

## More than Just Luck

Luck alone never kept anybody well, but looming large in the good health story of millions of people the world over, is the daily dash of ENO's "Fruit Salt" in a glass of water... Safe... dependable... non-habit-forming ENO. Refuse substitutes.

The words "Fruit Salt" and ENO are the registered trade marks of J. C. ENO Ltd.

## Timmins Juniors Win From Monteith in First Game Here

Monteith Students Played Good Hockey Here on Friday Night, but Not Good Enough for Local Juniors. Miners Win Second Match in Northern Junior Series and are Away to a Flying Start for the Season's Hockey.

In the opening game at Timmins rink and the second match in the Northern Ontario Hockey Association Junior series, northern group, the Timmins Juniors on Friday night added their second win for the season to their list, defeating the Monteith students to the score of 5 to 3. It was an interesting game and the Monteith boys played well, but not well enough to match the local boys. With two wins out of two games played in the series the Timmins lads feel they are away to a good start and hope to keep up the good work all through the season. The good combination of the Timmins lads and the persistent and consistent back-checking were the chief factors in giving the local boys the victory in this interesting match.

Timmins:—Hodnett, goal; Emard Krupka, defence; Catarrello, centre; Dorin and Michaelson, wings; McKinnon, Lafamme and Graboski, alternates.

Monteith Northern Academy:—Purdy, goal; C. Dunsmore and Porcheron, defence; K. Dunsmore, centre; J. Clark and Smith, wings; T. Clark, Roberge, and Kozlo, alternates.

Referee—Jamieson.

First period:—Play opened fast; end-to-end rushes were the order by both teams with the Miners having the better of the play and showing more combination and finish around the nets, which finally resulted in a goal by Lafamme on a pass from McKinnon. Period finished with no further scoring but with some great hockey by both teams. Timmins 1, Northern Academy 0.

Second period:—Period opened with Students coming on fast determined to tie it up but the Miners' defence was one too many for them, as every time they came down the ice they met five men who broke up their rushes and chased the puck carrier to the corners. The Miners' combination was beginning to take effect when Michaelson gave Purdy no chance on taking a pass from Dorin right in on the nets. Shortly after Krupka rushed with McKinnon and on a beautiful pass from McKinnon made the third one sure.

### Cold Coming On?

If so, use "Nostroline." It clears the head and stops mucous discharge. Isn't that what you want? Get "Nostroline" just as soon as you can reach, or phone order to—Timmins Drug Company, Goldfields Drug Store.

## T.&N.O. EXTENSION WILL HELP GET OUT IRON ORE

John Hammell, of the N.A.M.E. Co., Pleased at Announcement of Building of Railway Farther North of Cochrane.

John E. Hammell, president of the N. A. M. E. Co., and of other concerns specially interested in mining and prospecting expresses great pleasure in the recent announcement of Premier Ferguson that the extension of the T. & N. O. Railway would be pushed ahead this year toward James Bay. Mr. Hammell is quoted as saying that not only will the new line give access to the new lignite coal field and to new pulp areas, but it will also permit the supplying of the Dominion with hematite-iron ores from the Belcher Islands. Mr. Hammell is further quoted as suggesting that this new source of iron supply may do much to replace the importation of American iron ore to Canada.

For a number of years prospectors have made reference to the remarkable deposits of hematite iron ore on the Belcher Islands. It is at least ten years ago since John Jones, after a trip to the Belcher Islands returned to Timmins and expressed the greatest enthusiasm in regard to the possibilities of the iron deposits on the islands. He described the ore as of specially high grade and also emphasized the fact that the deposits were of great extent as well as remarkable richness. The matter of transportation, however, made the development of the Belcher Islands iron ore a matter of no immediate practical effect. There was at the time a suggestion that the ore might be taken south by boat to the east coast of Canada, but even those proposing this plan were not very enthusiastic about it, and the general opinion was that until there was some better form of transportation there would not be much use in attempting to develop the iron fields on Belcher Islands. In case the railway is extended to James Bay, however, the situation will be an altogether different one. With the railway reaching James Bay it will be practical to take the ore to the end of steel by the use of scows or similar methods, the balance of the journey to market being made by rail.

