Miss Germaine Pauquette left this week for a holiday at Ottawa.

Mr. T. McCann left this week to return to Miami, Florida, after several weeks at his home here.

Mr. and Mrs. G. L. Johnston, of Hamilton, were Timmins visitors last week.

Mr. and Mrs. G. Mercier, of Glen Almond, Que., are visiting Mr. and Mrs. J. Rochon, Birch street.

The Harry Lottridge Shows, which played at Timmins last week, are at North Bay this week.

Mr. J. D. Tolman, manager of the Porcupine United, is on a business trip to Buffalo.

The next regular meeting of the town council is scheduled to be held on Monday afternoon, Aug. 26th, commencing at 4 p.m.

Mr. A. G. Brough and daughters, Margaret and Floria, of Shawville, Que., are visiting Mr. Brough's mother and brother here.

W. Bonnell, of North Bay, was painfully injured when the rim of an automobile wheel flew off when a tire exploded, knocking him unconscious and bruising his head.

The Cobalt correspondent of The Northern News last week says:—"Miss Isabelle Munroe, of Timmins, is visiting her uncle and aunt, Mr. and Mrs. James Munroe."

The Northern News of Kirkland Lake last week says—"Miss Clarence Scanlon, of Timmins, is the guest of her brother, E. Scanlon, of Goodfish road."

Mr. H. V. McCurdy, some years ago manager of the Woolworth Store here, but now at Sydney, N.S., was a visitor to the camp last week and was warmly welcomed here by many old friends and acquaintances.

Owing to the unfavourable weather on Sunday last the Moose Picnic was again postponed. It is likely that the event will be held at Golden City on Sunday next, Aug. 18th, if the weather is fine.

Those who have been enquiring so anxiously and so frequently as to the date of civic holiday in Timmins, should note that Monday next, Aug. 19th, has been duly proclaimed as civic holiday for Timmins.

Mr. J. W. Richards, of Montreal, is visiting Mr. H. R. Channen, 51 Tuke street. Mr. Richards is well known in this part of the North Land, having been formerly connected with the Hotel Iroquois, Iroquois Falls.

The death of Albert J. Jeffries, aged 43 years, occurred at North Bay on Thursday last. He was a travelling representative for the Telford Biscuit Company and was well and favourably known throughout Northern Ontario. He is survived by a widow and two daughters who returned from a visit to Buffalo on hearing of his illness.

The C.N.P.C. Review in an editorial note in the August issue says:—"No complaints about the weather this time. If there is a better, healthier climate anywhere in Canada than ours in the North on its best behaviour, then we'd like to meet it. We have hot days, but, almost invariably, cool nights. We can grow anything from cauliflowers and sweet corn to strawberries, and crab apples. We can fish, hunt, hike, motor or swim, and the radio brings us music or jazz, according to the individual taste. What more would you?"

The C.N.P.C. Review this month says:—"The Renfrew Electric Company of Renfrew, Ontario, recently conducted a contest in which prizes were offered for the best window display featuring Canadian Beauty products. This was open to all electrical dealers handling their lines, and we are pleased to record that our Timmins Branch (Canada Northern Power Corporation) won fourth prize in Ontario."

Normal human blood is too thick to be drawn through the mosquito's small piercing tube. They must first inject a thinning fluid. In that way disease germs are set afloat in the blood stream—bacteria of burning fever and crippling disease. There is also the danger of streptococcal infection (blood poisoning) from scratching the bite. Mosquitoes must be killed. Health authorities advocate FLY-TOX. Simple instructions on each bottle (blue label) for killing ALL household insects. INSIST on FLY-TOX. FLY-TOX has a perfume-like fragrance. It was developed at Mellon Institute of Industrial Research Fellowship. Safe, stainless, fragrant, sure.

Mr. J. W. Reed, now of Los Angeles, California, but formerly one of the pioneers of Timmins, is in town on business in connection with his properties here.

A card from the "Dalton family" was received this week in town being sent while Mr. and Mrs. J. Dalton and Jack were in Rome. They were about to leave for Switzerland, after which they plan to go to Germany, Belgium and France. In visiting the battlefields Mr. Dalton hopes to locate the grave of Cecil Lloyd, one of the old-timers of the Porcupine, who lost his life on service overseas.

