

NOTES AND COMMENTS ON SOFTBALL ON THE CYANIDE

Softball Fans Think All Teams Should Follow the Example of Moyses and Get Sweaters of Distinctive Sort

Writing this week for The Advance a softball fan says:— Moyses are the first half champions. They beat Monarchs and had plenty of runs to spare. If Moyses stick together and play the same brand of ball, they'll win out in the finals. Their hitting has improved 100 per cent., and they proved that against the Monarchs when they hit three home runs and a number of doubles off "Glady" Ray. Moyses trotted out on the cyanide with new sweaters and looked like a real team. It is too bad that the other three teams haven't sweaters of their own colours.

A team looks better with the same coloured sweaters and the players are easier to distinguish by the softball fans. The softball so far has been of good brand and all teams are playing good ball with the exception of the Moose. The Moose have good players, but somehow they don't pull together in the game. Most of the trouble in the team seems to be in the direction. Shifting players to every position in a softball game is of no avail when it comes to winning games.

In last Monday's game Manager Billy Alton had four different pitchers in the box in one inning. The Monarchs took advantage of this and scored 14 runs in that one inning.

It is not a good policy to shift players from one position to another and finally end them in a pitching box. The Moose outfit has as good pitchers as the other teams, and they have three players in the first ten on the batting average column, and there's no reason why they shouldn't make a better showing.

The Moose still have a chance to pull themselves together, and there is a general belief that they will do so when they play the Tuxis to-morrow (Friday) on the cyanide. A lot of the Moose followers look for them to win that game.

Luke Morin, of the Moose, leads the batters in the batting in the first half with the high average of .733, while close behind him is Jack Stevens of the Monarchs with .727, and Tom Whitney, of the Moose, is third with .688.

The following are the batting averages for the complete first half of the schedule:—

Luke Morin, Moose	.733
Jack Stevens, Monarchs	.727
Tom Whitney, Moose	.688
M. Donaldson, Moyses	.600
A. Moran, Moyses	.590
Webb, Monarchs	.579
Hudson, Tuxis	.565
R. Wallingford, Tuxis	.545
Zeg. Ostrowsky, Moose	.545
"Manny" Abrams, Moyses	.538

Sudbury Expects 15,000 Population This Year

According to preliminary estimates made by the assessment department at Sudbury, that town expects to have a population of 15,000 this year. The assessment gave the population for 1927 as 10,633. In 1928 this had increased 1,600 to 12,233. The figures for this year are not yet complete but judging from the increases shown by some of the wards that have been tallied, the population may be counted upon as to reach the 15,000 mark.

There is no doubt about there being a boom at Sudbury, yet several men who have gone from here have apparently found it difficult to get work. The boom apparently is overdue already.

An odd feature about the increase in the population of Sudbury this year is the fact that the town officials are making no effort to collect poll tax from the new citizens. It is admitted that the poll tax from this source would likely total around \$10,000.00, but the argument advanced by the civic officials is to the effect that any effort at a collection would cause considerable hard feeling, owing to the fact that almost inevitably a large number would be missed.

The many friends of Victor Banning, who has for the past six weeks been suffering from a fractured leg, will be pleased to learn that he is once more able to be around.

IRON DEPOSITS HUDSON BAY ISLANDS TO BE DEVELOPED

Montreal Company Incorporated for Purpose. New Electric Smelting Process to be Used by Company

It has been believed for years that islands in James Bay and Hudson Bay carry notable deposits of iron ore. Ten years or more ago, John Jones, well known as a prospector in this North Land made a visit to Belcher Islands and other islands in the Hudson Bay, and returned with stories of extensive iron ore deposits. Other prospectors visiting the Hudson Bay Islands held similar views to Mr. Jones, but like the weather, "nothing has been done about it." Transportation and other difficulties no doubt stood in the way.

