

### COLLAPSED ON FIRST BED

Kidneys were terrible, Hamilton woman declares. Blesses Gin Pills

To Mrs. Louisa Pike life was unbearable. She admits frankly, "I had backache almost continually—could not carry a pail of water without getting dizzy or giddy."

### MAN WITH HIS FEET UP WAS IN THE WORST CONDITION

Zalek Vertlieb in The New Liskeard Speaker tells this one:— Big Mike, working on a log boom, fell into the water. Dizzy, exhausted, he managed to grasp a log.

### WHO INVENTED THE AUTO?

(Toronto Mail and Empire) Who invented the automobile? The notion that the inventor was Henry Ford or Thomas Edison is widely spread on this continent.

## And your own sense of taste will convince you.

### Only Enemies Advocate Plots Against Canada

In discussing the howl of the communists and some other equally short-sighted people in regard to what they call "freedom of speech," The Sudbury Star last week in an editorial article says:—

"It is all very well to talk of free speech and free press in Canada by idealists. But those who advocate it do not know the true meaning of the terms. Free press does not mean that there shall be no limit to what may be said. If it did, Canada would become the one great seat of publication for books that are banned by every decent country and which are not allowed even in England, which country was held up in the House of Commons as an example for Canada to follow."

"Chief Draper knows what he is about. There is no limit to the abuse that foreign language orators heap upon Canadians and Canadian institutions when haranguing their compatriots. Communists have been heard to declare that they would make the streets run with blood. Whose blood? The blood of Canadians, of course. Can it be urged, even by Mr. Woodsworth, that that sort of language is calculated to make hearers love Canadians or Canada's institutions?"

"If those gentlemen in Parliament are so solicitous of the interests of those who would destroy Canada's social, political and economic systems will introduce laws and amendments to laws already established to bring about the ideal conditions they evidently want, their sincerity would not be questioned, but, as matters stand, they seem to be just shooting hot air. They are enemies of Canada—every one of them who advocate freedom of press or speech for plotters against Canadians and Canada's institutions."

Chattanooga Times:—America has no great cathedrals but you should see some of the modern bathrooms.

### HAMMELL'S MEN TO DRILL BELCHER ISLANDS FOR IRON

N.A.M.E. Co. to Send Two Outfits to Belcher Islands This Summer for Work There

Years ago John Jones roused considerable interest in Timmins and district in regard to the Belcher Islands. This prospector paid more than one visit to the Belcher Islands and returned with impressive samples of mineral-bearing ore.

"Both gentlemen were presented with a travelling bag and automobile rug as a token of the high esteem in which they are held by those with whom they were formerly associated."

"In replying to the kindly remarks of the chairman, Mr. Grant spoke feelingly of his relations with those who had so loyally helped in the past to bring the mine to its present state of development. He spoke reminisciently of the early days of mining in Cobalt, Timmins and more particularly in Kirkland Lake."

"Mr. Brown also spoke briefly, thanking the men for their expressions of good will as exemplified in the gifts which had been presented. "There were about 200 guests present. During the evening several delightful numbers were rendered by the Kirkland Lake Citizens' Band, as well as a number of solos and musical selections by members of the gathering."

"On behalf of the men a number of the older employees were called upon by Chairman Black to say a few words and such old-timers in the Mine's history as Tom Brydges, Phil Doyon, Joseph Reynolds, Harvey Saue and many others rose in quick succession to say a few words of God-speed to their former manager and mine superintendent."

"The committee in charge of the affair comprised P. Reid, Stanley Reynolds, M. Black, Wm. Smith, G. H. Halverson and Joseph Reynolds and to them, in conjunction with Charlie Elliott, in charge of the cookery, must be given the credit of serving a much appreciated banquet and providing a de-

### Presentations Made at Kirkland Lake Recently

At Kirkland Lake recently mine workers of the Wright-Hargreaves property honoured former officers of the property, presentations being made to James Grant, former manager, and Sydney Brown, superintendent. In reporting the unusual event The Northern News last week says:—

"Wright-Hargreaves Mine cookery was the scene of a unique gathering on Saturday evening, May 11th, when the employees of the mine met at a banquet table to tender their respects to their former Manager, James Grant and Superintendent, Sydney Brown. The two guests of honour arrived on the scene about nine o'clock and after a bountiful repast had been served, Mill Superintendent M. Black, as chairman, in the course of a brief address paid high tribute to Mr. Grant and Mr. Brown for their faithfulness to duty in their former connections with the mine. Special reference was made by the speaker to the sacrifice of time and effort made by Mr. Grant in the cause of the promotion of higher standards of education by his service on the Public and High School Boards, and his contributions to the bettering of health conditions in Kirkland Lake and district as a member and chairman of the Hospital Board."

"The death occurred at her home in Copper Cliff on Saturday, May 11th, of Eva Kokkonen, relict of the late Janne Kokkonen, following a week's illness. The deceased was born in Finland 67 years ago and 15 years ago came with her husband and family to Canada and had resided in Copper Cliff for some years. She leaves to mourn her loss two daughters, Mrs. E. Peterson, of Timmins, and Mrs. Matti Sirkka, of Copper Cliff, and one son, Janne, of Finland."

