Haileybury Planning Branch League Nations

Haileybury is planning to establish a branch there of the League of Nations Society of Canada. A meeting to discuss the matter was held last week in the Hotel Haileybury, but the attendance was not large, though it included such leading citizens as Mayor Charbonneau, Canon Hicks, Geo. T. Smith, H. G. Pickard, Mrs. H. C. Dunbar, Geo. T. Hamilton and A. G. Kirkpatrick. Another meeting is to be held this week, at which it is hoped to have a much larger attendance. The movement for the new branch society followed an address by Rev. Canon Hicks, rector of St. Paul's church, Haileybury. This address was delivered at a meeting of the Rotary Club, and later by special request at the high school for the benefit of the pupils. Canon Hicks has made special study of the aims and objects of the League of Nations Society. The society is primarily for the purpose of educating people on the work of the League of Nations. The society aims to have a League of Nations Society in each nation which is a member of the league and to have branches in as many centres as possible, so that the aims and objects of the league may be very widely known and understood.

VICTIM OF WRECK WAS TO BE WITNESS AT HAILEYBURY

The Haileyburian last week says:—"Ray Ferguson, one of the trainmen killed in the Drocourt wreck last week, when two Canadian National trains met head-on in collision, was to have given evidence on behalf of the Railway at the Supreme Court sitting here next Tuesday, when the suit of S. Alexander for damages against the C. N.R. comes up for its third trial. Mr. Ferguson was on the train from which Alexander fell as it neared the station at Kapuskasing in the fall of 1925, sustaining the loss of a leg and other injuries for which his original claim was for \$20,000. He gave evidence at the two previous hearings, being called in connection with the alleged opening of the vestibule doors of the coach from which Alexander fell, and was expected to be one of the principal witnesses for the defence in the third trial. There was some question of his evidence on the previous occasions being allowed this time, but this will be decided when the trial is held."

Mrs. Morrow Delayed in Journey to Cochrane

According to information received at Cochrane last week Mrs. V. G. Morrow was unable to make the journey from Moose Factory to Cochrane last week as expected. It was understood that she had left Moose Factory with one of the mail-carrying dog teams and would reach Cochrane by the end of last week. Indeed, so firmly was this understood that the T. & N. O. train one day last week was held at Island Falls for some time to await her arrival so that she might be saved the journey from there to Cochrane by dog team and have instead the more rapid and more comfortable travel by train for that part of the journey. It has since been learned, however, that owing to weather conditions it was considered best not to have Mrs. Morrow attempt the trip last week. The mail packet arrived safely at Island Falls last week and brought along word to that effect. It has now been decided that it will be better for Mrs. Morrow to wait until the water route is open and come to Cochrane that way. This will mean that it will be about a month before Mrs. Morrow can join her husband at Cochrane. Rev. Mr. Morrow was injured several weeks ago in an accident on a toboggan slide which he had fixed up for the Indian children at Rupert's House, Hudson's Bay area. He had his hip broken and no medical help being available, it was hoped to get him out to an hospital by airship. As this conveyance could not be secured for Rupert's House, Mr. Morrow was taken to Moose Factory by dog team. It was at first intended to take him from Moose Factory, where there was no doctor, to the hospital at Cochrane, but when the unfortunate man reached Cochrane he was so weak and unfit that the further journey had to be foregone, as it was evident he could not survive the rest of the trip by dog team. When word of the situation reached Cochrane, Mr. A. V. Waters at once took up the matter with Hon. Mr. Finlayson. The Minister of Lands and Forests acted with most commendable interest and despatch. Within ten minutes of the time the matter was brought to Mr. Finlayson's attention work was under way to bring the injured man to hospital by airship. Capt. Roy Maxwell, of the provincial air force, volunteered to fly to Moose Factory to aid the injured clergyman. As a matter of fact Capt. Maxwell made two flights for the purpose. First he took a doctor in who gave the injured man at Moose Factory temporary assistance and help. Then Capt. Maxwell brought the doctor back and returned himself to Moose Factory, returning with Rev. Mr. Morrow who was safely transported to the hospital at Cochrane, where he is making excellent progress to recovery. Mrs. Morrow, who had gone to Rupert's House last year as a bride, at first had intended to remain there to carry on the missionary work, but later learning of the serious nature of the injury to her husband and his long stay at Moose Factory, came out to the latter place by dog team. Then it was hoped that she would be able to join her husband at Cochrane, but, as noted, the weather has deferred this for some weeks.

