The New Liskeard Speaker last week says:—"Mr. and Mrs. Gordon Eplett of Timmins, are visiting in town at the home of Mr. and Mrs. S. D. Eplett. They are accompanied by Mr. Rawlinson. Gordon and his friend came down for the fishing and are having a real fishing expedition. They will spend several days also at Goward."

Another Badminton Game at Schumacher on Friday

The return game of Badminton between McIntyre and the Timmins team is to be played to-morrow (Friday) evening at Schumacher, and the Badminton fans say that no one should miss this. The McIntyre team came over to the High School on Monday evening and the Timmins team won most of the games. They hope to repeat their victory at Schumacher, but the McIntyres say that is not to be. There are a large number of Badminton fans in Timmins at present. Mr. D. Neill, who is an enthusiast for the game, says that fully forty here have signified their desire to play. In Sault Ste. Marie badminton has achieved outstanding popularity there being over 400 members in the Badminton club of that city.

The badminton enthusiasts here at present are considering the securing and equipping of a building for games. The roller rink is being considered at the present time and may be taken over for the purposes of the clubs enjoying badminton. The fans say that it is the best game yet invented. Those who have played it are "simply wild about it." Accordingly those who know the game should be at the Schumacher games on Friday this week. May 10th, while the same event will be a fine place for those who would like to see the game and learn how they would like it.

ONCE MORE A WORD ABOUT ANONYMOUS CONTRIBUTIONS

Literally hundreds of times The Advance has pointed out that no reputable newspaper will accept any contribution the source of which is not known. This week The Advance received by mail a reference to a cribbage tournament. It may be all right, and then again it may not. No newspaper will take any chances. It is imperative that a newspaper knows where its information comes from. It surely is no special trouble to add your name and address to any item sent. Your name will not be used if this is not desired. But the name must be given. Anonymous notes, letters, or what-have-you are as popular in a decent newspaper office as a skunk at a garden party. This has been emphasized scores and scores of times, yet people continue to break the rule. It doesn't do anybody any good and has no effect except to strain the waste paper basket and the temper. The Advance very gladly welcomes communications of any kind, and particularly news items whether personal notes or other references. But none of these can be used nor will be used, unless it is known where they originate. No newspaper can be expected to use an item which the writer will not endorse even to the extent of signing his or her name—not for publication.

AFTER GRIPPE BUILD VITALITY ON Scott's Emulsion

CONSTRUCTION OF MILL AT HOWEY TO BE GONE ON WITH

J. E. Hammell, president of the Howey Gold Mines, announced at Toronto Tuesday evening that construction of the 500-ton mill at the Howey would be proceeded with at once in order that it may be ready by the time that power is available for its operation.

HAVE "JUST A SLICE OF HAM," BUT WITH A NEW FLAVOUR

"They all said they weren't hungry—but look at the platter!" That's how it goes when you cook your slice of ham in Borden's St. Charles Milk, according to the recipe below.

The mustard flavour is cooked in, and there's a suggestion of cloves, too—besides the extra-rich milk which gives every dish a superior savor and nutritive value. Be sure to use St. Charles milk—ordinary milk is too thin.

"You'll be surprised how different this dish is from just plain ham."

Baked Ham With St. Charles

- 1 slice ham cut about 1 inch thick, with rim of fat.
- 1 tablespoon sugar.
- 1 cup Borden's St. Charles Milk.
- 1 teaspoon mustard.
- 1 tablespoon flour.
- 1 teaspoon ground cloves.
- 1 cup water.

Trim off rim of fat and cut in very small pieces. Thoroughly mix flour and mustard and pat into ham. Place in rather deep pan. Mix together cloves and sugar and rub through the fat; place over top of ham. Dilute milk with water and pour over ham to cover. Bake in a moderate oven until ham is tender, about one hour. Add more milk as needed to cover ham while baking.

SOME "TIMMINS TIPS" FROM LAST ISSUE C. N. P. REVIEW

In the current issue of The C.N.P.C. Review, issued for the employees of the Canada Northern Power Corporation, there are the following paragraphs of Timmins news and views, under the heading of "Timmins Tips":

During the past month we were very glad to welcome to our division Messrs. Harrison, Douglas and Day from Head Office; also Mr. Aitchison, of Montreal. Congratulations to Mr. James Aspin, or Jimmie, as he is more familiarly known among us, upon his success during the recent Washing Machine Campaign. Selling seventeen machines during his first month of store life is quite an achievement, and certainly goes to prove Jimmie's prowess as a salesman. We are wondering if washing machines are his speciality.

