Border Cities Star: Two Ontario schools are debating the question whether a disagreeable woman who is a good cook and housekeeper is a better wife than an agreeable woman who cannot cook or keep house. What first needs explaining is how a good cook and housewife could be a disagreeable woman.

Effort to Defeat the Purpose of Stock Taxes

In an effort to alleviate the situation induced by the heavy penalty of the stock tax which goes into effect on July 1, steps have already been taken by a number of western mining and oil companies to reduce the number of outstanding shares, according to Vancouver despatches. Shareholders will be asked to confirm proposals whereby they will receive one share in place of every four, and in some cases as high as ten, shares held at present.

The stock tax will bear heavily on low-priced stocks as it involves a charge of one-tenth of a cent. per share on sales of stocks under the market value of 50 cents. Therefore, companies especially those contemplating further financing, are considering plans for reorganization. Other companies, however, whose directors feel they have good prospects and do not for the present require additional funds for development, show a tendency to "wait and see," either hoping that fate will intervene to stop the impending tax provision, or with the idea of experiencing the actual effect of the tax before proceeding with reorganization.

FIRE RANGER KILLED BY LOG TRAIN NEAR NORTH BAY

The Halleyburian last week says:—"Amable Chevette, aged fifty-three years, a brother of Mr. J. A. Chevette, Halleybury, was instantly killed on Saturday last when he was struck by a log train on the T. & N. O. near White Rock siding at mileage 21. He was riding a velocipede going south when the train approached around a curve through a rock cut and, although he was seen by the engine driver when about 150 feet distant, it was too late to stop the train.

"Mr. Chevette was engaged as fire ranger and was covering his beat on the railway when he met his death. His skull was fractured and it was believed that he died instantly.

"The body was taken to North Bay immediately, where an inquest was held on Saturday night. Later it was brought to Halleybury and, after a service in the Roman Catholic Church, was interred in the Roman Catholic cemetery here.

"At the investigation held at North Bay the jury exonerated the train crew from blame. Evidence was given to the effect that the whistle had been blown before the train entered the rock cut and again as soon as the man was sighted on the track. There was not sufficient time to bring the train to a stop and apparently the victim did not hear its approach until too late.

The late Mr. Chevette was unmarried. He is survived by his brother here, who has the sympathy of a wide circle of friends and acquaintances."

Thinks Something Should be Done for Wild Youth

Under the heading of "This Past Age," The New Liskeard Speaker had something to say last week in regard to young men and young women and their attitude to life. While the youth of the day generally may be considered as fine specimens of manhood and womanhood there are a lot of them that assuredly need some drastic treatment to make them good social animals, so that the rest of the world can have a chance. The New Liskeard Speaker strikes a rather original note in this much-discussed problem. The Speaker says:—"If, fifty years ago, young people acted as strangely as they now act, there would have been many more people in the lunatic asylums than there were. The change in the young manhood and young womanhood must have been brought about largely through the motion picture shows, although wild and weird stories read concerning western life both in the United States and Canada has also had a deleterious effect on some of our young people.

"Perhaps Canada's young people have not been so seriously affected as those of the United States, but even in our own country many parents are at their wit's end to know what to do to keep their children from going wrong.

"Here is the story briefly told of two of Orillia's thirteen year old girls. They stole away from home to have a hike, evidently they knew not whither, and landed up in the "coop" in Sudbury. Questioned about their extraordinary conduct, and why they acted so improperly, they said they were "fed up". That was all they had to say.

"The two young men who are now serving a life sentence for murdering a school mate in Chicago, said they did it to get a "thrill". These strange young people seem to imagine that when they are "fed up" or want a "thrill" they may do anything. And surely our people of fifty years ago had a better method of dealing with such cases than people now have. A term in a lunatic asylum would bring these youngsters back to their senses quicker than letting them off on parole."

INCREASE IN NUMBER OF THE TRAVEL PERMIT AREAS

The section of the country under issue of travel permits in Northern Ontario has been increased. This year, travel permits are necessary to enter that part of the country west of the Temiskaming and Northern Ontario Railway, including the Ferguson highway; north to New Liskeard, and east to the Ontario-Quebec boundary. The southern boundary is Cook's Mills on the Ferguson highway. Travel permits are obtained free of charge, and are issued by the North Bay office of the Ontario Forestry branch; at Cook's Mills; Latchford, or by any fire ranger within the restricted area.

Campers, motorists, fishermen and hunters or any persons using the restricted areas, are advised to procure their travel permits before going into the woods.