LEO MASCIOLI EXPRESSES APPRECIATION OF FIREMEN

Last week Chief Borland and his men of the fire brigade were very pleased at the kind letter of appreciation sent by Mr. Leo Mascioli in regard to the way the firemen had handled the fire on Friday night at his residence, Third avenue. There is no question about the effective way in which the firemen do their work in Timmins. The brigade is probably the most capable and successful in any town around this size in the Dominion. Further it may be noted that they are not working for any money that may be in it, nor for any praise, but because of the good spirit of good citizenship that seems to imbue the whole brigade. Nevertheless, a word of appreciation does not come amiss, and it is particularly appropriate at this time, just after the brigade has saved the town from several serious losses. Here is Mr. Mascioli's letter:—

Timmins, Ont., March 30th, 1929
Chief Borland and Brigade,
Timmins, Ont.

Gentlemen:—I wish to compliment you very highly for the excellent judgment and good work done by yourself and the boys who attended the fire at my residence last evening. It is indeed a pleasure to know that the town is supporting a fire brigade of such efficiency as I had the satisfaction to witness. Kindly accept the enclosed as a token of my most sincere appreciation of your efforts. With best wishes and a happy Easter for yourself and the boys of the Fire Brigade, I remain,

Yours sincerely,

L. Mascioli.

Mr. Mascioli backed up his good words with hard cash, his cheque enclosed being for \$25.00 for the fire brigade funds.

THE MARITIMES

Lumber Jobber Suing Finn Paper For Libel

A writ has been issued in the Supreme Court of Ontario by Messrs McKessock and Wilkins, barristers and solicitors of Sudbury, against The Vapaus, the Finnish newspaper at Sudbury, the writ being on behalf of C. K. Korpela who claims that the Finnish newspaper libelled him and injured his business by a letter published in the Dec. 4th issue of Vapaus. This letter purported to be from a man who had worked for Korpela, who is a tie contractor. The letter complained that the accommodations at Korpela's camp were poor, the food bad and the pay low. Korpela in his statement of claim denies the allegations in the letter, pointing out that there was ample good food and proper accommodation, while the pay was on a proper scale according to his opinion. He further states that on account of the article a number of his employees left him and he found it difficult to get others for the work. The result was that he found it necessary to make very material curtailment in his production of ties for the season. Accordingly, he asks for \$2,000.00 damages together with costs of the action, and such other relief as the court may consider proper.

Helpless With Pain In His Back

Vancouver man thinks
Gin Pills wonderful

Right in the midst of the local Horse Show, Mr. J. S. Russell, of Vancouver, B.C., was completely laid up by severe pains in the small of his back. He could not sit on a chair, let alone on a horse. "I was compelled to go to bed," he says.

Here a most awkward and painful problem was solved by a friend who advised Gin Pills, which quickly corrected the trouble according to Mr. Russell, whose letter ends—"and I was able to ride again in 24 hours. Gin Pills are wonderful."