In the column of items reproduced last week from The Nugget files of August 10th, 1914, The North Bay Nugget had the following:—"That practically the whole country along the T. & N. O. tracks is ablaze was the report of a Cobalt lady who returned on Saturday following a visit to Timmins. Except for brief intervals, the flames have complete possession of the land and dense clouds of smoke are hovering over the entire section. A telephone message to a Cobalt merchant this morning stated that a heavy thunderstorm this morning put out the fires in the Porcupine region."

### Prospecting Nineteen Years Ago in Porcupine

There will be very general interest here in the prospecting work carried on in this district as long ago as nineteen years. The Sudbury Star runs a column of paragraphs from its files of 1910, and last week it had an item from the issue of The Star of August 10th, 1910. This paragraph dealt with prospecting work in this area, and said: "About 45 new claims have been staked in Cripple Creek, the latest mecca for Porcupine prospectors. The location is the territory around Great Pike Lake, in the townships of Denton and Reynolds, about forty miles south and west of Tisdale. Besides Cripple Creek, there is a great deal of staking being done in Mountjoy, the township just west of Tisdale. The stakings in general seem to follow the sweep of the Mattagami River, which takes a wide turn through the thirty-six square miles."

### MR. GEO. T. SMITH EXPLAINS REMARKS ABOUT TOURISTS

Last week in giving the report of the meeting of the Associated Boards of Trade, The Advance quoted at length from the despatch covering the event sent by The North Bay Nugget's regular correspondent, Mr. Frank Lendrum. Accordingly, it is only right that The Advance should also publish the following letter sent to The Nugget correcting a statement with reference to the views expressed by Mr. Geo. T. Smith of Halleybury, in reference to the causes for the small amount of motor traffic coming this year from the South to the North Land. The letter as printed in The Nugget is as follows:—"To the Editor: In your report of the meeting of the Associated Boards of Trade held at Englehart on Wednesday last, it is stated that "George T. Smith said that there appears to be an organized attempt at North Bay to keep people from coming North."

What I said was "There appears to be an organized effort on the part of "some one" to prevent tourists from coming over the Ferguson highway, which has been reported as being in very poor condition."

### MURDERERS MAY LIVE BUT THEIR VICTIMS ARE DEAD

The following editorial paragraph is from the last issue of The Renfrew Mercury. The last sentence is particularly worthy of special thought:—"Meanwhile there is no escape from the grave of the woman done to death." In all the cases where sympathy is sought for murderers and other evildoers, The Advance always thinks of the need for sympathy of the victims and their innocent friends and relatives. The Mercury article says:—"A young man who had murdered a woman was the other day taken from gaol in Toronto to penitentiary in Kingston to begin a life term. He had been sentenced to death, and a few hours before the time set for execution a reprieve came, much to his relief. The woman whom he murdered had left her husband, on the suggestion of the man who was afterward to murder her, and he took her life only because she wanted to get away from him, due to drunkenness on his part. With capital punishment in force in Canada this seemed to be a case where hanging was the proper thing, but authorities at Ottawa decided upon a reprieve. "While there's life there's hope," and now this man can look forward to escape or pardon. Escape is a very difficult matter at Kingston, but if there be influential friends pardon can come after a term of years. Meanwhile there is no escape from the grave of the woman done to death."

### MURDERERS MAY LIVE BUT THEIR VICTIMS ARE DEAD

Blairmore (Alberta) Enterprise—A young lady of Bellevue had her arm pulled out of place the other night by a sheik, who mistook her arm for the wheel when he was about to pull off to the side to let a speed artist by.

THE LARGEST GOLD CAMP IN CANADA

## PROCLAMATION

Geo. S. Drew, Mayor of the Town of Timmins, hereby proclaim Monday August 19th, 1929 a Civic Holiday.

