GRAVEL AND SAND—AND PLACER

A local Scotsman says that if the present price war in regard to gasoline continues he may think about buying one of those new pipe lighters.

The visit of W. E. N. Sinclair, leader of the Liberal party in Ontario, to the North Land at this time, emphasizes the growing interest that the North holds for Old Ontario. Years ago The Advance suggested that if either of the political parties were looking for a real platform on which to appeal to the people, no issue would appear to offer the advantages and possibilities provided by a broad policy for the development of the North Land.

It may be of interest for readers of The Advance to note that in a new history of the automobile industry recently published under the title of "Men, Money and Motors," it is recalled that twenty-six years ago there were registered in New York State no less than 347 Locomobiles, 138 Mobiles, 103 Wintons, 48 De Dions, 45 Columbias, 39 Gasmobiles, 32 Oldsmobiles, and 52 representatives of various other makes of what are known as automobiles.

If the weather stays warm long enough for the dust to fly it would be a good idea to use some form of oil or other dust-dampener on the streets.

It is to be hoped that work on the proposed new post office for Timmins is not to be delayed until the \$9,000.00 recently lost in or near the post office here is recovered.

According to recent press despatches from Ottawa the Dominion members of parliament have been considering plans for the enlargement of their own sessional allowances. They appear to think that they should receive \$6,000.00 per session instead of \$4,000.00 as at present.

worth more than \$4,000.00 per year to the country, but they would have great difficulty in making the people believe any such thing. Voters who themselves are glad to earn \$2,000.00 a year, or less, would be particularly doubtful as to their elected representative being entitled to \$4,000.00 per year, let alone an extra \$2,000.00. It is perfectly true that some members are worth \$6,000.00 per year. It is equally true that a great many others are worth very little.

On Wednesday morning Mr. W. E. N. Sinclair, leader of the Liberal party in Ontario, who is at present on tour of this North Land, had occasion to desire to use the post office and encountering at the moment a well-known citizen of the town whom he had met the previous evening, Mr. Sinclair cheerfully enquired: "Where can I find your post office?" The reply made him smile. "Well," said the citizen "I can show you the site for the new post office promised Timmins by your friends at Ottawa, but unless you are ready to wait until after the next Dominion election, I won't be able to show you any new post office here."

Suggestions have been made recently to the effect that it would be a desirable thing if there was a grand amalgamation of all the big gold mines of this North Land. The average man will be more inclined to propose a splitting-up of some of the bigger corporations so that they may not become too unwieldy for effective management. It is argued that amalgamation would make for greater returns on the capital invested and lessen the risks taken by shareholders. On the other hand, amalgamations of too extended a scope have a tendency to a monopolistic state of mind.

There will be general approval of the attitude of the Timmins board of trade and the Timmins town council in seeking to speed up the progress and prosperity of this section of the North by the establishment of railroad facilities for the Kamiskotia area. No one who has considered the question doubts the value of the development of Kamiskotia resources either as regards the advancement of the town of Timmins or the benefit of the North and of the province in general.

Mr. Newman, one of the members of the Legislature of the province, who was in Timmins this week with Mr. Sinclair's party on tour of the North, in his speech Tuesday night emphasized the idea that the big need of the North so far as the farming land is concerned is an extended system of drainage. It would not be a bad idea to start on certain portions of the roads in the country.
