The Goldfields theatre, having been closed for repairs and re-decoration after the recent fire in the building, will re-open to-morrow (Friday) night.

For the opening the Goldfields have the extra special attraction, Dolores Del Rio in "Revenge," a United Artists' super-production. This is one of the most popular and appreciated of recent special motion picture films.

While the work of repairing and re-decorating the Goldfields theatre has been rushed along, nothing has been overlooked to make the popular play-house comfortable, cosy, and better equipped than ever.

ing the whole effect very pleasing to the eye.

A complete new outfit for projecting the pictures has been installed. The machines are the newest and best that money can buy.

The operating room has been entirely re-constructed and is as fireproof as it is possible to make it.

Everything possible was done to hurry along the re-opening of the theatre, and at the same time make certain that everything was of the very best, appearance, utility and safety in every particular being absolutely insisted upon.

The formal re-opening on Friday and Saturday of this week will be of special interest. The preliminary band music will no doubt be of interest while the picture, "Revenge" is so well spoken of by the press of the cities and towns where it has been shown that it will prove a general favourite.

INCREASE IN WOLF BOUNTY IS URGED BY DEPUTATION

Northern Deputation Presses Upon Government the Need for Action to Conserve the Deer of the Province

E. L. Hughes, president of the Ontario Tourist Trade Association, and M. U. Bates, vice-president, are in Toronto this week as a delegation to impress upon Hon. Chas. McCrea, Minister of Mines and the Fish and Game Dept., the need for early action to preserve the deer of this province.

The suggestion offered by Messrs Hughes and Bates to the Government was that the wolf bounty, which is at present \$15.00, with the return of the pelt, be increased to \$50.00, with the Government to retain the hide.

The extent of the depredations of the wolves in many sections of the North was shown to Hon. Mr. McCrea by means of a number of letters in the possession of the delegation, these letters being sent in by residents of the North Land who are honestly afraid that the wolves will soon slaughter off all the deer.

Other matters taken up by the delegates included—suggestion for a change in the license fee to non-resident hunters for deer and small game; the establishment of fish hatcheries at strategic points, and the restocking of lakes and streams.

Business Men Organize to Help Along Junior Sports

Officers Elected for New Organization. Need of a Supervisor Strongly Urged. Survey of Town May be Made in the Matter Naming of New Organization Referred to Executive to Discuss With Representative Boys.

The meeting called for Monday evening in the town hall to organize for junior sports was very largely attended by representative business and professional men, the hall being filled and all being enthusiastic about the plans proposed.

Mr. P. T. Moisiey went more deeply into the proposed organization as it would involve the men behind it and the boys as members. In the past there had been much overlapping and duplication of cost and effort through the multiplicity of calls for various sports.

A gathering of the boys from 10 to 20 years who were interested in sports had been convened some weeks ago and this large body of boys had gone on record as being heartily in favour of the plan. It was hoped to get 100 or 150 business and professional men to enter the plan.

After the address of P. T. Moisiey, the election of officers was taken up. G. S. Lowe, P. T. Moisiey and Rev. J. D. Parks were each named as president of the proposed new organization, but all withdrew. Then on motion of Mr. A. T. H. Taylor, seconded by Dr. H. H. Moore, and carried, it was resolved that the chairman name a nominating committee to select the officers.

The chairman named Geo. Lake, C. G. Keddie, Arch Gillies, S. G. Platus and J. D. Brady. These withdrew to make their selection, while the meeting proceeded to discuss the various questions of interest. When the committee returned the following were the officers:—

- President—G. S. Lowe
First vice-president—W. G. Smith
Second vice-president—C. G. Keddie
Secretary—P. T. Moisiey
Treasurer—Fire Chief A. Borland
Honorary presidents—Mayor Geo. S. Drew, Rev. J. D. Parks, W. H. Pritchard.

The chairman put the selection to the vote and they were elected unanimously on motion of Councillor P. Dougal and Dr. Lee Honey.

The chairman then turned over the meeting to President G. S. Lowe who proceeded with the meeting.

New Hotel and Cafe to be Called The Mining Hotel

The fine new brick and tile building now being erected to replace the former King Edward Cafe, destroyed by fire some months ago, is now nearing completion and it is expected it will be formally opened in the course of a week or so.

The new hotel will answer to the name of The Mining Hotel and will provide good rooms as well as carrying on a regular cafe business. Situated on Pine street, near one of the main business corners of the town, with the post office traffic going one way by its doors and the traffic to the ball grounds in the other direction, The Mining Hotel hopes to get its share of the business and to carry on successfully.