### MOTHER OF MRS. E. PETERSON DIES AT COPPER CLIFF

The Sudbury Star last week says:— "The death occurred at her home in Copper Cliff on Saturday, May 11th, of Eva Kokkonen, relict of the late Janne Kokkonen, following a week's illness. The deceased was born in Finland 67 years ago and 15 years ago came with her husband and family to Canada and had resided in Copper Cliff for some years. She leaves to mourn her loss two daughters, Mrs. E. Peterson, of Timmins, and Mrs. Matti Sirkka, of Copper Cliff, and one son, Janne, of Finland."

lightful evening's programme, from which every one departed with most pleasant recollections. The event will ever be remembered by those privileged to be present as a most friendly gesture of good will from the employees of the mine to those upon whom, for a number of years, devolved the duty of exercising authority over them."

Border Cities Star:—Eastern judge rules that "a man's pockets are his own property, strictly private, and it is not permissible for even his wife to go through them." The best way to bring this to the attention of the wife is to clip it out and put it in your pocket.

Detroit News:—One of our favourite theories is that Miss Joan Lowell, the author of "The Cradle of the Deep," is Trader Horn without the beard.

## What About His Future?

BEFORE you know it that boy of yours will be a young man—out in the world on his own. Will he succeed in Life? You plan now that he will. And yet, so much depends upon you!

With your help your boy can start life with a real chance for success. Success today is built on education. Doctors, lawyers, engineers, business men—all require specialized training.

Your boy should have a University education. This will cost at least \$700. a year. If you were to die where would this money come from? If you live will your income stand the strain?

Let us send you, without obligation, the book "One in Fifty"—an investigation of Educational costs and an explanation of how simply these costs may be met with the aid of a North American Life Educational Policy.

