MINING MEN MEETING IN TORONTO THIS WEEK-END

Two-Day Session To-day and To-morrow of the Canadian Institute of Mining and Metallurgy, at Royal York Hotel

The annual meeting of the Canadian Institute of Mining and Metallurgy, the great get-together event which has become highly important in the industry and which each year attracts greater gatherings, will be held in Toronto this week, Thursday and Friday, March 6 and 7.

Amongst the hundreds of visitors will be distinguished Canadian mining men and many representatives from allied industries. Famous engineers will, as usual, contribute to the proceedings of the Institute, which include the reading of papers of particular interest. This year the programme shows a wide range of subjects. Officials from the various provinces will present reports of the advance of mining in their areas during the year. Experts will announce the results of thoughtful studies in mining and metallurgy.

The Institute will be greeted by Premier G. H. Ferguson, on the occasion of the annual dinner. Hon. Charles McCrea, Provincial Minister of Mines, and Mayor Bert Wemp will be the principal speakers at the Institute luncheon on the first day.

Amongst the most important of the papers to be presented will be "Twelve Months' Milling at Noranda" by C. C. McLachlan; and the "Noranda Smelter" by W. B. Boggs. The great current interest in copper is recognized in the paper by Allan W. Bateman, "The Northern Rhodesia Copper Deposits." A contribution of great interest to the paper and pulp manufacturers will be that of "The Utilization of Pyrites and Acid Making," by H. Freeman. Mr. Freeman has been making some important studies of the possibilities of securing acid supply for Canadian paper plants from native sulphides, which are abundant. Ontario contributes "Lignite Deposits at Onakawana" the much-discussed coal discovery now in process of test under government supervision. W. S. Dyer, who is an authority on the Moose River Basin deposits will be the speaker. It may not be common knowledge that Ontario has a radium prospect in Wilberforce township, a paper on which will be read by H. S. Spence. D. C. Sinclair of the Department of Mines will present information on "The Mines Inspector and Mines Safety." Metallurgists have their innings on March 7 when J. J. Denny, one of the leading mill men of the industry will read "Gold Mining in Canada."

Dr. H. H. Cook, well known for his study of the Rouyn area, will present a paper on "Mineral Developments in Western Quebec." Ontario and Quebec are expected to show remarkable advances in production and there is great interest in the figures which will appear at the session. A. C. Young will speak for Ontario and S. J. Cook of the Dominion Bureau of Statistics will represent the Dominion. A. C. Dufresne, director of the Bureau of Mines of Quebec, H. P. Galloway of British Columbia, W. E. McMullen, of New Brunswick and J. P. Messervy will be other speakers.

The awards of the Barlow Memorial prize, Randolph Bruce Gold Medal, Leonard Gold Medal and of students prizes will be a feature of the business session which will also include a discussion of resolution adopted by the Manitoba Branch of the Institute to change the official headquarters from Montreal to Toronto.

PRESENTATION BIRTHDAY GIFTS AT KIWANIS CLUB

Amusing Special Feature at Weekly Luncheon This Week. Reg. Smith Speaker for Kiwanis Club Meeting on Monday of Next Week.

The regular luncheon of the Kiwanis Club was held on Monday in the grill room of the Empire hotel with President Karl Eyre in the chair.

Mr. Van Gene, of Toronto, was to have been the speaker for the day, but he was unfortunately called out of town on Sunday and could not be present. The members had a good work-out on some of the community and Kiwanis songs, and Kiwanian Rev. Bruce Millar was called on to present birthday gifts from the club to those members whose birthdays had occurred during January and February. His address to the recipients was very interesting, inasmuch as he pointed out some features of each man's character or disposition that reminded one of some outstanding figure in history, such as Ben Johnson, George Washington, James Watt, Charles Lamb, Robert Burns. The members to receive the gifts to-day were A. Wilson Lang, Arch. Gillies, Bob Dye, Chip Ball and Lee Honey.

Preliminary arrangements were made for an evening meeting on St. Patrick's Day, Monday, March 17th, and the committee in charge are out to make a record.

Reg Smith will be the speaker at the meeting next Monday, March 10th.

The membership has been divided into two teams for an attendance contest this month, and the team captains, Jack Walker and Chip Ball, are both confident that their side is going to win. It is some years since the Timmins club had an attendance contest and those who were in the last one will remember the live interest it created. From present prospects the

SKETCH OF THE PLAYERS IN PORCUPINE HOCKEY CLUB

Personnel of the Members of South Porcupine's Hockey Team, Winners of Intermediate Championship and the Gordon Trophy.

