BUSINESS MEN ORGANIZE TO HELP ALONG JUNIOR SPORTS

(Continued from Page One)
President Lowe thanked the gathering for their confidence in him and promised that he would do his level best and asked for the wholehearted support of all.

The matter of a name for the new organization was then discussed and several suggestions made. Eventually, it was moved by Arch Gillies and seconded by P. Dougall that the new organization be called Timmins Boys' Athletic Association. After some discussion an amendment to the motion was made on motion of Rev. J. D. Parks and Dr. H. H. Moore, that the naming of the organization be left to the executive, who, after consulting a representative number of the boys shall select a name agreeable to all, the amendment carrying by a large vote.

Rev. J. D. Parks thought the success of the plan would depend on the supervision given. Geo. Lake said he felt sure the plan could not succeed unless there was a supervisor who would give all his time to the work for a few months at least. Others expressed similar views, and there appeared to be general opinion that an all-time supervisor was necessary at least for the first few months to keep things running smoothly and get the best out of the plan. Hugo Shaw referred to this in a brief address on work for boys, and he and J. J. Lynch referred to the value of the surveys made without cost by the Canadian branch of the Boys' Club Federation of America. It was decided to get in touch with the Canadian headquarters of this federation and see if they could send a man here to look over the situation, and also if they could recommend a suitable man for supervisor or organizer. It was also decided to write Parks Commissioner Chambers, of Toronto, for his views and advice. On motion of Geo. Lake, seconded by Mayor Drew, it was decided that the organization procure the services of an organizer if so advised by the representative of the organization making the survey.

After many brief but very helpful talks from several of those present "for the good of the order" the meeting adjourned. It was one of the most largely attended and enthusiastic meetings held in town for some time, and the organization seems to be away to the best kind of a start.

Ready For Anything at Sandy Falls These Days

The following is the budget of news and views from Sandy Falls in the current issue of The C.N.P.C. Review, under the heading of "Sandy Sobs":
"Yep, we're through on schedule with work on our new booms, piers and log slide, and we're tickled to death with the job, too. In spite of adverse weather conditions at times, and a host of other nuisances, the work was completed and all ready on March 30th, one day ahead of schedule. A great deal of credit is due to Mr. J. Belanger (construction foreman) who stubbornly fought obstacles of every conceivable kind to attain his desired goal. Comments were passed as the work proceeded, good and bad, but mostly good. The bad comments we tied up in a sack and dropped them overboard. The good ones, we tucked them inside our shirt and kept them warm, for they inspired us to greater efforts."

However, here we are again, standing by for flood water and the log drive. We're all set for our annual catch of dead cows, pigs and horses, and the regular flotilla of boat houses, log shacks and chicken coops.

Admiral Bill Stoddard passed through Sandy Falls, en route to take command of the Sturgeon Falls navy. Bill is a pioneer when it comes to navigate the waters on the Sturgeon Falls route, and we have no fear for his success.

H. R. McDonald has left us to try his luck in the U.S.A. So he informed us, and we are sorry to see him go. We hope to see Herm again some day. His Ramon Navarro appearance will be sadly missed.

Look up the "Porcupine Advance" and see what we have in the way of talent. Mr. T. D. Armstead's wonderful tenor voice has been in great demand at all prominent functions in Timmins of late. When it comes to singing songs of the "Ould Sod," Tommy can lick his weight in wildcats. Atta boy, Tom.

Harry and Mrs. McKay are now domiciled in the "We Red House" at Sandy. Mrs. McKay recently arrived in camp to join Harry. We welcome you to join the medium of the C.N.P.C. Review we earnestly beg of "Spud Murphy," located at the Sturgeon Falls Plant, to make haste and supply us with some of the "kingly fish," for which he has the reputation of enticing into captivity, ere we famish.

DEVELOP OUR RESOURCES

(Brantford Expositor.)
It is undoubtedly true that the dominion ought to frame a tariff in the interest of its own people, and not as a retaliation against the United States. While this is true, however, there is every reason to believe that the Canadian tariff schedules could be framed so as to promote the development of the natural resources of the country to a greater extent than they are at present. The Canadian government should take into deliberate consideration the desirability of lessening the importation of manufactured commodities into this country, particularly from the United States.

Tax Bills to be Sent by Mail in Town This Year

Last week in referring to the collection of taxes in town this year The Advance said that the tax notices this year would be delivered in town to all properties other than those whose owners were not resident in town. This was the original intention but it is understood that this plan will not be followed. Instead, the tax bills will all be mailed this year, this being the most convenient method. The council has passed a by-law to make this plan legal and to facilitate its use.

CALEDONIAN WHIST DRIVE AND DANCE ON MAY 14TH

A successful dance under the auspices of the Caledonian Society of Timmins was held on Saturday evening last in the Hollinger Recreation hall, and was largely attended. The music was effectively supplied by Burton Holland and his orchestra.

A whist drive and dance will be held by the society on Tuesday of next week, May 14th, in the Hollinger Recreation hall, commencing at 8.30 p.m. All members and friends are cordially invited to attend. Good prizes are being offered for the whist drive. Refreshments and dance will follow the cards.

ALEXO SAID TO BE SEEKING MARKET FOR ORE FROM MINE

In discussing the probability of the Alexo Mine being re-opened, The North Bay Nugget this week says:—

"With the nickel-copper industry back to its war-time level the question of re-opening the old Alexo Mine at Porquis Junction may again come under consideration in the near future. There is still a large tonnage of nickel averaging roughly 4 per cent., which if it could be sold would yield a good return on the investment involved in taking it from the mine and shipping it to Sudbury, according to Major E. F. Pullen, vice-president of the Alexo Mining Company, who is making a business trip through Northern Ontario. Mr. Pullen is now engaged in coal mining at Alexo in the Saunders field, Alberta.

"The question of re-opening the Alexo Mine will depend wholly on the ability of the company to find a market for the ore. The mine operated for seven years on one of what is believed to be a series of ore bodies and from which a total of approximately 50,000 tons of ore were removed and shipped to the Mond Nickel Company's smelter at Coniston. The average production was around 100 tons of ore a day and returns were sufficiently large to enable the Alexo Mining Company, which was privately financed, to pay several comfortable dividends on a small capitalization. When the post-war slump in the nickel market occurred purchases of ore by the Mond Company ceased and operations at Alexo were suspended. Mr. Pullen states, however, that the ore in the mine was by no means exhausted and he believes further operations on the same basis could be carried on successfully."

MONEY REPORTED GATHERED FOR APPEAL FOR IVANCHUK

According to reports some of his fellow-countrymen have been busy in the past week or two gathering funds to finance an appeal for a new trial for John Ivanchuk recently convicted at Cochrane and sentenced to be hanged on June 21st for the murder of Inspector Constable in 1926. It is said that some

\$1,500.00 has been gathered for the financing of the appeal, and other reports are to the effect that the services of Arthur Slight, the well-known lawyer, have been retained by the defence. Still other reports speak of new evidence available in the way of providing an alibi for the accused man, affidavits being secured, the reports say, from a Montreal traveller and others in the matter.
