PLANNING ROAD SYSTEM FOR NORTHERN ONTARIO

Hon. Chas. McCrea Refers in Address to What the Government Purposes to Do for the North Land.

In an address last week at Sturgeon Falls, Hon. Chas. McCrea, Minister of Mines for Ontario, said so much of interest to the North Land that some extended reference will be of general interest to readers of The Advance. The Government, he explained, was prepared to launch an extended programme for the development of the North Land, and measures would be taken at the next session of the legislature to implement the platform outlined. There would be special expenditure, he explained, for the benefit of the settlers in the North. The immediate development of Northern Ontario by a progressive road-building programme in the rural districts, and the opening up of the immense fields of iron and coal deposits were points specially emphasized by Hon. Mr. McCrea. It was at the Conservative nomination convention at Sturgeon Falls that Hon. Mr. McCrea was speaking on Thursday afternoon last, and his address was interrupted time and again by enthusiastic applause.

Hon. Mr. McCrea will likely speak at Timmings before the end of the present campaign, and while not desiring to anticipate any of the points he may make here, it is not out of place to give a summary of his Sturgeon Falls address.

Mr. McCrea touched on many matters of interest to the residents of Northern Ontario, and he assured the gathering that the Ferguson government had in view developments of great importance to the future prosperity of the North.

"I want to tell the people of Sturgeon Falls and other districts in this great north country that the Ferguson government understands the problems confronting you and has mapped out plans whereby the prosperity of this part of the province of Ontario will be assured," stated Mr. McCrea.

"The Ferguson government has been in power since 1923. When Mr. Ferguson took hold, everybody felt that he had a big job ahead of him. There was a feeling that the previous government had not been competent or capable to handle the affairs of the country, so by an overwhelming majority the people of the province asked Mr. Ferguson to take charge.

"I leave it to you, hasn't the Ferguson government given the problems confronting it the attention and care that has made the province what it is today?"

"We had the liquor problem to face," continued Mr. McCrea. "We were told that prohibition was good but the people demanded liberty and freedom and it was realized that temperance comes from within. Now we have the Liquor Control Act. Different views are held in many parts of the province as to this act but all are agreed that it is a party have made pronouncements as to vast improvement over previous conditions. Mr. Sinclair and the Liberal their policy and nobody seems to know just where Mr. Sinclair stands. To one crowd he says: "Perhaps the government measure is all right," and then to another he says: "They can't line me up with the liquor control."

"Mr. Lethbridge says he is going to try for a plebiscite if it takes him years. Premier Ferguson says there is a law on the statute books and we are going to so interpret that law as to express the will of the people."

"What policy do you want?" asked the speaker. "Do you want Mr. Sinclair's policy of not knowing what he wants? Mr. Lethbridge's policy of a plebiscite or Premier Ferguson's policy of 'Here is the law; if you don't like it put us out.'" (Applause).

Referring to the programme of road expansion, Mr. McCrea said that it was proposed to spend millions of dollars in opening up the back country of Ontario, constructing rural roads in order that the farmers shall have the opportunity of bringing their products to the main arteries. Better transportation facilities throughout the north was the aim of the government, the minister declared.

"We have been laying main lines first," said Mr. McCrea. "Now for old and new Ontario we are going to begin the building of side roads and settlers' roads. It is a work of the utmost importance and must be carried out. At the next session that programme will be under way and this district will feel the pulse of this great project."

"We have in view other things for Ontario. There must be more mines, more expansion and more development. Up in Sudbury you see the great expansion that is going on. In Sudbury we have the greatest nickel mines in the world. In the last few years over \$20,000,000 have been spent for machinery and equipment. Seven thousand six hundred men are engaged in the industry. Now the time has come for development and exploitation of our mineral wealth. We have sent geologists to the Hudson and James bay districts. For many years we have known that there are great deposits of lignite coal at James bay. At the last session we proposed \$25,000 for diamond drilling. As a result there has been discovered between twenty and forty million tons of coal and I can safely say that we are on the eve of a gigantic development which will benefit not only the railroads and the industries but the people of Ontario as well."

Mr. McCrea drew a picture of a country possessing millions of tons of iron ore and importing every single ton from other countries. "There is not a single ton of local ore being used

Who is Your Skinny Friend, Ethel?

Tell him to take McCoy's Cod Liver Extract Tablets for a couple of months and get enough good healthy flesh on his bones to look like a real man.

Tell him, it's the only way to take those grave-like hollows from his cheeks and neck.