MINISTER OF MINES WILL VISIT HERE THIS MONTH

Hon. Chas. McCrea and Other Members of Legislature to Tour the North Land.

Hon. Chas. McCrea, Minister of Mines in the Ontario Cabinet, will leave Toronto on Sunday evening, July 7th, for a three weeks' tour of inspection of the North Land. The tour will include a visit and survey of the pulp and paper industries as well as the mines. During the absence of Hon. W. Finlayson, who is on holiday in the Old Country, Hon. Mr. McCrea is in temporary charge of the departments of Lands and Forests and Northern Development, and so will look over the situation in these departments as well as in his own sphere of the Department of Mines.

Information last week from Toronto was to the effect that the tour which starts next week will include visits to Sudbury, Blind River, Sault Ste. Marie, Port Arthur, Fort William, Kenora, Fort Frances, Sioux Lookout, Hearst, Kapuskasing, Cochrane, Timmins, and various centres along the Temiskaming and Northern Ontario Railway as far south as North Bay.

Mr. McCrea will be accompanied by Hon. Finlay McDiarmid, Conservative M. P. P., for West Elgin, and W. G. Martin, Conservative M. P. P. for Brantford. It is understood that meetings at which the three members will speak are now being arranged at various points in their itinerary.

Commenting on the forthcoming trip today, Premier G. Howard Ferguson stated there was no special significance to it.

"It is just a visit of departmental inspection," he said, "and was arranged several months ago to be undertaken in June. But when Mr. Sinclair and his party went north we postponed it. We didn't want our trip to look like another excursion party."

Several other members of the Provincial House who have signified a desire to "look over" the north this summer may join Mr. McCrea on the tour.

RICH GOLD STRIKE NOW REPORTED NEAR CRANBERRY

The Northland, the newspaper of Cranberry Portage and district says:—"A rich gold strike, in a new district, is reported by J. H. Dunlop and Thos. Webb who came in today from Iskwasum Lake about 30 miles east of Cranberry Portage, where they have been doing assessment work on a group of nine claims owned by C. S. Dunlop of Saskatoon. They brought in a sack of high grade quartz ore recovered from a vein 25 feet wide extending across the property. The vein lays between walls of chloride schist with porphyry intermixed close to the walls. They report a heavy overburden, which necessitates considerable trenching.

Every panning shows rich colors. The property is located along the southwest shores of Iskwasum Lake. Float from this same district was picked up in 1914 which assayed over \$27,000 to the ton."

