St. Anthony's Church Bazaar Receipts Totalled \$14,288

On Saturday 2,250 Persons Paid Entry Fees. Winners of the Many Valuable Prizes. Event a Noteworthy Success. Some Ticket Holders Yet to Call for Their Prizes.

The big bazaar put on last week at the Timmins skating rink by the ladies of the St. Anthony's R.C. church was a noteworthy success. Large crowds attended the event each day, the Saturday crowd being especially large. On Saturday 2,250 persons paid their entry. Those who attended the event found it most attractive in every way, and the ladies in charge are being complimented generally on the booths, the effective preparations made for the event and the capable way in which it was carried through. The event had all the usual features of a bazaar with many original touches that added to its success.

Among the prize winners in the several draws were the following:—
 Divanette, won by No. 830, Mrs. J. T. Vautour.
 Kitchen equipment, complete, won by No. 14, Mrs. E. Grandbois.
 Comforter, won by No. 3442, Mrs. J. Berni.
 Rabbits, Giants of Flanders, won by No. 3743, H. Beaulne.
 \$20.00 in gold, won by No. 5566, F. Valois.
 Entrance prize, Saturday, No. 904880, Mrs. P. Foy.

Johnson Knocked Out Killins in First Round

There will be general interest in Timmins and district in the fact that at the boxing bouts at Kirkland Lake last Friday "Dutchy" Johnson knocked out Killins in the first round. There was considerable reputation given to Killins and some fight fans here were inclined to favour his chances. "Dutchy" Johnson, however, lived up to the reputation he has among a large number of the fight fans of this district and showed his ability in the ring just as they expected he would. The win at Kirkland Lake over the well-advertised Killins will increase the interest in "Dutchy" Johnson and it will certainly tend to increase the interest in the encounter at Timmins on July 1st, between "Dutchy" Johnson and "Mickey" Watts.

Circus Will Not Visit Timmins for Present

Arrangements were made last week for a visit to Timmins next month of the Christy Bros Circus. Early this week The Advance received a note reading as follows:—"Please cancel contract made for Christy Bros. Circus. Owing to having changed the route of the circus this course becomes necessary. Hoping to play your city in the near future. Most respectfully yours, F. J. O'Donnell."

Accordingly the expected visit of the circus is off for the present, which will be a big disappointment to youngsters, and others, a circus once a year being looked upon as almost a necessity. However, the circus in question may visit here later this year or another circus may come this way. Christy Bros. Circus is a five-ring show featuring wild animals in addition to the usual other circus features. The show bears an excellent name for straightness and orderliness and is well spoken of by towns and cities visited. It may be of interest to know that the Sparks Circus is at present touring Ontario. Sparks Circus has visited Timmins on several occasions and is always welcomed here. The representative of Christy Bros. was in Timmins last week and made arrangements for the \$500.00 town license and the \$300.00 for rental of the athletic grounds.

Second Outdoor Band Concert Pleas'd All

There was a large turnout on Sunday evening after the church services for the second open-air band concert this season, given at the band stand in the park on Spruce street near the station. The weather was ideal for the occasion, and crowds lined the streets, the park and the station grounds, while there was an unusually large number of automobiles parked along the streets to hear the band. Bandmaster A. Wilford had a fine turnout of bandsmen, and the band played in very effective way, all the several numbers being very ably handled. A particularly popular number was the cornet solo, "Silver Threads Among the Gold," by Bandsman Carl Johns, with band accompaniment. This number was very pleasingly presented by this talented cornet player and won general approval, while the accompaniment by the band added much to the success of the selection.

Another special feature of the concert was the playing of "O, Canada" by the band before the conclusion of the programme by the National Anthem. Many expressed special approval of this feature.

Other numbers given by the band included:—Hymn, "Sun of My Soul"; march, "Ivanhoe"; overture, "Golden Crescent"; "Operatic Mingle"; waltz, "Silver Glade"; march, "Fon Accord." The selection, "Operatic Mingle" was one of the specially popular numbers, being presented in very effective way by the band.

The next band concert will be held, weather permitting, on Sunday evening, June 23rd, and the following one on Thursday, June 27th.

The question on a history paper was: "What do you know about Queen Elizabeth and Sir Walter Raleigh?" The answer given was:—"Queen Elizabeth rode through the streets of Coventry naked to save the town. She met Sir Walter Raleigh, who gave her his cloak and said, 'You look damn cold' So Good Queen Bess said: 'Dieu et mon Droit'—which means, 'By— you're right!'" —Exchange

A young man and his bride on their honeymoon arrived at Monte Carlo. Upon their first night they strolled down to the beach in the moonlight and sat there gazing out over the water. Presently the man quoted: "Roll on, thou dark and deep blue ocean, roll!" Whereupon the young bride, grasped her husband's arm and exclaimed: "Oh, Richard, dear, look—how wonderful you are—it's doing it!" —Canadian

27 YEARS OF PIONEERING

When the first "gasoline buggies" appeared on the streets of two continents, Maurice Houdaille of Paris, then an eminent engineer, made three simple deductions:

1. A motor vehicle could not be driven at great speed over average roads . . . with either comfort or safety, without a shock absorbing device.
2. That the device must be able to absorb both the upward and downward thrust of the shock.
3. That it would have to be built on the Hydraulic principle.

Houdaille's 27 years of Pioneering developed the Houdaille hydraulic double-acting shock absorber that made supreme riding comfort available for motor cars of all types. Houdaille Pioneering taught the automobile industry (after many experiments with other types of devices) the necessity for hydraulic control.

If you are not enjoying supreme riding comfort in your car . . . drive around to a Houdaille Service Station or to your own car dealer, and have a set installed immediately.
