# LIQUOR CONTROL BOARD ACTS TO END L.C.A. ABUSES

Amendments and Changes in Regulations to be Made in Reference to the Liquor Control Act in Ontario

Following quickly on the outcome of the provincial elections Attorney-General Price has announced material changes in regulations under which the Liquor Control Act is administered, and Sir Henry Drayton, chairman of the L. C. A. board, has followed up with orders to vendors and other employees where necessary. It is evident that Premier Ferguson and members of his cabinet had given seriouus thought to abuses which had arisen since government control was put in operation, and before the election had determined to make changes. In this respect, the premier has thus made good his election campaign undertakings.

Briefly summarized the proposed regulations are as follows:

The appointment of five or six supervisors to check stores throughout the province and report direct to the Liquor Control Board

A school for impressing control principles on all present vendors, permit censors and all new employees.

Issuance of temperance educational

Issuance of a special warning on drinking and driving with purchase.

Extra inspection in large city stores during the rush hours.

Instant dismissal of permit issuers giving one man two or more permits.

A check-up on wineries and a cancellation of their permits on proof of

sale to minors.

The Attorney-General also forecast an amendment to the Highway Traffic Act making a stiffer penalty for drunken driving and announced that he had written to all magistrates, bringing forcibly to their attention the severity of the penalties that can be inflicted now for this offence.

Salient among the proposals made by the government is one that, when effected, will make the liquor stores deposits for the issuance of temperance literature as well as for liquor. Hon. W. H. Price, is a letter to Sir Henry, says:

"When permits are being issued, and probably when liquors are being bought there should be available for distribution educational literature setting out warnings against excessive use of alcoholic liquors in favour of small purchases."

The letter continues: "In order that vendors and censors may be properly equipped to carry out the duties of holding down to a minimum the amount of liquor that permit holders receive from time to time, they should be brought into headquarters and given schooling and lectures on their responsibility. They should be told that dismissal awaits them if they cannot carry out their job in a manner that will remedy these abuses.

"When a vendor permits excessive purchase, he should be brought in and confronted with the permit and asked why it was allowed. Probably the first time, he should be given another chance, after that there should be instant dismissal. Vendors must understand that their duty is not to sell but to control; if they fail, then they must make way for someone who can.

"All employees taken on by the inspectors or others, should go through a course of instruction before they are put to work.

If they cannot go through these tests fairly, then they should not be employed. The board has done wonderful work along this line in getting its staff to be efficient from a business standpoint. An additional step must be taken to get them efficient from a control standpoint."

Control Act was the focal point of the attack on the Conservative government during the recent provincial election campaign. However, the government was returned to power. In answering the attacks, Premier G. Howard Ferguson said amendments to the Act were contemplated. The amendments would tighten up control of the Act, be said, and reduce drinking throughout the province. Many of the reforms mentioned by the Premier on campaign platforms are embodied in the changes just announced.—Toronto Telegram.

There are several cases of chickenpox in town these days.

Mr. and Mrs. Robert Duffield, of Brantford, Ont., were visitors to the town over the week-end.

### AH, INDEED!

Minister (treating small boy to soda): "Now what do you say, my little man?"

Small Boy: "A-a-a-h-h!"
Minister: "Is that the proper way to thank a person for a gift?"

Small Boy: "That's what dad says when Uncle Jim gives him a drink."
—Canadaink.

"Bill," the poet gasped to his friend,
"I wrote a poem about my little boy
and began the first verse with these
words:

"'My son, my pigmy counterpart.'"
"Yes, yes?"
The poet drew a newspaper from his

"Read," he blazed. "See what that compositor did to my opening line."

The friend read aloud: "My son, my pig, my counterpart."—Canadaink.
