Householders using well water must boil it for at least 20 minutes.  
All Outside Toilets must be made fly proof.  
By Order of  
**THE BOARD OF HEALTH**

## The Sun-Bath — Shower-Bath Limited

HIGH officials of the Canadian Pacific were much relieved when Dr. Ernest French, the Harley Street specialist, refuted the statement originating in London to the effect that mustard plasters were as beneficial as ultra-violet rays. During a long winter the Company has been engaged in building for use on the Trans-Canada special Solarium-Lounge cars equipped with "vita glass" windows which will admit the most beneficial sun-rays. It almost came to the question of whether the Company would scrap the new equipment and issue plasters to its patrons.

The new cars, designed for the rear end of the limited trains, will be the most magnificent cars ever to be used on a non-premium train on the continent. Given over entirely to the free use of the passenger, the lounge cars, besides the Solarium feature, have the added attraction of bath-rooms for men and women, completely and lavishly

equipped, separate lounge and smoking rooms, a buffet and a large observation room with tapestry covered chairs, divans and settees. There are, of course, ample writing facilities and a small library.

The sleeping cars designed for this train are also "different". Finished in brown, a color note which is carried out in the upholstery, curtains and carpets, these cars contain in addition to the usual public space, two compartments, a drawing room and eight sections. Each section, as will be seen from the illustration above, is separated from its neighbour by a permanent head-board, which gives an added degree of privacy to the occupant.

With the locomotive, and complete with every modern comfort and safety appliance and device, the new Trans-Canada trains each represent an investment of well over a million dollars.

### BRIGHTER SIDE SHOWN OF THE HOLLINGER SITUATION

**Kamiskotia Developments More Than Counterbalance Present Decrease in Ore Reserves at Big Mine**

There has been so much pessimistic talk, much of it without due warrant in regard to the Hollinger recently, that a little the other way is refreshing. Accordingly the following from The Toronto Star will be read with general interest:

The gloomy side of the situation at the Hollinger Consolidated Gold Mines has been presented pretty strongly, but the Financial News bureau has undertaken to present a brighter side to the picture. While the decline in ore reserves at the parent property in 1928 was \$9,000,000 and in 1927 \$6,000,000, this depletion has been almost entirely made up by actual ore reserves developed at the company's Kamiskotia properties.

Development at Kamiskotia has gone only a little way, yet so great are dimensions of ore that the management estimate reserves of 1,000,000 tons, the copper content of which, based on current price of 19 cents, has a total value of \$11,400,000. In the annual report for 1927 directors gave five different assays on the zinc content, the average of which exceeded 3 per cent. Such zinc content in 1,000,000 tons of ore, based on current zinc prices, has a total valuation of some \$3,600,000. Hollinger's ore reserves at Porcupine and Kamiskotia, there, may be summarized as follows:

Porcupine	\$51,000,000
Kamiskotia	14,000,000
Total	\$65,000,000

That Hollinger Company is ready to recover the Kamiskotia deposits and carry on development, is indicated by the official statement that a concentrator will be built as soon as railway facilities into Kamiskotia are provided. The greatest ore reserves Hollinger ever had at a given time was \$66,000,000, at the end of 1926.

This year Hollinger is developing the ore found at the Schumacher section of the parent property and satisfactory ore bodies have been disclosed, notably at the 2,600-foot horizon in the old workings. Aggressive development at the Kamiskotia will be resumed as soon as it is known that a railway will be built. It looks as if Hollinger is in a position to make a lot of new ore to help offset depletion through production from now on.

Including Kamiskotia, Hollinger has some 7,500,000 tons of ore in reserve, from which net profits over all charges may be placed at least at \$3 per ton, representing an equity behind the stock of not less than \$22,500,000. Add to this net current assets of \$12,513,871, as revealed in the balance sheet, as Dec. 31 last, the total equity behind the stock is \$35,000,000, or better than \$7 per share on the 4,920,000 shares outstanding. Hence, the shares are selling practically on a cash basis.

Moncton Transcript.—Any man likes an intelligent, sensible, level-headed girl who can think for herself—so long as she agrees with him.

### Skeleton Washed From Lonely Grave in the Bush

Despatches from Cobalt last week tell of the gruesome find made last week near the mouth of the White river. Believed to have been washed out of a lonely bush grave when a flooded river overflowed its banks in spring freshets, part of a skeleton, enclosed a rude, unpainted and apparently home-made coffin, has been found by employees of the Upper Improvement Company near the mouth of the White River, which empties into the northeast arm of Lake Temiskaming.

Provincial Police district headquarters at Cobalt were informed of the gruesome discovery, and the bones, after an investigation had been carried out, have been re-interred. There was no clue to the identity of the remains. Inspector W. T. Moore said, which were those of an adult, and presumably either an early settler in the district or a man who had been lumbering in the north and had been overtaken by death in the woods.

Only the skull, part of one arm and a leg, from the thigh to the foot were left. A rough wooden box, the lower part of spruce lumber and the top of basswood, according to the police, had been used as a casket. The wood was quite badly decayed, but the steel nails which has been employed were comparatively bright. Inspector Moore states that he believes the bones

### FORM OF SEPTIC TANK FOR USE OF FARMERS AND OTHERS

Writing to The Advance from Cochrane, Mr. D. J. Pomerleau, District Representative of Agriculture, says:—

The Department of Agricultural Engineering, Ontario Agricultural College, Guelph, Ontario, has designed a form or mould for concrete septic tank construction on the farms of Ontario.