Suggests Merger of Big Mines of the Porcupine

On the bulletin at Moyses & Co.'s on Wednesday was the following interesting despatch from Toronto, evidently from The Toronto Mail and Empire:

Toronto, May 8—A merger of all the centrally-located mines in the Porcupine gold area is heard to be a prophecy seriously advocated by one of the better-known mining men, and one who is heavily interested as a shareholder in Hollinger Consolidated Gold Mines. The adverse met within Hollinger, the disappointment encountered at Coniarum, and the introduction of uncertainty regarding demand for a new mill at McIntyre, are factors which are used as evidence in favour of such a merger.

VACCINATE THE CHILDREN TO PREVENT DIPHTHERIA

Children Between the Ages of Nine Months and Six Years Should be Vaccinated Against Diphtheria, Says M.H.O.

Dr. H. H. Moore, Medical Health Officer, is urging vaccination of small children against diphtheria. He points out that diphtheria is a deadly disease, but that it can be entirely eliminated if only all will work earnestly and wholeheartedly to that end. A vaccination has been perfected against diphtheria and this vaccination is safe, harmless, lasting and effective. Children between the ages of nine months and six years suffer no ill effects from the vaccination and are protected for life against diphtheria. If this vaccination were made universal diphtheria would be completely wiped out. The disease particularly attacks children so children should be especially protected against diphtheria. Last year there was a drive for the vaccination of school children against diphtheria. Cards were sent out asking the consent of the parents or guardians for this protection to the children, and there was a very general and gratifying response in all the town schools. There were 637 children vaccinated, the majority of the parents agreeing to the protection. These children are now fully protected against the disease. The treatment was confined largely to the junior classes, the younger children being the best to use the treatment upon. Still better results are obtainable from children of pre-school age. "Children between the ages of 9 months and 6 years should be vaccinated to prevent diphtheria," says Dr. Moore. "Vaccination is safe, harmless and lasting. Having your doctor vaccinate your children, or bring them to the clinic any Wednesday afternoon between two and four o'clock."

Division Court Again to be Held in Timmins

It is understood that Division Court sittings are to be resumed at Timmins in the course of the next few months. It is expected that the August court will be held in Timmins if an earlier court does not sit here. The Division Court for some years held its sessions for this district at Timmins, but last year the sittings here were discontinued. His Honour Judge Caron finding the accommodation given here as not suitable. The sittings of the court were accordingly transferred to South Porcupine. The inconvenience to many in Timmins through the necessity of having to go to South Porcupine for Division Court sittings was taken up some months ago by the Timmins board of trade and representations made to the town council to have the sittings resumed at Timmins.

At police court this week Jos. Snyder was fined \$100.00 and costs, or one month, on a charge of selling liquor to a minor. A similar charge against his wife was dismissed while another charge against the woman was withdrawn.

A man who had a boy haul some beer for him was charged with a breach of the Liquor Act, but as he accompanied the boy on the trip and so was personally in charge of the liquor during its transit, the magistrate felt there was no breach of the law and so the case was dismissed.

A man from Schumacher, who had secured liquor on another man's permit by representing himself as the person for whom the permit was issued, was fined \$100.00 and costs, or one month in jail.

There were four persons charged with neglecting to pay taxes on dogs owned or harboured. One man had transferred the dog he formerly owned to a friend, but neither of them had notified the police of this. TUESDAY NEXT, MAY 14 IS SALVATION ARMY TAG DAY

During the Next Two Weeks' Army Will Canvass Timmins and District for Annual Self-Denial Fund.

The centennial of the birth of Gen. William Booth, the founder of the Salvation Army, is being specially observed by particular effort this year for the self-denial fund. Self-denial Week offers to all an opportunity to render financial assistance towards the effective carrying forward of the work for which Gen. Booth gave his energies and heart.

During the next two weeks the Salvation Army is canvassing Timmins and district for the annual self-denial appeal. It is sincerely hoped that all will give hearty and generous response to the worthy cause. The funds from the self-denial appeal go to the Army's social work of rescue and relief. There are 603 centres of work and 1180 officers of the Army in Canada East. Supplementing the Army's purely spiritual work is its far-reaching social service. The institutions for men have accommodation for 900 and are always full. The industrial branches provide temporary employment for thousands of men in the course of a year. The Army officers attend police court in all the larger towns and cities, where they are instrumental in assisting and saving many, who, but for the helping hand held out would join the ranks of the criminal classes. Work among prisoners in the jails and the penitentiaries is also a valuable and generally appreciated service to humanity and to the country. Work among women includes re-cue homes, maternity hos-