According to interviews published, Mr. Hammell is credited with saying that it is the intention of the N. A. M. E. to start shipments of iron ore to Europe this year. It is proposed to ship 2,000,000 tons of ore to Europe yearly. To ship over the new extension of the T. and N. O. would mean a 300-mile water haul to the east side of James Bay, where the terminus will likely be located.

If such an amount of iron ore is to be shipped over the T. and N. O. extension north of Cochrane, it may be safely said that the new extension will start out with a good nucleus of business.

## Local Boxers Warm Up in This Fight Business

There used to be some desperate battles fought by the old-time ring men in the newspapers. This locality appears to be threatened with a similar battle. Joe Thomas and Harry Dundas are the combatants and they appear to be warming up. A couple of weeks ago Joe Thomas issued a challenge to Harry Dundas for a boxing bout, practically on the latter's terms. Last week there was a reply in The Advance from Harry Dundas accepting the offer, with some conditions, one of these being that the bout should be in South Porcupine, instead of Timmins, and the total proceeds go to charity, with each of the contestants adding \$50.00 to the proceeds to make the event worth while. Now, the battle continues. Here is this week's reply from Joe Thomas:—

South Porcupine, Jan. 17th.  
Editor of The Advance,  
Timmins, Ontario.

Dear Sir:—In your issue of Jan. 9th, I notice an article of which the headline reads that the challenge for a boxing bout in the camp is accepted by Harry Dundas. My reply to Mr. Dundas is as follows:—In your reply to my challenge to an 8 or 10 round bout to be staged in Timmins at your convenience and giving you all the advantages of selecting your own promoter and referee for the affair, you change conditions and ask to have the bout in my home town. Now, nothing would please me more than to have the bout in South Porcupine, but you know as well as I do that there is no hall in South Porcupine that carries a license for fighting, also no hall suitable for the occasion. You also mention the proceeds are liable to be very small from such a match and charity would benefit very little. Why do you want to name a place for the bout where you know the proceeds will be very small and then on the other hand show your splendid spirit in giving to charity so generously. If you will give the editor of The Advance a list of all the bouts you have had with prominent boxers in the U.S.A., I am sure you will be a drawing card, and then there will be a lot to give to charity, so Timmins must be the place for us to meet in this bout. If that is agreeable to you, I will then make arrangements for date. Before you forget, send your cheque to the editor of The Advance. No doubt he will know where to place it. And don't keep charity waiting.

Yours truly,  
JOE THOMAS.

(Note:—If either or both of these gentlemen want to do any battling with cheques, The Advance does know where the money could be sent. Mrs. H. W. Darling is the convenor of the committee in charge of the campaign soon to be under way for the securing of funds

## TEAMS CLOSE TOGETHER IN FRATERNAL BOWLING

Who is Going to Win the First Half of League? The Holly Recs Head Moose A. by Only One Point Now.

With only two more matches to play in the first half of the Fraternal Bowling league the Holly Recs. still maintain a lead of one point. The Moose A. team is still a favourite with only one point behind. They have almost dashed the I.O.O.F.'s hopes of winning, having taken three points away from them in Monday night's bowling, although the I.O.O.F. team still have a chance with only five points behind the league leaders. The standing of the teams to date is as follows, there having been 24 games played by each:—

Team	W.	L.	Pts
Holly Recs.	16	8	21
Moose A.	13	11	20
I.O.O.F.	12	12	16
Y.P.L.	11	13	15
Moose B.	11	13	15
A.S.D.	9	15	9

In Monday night's game Holly Recs. Moose A. and Moose B. each won three points.

The honour roll for Monday night's bowling is as follows:—J. Griffiths, 765; W. McDougall, 735; E. Reid, 698; S. C. Platus, 637.

The following are the scores of the Monday's games:—

Team	W.	L.	Pts

Holly Recs. win 3 points.

## Officers Elected for All-Britain Social Club

At the general meeting of the All-Britain Social Club held in the Hollinger Recreation hall on Thursday evening, Jan. 9th, the following officers were elected for the ensuing year:—  
President—R. Webber.  
Vice-president—G. Jopson.  
Secretary-treasurer—W. J. Carroll.  
Ladies' committee—Mrs. Jopson, Mrs. Webber, Mrs. Carroll, Mrs. Wilkinson, Mrs. Creary, Mrs. Tomlinson.  
Gentlemen's committee—Mr. Creary, Mr. Jardine, Mr. Jenkins, Mr. W. Wilkinson.  
At the whist drive following the general meeting, the prize winners were:—ladies, first, Mrs. Creary; second, Miss Lowther; third, Mrs. Tomlinson. Gentlemen, first, Mr. Wilkinson; second, Mr. Creary; third, Mr. Jenkins.

