The North Bay Nugget last week says:—"Mrs. I. Brill, Timmins, is visiting her mother, Mrs. F. Thomas, First avenue, east, who is ill."

Major Owen, of North Bay, Divisional Commander of the Salvation Army, will be at the Timmins Army on Wednesday, Thursday and Friday, April 3rd, 4th and 5th, when special services will be conducted by him here.

The District Children's Aid Society last week received a cheque for \$50.00 from the Vipond Consolidated Mines, Ltd., this generous donation being very much appreciated by the C. A. S.

G. E. Buchanan, K.C., of Sudbury, is being strongly recommended to the Dept. of Justice at Ottawa, as the best man available to fill the place of the late Judge J. J. Kehoe, as Sudbury District Judge. A petition to this effect has been forwarded to Ottawa, over 1500 people signing this petition.

Mr. A. W. Stewart, who has been visiting Mr. and Mrs. Hemming for the past few weeks, left on Friday last week for his home in Nova Scotia. Mrs. Stewart is remaining here for a couple of months further as the guest of her daughter Mrs. Hemming.

During a week or so recently no less than twenty men appeared in police court at Sudbury charged with trespassing on Canadian National Railways' property there, the trespass being in the nature of using the railway station for sleeping quarters. Each of the trespassers was fined \$2.00 and costs or 30 days.

As noted in The Advance last week the sixth annual conference of the Chief Fire Rangers of the Ontario Forestry Branch will be held in the Empire hotel, North Bay, next Tuesday and Wednesday, April 2nd and 3rd. There will be a helpful programme of papers and discussions, and a banquet on the Wednesday evening as a grand finale for the event.

Mrs. Mary Smith, the woman at Kirkland Lake who attempted recently to take her own life by drinking nitric acid was sentenced to not less than three months nor more than one year in the Mercer reformatory when she pleaded guilty to attempting suicide. In her behalf it was argued that the woman attempt at suicide was due to hosts of troubles overtaking her. Her husband was fined heavily for breach of the liquor law; she borrowed the money from friends to save her husband from going to jail; then her husband left her; and the friends began to press for payment of the money loaned. Mrs. Smith, now without friends, according to the story, was comfortably situated financially less than two years ago.

Saturday's Mail and Empire published an eight-column half-tone cut showing a large group of the members of the Ontario Legislature. Among those noticed in the picture, in addition to the premier and members of the cabinet are A. F. Kenning, M.P.P. for Cochrane South, and A. J. Kennedy, M.P.P. for Temiskaming.

Sudbury V.O.N. recently elected the following officers for 1929:—president, Mrs. W. J. Bell; vice-president, J. A. Laberge; secretary-treasurer, H. P. Keown. The financing of the society for the past year included \$1503.52 from the citizens on the tag day, \$1000.00 from the town council, and \$250.00 from the Rotary Club. The total number of visits by the nurse was 6,215, with a total of 554 patients in the year.

John Cook, an old-timer of the North and formerly resident in Halleybury, died in the Mines hospital, Cobalt, recently, following an illness of several months. He was 78 years of age, and unmarried. So far as known he had no relatives in the district. He lived alone at North Cobalt where he became ill last fall and was removed to the Cobalt hospital. He was buried in the Silverland cemetery at Cobalt.

Mr. and Mrs. John Vary, of Webbwood, Ont., parents of Mr. Vernon Vary, of Iroquois Falls, recently celebrated the fiftieth anniversary of their marriage. They were the recipients of innumerable handsome and costly gifts, evidencing the high regard in which the couple are held by all who know them. Mr. and Mrs. Vary have seven children and twenty grandchildren. At their present age of 72 they are healthy and hearty.

The contest originated years ago by the founder of The Halleyburian, the late C. F. Farr, for the guessing as to when the ice will go out of Lake Temiskaming is still being continued each year by the newspaper. This year the usual prize of a year's subscription to The Halleyburian is being offered for the nearest guess to the date of the ice going out. The earliest date recorded was in 1910, when the ice went out from the Lake on April 12th, and the latest was May 22nd, in 1926.

The Halleyburian last week says:—"A beautiful painting of the war memorial in front of Osgoode Hall, Toronto, has been received by the Temiskaming Law Association and is now hung at the Halleybury Court House. This painting is the gift of the Law Society of Upper Canada to the legal profession in this district and is the work of a prominent artist. It is prized very highly by the profession, and has been given a place of honor in the Court House."

**Halleybury Board of Trade Wants No Publicity Now**

A rather unusual and remarkable notice is given in the last issue of The Halleyburian, this being to the effect that the board of trade of Halleybury has gone on record as favouring the curtailing of any publicity for the proceedings of the last regular meeting of the board. The Halleybury newspaper in referring to this unusual suggestion last week said:—"The question came up when one member of the organization made the proposal that whatever might be done should be kept out of the press. The wisdom of this idea was questioned by the editor of The Halleyburian, who was present, and there was a general discussion over the matter. Some members of the Board agreed with the editor that a little judicious publicity would not do any harm in any activities of the organization; others took the opposite view on the ground that proposals which might be made were better kept out of the press while in their initial stages at least, and it was claimed that in no town or city were there published reports of the doings of the Board of Trade of Chamber of Commerce."

After some discussion a resolution was made to the effect that the matter of publicity be left in the hands of the local newspaper, but an amendment to this was passed by a small majority who favoured no publicity at all.

In commenting on the amendment passed, The Halleyburian says:—"As those who supported the amendment apparently did so in good faith, believing that the wisest course was to shun publicity on the particular subject under discussion at the meeting, and as The Halleyburian has identically the same interests in the town that the gentlemen present have, the wishes of the majority are being strictly observed so far as this journal is concerned. Of the wisdom of the course adopted, we still have our own opinion and we believe that time will prove us in the right."