Now, however, reports are current about deposits of iron ore that promise to put Canada as high on the map in the iron line as she is at present in the nickel and gold lines. More than reports of discoveries of iron ore deposits are made. There is also report of the formation of a company to develop the deposits. The Ngava Miners and Traders, Limited, has recently been incorporated under a Dominion charter. The company has a capital stock of \$400,000.00, of which amount there is now said to be \$200,000.00 in the treasury for the purpose of exploiting the iron ore deposits referred to. These deposits are said to be on Clark, Armstrong, Curran, Teresa and Camp Islands in the Hudson Bay. Deposits uncovered on two of these islands are estimated at 320,000,000 tons above world level, according to despatches in some of the daily newspapers. The surface samples assayed are principally of hematite ore, running 32 to 59 per cent. iron, and there is said to be possibility that the iron content may go ten points higher in the underground ore. There is little or no phosphorus present, but the silica content is fairly high.

The Ungava Miners and Traders, Ltd., has entered into an agreement with Dr. Stansfield, of McGill University, according to the reports now current, this agreement giving the company the right to the use of the new electric smelting process perfected by Dr. Stansfield. This process is said to have developed to a degree that it will practically mean the remodelling of the blast furnace industry.

Power development is also provided for in the tentative plans now outlined for the development of the iron industry. The Nastapoka power site on the Quebec mainland, about 35 miles north of some of the islands figuring in the discoveries is capable of developing about 328,000 horse power; it is said.

Man Drowned as Treaty Plane Sinks Into Lake

The treaty flight aeroplane of the Dominion Government, flown by Flying Officer R. Kingsley Rose, R.C.A.F., crashed at Osnaburgh, Lake St. Joseph, in the far north, at about 7.30 Friday night, according to word received at Ottawa. A man named Morrison, who was a passenger in the plane, drowned when the machine went into the lake. It was understood that Flying Officer Rose, of Ottawa, was slightly injured, but his mechanic, John Shaw, escaped any injury. The machine was sunk in 40 feet of water in Lake St. Joseph. Flight Lieutenant Higgins was sent from Ottawa in another machine to pick up the occupants of the wrecked machine and take them to their destination. As noted in The Advance some weeks ago, the treaty flight is being taken by representatives of both the Dominion and Provincial Governments. The Provincial airmen have so far maintained their record for successful flights, with all serious accidents strictly barred. The flight over the barren lands commenced from Remi Lake the last week in June and the expedition included two Dominion Government planes and one from the Ontario Air Service, piloted by Capt. W. Roy Maxwell, who journeyed to the Rapids on Albany River and thence to Osnaburgh House near where the fatal crash occurred. There are six or seven remaining points of call before the tour which will loop the North is completed, Moose Factory being the last place to be visited. The purpose of the flight is to acquire from the Indians the remaining land in the province to be ceded to the Crown.

Born—In Timmins, Ont., on Saturday, July 6th, 1929, to Mr. and Mrs. Thos. Langman, 48 Vimy Road,—a daughter (Berneice Elva).

JAIL TERM FOR MEN DRUNK IN CHARGE OF MOTOR CARS

Two-Month Sentence on Charge of Selling Liquor. Other Cases at Police Court This Week

At police court this week Omer Goulet and Lawrence Costanguy were each sentenced to ten days in jail for driving a car when intoxicated.

On a charge of selling liquor, Steve Berlika, Cedar street, was sentenced to two months in jail. He has appealed the conviction and is at present out on bail. His defence was to the effect that two witnesses who swore to his selling liquor were really wrong in their evidence.

Four charged with drinking in a public place were each fined \$25.00 and costs, the total being \$42.50. The four were caught at the Queen's hotel when the police raided the place. Tong Long, the manager of the Queen's hotel, was fined \$200.00 and costs, a total of \$216.50, on a charge of illegally having liquor in a public place.

A charge of the theft of \$8.50, as laid against Steve Berlika, was dismissed by Magistrate Atkinson.