GEO. S. DREW  
MAYOR

### Gananoque Town Band Fooled the Townsfolk

(Gananoque Reporter) During the band concert at the town park last night the bandsmen pulled off a good joke on the audience. One of the selections put on was "The Musicians' Strike." Suddenly one of the bandsmen threw down his instrument and walked out of the stand. Soon one or two others followed him, protesting loudly that they were not going to play until money that was owing them had been paid. Down on the lawn several members were soon engaged in an angry discussion. Another musician grabbed the leader by the collar and shook him, threatening all sorts of dire things. The leader was about to strike the player when the latter left the stand. A few men continued to play. The drummer got a newspaper, and with his feet on the railing, started to read. Serious trouble seemed to be brewing, and the audience was dumfounded. Mayor Wilson, who was listening to the concert, scratched his head in amazement and wondered what was coming next. The bandmaster was subjected to all sorts of threats by the players who had left the stand and it was some time before the spectators realized that it was all a "frame-up." The boys had carefully rehearsed their parts, and the stunt was most successful. It afforded a lot of amusement to the audience, as soon as they "tumbled" to the fact that it was all a pre-arranged part of a pleasant programme.

the injuries which are specified include, "a broken nose, three fractured ribs and beatings on the head, chest and arms." Sutherland at one time was a pitcher on the Detroit team."

Harry Shepherd, aged 48 years, proprietor of the Queen's hotel at North Bay for the past twenty years, died suddenly last Thursday afternoon at his summer residence about two and a half miles south of North Bay on the shores of Lake Temiskaming. The late Mr. Shepherd was born in Toronto but came to North Bay when a young man, his father purchasing the Queen's hotel. The late Harry Shepherd was widely known and highly esteemed at North Bay.

### PRETTY WEDDING AT SOUTH PORCUPINE CHURCH

(Cont. from Page One this Section) seemed fair to make the civic holiday on a day that was already a half-holiday. Monday was judged a better day so as to give any wanting to leave on a Saturday night the extra day away. The 19th was thought the most suitable as the 28th would be too close to Labour Day. However it was decided to call up Mayor Drew, of Timmins and find out when they were having their civic holiday. It was found that Timmins had decided on August 19th for practically the same reasons as were influencing Tisdale so the vote was unanimous for that date. Mr. H. G. Laidlaw was present to disclose the merits of a new coal stoker as a saver of fuel and incidentally of expense. This is to be considered later. There was considerable time taken in the adjusting of taxes on buildings that had been burned. There was also a case where the tenant of a house had been paying back taxes, then the owner took it over and was paying each month's rent in as taxes. There still being considerable arrears and the real ownership of the property being in some doubt a lien was placed on the property for the amount due. This was left over for a technical point to be looked up. The printing of the financial statement for the year was again considered. It was now decided to have a certain amount of copies in such form that they would be available to the public. A special water connection for a man in Schumacher through solid rock was considered. Mr. Charles Jucksh, of Schumacher, was appointed as resident ratepayers' representative on the Board of Health. The engineer questioned the council re a further inspection of the township weigh scales. To have the inspector come especially it was noted would be expensive work so though the scales may now be used, the township takes no responsibility re the correctness of weights until such time as the inspector comes back and pronounces his approval. The engineer also reported that the grader had been doing good work in keeping the roads in shape and had been a real money-saver in this way. He was asked when he would like his holidays but replied that he could not take them now owing to the work being done on some of the streets in Schumacher, excavating rock, etc. This work was turned down at a former meeting but is now being progressed with. The official tender for same came in for Monday's meeting. It was decided to call an extra meeting to discuss the proposals made in the recent audit of the Edwards, Morgan Co. chartered accountants. Their request for a raise would also be considered. The routine bills and accounts were passed for payment.

### SOUTH PORCUPINE MAN HAS SPECTACULAR FIND

(Continued from Front Page This Section) and a half feet farther down, for fear the first had been just a "pocket." However the sample from farther down proved richer still, the assay giving a \$40.72 result. These samples are taken from a mineralized zone that runs across three claims in a width varying from sixty to one hundred and fifty feet. This promises to be a real bonanza. Mrs. W. W. Wilson gave a luncheon bridge to day (Tuesday) in honour of Mrs. A. McKelvie, of New Liskeard, who is a visitor in town. Mrs. Alexander carried off first prize while Mrs. G. T. S. Train won the second honours. The Dome dance given in the Recreation hall at the Dome on Friday evening last was well-attended and everyone reports a jolly time with the hope that there may be more like it.