The Halleyburian editor is absolutely correct in pointing out that he has identically the same interests in the town as other members of the board of trade. At this distance it seems ungrateful on the part of the members of the board of trade to suggest that he would unnecessarily give any harmful publicity to the board of trade or to Halleybury. His own interests and his past record both argue against the probability of any such course. It should be remembered, however, that while he has the same interest as any other member in the town and board of trade, he has the sole responsibility not only for what goes in but also for what is left out of the paper. He may defer to the suggestion of a board of trade resolution, but it will be the newspaper not the board of trade that will be blamed if the public object to the secret tactics. There will be an overwhelming curiosity to know what kind of a deal, a board of trade could be discussing that they would consider it necessary to pass a resolution to muzzle the press.

**Threatening Fire Was Conquered by Chemical**

On Sunday evening at about 9.35 the fire brigade had a call to 68 Third avenue, a building owned by Mrs. Maki, and occupied by Mr. Moran, who conducts a grocery store on the ground floor with living quarters above. The upstairs part of the building was filled with smoke when the firemen arrived and it looked at first as if it might be a serious fire, but Chief Borland and his men soon stopped the fire. The origin of the fire was located in short order and was found to be in the cellar. The use of the chemical tanks soon extinguished the blaze. Following the plan adopted some time ago, very close investigation was made as to the cause of the fire. The fire chief is paying special attention these days to the origin of any fire that may occur, his long experience in fire-fighting showing him that the origin of a fire is very important not only to avoid any danger of arson or carelessness but also to prevent further fires from the same cause. It was found that the Sunday evening fire was caused by a lad hanging his coat on the furnace pipes so that it would dry out after being wet in the weather outside. The coat took fire and set the nearby woodwork ablaze with the fire resulting as noted. In this case there was more smoke than fire but the incident will serve as a warning for the greatest carelessness in all such matters as drying clothing. The damage done was slight. The store was formerly occupied by A. Brazeau's Family Grocery.

**Cake Won at Birthday Party Given to Hospital**

Mr. A. T. H. Taylor was the lucky winner of the birthday cake given in connection with the recent St. Patrick's Birthday tea under the auspices of the ladies of the Church of the Nativity. Mr. Taylor generously donated the cake at once to the St. Mary's hospital where it was much appreciated. The Methuselah's prize for the oldest gentleman purchasing a ticket was won by Mr. J. D. McDonnell. This latter prize was a two-and-a-half dollar gold piece. The tea and sale of work, which was particularly pleasing and successful was held at Mrs. J. Dalton's on March 16th.

**COCHRANE DOCTOR'S MANY METHODS FOR TRAVELLING**

An interesting point is made by The Cochrane Northland Post in regard to the recent errand of mercy of Dr. Paull, of Cochrane, and Capt. Roy Maxwell who went by airship to Moose Factory to bring aid to the Anglican missionary lying there seriously injured from an accident. The Post enumerates the several means of travel used by Dr. Paull in the trip, concluding its article with this paragraph:—"A recital of the different modes of travel utilized by Dr. Paull on his errand of mercy reads like Jules Verne's 'Round the World in Eighty Days.' He left Cochrane on one of the crack passenger trains of the C.N.R., travelled from Moonbeam to the air base on Remi Lake by horse and cutter, from Remi Lake to Moose Factory and return by plane, back to Moonbeam by dog team, from Moonbeam to Pullen by track speeder and from Pullen to Cochrane by freight, riding some of the way in the engine cab."

The services in St. Matthew's Church this week will be as follows: On Thursday evening at 8 o'clock, the last of the combined Holy Week services, the preacher being Rev. J. D. Parks; on Good Friday, Holy Communion at 8.30 a.m. and evening prayer with the Story of the Cross, at 7.00 p.m.; on Easter Day Holy Communion at 8.30 a.m. and also after morning and evening prayer. The anthems on Sunday will be "Why Seek Ye?" and "Christ is Risen."

**New! A cereal so crisp it actually crackles in cream!**

YOU'VE never known a cereal like Kellogg's Rice Krispies. It's different in variety, shape and flavor.

Just taste it right out of the carton. Toasty rice bubbles. Like fresh nutmeats—only much more delicious and crunchy!

Serve them for breakfast. And when you pour on the milk or cream, listen to them crackle. That's how crisp they are!

Enjoy them for lunch—the children's evening meal. Add fruits or honey to your Rice Krispies.

Make candies with them, macaroons. Put them in soups. Butter and serve like crisp pop corn. There never was a cereal to use in so many ways.

Order a red-and-green package from your grocer. You and your family are on for a flavor surprise! Made by Kellogg in London, Ont.

**How to make Better Pastry**

An expert says: "Use your favorite shortening. Mix it in thoroughly with Purity Flour, using a level tablespoon more of shortening but using two tablespoons less per cup of Purity than of ordinary pastry or soft wheat flour. Then add just enough water so that the dough will crumble together. When rolling out, sprinkle with a little flour to keep it dry."

A dough heavy with water will not flake up in the oven as too much moisture prevents quick action of the heat. The lively, almost crumbly, dough made with Purity Flour flakes up beautifully and makes the kind of pastry that "melts in your mouth."

**Purity Flour Plain Pastry**

2 1/2 cups Purity Flour, 1/2 teaspoon salt, 1 cup shortening, 1/2 cup cold water. Mix flour and salt, cutting in the shortening until the mixture is like fine meal. Mix thoroughly with the water. Roll out thin, keeping it thoroughly dry. This will make crust for two pies. For extra rich pastry use half butter and half lard.

Purity Flour is best for all your baking: cakes, pies, buns and bread. Get a sack from your dealer today.

Our famous Purity Flour Cook Book mailed for 30c.