An assault charge against a local Chinese cook was dismissed.

A charge of vagrancy against a man who was before the court last week and who was remanded for a week to give him a chance to secure work, was again remanded. The accused did not appear being too busy at the job recently secured.

A charge of keeping liquor for sale was dismissed.

For drinking in a public place one man was assessed \$25.00 and costs, or a total of \$43.50. Two men who were charged with failure to support their families were given a week's remand.

The case against a young boy charged with stealing a bicycle was remanded for a week.

SCORES IN THIRD ROUND FOR THE GEO. LAKE SHIELD

Sunday, July 20th, There will be a Mixed Two-Ball Foursome Commencing at 2 p.m.

The following are the scores for the third round of the Geo. Lake Shield contest, the final figures showing the total for the three rounds:—

Adams, G. H. F.	99	292
Brady, J. D.	100	305
Dougherty, J. W.	98	303
Fogg, J. W.	85	270
Fuke, H. J.	94	294
Garner, H. C.	89	278
Grassett, J. E.	100	284
Hill, E. H.	90	278
Hudson, Dr. L.	92	271
Jamieson, W. R.	103	314
Knox, J.	96	297
Lake, Geo.	81	253
Langdon, W. O.	103	313
Lowe, G. S.	90	277
Moore, Dr. H. H.	107	323
McCoy, S. R.	90	281
Pritchard, W. H.	115	313
Ross, G. N.	93	280
Sandwith, J. H.	105	316
Shantz, H. P.	102	328
Stokes, J.	81	243
Todd, J. R.	99	307
Walter, J. R.	104	315
Wookey, E. A.	88	264

The fourth and final round for the Geo. Lake Shield will be played July 10th, 13th and 14th.

Saturday, July 20th, there will be a mixed two-ball foursome commencing at 2 p.m. sharp. All members wishing to participate must register before 8 p.m. on Friday, July 19th.

Bands in North Approve Idea of Band Contest

Following the suggestion of some of the members of the Timmins Citizens' Band that it would be a good idea to hold a band contest for North Land bands at Timmins or some other North Land centre, the secretary of the band here wrote to all the bands in the North. Several of the bands have suggested that while they strongly favour the idea, they would not be able to compete this year on account of circumstances. The reply from the Kirkland Lake band was to this effect, and unofficial advice from some others is along the same line. It is very difficult to keep a band in good shape in this country on account of the constant changes in population. Players and leaders move away in the regular course of affairs and several bands admit that as a consequence they would not be able to go in a band contest this year, though they do believe the idea a good one that would increase public interest in good band music and spur bandsmen to renewed effort. From the T. & N. O. band at North Bay comes quite enthusiastic approval of the idea, together with the suggestion that both the T. & N. O. band and the North Bay Premier band would likely enter any contest staged. The two North Bay bands are the only two in the North signifying their readiness so far to join with Timmins band in a contest such as suggested, and unless word is received from other North Land bands as to their willingness to take up the idea this year, it is likely the plans will be deferred until next summer.

Kitchener Record.—There is no denying the fact that the average female dancer has visible means of support.

TIMELY ADVICE GIVEN TO ANGLERS AND HUNTERS

Pamphlet Issued by Hon. Chas. McCrea Gives Synopsis of Game Laws of the Province

"Don't's" which are compiled annually by the Department of Game and Fisheries for the benefit of anglers and hunters who want to know just what they can and cannot do to the finny and furry fellows, have just been released in pamphlet form by Hon. Charles McCrea.