Tell him that thousands of thin, puny, peaked, scrawny men all over America have improved their physical health and appearance and bless the day they first heard of these wonderful sugar coated tablets so full of weight producing and health building essentials.

One woman put on 15 pounds in six weeks. Children grow robust and strong—feebly old people feel youngest in a few weeks.

Ask for McCoy's Cod Liver Extract Tablets, Molesley & Ball, F. M. Burke, Sauve Pharmacy and every druggist sells them—60 tablets—60 cents—economy size \$1.00. Almost any thin man or woman can put on five pounds of healthy flesh in 30 days or your money will be refunded.

in this province to-day," declared the cabinet minister, "but this situation will be remedied in the very near future."

"It was suggested that a bounty of one cent a unit would enable our iron ore to compete with the higher grade American ore until such time as the industry got on its own feet. With this purpose in view the dominion government would give the other half. This the federal government refused to do.

"But Premier Ferguson views his responsibilities in such a light that he has decided to shoulder the entire burden of the bounty and already many men of capital are becoming interested in the project to add to this wealth and prosperity of this already great province. We are going to give the people of this north country the right to happiness and wealth," said the speaker. "We are determined to make available cheap power for the development of industries. Hydro has been established at various points for future expansion."

"The old age pensions law, educational affairs and the aim of the government to promote the education of the children in the back regions, were touched upon by the speaker. He pointed to the government's record on reducing the burden of debt left by the heRl herighteudMr.-has.rfita p Drury government. He declared that while it was not his intention to find fault with the Drury regime, it was necessary to have men of business ability as well as high ideals, managing the affairs of the province. Back deficits were being gradually wiped out, he stated. There were surpluses in 1927 and 1928, and this year there would be an even greater surplus.

Summing up the record of the government, Mr. McCrea declared that improvement in the lot of the working man, both in the city and the back regions of the province, was the aim of the government which, he declared, had proved its vision and ability during its six years in office. "Labour circles, en masse, except the Ontario Labour party are behind us heart and soul," asserted Mr. McCrea. "They know that we have their interests at heart. The promises we make we keep."

DOMESTIC SCHOOL REPORT FOR THE MONTH OF SEPTEMBER

Standing of the Pupils in the Various Classes at the Dome School for the Month of September

The following is the Dome school report for the past month:—

Senior Fourth Class—M. J. Lynch, teacher—Bazel Doran, Sydney Thomas, Jenny Doran, Margaret Suttie, Billie Cartmick, Harry McLean, Joe Woods, Irvin Richardson, Helen Rickard.

Junior Fourth Class—Cory Costain, Joseph Mitchell, Roddy MacPhail, Erica Larkin, Annie MacPhail, Joe Baker, Catherine MacPhail, Dick Stone, Arnold McGinn.

Senior Third Class—M. E. Watson, teacher—Hattie Baker, Ruth Doran, Beatrice Spiers, Eva Baker, Frank Parsons, Ida Tanney, Vivian McCaffrey, Cervin Stevens, Elsie Armstrong.

Junior Third Class—Arthur Moyle, Marjorie Costain, Steve Ystianyk, Mary Shumilak, Joyce Hughes, Annie Cartmick, Donald Pecore, Betty Jordan.

Senior Second—A. M. Pace, teacher—Buddy Robertson, Jack Burke, Basil Libby, John Shumilak, Lloyd Doran, Louis Actis.

Junior Second—Harry Bonasuk, Jack Pecore, Mabel Tanney, Walter Baker, Audrey Bennett, Reggie Libby, Betty Mitchell, Mary Curtis, Bobbie Chevier, Patsy Uren, Bobbie Rickard, Jimmy Murphy, Kenneth Harvey.

Senior First—Reggie Butler, Marjorie Spiers, Elsie Parsons, Ralph Mitchell, Kathleen Pecore, June Philbin, Sloco Ustyanyk, Tony Procopio, Elizabeth Bonasuk, Doris Woods, Marion Jordan, Laura Millions, Kenneth Thomas, Billie Richardson, Stewart McGinn, Teressa Miner, Iris Webb.

Junior First—Mary Donyluk, Agnes Robertson, Jean Stringer, Violet Hedges, Billie Honor.

Meaford Mirror:—Small villages are places of real friendship. In Eugenia recently the blacksmith shop was burned down. Within a few hours a subscription list had been passed around and a fine sum realized by the villagers to help the blacksmith buy supplies and build a new shop. It was regarded as the right thing to do.

