NEW YORKER OBJECTED TO VALUATION ON COBALT LOT

Geo. Smith, New York City, has written the assessor for the township of Coleman, W. G. Rogers, and it would appear that the New Yorker thinks his assessment is too high. "Confiscation, not assessment," is the way Mr. Smith terms it. The assessment at that is only for \$200.00. The court of revision upheld the assessor. According to W. M. Shepherd, township clerk of Coleman, he had written Mr. Smith on May 9th, explaining that the claim was assessed on the same basis as all other property of the same kind in the township. No reply was received from Mr. Smith to the clerk's letter so it was taken for granted that Mr. Smith was satisfied with the explanation. The property in question is a mining claim of 40 acres in Coleman township.

SINCLAIR SEES THE NORTH DOMINANT IN PROVINCE

Liberal Leader Suggests Need for the Comprehensive Development of the North Country

In an interview given at Fort William while on his tour of the North, W. E. N. Sinclair, Liberal leader in the province of Ontario, this week declared that the time will come when the issues arising in New Ontario will dominate the whole province. In the North he felt the big problem and the big possibilities seemed centred and he saw the need for the comprehensive development of the North.

"It has become increasingly clear," Mr. Sinclair continued, "that the most significant features of our future development as a province will occur in the north. New Ontario can no longer be treated as a hinterland with problems remote and obscure as compared with those of the older parts of the province. It is time that we developed a new provincial consciousness embracing the whole province and aiming at a vast comprehensive development from Kenora to Ottawa and from Moose Factory to Fort Erie."

Mr. Sinclair revealed that this was his first visit to the northwestern section of the province. The purpose of the trip, he said, was to elaborate a policy for New Ontario, "all the main centres are included in our itinerary," he explained. "At each place we shall consult with the riding executives and leading members of the Liberal organization. In the evenings we plan to hold as many public meetings as practicable. By this means we hope to gain first-hand knowledge of the problems of the north and a new outline of the requirements of each locality."

Accompanying the Liberal leader are Dr. George A. McQuibban, M.P.P. for Northeast Wellington; A. A. Colquhoun, M.P.P. for South Perth, and R. F. Miller, M.P.P. for Haldimand. Hon. Nelson Parliament, provincial Liberal organizer, is also with the party.

Y.P.S. Banquet Tuesday Very Enjoyable Event

The annual banquet of the Young People's Society in the United Church basement on Tuesday evening of this week was a very pleasant and enjoyable event. There were about forty present and the programme for the evening was a delightful one from start to finish. The repast served was an excellent one and was much appreciated. The various toasts and responses were exceptionally well handled by the young people, many of the bright, brief speakers being particularly interesting and inspiring. The toast to King and Country was proposed by Mr. Parks and responded to by the fervent singing of "God Save the King." A verse of "O Canada" followed, after which the toast to the Church was proposed in effective way by Mr. Arthur Filmore. Miss Campbell made very able response to this toast. The toast to the ladies was wittily and well proposed by Ken Donohue, effective response being made by Miss Doris Jackson. A solo by Miss Wilson, "Kenny, Boy," a clever parody on a famous song, also made another interesting response to the proposer of this toast. Miss Katherine MacDonald proposed the toast to the men, the response being by Gordon Ransenhowsen, whose witty address was one of the special hits of the evening. The toast to the Y.P.S. was proposed by Miss Greta Robinson and responded to by Boyd Roberts, these addresses being appropriate and pleasing. A feature of the evening was the choral singing, some of the choruses being parodies with local allusions that roused much amusement. "The numbers included:—"When the Circus Comes to Town"; "Rio Grande"; and "John Brown's Body." The piano solo by Miss Anne Scott was one of the musical treats of the evening, while the solo by Miss Wilson was also specially enjoyed.

DISCOVERY OF HIGH-GRADE ON THE BARRY-HOLLINGER

A despatch this week from Boston Creek says that a discovery of high-grade ore made early today at the Barry-Hollinger Mine appears to be among the more important so far at this property. According to direct official information the cross-cut has intersected a shear zone which is approximately 22 feet in width known as vein No. 7. At the point of intersection, there is width of about nine feet of quartz. Approximately four feet in width contains spectacular showing of gold.

The mill continues to operate at approximately 55 tons per day, while the work in progress is breaking nearly twice as much ore at this rate. This condition is resulting in a substantial increase in the amount of broken ore and is paving the way toward subsequent stepping up of the mill to larger tonnage. Such an increase will be governed to large extent by the result of drifting operations on vein No. 7 at the 1,500-foot horizon.

ARE YOU A CAREFUL DRIVER OR DOES YOUR HEAD RATTLE?

Time and again people who note the work of some reckless automobile driver are tempted to exclaim, "He must be crazy!" The expression apparently is more than just an exclamation. There is evidently a scientific basis for the use of such phrases in connection with violation of highway rules. The New Liskeard Speaker last week put the matter in a nutshell in the following paragraph, a despatch from Detroit, Mich.:—

"Detroit, May 23—Automobile drivers, at least some of them, have been thought crazy by a good number of people in the past. A test taken at random by Dr. Theophile Raphael, recorder's court psychiatrist here, partly proves it. Out of 100 drivers tested, all of them traffic violators, one was insane, 13 were classed as feeble-minded and 42 were of inferior intelligence."