In reality they are a synopsis form of the Provincial Game Laws with a bit of timely departmental advice thrown in for good measure. This year they read as follows:

Don't shoot between sunset and sunrise (standard time) or between sunset on Saturday and sunrise on the following Monday (standard time); permit hounds or dogs to run deer during close season; permit the flesh of any animal or bird taken, suitable for food, to be destroyed, or spelt, or the pelts of fur-bearing animals, to be destroyed or spelt; buy or sell deer, moose, caribou, wild goose, wild ducks, or other water fowl, snipe, quail, woodcock, pheasants, ruffed grouse (partridge), large or small-mouthed bass, maskinonge, speckled trout, rainbow trout or other Pacific trout; buy or sell pelts of fur-bearing animals, either commercially or for personal use, before securing a license; have poison in your possession for taking fur-bearing animals.

Don't keep fur-bearing animals or game birds in captivity without first securing a license; trap fur-bearing animals without first securing a license, unless you are a farmer trapping other than beaver and otter on your own premises. Fox by gun or dog, and bear may be taken without a license; molest or destroy a den or usual place of habitation of any fur-bearing animal, other than wolf; carry a loaded gun in motor car or other vehicle; ship out of Province, or send to a tanner, any pelts without a permit; shoot or spear muskrat, or set a trap closer than five feet to muskrat house, burrow, feed-house or push-up, or within twenty feet of a beaver house.

Don't angle or hunt without a license. If you are a non-resident; take any small or large-mouthed black bass, maskinonge, speckled trout, brown trout, rainbow trout or other Pacific trout except by angling; have any fish in possession, nor take away at any one time, more than two days' legal catch; fish from a boat or other floating device or through the ice in the counties of Victoria, Peterboro', Durham and Northumberland and the waters of the River Trent in any county during the close season for the taking of bass and maskinonge; employ a guide unless he is licensed; take more than one deer or moose per license, nor a cow moose or moose calf; carry a fire-arm in Essex, Kent, Lambton, Elgin, Middlesex, Oxford, Norfolk, Brant, Haldimand, Welland, Lincoln, Wentworth, York, Peel, Halton, Waterloo, Perth, South Wellington and South Huron, for the purpose of hunting without a license.

We are sorry to hear that Victor Phillips, the popular McIntyre half-back, has fractured a small bone in his wrist, whilst playing against the Dome on Saturday last. All will wish him a speedy recovery.

Sixth Straight Game to Be Won by Moyses's Team

When Moyses beat Tuxis 21 to 5 in last night's softball tilt, they made it the sixth straight win for the broker boys this season. Tuxis ran into a couple of tough luck innings when no one on the team seemed to be of ability to hold a ball, while Moyses kept slugging the offerings that W. Grant was dishing out for Tuxis.

Sanders pitched a nice game for Moyses, taking things easy and never being in doubt as his teammates were always ahead in the run column. The batteries:—Tuxis: W. Grant and Webb; Moyses: Sanders and Scully. Umpires, Fraser and Horne.

TEMISKAMING AND NORTHERN ONTARIO RAILWAY TRAIN SERVICE

The Continental Limited, Trains Nos. 1 and 2, between Montreal and Vancouver daily, operating through sleeper between Cochrane and Toronto. These Trains use Canadian National Railways Station at North Bay.

Trains Nos. 46 and 47—Through service daily, between Toronto and Timmins, also to Rouyn and Noranda, Que. Operating Parlour Cafe Car Service between North Bay and Timmins. Through sleepers operated between Toronto and Timmins, also between Toronto, Rouyn and Noranda, Que. These Trains use Canadian National Railways Station at North Bay.

Trains Nos. 17 and 18—Daily except Sunday service between North Bay and Cochrane, operating through sleeper between Timmins and Montreal. These Trains use Canadian Pacific Railway Station at North Bay.

Local service between Cobalt, Fountain Falls and Silver Centre—Monday, Wednesday and Saturday. Connections at Earlton Jct. for Elk Lake, daily except Sunday.

Connections at Englehart for Charlton, daily except Sunday. Connections at Swastika, daily, with The Nipissing Central Railway for Kirkland Lake, Larder Lake, Cheminis, Rouyn and Noranda, Que. and intermediate points.

