, with the comment that trappers and prospectors are quoted as not inclined to scoff at its possibility. According to the report, an Indian party engaged in running trap-lines in the region of the headwaters of the Attawapiskia river, discovered the body of a white man standing bolt upright, with one foot slightly advanced as if he was about to take a step when suddenly stricken. The body was as hard as a board and was firm in its unusual position. The Indians found the man's snowshoes were firmly anchored in slush ice. There were neither marks on the clothing nor anything in the prospector's sack that would indicate his identity, according to the report. Recovery of the body cannot be made until summer, it was stated.
