Mayor Drew Hopeful About the Railway to Kamiskotia

Mayor Reports to Council on Recent Interview with Premier. Nothing Definite, but it Looks Hopeful for the Railway. Complaint Made Regarding Dogs at Large. Regular Dog-Catcher to be Appointed. High Wooden Fence Fire Menace, Says Fire Chief. Other Town Council Business.

The regular meeting of the town council was held on Monday afternoon with Mayor Geo. S. Drew in the chair, and Councillors A. G. Carson, H. Charlebois, R. Richardson and A. Caron present. The session was longer than usual, there being several questions of more than passing interest. Mayor Drew reported on the recent interview with Premier Ferguson in regard to the railway to Kamiskotia and although there was nothing definite to announce at present, the mayor felt very hopeful in the matter, feeling that the railway would in all probability be started in the near future. A complaint from a citizen of the town in regard to what one of the council termed a "spite fence" also took up some time, it being felt that something should be done to remedy this matter. Another complaint from a citizen was in regard to the annoyance and damage done by dogs running at large, and to overcome these difficulties, it was decided to appoint a regular dog catcher to rid the town of the nuisance and loss occasioned by stray dogs.

Council received a letter from Mr. J. W. Curran, chairman of the citizens' committee at Sault Ste. Marie, asking for the aid of the council in entertaining and accommodating a group of daily newspaper editors to make a tour of the North Land in August. Reference was made to the value to the town and district from the publicity and better understanding of the country and its problems likely to follow such a visit, and Mayor Drew thought the co-operation of the Kiwanis Club, Board of Trade, or other bodies could be secured to entertain the daily newspapermen while here. These daily newspapermen are to make a tour of the North Land, visiting the main points of interest. They will leave Toronto about August 19th. There will be from 25 to 40 newspapermen in the party, together with their ladies.

A letter was received from the Cochrane Fire Brigade giving the mayor and councillors a special invitation to attend the Firemen's Tournament to be held at Cochrane this year on July 1st and promising special attention and hospitality to any members of the council accepting the invitation.

Mr. A. M. Mason had a letter before the council objecting to the number of dogs roaming around the town and doing all sorts of damage. Mr. Mason was present and added a few words to the letter. There seemed to be literally hundreds of dogs roaming round the town. They were particularly noticeable from 5 a.m. to 10 a.m. They destroyed gardens and lawns, upset and scattered the contents of garbage cans and so created a real menace to health, as well as being generally a nuisance and a source of damage to citizens in general. Some of the dogs were vicious and all at large were a nuisance. He thought the citizens in general should be given a greater measure of protection. In asking why the by-law was not enforced here, Mr. Mason pointed out that other towns were able to handle the situation.

In reply, Mayor Drew pointed out the police had picked up a large number of dogs, but the dogs seemed to multiply despite efforts so far. The mayor said it was certain that greater efforts would have to be made to deal with the matter. Despite the number of dogs picked up there seemed to be as many still at large.

Councillor Carson, chairman of the police committee, said that the police had captured and destroyed about 60 dogs this year, and about the same number had been redeemed. Something more, however, was necessary, and Councillor Carson asked what the council wished to do. Chief of Police McLaughlan was called upon and pointed out that while a large number of dogs had been captured the difficulty continued. He thought that it required special talents to be a competent dog catcher. His force had done their best but he felt it required special knack and skill to successfully catch dogs. He found that dogs once captured could not be even approached again. He had had some in court and felt that he would have to summons a number of others as this seemed the only way, though he had hesitated to use it very generally, recognizing the cost to those concerned. After some further discussion the council decided to appoint a regular dog-catcher. This work had been very effectively done by Mr. Geo. Laporte, and it was thought that if he would act again it would solve the problem. Councillor Carson was authorized to secure an official dog catcher or secure whatever assistance was necessary for the work. What council desires is that the dog nuisance be done away with.