South Porcupine, March 1st, 1930. Special To The Advance.

The Porcupine Hockey team on Thursday evening last clinched their title as Intermediate Champions and have won the Gordon trophy given in this series under the N.O.H.A.

Below is a sketch of the various members of the team who played in the games for this cup:

E. J. Jamieson—Coach—First learned hockey in Flesherston, alias Girl-Town-on-the-Boyne. Moved from there to Owen Sound. In 1924 he took the Owen Sound Greys through for the Memorial Cup. Coming to South Porcupine in 1926 he was instrumental in reviving interest in the N.O.H.A., which had flagged considerably. In 1927 and 1928 he took the Porcupines to Toronto. Was with Halleybury last year and this year took up the coaching of Porcupine club when Dr. Lou Hudson found that his practice would not give him time to continue it.

Norman Cross—Captain Porcupine Hockey team—began his hockey career in Port Arthur. Played junior hockey with West End Port Arthur Club. Was with them when they went through to Toronto in 1926 for the semi-finals but were beaten by Owen Sound. Played senior hockey with Port Arthur in 1927 and with Port William in 1928. Came to Porcupine, 1929. Unselfishness is one of the best traits of his work on the ice. When the fans shout their favourite slogan "Come on, Red!" he usually aims to take a team-mate with him for the work around the nets.

James Fell is Porcupine's real "home-brew" lad, as he started his hockey at the Dome Mines. He played in the Mines League in 1926 and 1927, and also with the Porcupine Hockey Club in the N.O.H.A. in 1927-28 and 29. He was with the team the year they met London Battery in Toronto and again when they defeated Port Colborne but were left behind by Kitchener. Jim is a strong bulwark on the Porcupine defence and opened this season's playing by scoring the first goal.

Charles Jemmett started junior hockey in Timmins the first year of the N.O.H.A. viz. 1919. Later moved to Simcoe and played there; then with Woodstock College and Paris Intermediate. These are all strong teams and have figured prominently in the play-offs of the past few years. He has played with Porcupine Club in 1927-28, and 29 and is the man that puts the key in hockey, his engineering being responsible for much of the combination on the forward line where he is centre.

Oliver Proulx started his hockey with the Espanola Scouts in the juvenile league then with the juniors of that town and in 1921 with Espanola, Intermediate. Later he came to Timmins and in 1923 played with Timmins Juniors and also in the mines league hockey of the camp which was then flourishing. During the past two years he has been with Porcupine Hockey Club and has put speed a-plenty into the work of the right wing.

Aldrich Mulvihill—Started hockey in Arnprior. Played with Arnprior Juniors for two years, then with the Royal Bank of Montreal for a winter. Again came to Arnprior and played with seniors there in 1926, 1927 and 1928. Was with Arnprior when they got as far as Montreal in the struggle for the Allan Cup but were beaten by the Victorias of that city. Came to Porcupine 1929 and shoots them in from the left lane where fans familiarly hale him as "Ollie."

Gordon Spence began his hockey career in Halleybury. Played junior hockey there, in Timmins and in Toronto. Was on his battalion's hockey team when in training for overseas. When a hockey team from the Canadian forces was picked to give an exhibition game in London, England, Spence was one of those who played. He came from New Liskeard to South Porcupine and was on the Porcupine team that won the N.O.H.A. senior trophy in 1927 and 1928, his work around the nets being a feature of these games.

William Arundel started junior hockey in Timmins five years ago; then played with the Oshawa Juniors for two years. Was with that team when they got into the fourth round but were beaten by the Young Rangers of Toronto for the semi-finals. Has played centre for Porcupine Hockey Club during the past winter and fans have high hopes of what he may yet do.

Johnny Cook started his hockey in Mitchell, Ontario, and later played with Stratford; was with them when they won the Intermediate series in the O.H.A. Has been with Porcupine Hockey Club for three years. What Johnny lacks in avoirdupois he makes up in brain work on the ice. During the past winter he has also been the scoring ace on the Tommy Feldman team.

William Gagnon began his hockey as a junior in New Liskeard in 1921 and played there for some years. He was a resident of South Porcupine when the Mines League was organized in 1926 and played on the old open-air rink. He has been with Porcupine Hockey Club ever since, going down with that club to Toronto both years that it went to Toronto for the play-offs.

Harry A. Montgomery started hockey in Toronto with Perth Avenue Methodist Church Club; also played there in the Timmins and Central Church with Carleton Park Club, Adams Fur-one just started promises to be a hot session before the winning figures are known.