We are very glad to welcome Mr. Bert McQuarrie, of Cobalt, to our division as bookkeeper.

A few weeks before Mr. Hardy's departure from among us, the staff combined with that of the Northern Telephone Company met in the general office and presented Mr. Hardy with a club bag and set of military brushes. Mr. Burke, our local manager, made the presentation, and in a few well chosen words wished Mr. Hardy good luck. Mr. Hardy replied, thanking one and all for so remembering him upon leaving this division.

We notice that Mr. Dunfield made his periodic visit to Halleybury during Easter. We are wondering when we will be hearing of the wedding bells ringing out in the beautiful little town of Halleybury.

Kirkland Lake has been planning on an \$80,000 high school for that town, but the plans are likely to be dropped for the present at least, in view of a letter received from Premier Ferguson to the effect that only twenty per cent. of the cost would be borne by the Government. It had been expected that the Government would pay at least half of the cost.

REDUCTION MADE IN TAX ON LOW-PRICED MINING STOCKS

Hon. J. A. Robb Moves Amendment to Resolution in Budget in Regard to Tax on the "Penny Stock"

A very general agitation has been in progress against the tax on the lower-priced mining shares, as suggested by the budget speech in the House of Commons. It has been generally recognized that were the tax to be as heavy as indicated in the budget speech, it would mean a serious situation for the lower-priced mining stocks. Many prosperous properties have been developed by means of the sale of what are known as the "penny stocks." The proposed tax would make these stocks practically prohibitive, while it would also mean a serious situation for those holding these lower-priced securities. Accordingly, there will be general satisfaction at the announcement yesterday that Hon. J. A. Robb had moved in the House of Commons an amendment to the resolution in the budget with regard to the tax on the sale of shares of stock. Instead of a tax of one cent per share on all shares selling under \$3.00 the amendment provides a sliding scale. The tax on shares selling at under 50c per share will be one-tenth of a cent per share. Shares selling at between 50 cents and one dollar per share will be taxed one-quarter of a cent per share. The tax for shares between a dollar and three dollars will remain at one cent per share. While some would have desired that the tax might have been set at a still lower rate there will be general satisfaction at the notable reduction made. There was a general opinion that if the one cent per share tax were put through on the cheaper mining stocks it would mean a serious situation for the lower-priced stocks. The amendment at least gives the "penny stocks" some sort of a chance for their life.

CENTRAL KAMISKOTIA BUSY BUT OTHERS NOT ACTIVE

Just for the moment the Central Kamiskotia Company is the only company actively at work in the Kamiskotia field. For the present, owing to transportation difficulties or for other reasons other properties are taking a brief idle spell, but the Central Kamiskotia is humming along and is meeting with excellent results. Some samples brought out this week by Major Barton roused enthusiasm wherever shown. Major Barton, who has charge of the operations at the Central Kamiskotia, had some snapshots of parts of the trail to the property, the pictures suggesting that a roadway as well as a railroad would not be out of place. At the present minute there is neither a road nor a railway for properties such as the Central Kamiskotia. As soon as the summer comes it is expected that there will be very general activity in the Kamiskotia district. This will be particularly true if the railway materializes as expected. A number of properties have planned much work at Kamiskotia this summer, and if the railway is started there will be a great impetus given this work.

There was a rather amusing assault case in police court at Kirkland Lake last week when a Russian denied hitting his partner with a poker. "I was frying eggs and I hit him with the frying pan," he said, adding that the partner had been "just ugly" and in a particularly nasty mood from the time he got up that morning. The case was dismissed, the magistrate considering each of the Russians to blame and no special harm done.

Speaking of the usual May Day parade and speeches in the open air at Sudbury, The Sudbury Star last week said:—"The weatherman staged a more effective ban on open air demonstrations in Sudbury than even Chief Draper, of Toronto, could have done with his strong arm squads."

—A bazaar will be held on Wednesday, May 15th, in the basement of the Hebrew Congregational hall, Cedar street. Hot supper served. Everybody welcome. —19.