Connections at Porquies Jct. daily for Iroquois Falls. Tri-weekly service between Cochrane and Island Falls Jct., leaving Cochrane 8.30 a.m., arriving Island Falls Jct. 11.20 a.m. Tuesday, Thursday and Saturday—leaving Island Falls Jct. 12.20 p.m., arriving Cochrane 3.10 p.m. Tuesday, Thursday and Saturday. See current timetable or apply to any T. & N. O. Railway Agent for full particulars.

A. J. PARR, General Freight and Passenger Agent North Bay, Ont.

M'INTYRE BALL TEAM TO PLAY S. P. AT SCHUMACHER

Visitors to and From Schumacher. Other Personal and Local News from The Advance Correspondent

Schumacher, July 10th. Special to The Advance.

Schumacher Excelsior softball club opened their softball programme last week when the Hollinger club were the visitors and proved much too strong for the homesters and easily won by 22 runs to 5.

The C.G.L.T. softball club paid a visit to Timmins where they met the Ramblers in their first encounter, and are to be congratulated upon their good display.

Alteration of services at the United church during the month of July have been announced; the usual morning service will be discontinued. Services will be held as usual in the evening. Commencing the first Sunday in August, the morning service will be reopened and the evening service will be held. These alterations have been made in order to co-operate with the church at South Porcupine.

Mr. and Mrs. Small and son, Elmer, of Third avenue, left for Hastings on a two months' vacation. The journey will be made by motor.

Miss Violet Kennedy left last week to take up residence with her parents at Belleville.

Mr. and Mrs. Jerry Prentice of Third avenue left for Hastings on a vacation. The journey will be made by motor.

Mrs. Percy Dumble and son has arrived in camp from Cornwall, England, to take up residence with her husband at Third avenue.

Mr. and Mrs. S. O'Hara have returned to town after spending a few weeks down east.

The Misses Grear, of Sudbury, are renewing acquaintances with their friends in town.

Mr. and Mrs. Jerry Harris have been spending a few days' holiday at Barber's Bay.

Mr. Harry Armstrong is renewing acquaintances in town.

Mr. Joe Amm has left on a vacation trip to Ottawa.

Mr. Joe McLatchie has left for Oshawa where he will join his brother, Dick, who is now a playing member of the Oshawa National Football team.

Mr. H. W. Clark, manager of A. E. Moyses's office at Schumacher, has been on a holiday trip to Renfrew and Ottawa, accompanied by his children.

McIntyre baseball team will be at home to South Porcupine over the week-end; game called for 3 p.m. This will be the first ball game at Schumacher this season, and it is hoped that the baseball fans will come and support their team.

We are sorry to hear that Victor Phillips, the popular McIntyre half-back, has fractured a small bone in his wrist, whilst playing against the Dome on Saturday last. All will wish him a speedy recovery.

Draw for First Round for Golf Club Trophy

The following is the draw for the Timmins Golf Club Trophy, first round, match play, handicap:— D. Sutherland vs. J. R. Todd H. C. Garner vs. J. Stokes S. R. McCoy vs. W. O. Langdon Rev. Fr. O'Gorman vs. Dr. L. Hudson H. Shantz vs. J. Knox J. W. Dougherty vs. G. H. F. Adams J. H. Sandwith vs. J. W. Fogg D. Leggett vs. J. R. Walker G. N. Ross vs. J. E. Grassett J. D. Brady vs. H. J. Fuke J. S. Lowe vs. Dr. H. H. Moore S. A. Wookey vs. W. H. Pritchard Dr. C. E. Taylor vs. E. H. Hill. W. Jamieson, Geo. Lake and H. O. Seamon drew byes.

Matches for this round to be decided on or before July 21st.