### OFFICIALS DID NOT SPEAK AGAINST COCHRANE AIR ROUTE

Cochrane town council has received a reply from Hon. Wm. Finlayson in reference to the resolution from the council protesting against the idea of any Government officials working to have Cochrane sidetracked as an air base. As noted in The Advance a couple of weeks ago, Cochrane town council had the opinion that some Government officials were responsible for Remi Lake being substituted for Cochrane as a landing place for the flight sponsored by The Chicago Tribune. Hon. Mr. Finlayson in his reply assured the Cochrane council that he has made careful investigation and finds that no Ontario Government official had anything whatever to do with the change of route from Cochrane to Remi Lake. The officials so far as could be learned did not even know there was to be any change of route. Hon. Mr. Finlayson points out also that his department has always been glad to assist Cochrane in developing an air route and did all possible to help in providing a runway. The department further will be pleased to help in any way in the future. The resolution accordingly may be set down as having done some good. It has cleared the air and attracted public and Government attention alike to Cochrane's place in the air.

Announcement was made last week of the appointment of the members of the Old Age Pensions Commission for South Cochrane. The members named are:—R. J. Carter, former reeve of Teck township, Kirkland Lake; F. K. Ebbitt, mayor of Iroquois Falls; and G. A. Macdonald, editor of The Advance, Timmins. The members of the commission receive no remuneration for their services.

### Kirkland Lake's Plans for Hockey Next Winter

"Observer," who writes the "Sportology" column for The North Bay Nugget is now commenting on what Kirkland Lake is planning to do in regard to hockey during the coming winter. It is not so long ago that "Observer" was outlining the plans of Timmins for senior hockey next season. Now "Sportology" admits that "it is reported that the move to re-establish a senior team in Timmins has been abandoned." The Advance would admit more than that. As a matter of fact there has been no move made here, so far as anyone knows, to re-establish senior hockey in this town for the coming season. If there was any such move it was so quiet and unobtrusive that it defeated its own purpose, because none of those interested knew anything about it. However, "Sportology" may have better dope on Kirkland Lake. In any case here is what "Observer" has to say about the Kirkland Lake situation:—"A rumour wafted from Kirkland Lake this week sounds a warning to the effect that the mining centre will be a serious contender for N.O.H.A. senior honours next season, with an entry that will cause a stir when everything is revealed. From a source that is known to be authentic, it has been learned that a dozen or more capable senior players are now residing in Kirkland Lake. These were drawn from widely separated areas and particular attention was given to balancing the squad so as to form a team that will be strong at every position. It is said that Jamieson now commands a group of hockeyists as strong as any ever assembled in the North and that everything will be placed at his disposal to help him achieve his ambition of bringing a championship to the town. While particular attention is being paid to the senior circle, the junior element will not be neglected although the activity in this group will be altogether among local talent. Jamieson will handle a junior entry composed entirely of local boys, mainly for the purpose of providing a feeder for senior teams of future years. It is reported that the move to re-establish a senior team in Timmins has been abandoned. If this is the case, the fight will be between South Porcupine, Iroquois Falls and Kirkland Lake. Halleybury swallowed a bitter pill last year and has decided to withdraw from fast company for the time being at least."

Rev. Monsignor Dupuis, who for the last four years has been parish priest of Holy Cross church, Halleybury, and for twelve years before that was secretary to the late Bishop Latulippe, has been transferred to Notre Dame de Nord as parish priest. He will be much missed in Halleybury where he was highly regarded by all.

## The Latest Edition

Of the "Mining Handbook" is Now Ready

and we will be glad to forward you a copy promptly if you will use the coupon below.

This new Edition just off the press contains, in addition to a complete revision of the mining data on several hundred Canadian mining companies, the general statistics of the Western Canadian oil companies whose shares are traded in on the Standard Stock and Mining Exchange.

Pocket size and containing over 200 pages, this Blue Book of the Canadian mines and oil companies is a handy reference for the investor. A copy will be gladly mailed without obligation.