The next All-Britain whist drive will be held in the Hollinger Recreation hall on Thursday, Jan. 23rd, at 8.30 p.m. Prizes will be of the usual high standard quality.

for the Children's Aid Society work in this district. The money would be safe, and would certainly be used for a worthy cause, irrespective of which man may win or whether they even fight or not.—Editor The Advance).

London (England) Public Opinion—Luck is something to which other people owe their success.

## BUREAU OF STATISTICS ISSUES BOOK ON CANADA

New Publication from Ottawa Gives Concise and Accurate Review of the Economic and General Situation in Canada.

"Canada 1930" is the title of a new publication just issued by the Dominion Bureau of Statistics, the nature and purpose of which are described in a foreword by the Honourable Mr. Malcolm, the Minister of Trade and Commerce. The need has been felt for some time for a concise and up-to-date annual review, comprehensive in scope and popular in form, of the current economic situation in Canada, which would serve as a precise and compendious of the more voluminous statistical publications already available.

The handbook has been prepared with special care looking to the above requirements. In an "Introduction" to the whole, a general survey of the year just passed is given, analysing its governing influences and the inter-relationship of the more important economic developments which it has witnessed. This is followed by nineteen brief chapters devoted in turn to the History and Institutions of the Dominion, its Natural Resources, the National Wealth and Income, Population, Agriculture, Forestry, Mining, Fisheries, Water-powers, Construction, Trade, Transportation, Finance, Labour Conditions, Education, etc. In each of these, up-to-the-minute information is presented, with a descriptive review of the more important past conditions out of which the present has developed. Statistical tables appear in the main in an Appendix which is divided into two parts, the first tracing the progress of the Dominion since 1900, and the second giving the more important economic barometers from month to month during the year just passed.

To quote from the Minister's foreword:—

"The handbook has two immediate practical objects: Outside of Canada it will present a balanced picture of Canadian conditions, with sufficient historical and descriptive background to render them intelligible and interesting in a broad way, at a time when Canada is much in the eye of the world as a field for new enterprise. In Canada itself, appearing as it does immediately after the New Year, and taking the basic form of a review and interpretation of the years just passed, it will assist in that general discussion and appraisal of the situation usual to the season of stocktaking, thus helping, it is hoped, to lay foundations for still further national progress in 1930."

The handbook is profusely illustrated with rotogravures and diagrams, and

white popular in form omits no crucial analyses of the existing situation. In brief it is a scientifically conceived but easily assimilable presentation of the data essential in the forming of a measured judgment as to current Canadian progress. A copy may be secured on application to the Dominion Bureau of Statistics.

Owing to the serious illness of their daughter, Evelyn, now Mrs. James Kitts, Mr. and Mrs. A. G. Carson were called to Matheson last week. Mr. and Mrs. Carson and daughter, Patsy, going down on Saturday morning, and Mrs. Carson remaining until Monday evening when Mrs. Kitts was so much improved that it was felt that all danger was passed and her early recovery assured.

Friends were pleased to see F. M. Burke back at his place in the store this week after his recent illness.

## "Let's Get Up a Newspaper Ad"

This is No. 3 of a series of ads depicting the various processes of advertising production. The dimension of the layout appeared in ad No. 2. No. 4 will appear in an early issue.

## "we'll need a PICTURE"

FOLLOWING the general idea of our layout, we must have a capable artist draw a sketch of our "Roseanne Dresses" as they actually appear on the wearer. For the best effect this sketch should be drawn from a living model. After we O.K. this drawing we must have an etching made.

Through our exclusive franchise for the Meyer Both General Newspaper Service we are able to eliminate these drawings and engravings from The Porcupine Advance advertiser's cost sheets by supplying a vast new selection of appropriate illustrations each month. We urge our advertisers to make unlimited use of this service at no additional cost.
