Table with columns for player names and scores for UNCLE OF A. W. LANG DIES.

Table with columns for player names and scores for OLD-TIMER OF THE NORTH.

Table with columns for player names and scores for HUNTS GAME IN AFRICA.

UNCLE OF A. W. LANG DIES AT ST. THOMAS RECENTLY
The Halleyburian last week says:—Col. Mac Lang, of Halleybury, and his brother, Mr. A. W. Lang, of Timmins, were called to St. Thomas last week to attend the funeral of their uncle, Mr. A. W. Graham, who passed away in that city on Wednesday morning.

OLD-TIMER OF THE NORTH HUNTS GAME IN AFRICA
The Northern Miner last week says: "Bill Alderson, who loaned two of his syllables to the naming of the Aldermac Mine, is having a great time hunting and shooting—not just hunting—big game in Africa. He writes his consulting engineer partner, Alan MacKay, that the party, which includes James Timmins, Jack Wright, of tennis fame, and the McMarrin Brothers, has already acquired ten lions, twenty buffalo, a few elephants and a lot of small game.

HUNTS GAME IN AFRICA (continued)
At last word by native runners from the front line they were preparing to go after really big meat, rhinos, as the concluding turn of the performance. One of the party, charged by a lion, dropped him at five feet range, while Bro. Alderson writes of a wounded buffalo that he dropped right at his feet. Two of the other hunters fired at close range, but the animal kept coming right on. He says that to make sure of a brain shot he held his fire. He probably also held his breath. Anyone who has romped through the Northern bush with Bill Alderson knows he's having a grand and glorious time and making the dark continent extra dark for its wild denizens. He never had to shoot a bull moose up North—once on its trail he ran the doomed animal ragged until it dropped dead of fatigue. Few men can keep up to Alderson in the bush—Homer Sutcliffe might. Anyway, Montreal dens and clubs are going to be well furred, rugged and headed about April next."

Haileybury Church Has Apparatus for the Deaf

In this age of invention and advance, everything seems possible, and there are few excuses left for anything left undone. If this sort of thing keeps on unchecked it will soon be that a man will not even have an excuse for staying home from church. An new invention, for instance, makes it so that deaf people can hear well despite their handicap.

The story is told by The Halleyburian in its last issue as follows:—"The installation of an acousticon for the benefit of several members of the congregation who are hard of hearing is a new departure for the Halleybury United Church and, so far as is known here, for any church in the North Country. While the apparatus is not entirely a new idea, having been invented some time ago and installed in some churches in Ontario, it is still a comparatively recent invention. It is claimed that it enables those who would otherwise be unable to follow the sermon to hear it quite plainly from their seats in the body of the church. The apparatus consists of a small microphone, which is placed at the front of the pulpit, and as many individual receivers as may be necessary for the accommodation of those who cannot hear clearly. Each receiver is connected with the microphone by wires and is held in the hand by the person who needs it. The words of the speaker are thus carried directly to the person whose hearing is affected. The installation was made in the church here a few weeks ago on trial, and after testing it out, it has been decided by the congregation to purchase it."

On account of the prevalence recently of smallpox in the district near North Bay, Dr. Dafoe, of Callander, the district medical health officer, has issued an order for the compulsory vaccination among the school children in the affected areas.

H. E. Blackwall, who is one of the court criers at Haileybury, has received word that an increase has been made in the fees allowed court criers. Under the new regulations, criers are to be allowed \$3 per day while in attendance at sittings of the courts, with 25 cents for each witness called. The former rates were, respectively, two dollars and 10 cents. No change has been made in the rates of pay for constables attending the courts, whose remuneration remains at \$2.50 per day.

SOME GOOD BOWLING IN THE FRATERNAL LEAGUE

Holly Recs and Moose A. Each Kalsomine Their Opponents on Monday Evening This Week.

There was some nice bowling in the Fraternal League this week. The Holly Recs team had a total pinfall of 3444 pins, smearing the kalsomine brush all over the I.O.O.F. The Moose A. team also whitewashed their opponents, the A.S.D. The Y.P.L. defaulted to the Moose B. team.

The following is the honour roll:—R. S. Webb, 750; A. Tomkinson, 746; L. Cohen, 709; A. Sauve, 688; J. Skelly, 688; H. Daher, 685; J. Roberts, 677; E. Dickson, 674; W. McDougall, 658; E. Reid, 657; W. Booth, 637; W. Tonkin, 620.

ABOUT THE NEW PLANS FOR WESTDOME LAKE GOLD MINES
The Mail and Empire on Saturday says:—"E. H. Walker, former president of United Mineral Lands Corporation, is laying before shareholders of the company plans which include a more aggressive mining policy. In this connection he has been in touch with various interests, especially those associated with the West Dome Lake Gold Mines, whose property immediately adjoins the Paymaster mine, a part of the United Mineral Lands. As a result of these efforts he has entered into a contract with the West Dome Lake interests for the purchase of their property, equipment, etc., and all assets of any kind in consideration of the payment of all indebtedness in full, amounting to approximately \$75,000, in addition to the taking care of all outstanding stock, on a basis whereby West Dome shareholders may exchange ten shares of old stock for one share of new stock without additional payment. A plan along somewhat similar lines will be laid before shareholders of United Mineral Lands Corporation. The West Dome Lake Gold Mines already has a record of gold bullion produced and sent to the Royal Mint of over \$1,000,000, which production is being added to by a further shipment of another gold bar within a few days. On the property production to date has come from practically one vein system, No. 3. It was only due to the lack of funds that more extensive mining work was not undertaken in the past. On the No. 3 vein ore has been mined from the surface to below the 1,050-foot level, with improvement in mineralization noted at depth. Another vein system, the No. 6, was only partially developed some years ago. In another shaft located over a quarter of a mile from the main shaft, there is said to exist over \$113,000 worth of gold, but which has not been available for milling because the old shaft had not been connected up with the main workings. M. W. Summerhayes, who made an exhaustive report on the property some time ago, stated that he believed the chances to be excellent for quickly opening up more ore, and it is his opinion that it will require not less than \$200,000 to put the mine on an operating basis. He further says in his report that by expending the money at the rate of \$18,000 a month it will allow for sinking on the West Dome ore shoot, No. 6 vein, with two machines, and using four machines in each shift on the 1,050 and 1,200-foot levels."

The next band concert will be held in the New Empire theatre after the church services on Sunday, Feb. 16th.

Tonight! Limber Up That Stiff Joint
Now you know what to do when pain tortures your joints and they are inflamed, swollen and stiff.
Here's a soothing, pain subduing emollient called Joint-Ease that is made right here in Canada and sold by every druggist in the Dominion.
Rub it on that stiff joint to-night—the one that causes you so much agony and loss of time—rub it in good and away it goes through the skin and flesh right down to the tendons and ligaments of the joints—right where all the trouble starts.
Joint-Ease limbers them up—that's what it's made for—it brings them back to normal—it penetrates and out comes the soreness—the pain ceases—the swelling is down—you're immensely pleased—a good job done and done swiftly. 60 cents a tube at druggists everywhere with a positive guarantee of satisfaction or money back.
Here's something more—put Joint-Ease to work on that poor, lame, aching back—all better by morning!