MEDALS FOR BRAVERY IN ABITIBI RIVER DISTRICT

Indian Chief and Another Man Awarded Royal Humane Society Medal for Brave Work North of Cochrane

Three North Land men have recently been awarded the bronze medal of the Royal Humane Society for the parts they played in rescuing others from drowning. The men so recognized by the board of investigating governors of the society are Albert LeClaire, of Espanola, who twice risked his life in Clear Lake, and Henry Bazelot and Sydney Archibald, who jointly rescued Mr. Belair, L. Roy and M. Potvin from drowning in the Abitibi river, far north of Cochrane. Archibald is an Indian chief.

Le Claire saved the life of Andrew Christie in Clear Lake, Espanola, on July 8, 1928, and this year he again played the hero's part in the same lake when he went to the rescue of John Mathie, who was successfully brought to safety. The board of governors of the Royal Humane Society met in Toronto on Monday afternoon, and Le Claire's brave deeds were given the official recognition of that organization.

Bazelot and Archibald were members of a party transporting materials down the Abitibi river to the scene of the recent lignite "finds." They were employed by Smith and Travers, diamond drillers, of Sudbury, and the supplies were for the operations undertaken for the Ontario Department of Mines. On the way down the flooded stream, one pointer was wrecked and four men were thrown into the river. One of the quartet was drowned, a second was picked up by the pointer ahead, and the others clung to the rock on which the pointer had come to grief.

Henri Bazelot, leader, and his helper, Sydney Archibald, after picking up the man in the water, went ashore, unloaded their pointer, tracked it up the current above the rock where these men were clinging and then manoeuvred their boat crosswise with the current until they were in position to coast down past the rock. The two men jumped into the printer as it was swept past them.

These two men saved three lives, the first one was rescued from the water while drifting down the river, and could not be classified as anything unusual. But in the manoeuvring of their pointer for the rescue of the

High-Grade Samples From Week's Run of the Press

Ottawa Journal—A Liberal candidate is to be run again Premier Ferguson. This is our idea of an optimist. New York Times—The worst of it is that the MacDonald Hoover meeting is going to conflict with the World's Series.

Ottawa Journal—A doctor claims to have discovered a cure for stupidity. We understand that after you pay \$1,000 for a treatment, you get wise.

Barrie Examiner—The treatment of school children for immunization against diphtheria, which is again being undertaken by the Board of Health, was attended with wonderful results last year. During the past twelve months there has not been in the town of Barrie a single case of diphtheria in a patient under twenty years of age. Parents should not neglect the opportunity to secure immunity from this dread disease for their children. Some 800 to 900 children were treated last year.

Other two men mancoed on the rock in midstream, skill and bravery of a very high order was shown

You Must Have Sugar

Sugar is one of the much needed elements in a balanced diet.

WRIGLEY'S chewing sweets supply sugar in a convenient way. The flavor is an extra delight.

Then too—you know you aren't adding weight. Sugar is a fuel that burns up needless fat.

THE TONE SO LIFE-LIKE

In the Antarctic with Commander Byrd

In the silence of the Antarctic... locked in the icy wastes close to the South Pole... Commander Byrd and his intrepid companions are yet only a split-second from civilization—via radio.

Regularly they enjoy the news and music of home—over a Kolster set.

In outfitting history's most scientifically organized Polar Expedition, Commander Byrd, after the most searching tests, selected complete Kolster Radio equipment.

For 21 years Kolster has blazed a trail of leadership in radio. First the Kolster Radio Compass—used on the great ocean liners of today. Then—Kolster Radio—the development of that same genius, Dr. Frederick A. Kolster.

Tens of thousands of people in Canada, Great Britain and the United States have—like Commander Byrd—selected Kolster Radio. Kolster research and high standard of quality, ensure the Kolster owner every modern radio advancement—as can be seen in Kolster's exclusive feature—the Selector Tuner.

You will agree that the New Kolster is "more than ever a fine set". Hear it. Convince yourself.

The New Kolster is available in four All-Electric Models priced from \$215 and up, least tubes There are two Battery models priced from \$60 and up, least tubes

Made in Canada by CANADIAN BRANDES LIMITED TORONTO CANADA

Quicker, easier tuning—only Kolster has it

With the Selector Tuner, "hunting" for a station is a thing of the past. You simply press a button—turn the dial till it stops automatically, perfectly tuned to your pre-selected station. The set can also be tuned independently of the Selector Tuner.