Your Agricultural Representative has been supplied with one of these forms this spring, also with illustrated circulars telling in detail how to build the tank. These forms are now available to you without charge. If you are intending to build a septic tank any time this season, you would be well advised to make application right away to your Agricultural Representative, D. J. Pomerleau, Cochrane. When you are about ready to build give him a ring and he will tell you where to go to get it. You can transport it in your car.

It is felt that this form will be a great service to the farmers. It will save money, labour, and worry.

are those of a person dead at least ten years.

The box containing the bones was found on the shore of the stream by a river driver fixing a boom for the Upper Ottawa Improvement Company. He notified his foreman, who in turn sent word to the provincial police. Constables H. V. Allsopp and J. W. Roth, together with Constable Delaney of the R. C. M. P. post at Halleybury,

### Timmins Fire Brigade Fourteenth Annual Ball

The fourteenth annual ball of the Timmins Fire Brigade will be held in the Masonic hall on Victoria Day, Friday, May 24th. Dancing will commence at 9.30 p.m. Refreshments will be served and this feature of the programme will be especially attractive, judging from past years. Tommy Stephens and his orchestra will be on hand with the latest and best of music for the occasion and no one who does not like a good time should think of attending, for everybody has a good time every time at the Timmins Fire Brigade events. Tickets are now on sale and because of the pleasure of the event and the worthiness of the auspices under which the ball is held, everybody should be sure to secure a ticket, or several tickets, for the Timmins Fire Dept. annual ball.

made enquiry into the matter, and their report would indicate that the coffin had been disturbed in its original location by the White River in flood.

How long the box had been at the spot where it was found, and where the river at present is eight feet above its normal level, is not known. In the box, with the bones, were sawdust and dirt. The officers buried the remains close to where they were found by the river driver.

### REPORT FOR MONTH OF APRIL FOR MATTAGAMI SCHOOL

Standing of the Pupils in the Mattagami School for the Month Just Passed

The following is the report of the Mattagami public school for the month of April:—

Fourth—E. J. Transom, principal—Frances MacConnell 87, Alex Watson 84, George Luoma 83, Mary Mason 79, Dorothy Dawson 77, George Meredith 77, Leslie Thompson 75, Joseph Jackson 72, Lydia Jones 70.

Sr. III—Teacher, M. Tackaberry—Oliver Pietila 83, Beryl Arnold 81, Reggie Thachuk 77, Dorothy Dickinson 77, Tom Sarachon 76, Joseph Watkin 76, Wyman Brewer 75.

Sr. II—Teacher, M. MacLean—Lucy DeLuca, Larry Guidolin, Lillian Mason, Catherine Lang, Jack Beadman, Rose Shirreffs, Charles Abraham, Lillian Boychuk, Graden Fairbrother, Elsie Richardson.

Jr. III—Teacher, I. Carruthers—Willie Mason 87, Merryn Barnes 85, Elsie Cripps 83, Bob Campbell 82, Ella Wilson 81, Virginia McIvor 79, Ida Walker 78, Emily Jackson 77, Malcolm Stingle 77, Robert Robar 77, Leona McNeil 77, Reini Tuomi 76.

Jr. III—Teacher, H. Sprague—Ruth Hornby 79.6, Paul Stibbard 75.7, Nelson Woolcocks 75.5.

Sr. II—Helen MacNamara 75. Teacher, N. Gosselin—Florence Phillips, James Clarke, Robert Watson, Margaret Latimer.

Jr. II—Teacher, E. Major—Gwenie Bright 88, Russel Thachuk 87, Kenneth Robar 85, Kaarine Salonen 84, Leslie Tonge 83, Helen Milne 82, Albert Fick 76.

Sr. I—Pauline Bellamy 91, Edgar Pierce 87, Gladys Mason 86, Evelyn Coaty 84, Grace Singleton 82, Irvin Cameron 82, Edith Sinclair 82, Gerald Straatman 79, Irene Walterhouse 75.

Jr. I—Teacher, C. Dodd—Clara Wakeford, Bobby Stroud, Josephine Stephens, Billy Mortimer, Rose Zolob, Laila Koskella, Roy McIvor, Richard Fullerton, Roland Parsons, Eugene Montgomery.

Jr. I—J. Acheson, teacher—June Rochon, Christine Brown, Elva Thachuk, Ina Adamson, Elsie Clatworthy, Elizabeth McNeil, Margaret Straatman, Margaret Neary, Keith Powell, Clave Jantti, Douglas Stevens, Teady Scott.

Grade 1—Teacher, E. Taylor—Thelma Burke, Grace Adams, Vita Linder, Melvin Nichols, Peggy Webster, Diana LaCroix, Kenneth Singleton, John Gallagher, Margaret Singleton, Mildred Walker, Phyllis MacConnell, Jackie Mortimer, Hilda Tomlinson, Widar Anderson.

K.P.—Teacher, Miss M. Shillington. K.P.—Teacher, Miss E. James.

Barrie Examiner.—"Babe Ruth is married again and will probably make a home run immediately after every game."

Kay Features.—Making a fool of yourself is not such a serious mistake if you have sense enough to know who did it.