## Virile, Velvety Power Cloaked in Refreshing Style

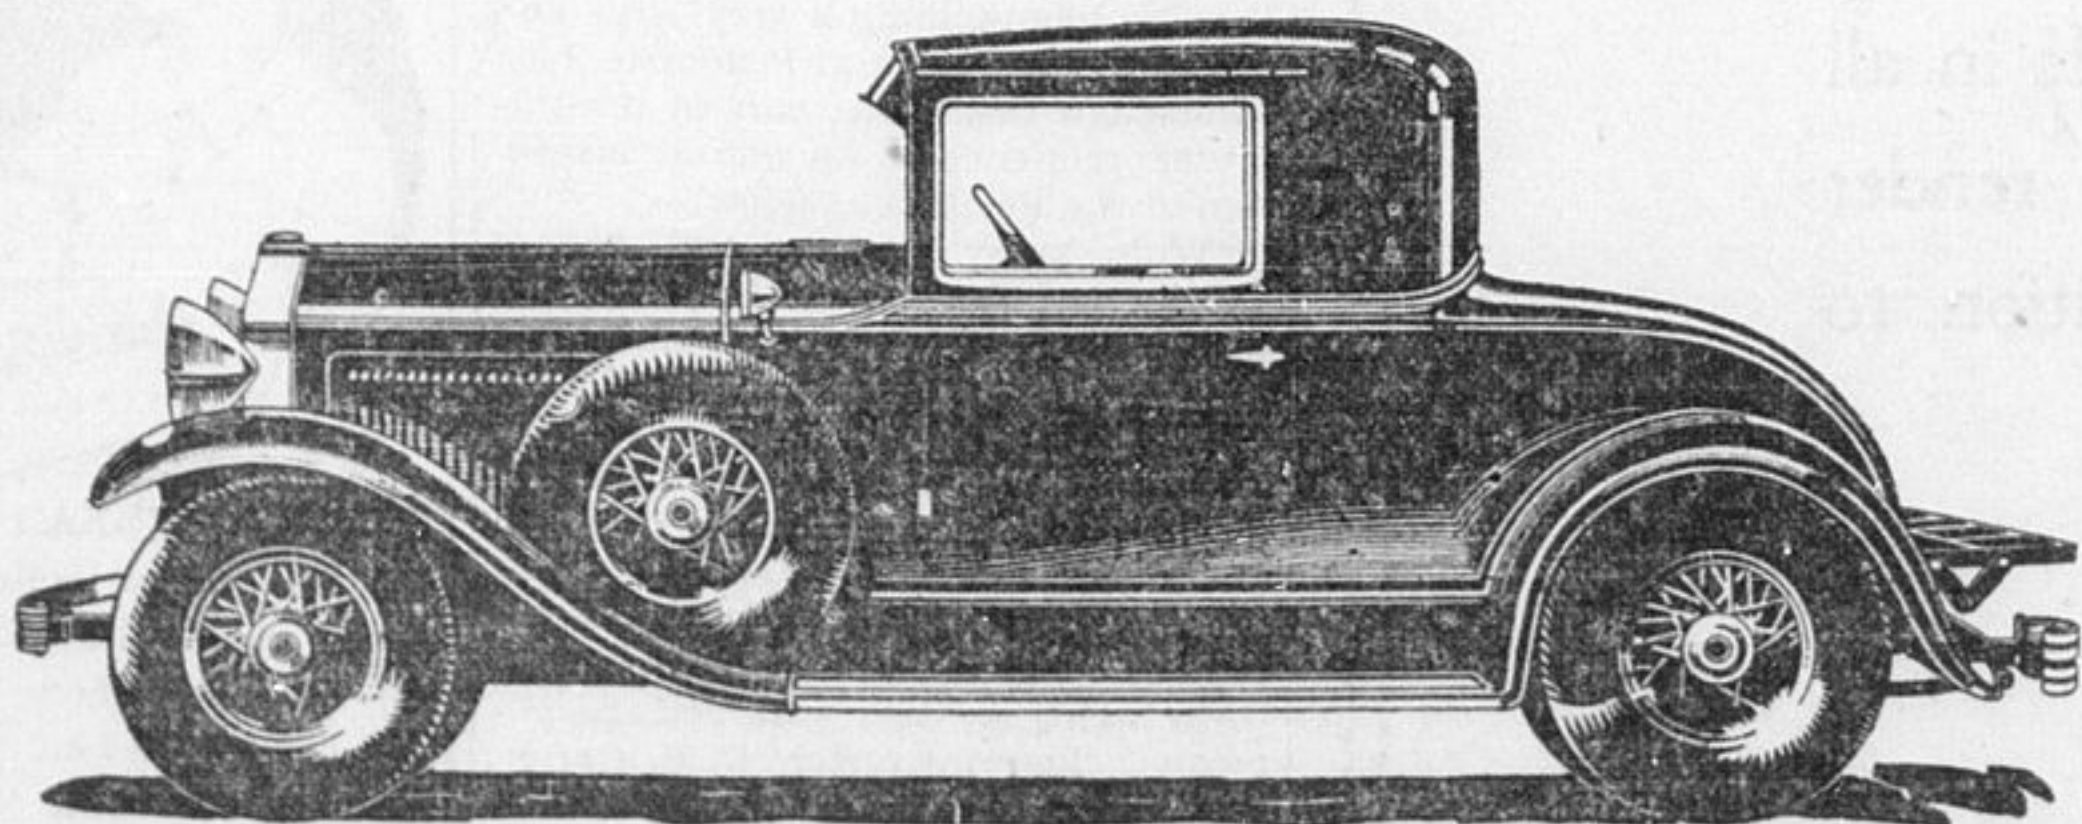

The car pictured below was created by the industry's foremost style authority... a man with a world-wide reputation for designing "custom-built" models.

But beauty is only one feature of the new-style Willys-Knight. There is comfort... roomy, well-upholstered seats that cradle your body like a lounge-chair. Effortless ease of handling that makes this car a restful pleasure to drive.

There is power... smooth, silky, whispering power... abundance of it for lightning getaway, hard pulls, steep hills and speed opportunities.

There is economy... with no costly valve grinding or carbon cleaning, upkeep costs are cut in two. With an engine that actually improves with use... growing smoother and more powerful with every mile... highest resale value is assured.

Arrange for a demonstration.

"FINGER-TIP CONTROL"  
One button in center of steering wheel controls starter, lights and horn. Simple design, easy operation. No wires in steering post.

### THE FOOL AT THE WHEEL

(Montreal Star) Despite all propaganda, warnings and fines, there seems to be little or no abatement of speeding and ignoring of general rules. The fool at the wheel, the "joy rider" and the incompetent chauffeur are still marvellously in evidence. If these strange products were a menace to themselves only there would be little to worry about—they would deserve their fate whatever it might be. But there is the pedestrian. He is entirely at the mercy of the driver who ignores laws provided for their safety. The dread accident toll tells a pitiful story of death in the streets. The judges are right in their decision to act with greater severity towards law-breaking drivers.

Lord Dewar, noted British wit, says: Most men believe in heredity—until a son makes a fool of himself.

# Wheat's NATURAL GOODNESS

~toothsome and tempting

### Puffed Rice is Good, too

Quaker Puffed Rice is exploded the same way as Puffed Wheat, and is equally delicious. Full of the ready energy of the finest white rice. For variety, keep both kinds in the house.

AN ENTIRELY DIFFERENT kind of cereal is Quaker Puffed Wheat. Airy deliciousness and toasted crunchiness are combined with all the nutriment of the grain supreme. The wheat bran is retained, but you would not notice it, so delicately is it concealed.

Puffing the wheat grain to eight times its natural size cooks it thoroughly and explodes millions of food cells in each grain. Rich stores of protein, carbohydrates and minerals are released for easy digestion. Each puffed grain has a tempting, nut-like flavour that always intrigues a lagging appetite.

Always have Quaker Puffed Wheat ready to serve at any meal or at any time between meals. It is relished when fickle appetites set other food aside.