Mr. Jos. Larcher spoke to the council in regard to a high board fence 16

feet in height in some parts and 8 feet high at the front erected on the property next to him and spoiling the appearance of his place, as well as being a menace in case of fire. On the side next to his property, Mr. Larcher said, there were nails driven through that would injure any child that might climb on the fence. Part of the fence was on town property between the lot and the walk and Mr. Larcher thought the town should at least see that the fence was put to sensible height on this section. In reply to a question, Fire Chief Borland said he did not consider the structure a fence at all, but a wooden wall, and that it should not have been erected without a permit. He thought it a danger in case of fire, as it would interfere with the free fighting of fire in the two houses, as well as carrying fire from one to the other. Council considered that the fence objected to was not desirable and should be removed. The matter is to be taken up with the proper authorities to see if the town has the authority to order the removal or the reduction of the fence or wall.

Mr. L. Halperin, jeweller asked for permission to keep his store open on Wednesday afternoons and evenings. He said it was a case of his being forced to this action to protect his business. His was the only store of its kind in town that was closed according to the by-law, and it was a hardship to his business, with other stores selling the same sort of goods and repair work being looked after when the by-law required him to close. Council agreed (Continued on Back Page This Section)

In the police court this week there were several drunks who paid the usual fine. There was one case of reckless driving, the offender being taxed twenty-five dollars and costs and also had his license cancelled for three months. According to the by-law, of which ample notice has been given, all dogs must be kept tied up or under leash after June 15th. Some are carefully respecting this law while others are disregarding it so if the offenders find themselves subject to a fine, the onus of blame will be on themselves as due warning has been given.

Mrs. A. DeRosa has returned from Mattawa. She was just twenty minutes too late arriving there to see her father alive. Two days after her father's death, a daughter-in-law, Mrs. Louis Morissette, was instantly killed out West when the truck on which she was riding with her husband and children overturned. She leaves thirteen children, all of whom were with the father and mother at the time of the accident but no one was seriously hurt except the mother.

Some sneak thief went into Tommy Feldman's summer camp at Golden City and stole his Victrola. He had not been away from the cottage ten minutes,—just going over for some ice-cream,—when on his return it was missing. As the Victrola was easily recognizable it is thought some of the clues being followed may lead to its speedy return.

On Thursday, June 20th, the infant son of Mrs. Mary Richards succumbed to an attack of pneumonia at the Porcupine hospital. The little child's father predeceased him a year ago on June 23rd. There is left to mourn his loss six brothers and sisters, besides his mother, John Melville, aged one year and two months, was the youngest of eight children, six of whom are living, Lily another child having passed away also a little over a year ago. The service was taken by the Rev. E. C. Moddie, the funeral being held on Saturday, June 22nd, interment being in the South Porcupine cemetery. Among the floral offerings were wreaths from Mr. and Mrs. R. Hanson, Mr. and Mrs. Laffin and family, Mrs. D. Miller; sprays from Miss Beatrice Raynor and from Misses McNab and Donlevy, the children's teachers. Much sympathy goes out to Mrs. Richards in the trials which she has suffered.

The team had several new players, some of them starting their first year at baseball. They show much promise and will no doubt grow better as the season goes along. Dome's battery was Shumilak, catcher, and Laflamme and Parsons pitchers. Timmins batter:—Adamson, catcher; Hudson and Dainton, pitchers. Umpire W. McIntyre; bases, W. Deacon.

Mrs. Brown—"Does your husband object to cats?"

Canada also has the Glorious Fourth

Oddly enough Independence Day in the United States is also the anniversary of the introduction of ocean steamer service to the world and the re-founding of the greatest Merchant Marine in all history—the British Merchant Marine. On July 4th, 1840, Sir Samuel Cunard, then a progressive shipping merchant of Halifax, Nova Scotia (born there in 1787 of humble United Empire Loyalist parentage) astonished the world by steaming out of Liverpool, England, bound for America in his famous little old "Britannia," the first steamer to maintain a regular trans-Atlantic service. This sturdy little "side-wheeler" not only operated today by the Cunard line, and the forerunner of the world's fastest liner of today, the Cunarder "Mauretania," but also added another chapter to Canada's pioneer role in the history of transportation.