AUTOMOBILE STOLEN FROM GARAGE AT HAILEYBURY

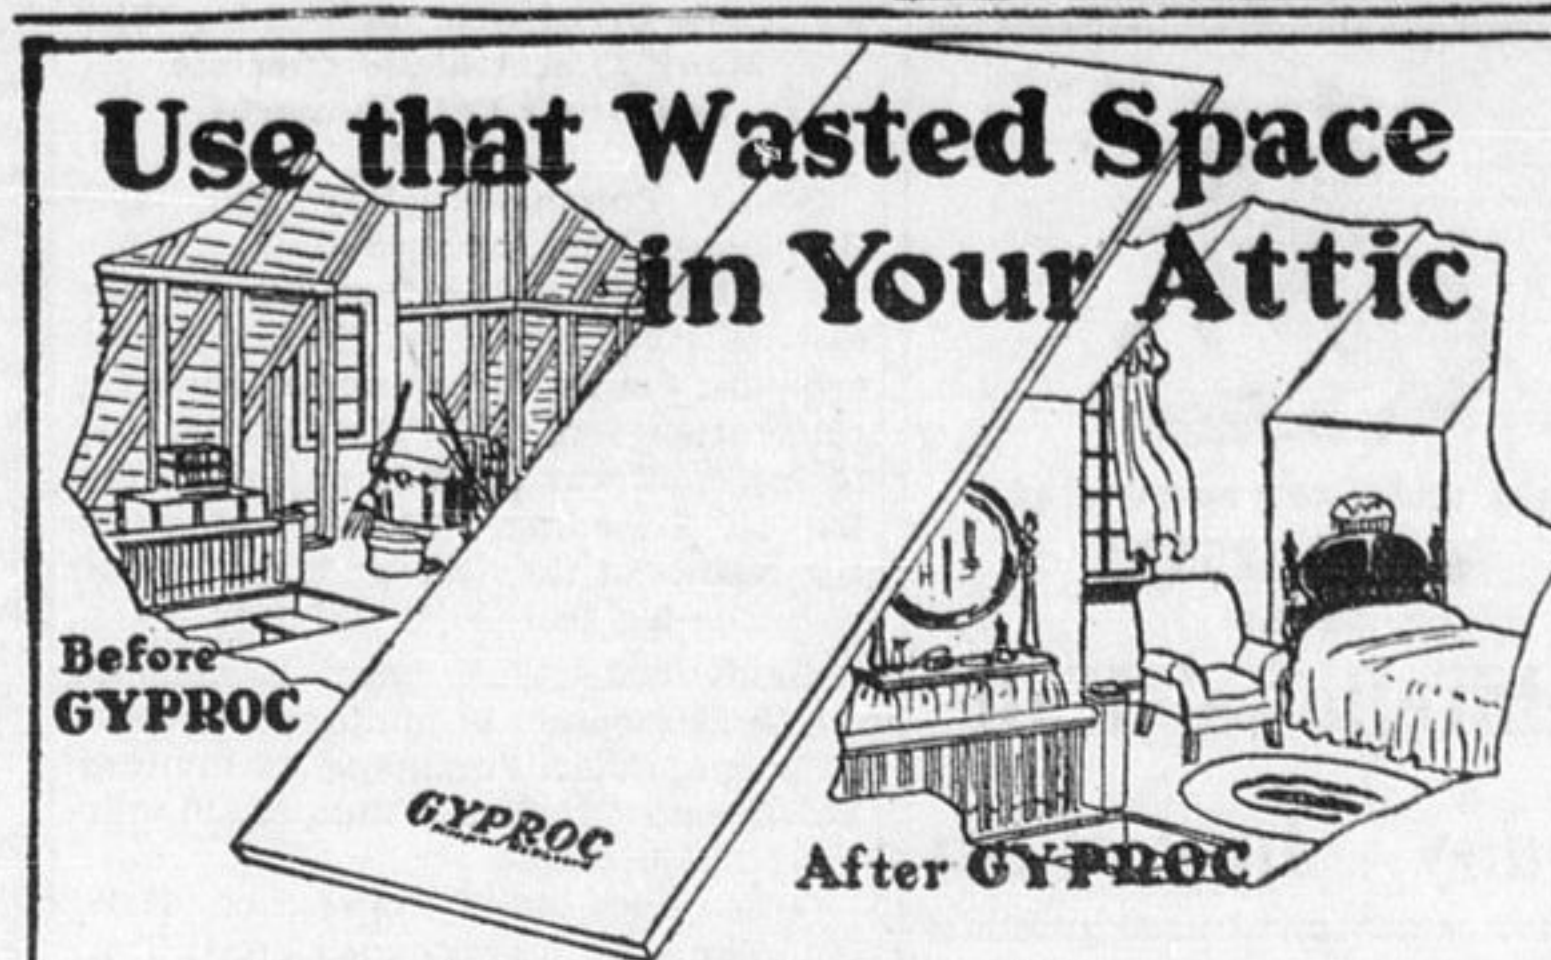

Provincial police have broadcast a description of a new Studebaker sedan, alleged to have been stolen from McArthur's garage at Halleybury in the early hours of Monday morning of last week. The car is equipped with stolen license plates, 398-738, it is alleged, and it is stated that whoever took it cut a piece of hose and used it as a siphon to fill up the gas tank with fuel from other cars.

The garage is said to have been broken into between 11:30 p.m. Sunday and six o'clock Monday morning, but the theft was not discovered until two hours later, as the mechanic first on duty thought the proprietor of the garage had the car out. Provincial police district headquarters at Cobalt, on being notified, sent out the two motorcycle men to patrol the roads north and south, and Inspector Moore also notified the posts at Kirkland Lake, Temagami and North Bay to be on the lookout for the car.

Ottawa Journal: Knowledge of Canada in the United States must be spreading. None of our friends, the United States newspaper circulation managers, meeting here this week, brought along snowshoes.

Toronto Mail and Empire: Bare legs may be all right from a health point of view, as Windsor's medical officer of health claims, but the ladies would not adopt that style if they realized how much better they look in stockings.

The Law Steps In...

THE Law steps in, if you do not make your own Will, and arranges for the complete disposal of your property.

This disposition may not be that which a wise or prudent man would consider the best; but the Law is not unfair, it is merely inflexible. For naturally it cannot provide for individual cases.

The only right course is to have your own Will. It is a duty you owe to your family and dependents. Neglect of it can hardly fail to inflict avoidable hardship.

If you have not made a Will, we suggest that you should make an appointment with your lawyer today.

In the making of this Will our practical knowledge of all Estates matters will be freely placed at your disposal.