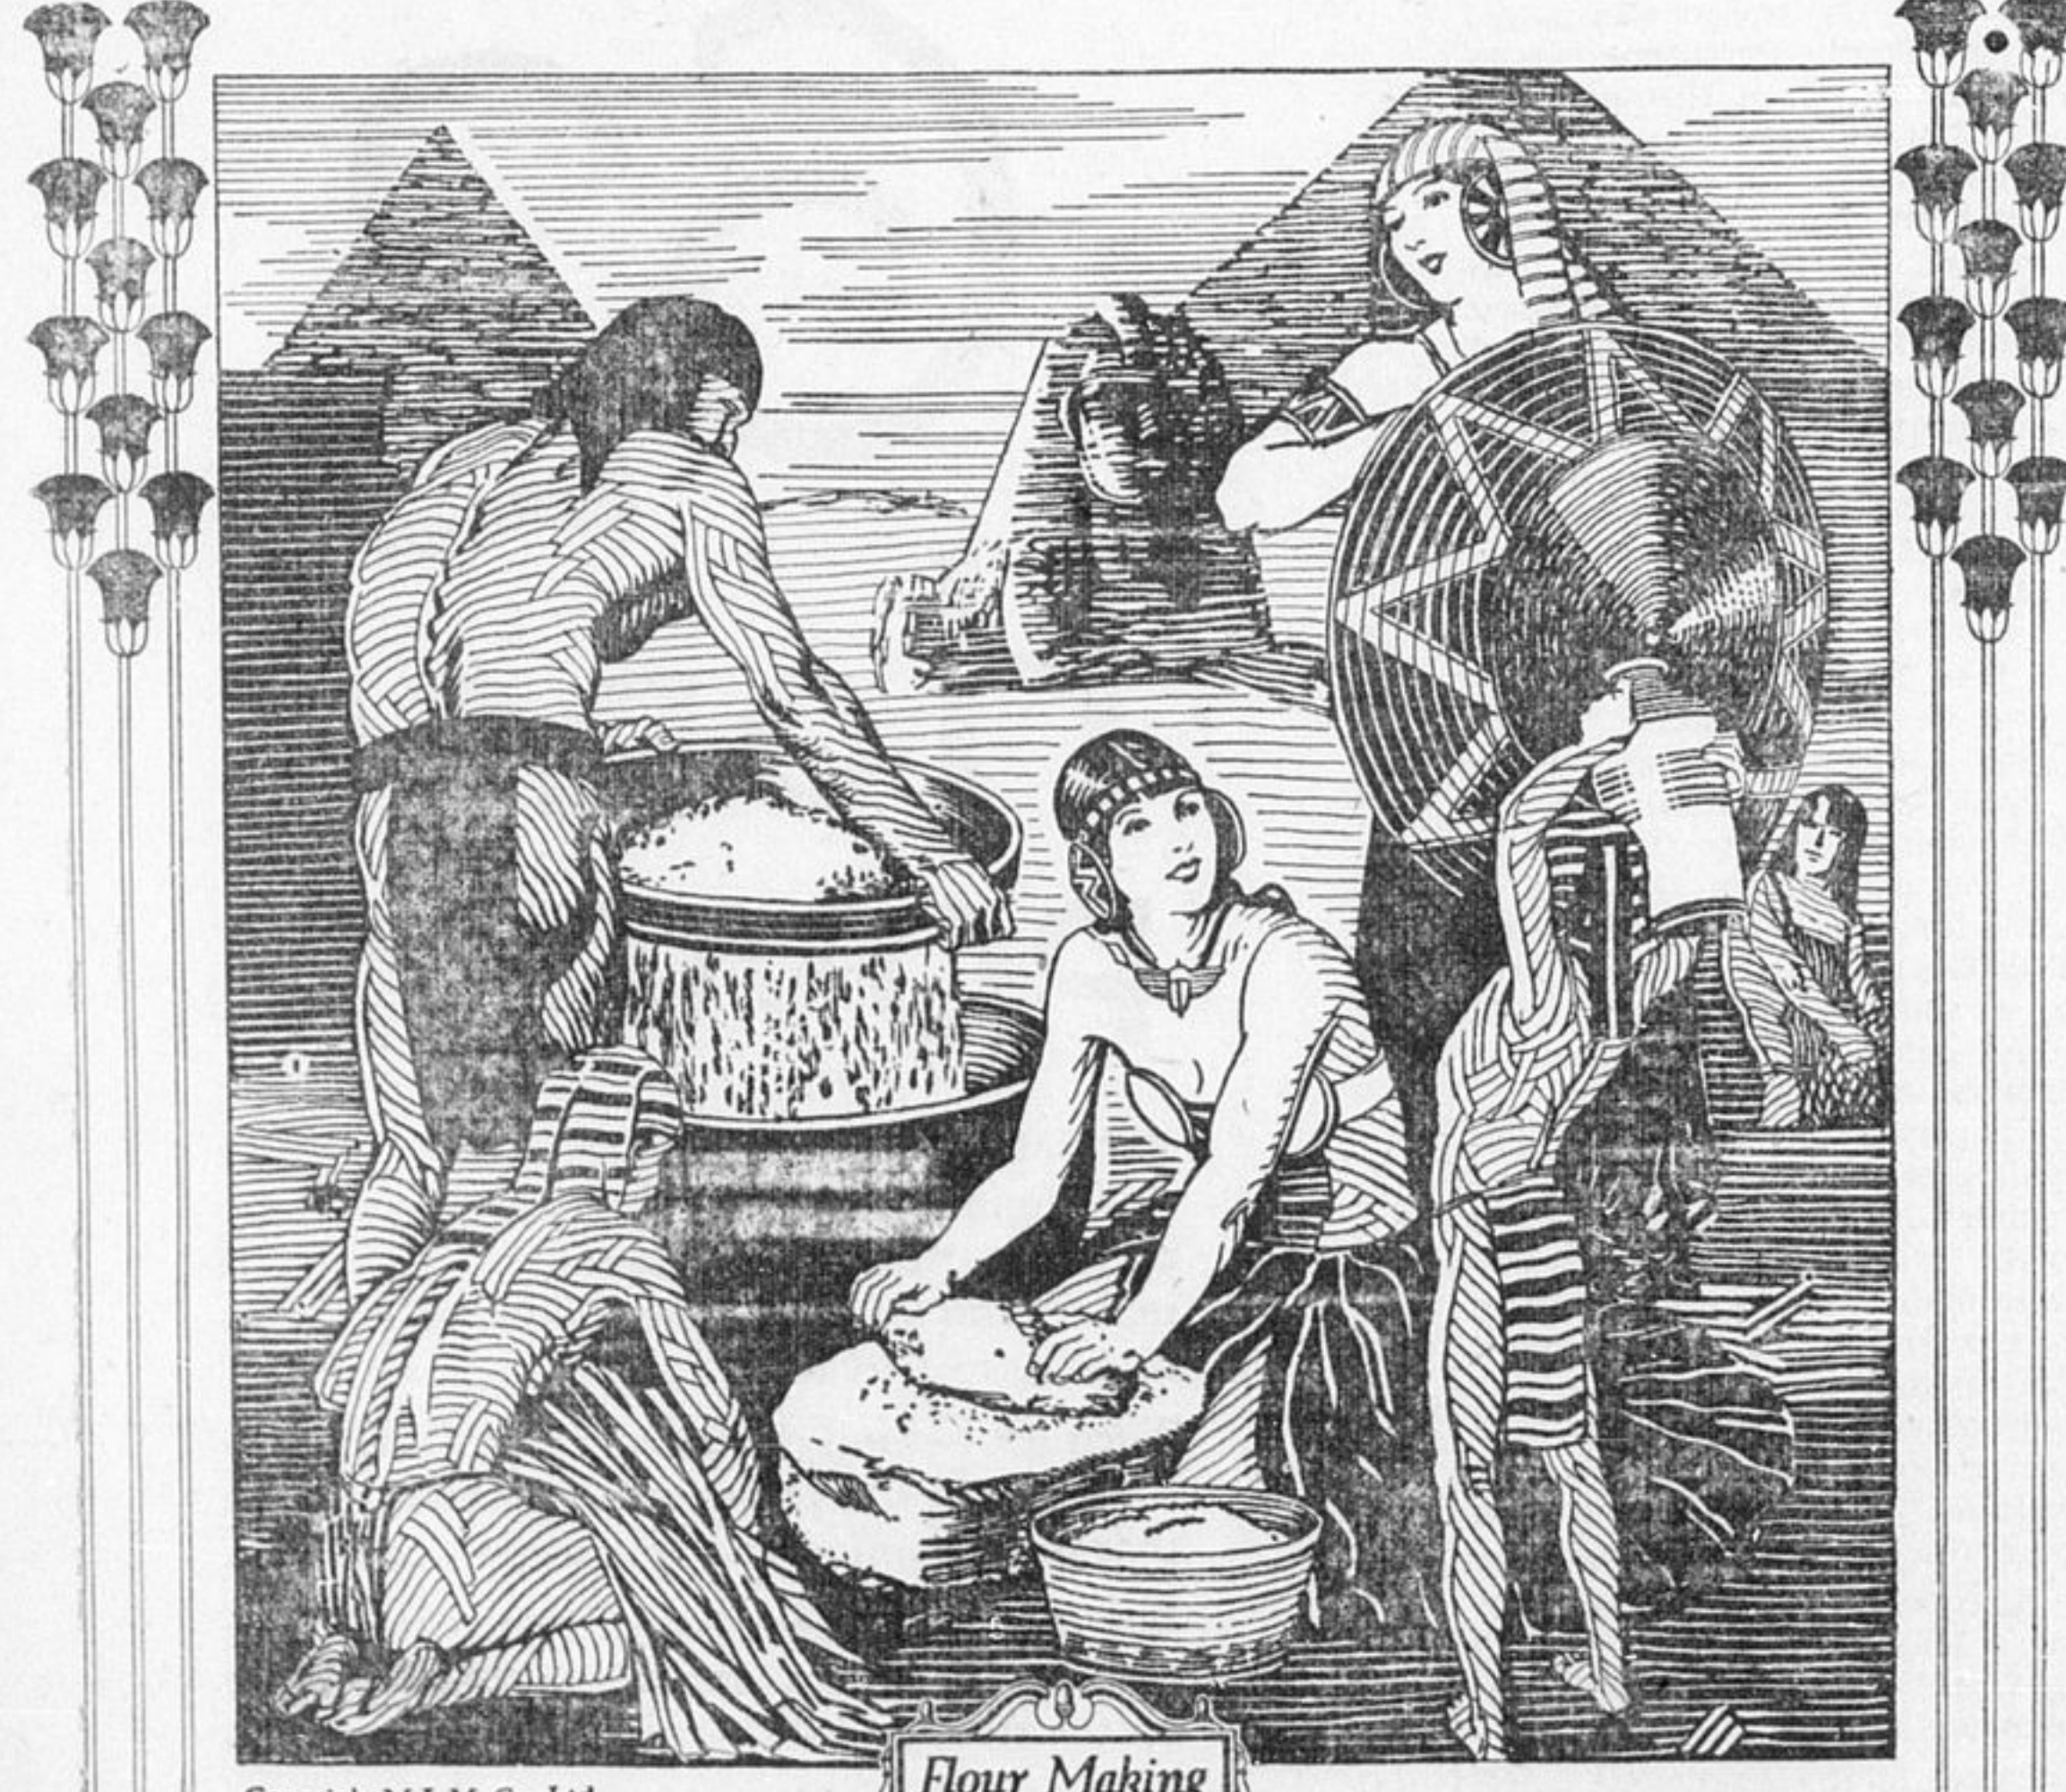

Gin Pills positively give relief, not only in cases of severe backache, but in even more acute kidney conditions. Gin Pills soothe the inflamed kidneys and end the misery. How much better to obtain a 50c. box from your druggist than to take chances. The symptoms of kidney trouble are unmistakable—backache, dizziness, headaches, swollen joints, brick dust in urine, spots before the eyes, a burning sensation attendant on scanty or too frequent urination. The Saddle Stones of Egypt 5000 Years Ago

THE modern flour mill measures its ancestry from a day 5000 years ago when an Egyptian slave—perhaps by accident, perhaps by design—discovered today's basic principle for grinding flour.

Placing some broken grain or meal on a rough saddle-shaped stone, he used a smaller stone to rub and roll the meal into a finer flour. This combination of rubbing and rolling, while done today by machinery, still follows the same principle dis-

covered by that lowly slave of Ancient Egypt.

While Maple Leaf Flour is milled by following a principle similar to that used 5000 years ago—it is vastly different from the product of that time.

Maple Leaf Flour is made from selected Canadian Hard Wheat, so accurately milled and so carefully tested that a written guarantee of uniformity and satisfaction goes with every bag. Try it.