TIMMINS CANADIAN LEGION REPRESENTED AT CONVENTION

President Austin Neame left this week for the Ontario Command Convention of the Canadian Legion, B.E. S.L. now in conference at St. Thomas, Ont. Mr. Neame will submit two resolutions to the delegates present and it is expected that these will receive the approval of those present. Several cities of Ontario are bidding strong for the 1930 convention, among them being Niagara Falls, Oshawa, and North Bay. The Timmins Post are falling for the Gateway City, and this would make it a convention long to be remembered. A report of the Provincial Convention will be published in The Advance next week.

Scientific palmit, Empire Hotel, Room 10, till Tuesday night only. Have your hands read.

ELECTRICAL DEVELOPMENT IN THE PATRICIA DISTRICT

Transmission Line Forty-five Miles in Extent Will Supply Power to the Howey Mine

The Lac Seul electrical development was officially opened last week. Mr. L. V. Rork, of Toronto, provincial surveyor-general, on his return to the city after the event gave the newspapers many facts and figures that will be of general interest.

Six thousand tons of building material, ranging from the steel and cement to picks and shovels, had to be transported from the C.N.R. line at Hudson, on boats and taken across rivers and lakes to Lac Seul in the wilderness.

Another 6,000 tons of material is needed for the power plant which is being installed by the hydro at Ear Falls on the Chukuni river.

The freighting is done by three firms. The Great West Transport company of Winnipeg; the Red Lake Transport company of Hudson, and the Northern Transport company of Hudson. Hauling costs have been cut in half, Mr. Rork said, since the construction of a marine railway which was built last spring on a 60-50 basis by this department and the transportation companies.

The hydro development now taking place at Ear Falls was made possible by the construction of the Lac Seul dam which was built jointly by the Dominion government and the Ontario and Manitoba governments. This dam was declared officially open by the inspection tour in which Mr. Rork participated as deputy for Hon. William Finlayson, minister of lands and forests.

The dam is built on the Winnipeg river at lower Ear Falls, the waterfall which forms the outlet for Lac Seul. It is of concrete, 600 feet in length and 48 feet in height. It consists of 20 sluices and is 14 feet wide with an earth bankment its full length.

Through raising the level of Lac Seul and Lost lake by 12 feet, this dam removes Upper Ear Falls at the head of Lac Seul and the Manitou rapids.

The hydro commission's power development is located immediately below the dam and when completed, will be equipped with one 5,000 h.p. turbine and two 10,000 h.p. turbines. The initial 5,000 h.p. will be supplied to the Howey mines under a contract announced some time ago. A 44,000-volt transmission line, 45 miles in length, will carry this power to the Howey.

Others who figured with Mr. Rork in the official opening were Dr. T. H. Hogg, consulting engineer with the hydro commission; C. H. Attwood and F. Y. Harcourt, Dominion government engineers, and J. W. Sanger, chief engineer of the Winnipeg Hydro-Electric system.

In noting the absence on holiday of Mr. Dean Kester, The Advance last week said that Mr. Kester's practice was being looked after by Mr. W. Cook. This was what Hon. Mr. Veniot would call a "slip." It is Mr. Frank Cook who is in charge of Mr. Kester's practice. Mr. Cook was formerly with Mr. Kester here.

Mr. J. B. Pare returned on Friday after a three weeks' holiday in the south. On his return here he was accompanied by Mrs. Pare, the couple being married in Toronto recently and returning here to take up residence on Hemlock street. Hosts of friends here will extend sincerest good wishes to Mr. and Mrs. J. B. Pare.

ANNUAL MEETING OF POULTRY AND PET STOCK ASSOCIATION

The annual meeting of the Porcupine Poultry and Pet Stock Association will be held in the town hall on Friday evening of next week, July 19th, at 3 p.m. Notices to this effect have been sent out to members, but all interested in poultry and pet stock should make a special effort to be present for this meeting. The Poultry and Pet Stock Association has done much good work since its organization and should receive the heartiest support from all interested in poultry. Last year's officers carried affairs through in effective way and there should be a big attendance of those interested in poultry and pet stock so that the ensuing year may be even more successful.