HIGHWAY THROUGH NORTH TO FRINGE OF HUDSON BAY

Hon. Wm. Finlayson Makes Some Prophecy Last Week at the Annual Meeting of the Ontario Good Roads Association.

Within a few years motorists from Toronto will be able to drive over smooth roads uninterruptedly all the way to the fringe of Hudson's Bay over the Ferguson Highway.

With this intimation, Hon. William Finlayson, provincial minister of lands and forests roused cheers from a monster gathering of nearly 1,700 persons who attended the annual banquet of the Ontario Good Roads Association at the Royal York Hotel last night.

Mr. Finlayson, who is also in charge of the department of northern development, dropped the prediction almost casually in the course of a brief address. He outlined the wealth of possibilities of Northern Ontario, discussed the progress in developing it and providing it with modern services, among which are already 14,000 miles of roadways.

He referred to the Ferguson highway already stretching to Cochrane with a branch almost completed westward to Hearst, Ont., and stressed the fact that the road "opened up a cross section of the wealth of Ontario through great forest, paper and mining areas."

"And in a few years," he added, "it will forge onward to Hudson's Bay completing a great ribbon of highway connecting Ontario with that body of water. No definite plans have been made but the government is keeping the project always in mind with a view to as early consummation as possible."

Mr. Finlayson concluded his address with a suggestion that the Ontario Good Roads Association organize a motorcade of several hundred cars to take members over the Ferguson highway and bring home to them the vast possibilities and natural wealth of Northern Ontario.

Grover C. Dillman, of the Michigan State Highway Commission declared that federal, state and provincial governments must be prepared for the construction of hundreds of miles of highways, 40 feet wide to care for the future needs of industrial and pleasure automobile traffic.

Premier Ferguson, who was a guest of honour at the banquet devoted himself largely to a warm tribute to E. W. Beatty, president of the Canadian Pacific Railway, who was the principal speaker at the gathering. He referred particularly to Mr. Beatty's realization that roads were integral and necessary parts of a complete system of transportation in any country, and especially in Canada.

"The next great thing to get is a transcontinental highway," observed the Prime Minister, "and it should be accomplished with the generous aid of the Federal Government."

Mayor Wemp and Hon. George S. Henry, minister of highways, also spoke.

Death of G. A. Bagshaw at Toronto Last Week

The Halleyburian last week says:—

"George Aaron Bagshaw, one of Halleybury's leading citizens, died in the Wellesley hospital, Toronto, yesterday evening after an illness of only a few weeks. Although he had been in poor health for some time, it was only a couple of weeks ago that he went to the city for treatment and it was thought he had a good chance for recovery. This week, however, news was received in town of the serious nature of his illness, and for the past two or three days friends and associates here had been anxiously awaiting reports. On Tuesday it was known definitely that there was no chance for him to recover, as reports stated that he had been unconscious for some hours and all hope had been abandoned. Mrs. Bagshaw and family were with him to the end. He was in his fiftieth year.

"Mr. Bagshaw came to Halleybury in the early days of the mining boom at Cobalt. For a number of years he was manager of the local branch of the Union Bank. For a few years he was in Eastern Canada in the bank's service, but returned to Halleybury in 1921. In 1924 he left the bank and established the firm of G. A. Bagshaw & Company Limited, and continued as president of that organization, dealing in stocks and bonds, and devoted considerable of his time and resources to the mining industry. He took a prominent part in all public affairs, was largely instrumental in the building of the community hotel here, and was the first president of the hotel company, remaining on the board of directors until his death.

"Mr. Bagshaw's work in the interests of Halleybury after the great fire in 1922 was an outstanding part of his active life and there are many people who owe their fresh start after the disaster to his aid. Every enterprise that was for the good of the town had his

Club, before joining the ranks of the Marlboro Juniors. Played alternate defence with Marlboros last year when his club went through for the Dominion championship. "Monty," as everyone in camp knows him, has usually played on the forward line in Porcupine Club this year but occasionally for the defence.

Leo Sarjeant played first with Arnprior Juniors; then later joined the senior hockey team at Arnprior. Was with Arnprior Seniors when they went through on the Allan Cup series as far as Montreal. Sarjeant has been the guardian of the Porcupine net during the past winter and his work there has been at all times admirable and at all times spectacular.

support and he will be sadly missed. He was prominent in Masonic circles and was among the earliest members of Halleybury Lodge, a member of Temiskaming Preceptory, and of the Shrine.

"Funeral arrangements had not been completed this morning, but it is known that he will be buried in Halleybury. The body will arrive here on the morning train tomorrow.

"To Mrs. Bagshaw and the family goes the sincere sympathy of every member of the community in their bereavement."
